

Allsteel®

Evo™

Intuitive Design, Maximum Comfort

Evo was designed to evolve with you. As Allsteel's most adaptable task chair family, it effortlessly integrates into any workspace, providing comfort and support that meets the demands of modern work environments. The latest generation of Evo takes innovation even further, offering new features that prioritize versatility, sustainability, and human-centered design.

Designed for Everyone, Everywhere

Movement is the constant in today's workplace. From dedicated workstations to conference and team spaces, chair adjustments must be accommodating for all users. Evo provides intuitive controls and weight-activated tension to ensure automatic longer-term comfort.

More Intuitive, More Supportive, More Human

Express yourself with a wider palette—now featuring 40 vibrant paint colors to match any space or personality.

Mesh

Quilted Knit

Upholstered

The intuitive controls and specially formulated and sculpted seat foam enable Evo to deliver comfort and versatility to even the most demanding workplaces. Evo's enhanced design offers support to a broader population, accommodating users up to 350 lbs, ensuring a comfortable and ergonomic experience for everyone. Make a lasting impact with a Carbon Neutral option, supporting efforts to improve forest management and promote environmental wellness in North America. Quilted Knit fabric moves with you, breathes with you, and adapts to your body, enhancing the human experience in every seat.

Open arms allow for multiple sitting postures and remain lateral when reclining for maximum support.

Accent stitching, available in nine colors, offers a way to make a design statement on upholstered task and conference models.

The contoured frame provides upright back support. Optional user-adjustable lumbar can be added at any time.

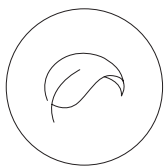

Integrated, up-front controls are easy to access and use and contribute to an overall clean aesthetic.

Evo accommodates users up to 350 lbs, ensuring ergonomic comfort for a broader population.

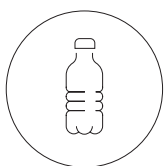

The Evolution of a More Mindful Chair

Adhesive-Free Back Assembly

Evo's back is manufactured without adhesives, preserving the integrity of the plastic during assembly. When it comes time to recycle the chair, the back can be easily disassembled and separated into correct recycling streams.

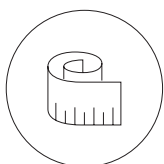

Quilted Knit Made with Upcycled Marine Litter

The Evo Quilted Knit material is fashioned from SEAQUAL® upcycled marine litter, making this seating as environmentally responsible as it is attractive.

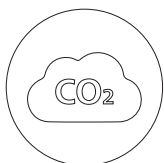

Third-Party Certified

Evo is SCS IAQ Indoor Gold and BIFMA® Level 3 certified.

Precision-Knit Back Tailored Perfectly for Evo

The Evo Quilted Knit material is manufactured through a zero-waste process and made to the exact specification of the back.

Carbon Neutral

Select Evo models are carbon neutral, utilizing offsets from forestation projects to remove carbon emissions associated with the product's life cycle.
