## Price & Specification Guide 2022

Prices effective May 13, 2022

PDF updated January 20, 2023

All content marked in red signifies an update to the last major version of this price guide, published on May 13, 2022.

# Limited Lifetime Warranty

Our unwavering commitment to our customers compels us to care, and our dedication to quality is just one of the ways we show our customers how much they mean to us.

We recognize that keeping up with the pace of change requires having products that work as hard as the people who use them. That's why each of our products is rigorously tested and certified to meet the highest industry standards.

In the unlikely event that any Allsteel product or component covered by the Allsteel Warranty should fail under normal workplace use because of defective material or workmanship, Allsteel promises to fix it. Because taking care of *people* is how Allsteel takes care of business.

For information on Allsteel's warranty coverage, visit [AllsteelOffice.com](http://AllsteelOffice.com).

- Software support packages furnished to the customer, either by Allsteel® or by another source, which support the sale of Allsteel products are superseded by printed price lists.
- Prices are subject to change without notice. All orders are subject to prices in effect at the time of order.
- Please refer to your Allsteel Dealer Sales and Discount Policies for order placement information, terms and conditions.
- Additional copies of this Specification and Price List are available upon request from Allsteel Literature at 1-866-255-7833.

- Ordering information appears at the bottom of each product page complete with examples on how to specify. Fabric and finish pages are referenced at the bottom of product pages.

This publication is available as an interactive or downloadable PDF at [www.allsteeloffice.com](http://www.allsteeloffice.com).

Model Description	Discontinuing Model	Recommended Replacement
Counter Stool	CBS-PGANO	CUBS-PGANO
Bar Stool	CCS-PGANO	CUCS-PGANO

## COM Program

Allsteel understands that customers may at times want to specify fabrics outside of Allsteel's standard fabric offering. Our COM program was designed to make specifying COMs on Allsteel products a simpler, friendlier, and hassle-free process. This process is simple and easy to use, and is described below under "Allsteel to Supply (ATS)." If a Dealer wishes to manage the COM process themselves, they can do so by following guidelines under "Dealer to Supply (DTS)". **ATS is the preferred method for all COM fabrics.** With ATS, Company will provide acknowledgment based upon planned date of receipt of COM fabric and manage the entire process. DTS is allowed if it is not a partnership fabric or if Company does not have access to the supplier. **DTS may cause order delays and is strongly discouraged.** Find out more about Allsteel's COM process by emailing our COM Department at [allsteelcomteam@allsteeloffice.com](mailto:allsteelcomteam@allsteeloffice.com).

### Allsteel to Supply (ATS):

1. Select the fabric you wish to use and check the COM Search on Synergy at: [Allsteelsynergy/Design Resources/Textiles & Finishes/COM Search](#) or [COM Search quick link](#). You will need to have the COM supplier's name, fabric pattern name, and color name to search for approved fabrics.
2. If your fabric is listed as an approved fabric, you may place your order directly with Allsteel Customer Support. Please use the fabric code (e.g., S216426XP) from the COM Test Request on your order in the place of the standard fabric code.  
  
If your fabric is not listed as approved, you will need to select the "Request COM Test" link on the COM Search website. If your fabric is not listed as approved, and it is not a Partnership fabric you may request a "Dealer to Supply" code. Select the "Request COM Test" link on the COM Search website. Your name, company name and email will be prepopulated fields. The secondary email, project name, and bid/contract number are optional information. The supplier, pattern, and color will show a list by clicking in the box and entering the first letter of the name and these are free form text boxes. Once that information is entered click add. (Multiple series can be added to the same request if they are the same supplier, pattern, and color.) Then click submit.
3. An email will be sent to the to the requestor stating the COM Request was successfully submitted. Up to four emails could be received: Testing materials requested, in testing, and final approval/denial with price grade and fabric code. It's rare actual test yardage is required. Testing is mainly done by reviewing the attributes of the fabric. The testing process takes approximately 48 hours. Written COM price quotes hold pricing for 90 days after issue date.
4. Once the fabric has been approved by Allsteel, enter your order directly with Allsteel Customer Support. Allsteel will purchase all COM fabric directly from the COM suppliers and schedule for production.

In the event that the Dealer decides to cancel a COM fabric order, the Dealer is responsible for the cost of the fabric plus a handling charge that is equal to 10% of the fabric cost.

### Dealer to Supply (DTS):

1. Select the fabric you wish to use and check the COM Search on Synergy at: [Allsteelsynergy/Design Resources/Textiles & Finishes/COM Search](#) or [COM Search quick link](#). Or call Allsteel Customer Support to see if the fabric you have chosen has already been tested and approved on the product you are interested in.  
  
You will need to have the COM supplier's name, fabric pattern name, and color name for this inquiry.
2. If your fabric is not listed as approved, and it is not a Partnership fabric you may request a "Dealer to Supply" code. Select the "Request COM Test" link on the COM Search website. Your name, company name and email will be prepopulated fields. The secondary email, project name, and bid/contract number are optional information. The supplier, pattern, and color will show a list by clicking in the box and entering the first letter of the name and these are free form text boxes. Once that information is entered click add. (Multiple series can be added to the same request if they are the same supplier, pattern, and color.) Then click submit.
3. An email will be sent to the to the requestor stating the COM Request was successfully submitted. Up to four emails could be received: Testing materials requested, in testing, and final approval/denial with price grade and fabric code. It's rare actual test yardage is required. Testing is mainly done by reviewing the attributes of the fabric. The testing process takes approximately 48 hours.
4. Make sure to use a "Dealer to Supply" COM code (e.g., S216426ZP) and place your order directly with Allsteel Customer Support.
5. All "Dealer to Supply" orders will be charged Grade 4 pricing for seating, Grade 4 for Social Collaborative, and Grade D pricing for panels. Dealers will pay for the COM fabric separately.
6. All "Dealer to Supply" fabric must be sent on a fabric roll. Estimate the yardage required by using the yardage requirements listed in the price list by model. For questions please contact Allsteel Customer Support.
7. Place your fabric order directly with the COM Supplier with instructions for the fabric to be sent on a fabric roll to:

#### HNI Textile Distribution Center

**COM Production Yardage** — PO Number  
Docks 20-22  
301 Mulberry Avenue  
Muscatine, IA 52761

Information that **MUST** be included in the packing slip attached to the DTS fabric:

1. Dealer’s Purchase Order number to Allsteel
2. Allsteel’s Tracking number for the COM fabric
3. Dealer Name
4. Yards of Fabric

If the fabric shipment does not match the correct fabric and yardage, Allsteel will notify the Dealer for resolution.

If Allsteel receives fabric with incorrect labeling or fabric yardage that cannot be linked to an Allsteel furniture order, Allsteel will hold the fabric for up to 4 weeks. After 4 weeks Allsteel will dispose of the fabric. There are no exceptions to this policy.

Specific to DTS orders - The customer should send only the amount needed for the order. Excess yardage, or yardage not attached to an order will be disposed of at Allsteel’s discretion.

Any canceled orders are subject to cancellation charges up to the full value of the Allsteel product canceled. Allsteel will determine the actual cancellation charge at the time the cancellation is requested.

8. For additional details on “Dealer to Supply” fabric refer to your Allsteel terms and conditions.

**Additional Policy Information:**

The company assumes no responsibility for the overall appearance, flammability, normal durability, colorfastness, or any other quality standards. The company reserves the right to reject a COM if the quality of the COM is not satisfactory for the product. Should this occur, the customer will be notified with an explanation when the issue is found.

The company is not responsible for fabric that has become obsolete at the COM supplier, that is of poor quality, or that is delivered late to the manufacturer from the COM supplier.

All cancellations or changes to COM orders are subject to Company approval. Because of the nature of COM, special fabrics, finishes, and structural modifications, products ordered as specials and then canceled prior to shipment are subject to cancellation costs up to the full value of the product canceled. The company determines the actual cancellation charge at the time the cancellation is requested. Upon approval, a cancellation number is issued to the Customer.

Purchase orders will not be accepted or entered unless the testing process is complete with positive results.

If all testing has been previously completed, re-testing is only necessary if fabric is to be used on a different product, or pattern direction has changed from that previously approved.

Previous test results can be obtained by a customer on the COM Search on Synergy or by calling Allsteel Customer Support.

All COM fabric will be applied to seating and panel systems Pattern Cut unless Railroad Cut is requested and approved on the COM Test Request. Any fabrics approved as a width pass, the dealer is responsible for clarifying Railroad Cut on orders containing items that are too large to support the Pattern Cut of a fabric application (any items larger than 48" high or wide).

**Fire Retardant**

The Dealer is responsible for ensuring that the COM fabric is certified to meet all flame retardant requirements.

*For more information, please contact Allsteel Customer Support.*

**YARDAGE REQUIREMENTS FOR FABRIC WITH REPEATS — FOR USE ON SOCIAL COLLABORATIVE PRODUCTS**

Fabric Width	Plain Fabric	2"– 14" Repeat	15"– 19" Repeat	20"– 27" Repeat	28"– 36" Repeat
54"	0	+15%	+20%	+25%	+30%
53"	+6%	+19%	+24%	+28%	+36%
52"	+13%	+23%	+28%	+33%	+38%
51"	+19%	+26%	+31%	+36%	+41%
50"	+25%	+30%	+35%	+40%	+45%
49"	+30%	+35%	+40%	+45%	+50%
48"	+35%	+40%	+45%	+50%	+55%
47"	+45%	+50%	+55%	+58%	+65%

Depending upon the pattern repeat, it may be necessary to pattern cut the fabric. This will require 10% additional fabric.

To calculate multiple repeats (vertical and horizontal), add each repeat for total yardage required. For example for a fabric width of 54": 7" vertical requires 15%, 15" horizontal requires 20% total additional yardage required equals 35% (15% + 20%). Therefore, if your chair requires 2 yards of fabric, multiply 2 by 35%. Then 2.7 yards will be yardage required.

# Everyday Advantage®

## New terms and conditions for EDA:

1. Orders must clearly state “Everyday Advantage Order” and include the appropriate Everyday Advantage contract number:
  - Everyday Advantage Std-0125, Everyday Advantage Canada-0127
2. Everyday Advantage orders are not eligible for bid pricing.
3. Program discounting includes the complete Optimize, Further, **and** Terrace systems lines, private office solution, Approach and Involve storage. This program also includes Acuity, Access, Evo, Inspire, Lyric, Mimeo, Nimble, Quip, Relate, Seek, and Svelte, seating. Altitude, Aware, and Structure tables are also available, along with Align pedestals, lockers and metal storage and Essentials pedestals, and Radii storage lines. In addition, Extensions ergonomic accessories and lighting are part of the standard offering. All other product not called out is available for order on the contract but will receive standard discounting of 55%–65%.
4. All textiles and finishes except for veneer and some wood finishes are available, depending on quantity and selection, and may have extended lead times.
5. Everyday Advantage orders are not limited to a minimum or maximum.
6. All orders ship based on standard lead times. Large-quantity orders of like products may be subject to longer lead times.
7. Standard freight terms apply.
8. If driver assistance is needed, standard driver assist charges will be added at time of order entry.

*Allsteel Inc. reserves the right to amend or terminate this program at anytime with 30 days written notice. Allsteel is not liable for service delays caused by force majeure (circumstances beyond Allsteel's control).*

Refer to pages 12-17 for current upholstery availability by model/series.

Multi-use fabrics are noted with the following designators: **B** – Tackboards, **C** – Concensys®, **O** – Optimize™, **T** – Terrace®, **F** – Further™.

\* Colorway not shown on Textiles card; all Partnership Program memo samples are available from supplier. See contact information below.

## ALLSTEEL PARTNERSHIP PROGRAM

Allsteel understands that customers may want to specify panel and seating textiles outside of Allsteel's standard offering. Allsteel's Partnership Program consists of on-trend and design-forward patterns that have been tested and approved by Allsteel for use on Allsteel products. A subset of these approved patterns is available on cards in the textile binder, while numerous others are available on our website, [allsteeloffice.com](http://allsteeloffice.com).

For memo samples, please contact our partners:

- Camira, [memos@camirafabrics.com](mailto:memos@camirafabrics.com) 1.616.288.0655
- CF Stinson, [cfstinson.com](http://cfstinson.com) 1.800.841.6279
- HBF Textiles, [hbftextiles.com](http://hbftextiles.com) 1.877.494.5727
- Maharam, [maharam.com](http://maharam.com) 1.800.645.3943
- Ultrafabrics, [ultrafabricsinc.com](http://ultrafabricsinc.com), 1.877.309.6648

The intent of the Partnership Program is to offer a wide variety of on-trend textiles to meet your varied needs, but since these textiles are not part of our standard offering they may be subject to extended lead times. Because new materials will be introduced regularly, Allsteel reserves the right to change the offering at any time.

Refer to pages 12-17 for current upholstery availability by model/series.

<sup>P</sup>Ped Only

<sup>S</sup>Seat Only

<sup>B</sup>Available only on Banquet

<sup>U</sup>Available on Upholstered Back

<sup>X</sup>Not available on Involve Banquet

◆ Partnership Program — See page 9 for details.

~ Available upholstery option only on select colorways.

◆ Available upholstery option

◆ Available upholstery option with CTB133 approval — requires FC suffix added to model (FC extra, \$ varies by series). Creases and gathers may be visible with CTB133 Fire Code seating due to the construction of the fire barrier material used.

• Allsteel fabrics and foam meet requirements for CTB117.

• Blank spaces indicate that a product has not yet been tested or that it failed.

• Contact Allsteel Customer Support for other flammability code approvals.

Measurements based on BIFMA G1-2013 guidelines. Many of the measurements are taken from the compressed seat (dotted horizontal line) and the tangent lumbar apex (dotted vertical line).

**ANSI** — (American National Standards Institute) ANSI is a private, non-profit organization (501(c)3) that administers and coordinates the U.S. voluntary standardization and conformity assessment system.

**Asynchronous** — High-performance seating control system with three levers to modify adjustments on the chair for a more customized fit:

- Angle of back relative to seat
- Tilt (free float or infinite locking)
- Forward tilt of seat

**ASTM Standards** — (American Society for Testing and Materials) is an international standards group that develops and publishes technical standards for many products, materials, and services.

**BIFMA** — (Business and Institutional Furniture Manufacturer's Association) Produces voluntary standards for manufacturers of office furnishings. These standards are intended to provide a common basis for the evaluation of safety, durability, dimensions, ergonomics, and the structural adequacy of the specified furniture.

**CAL TB117-2013** — Method used to test open flame resistance of components of upholstered furniture. This test is done with a lighted cigarette placed in crevices of mock-up components.

**CFC** — (Chlorofluorocarbons) CFCs are broken down by strong ultraviolet light in the stratosphere and release chlorine atoms that then deplete the ozone layer. CFCs are commonly used as refrigerants, solvents, and foam blowing agents.

**COL** — (Customer's Own Leather)

**COM** — (Customer's Own Material) See pages 6-7.

**CTB133** — California Technical Bulletin (California Dept. of Consumer Affairs Bureau of Home Furnishings and Thermal Insulation) Full-scale fire test for furniture manufactured for use in public buildings. Industry standard for full burn test.

**Ergonomic** — The coordination of the design of a product with the capacities and requirements of the user.

**HFES** — (Human Factors and Ergonomics Society) A membership-based organization whose mission is to promote the discovery and exchange of knowledge concerning the characteristics of human beings that are applicable to the design of systems and devices of all kinds.

**Knee Tilt** — A seating control that pivots about a point underneath the knee (towards the front of the seat) to reduce pressure on the back of the legs when reclining.

**Memory Foam** — Viscoelastic foam developed by NASA that retains the shape impressed upon it to reduce pressure points and distribute the load on the seat more evenly.

**NFPA261** — Method of test for determining resistance of mock-up upholstered furniture material assemblies to ignition by a smoldering cigarette. This test is done with a lighted cigarette placed in crevices of mock-up components.

**NFPA266** — Method of test for fire characteristics of upholstered furniture exposed to flaming ignition source. This is a full-scale test of mock up. Equivalent to CAL133

**Pneumatic** — Operated by compressed air in a tool or machine

**Powder Coat** — Dry paint electrostatically charged for better adhesion to parts and baked on for a durable finish.

**Recyclable** — Able to be reclaimed and re-used into another value-added product.

**Recycled** — Made from post-industrial or post-consumer waste products.

**Synchro-Tilt** — A seating control where the chair back reclines at a prescribed ratio in relation to seat angle. Allows user to recline while keeping seat cushion relatively level to the floor.

**Urethane** — Synthetic plastic; any of a group of thermoplastic polymers that are used in resins, coatings, insulation, adhesives, foams, and fibers.

**Weight-Activated** — A seating control that has the recline tension engineered into the chair so that the chair recline tension will automatically vary depending on the weight of the user reclining the chair.

**Wyzenbeck Testing** — Method of testing the abrasion resistance of a fabric utilizing a cotton duck or wire mesh that is rubbed, back and forth (a double rub), over the fabric.

Access offers a light scale aesthetic that complements today's working environments with a price that fits from the workstation to the conference room, and from private office to call centers. Access provides a sleek, modern design that strikes the most common ergonomic and aesthetic features that customers are seeking today within a flexible price range.

## POSTURE CONTROL SYSTEMS

Versatility of performance and the scalability of features provide a range of applications and adaptable comfort, allowing the user to easily adjust for a customized fit.

### Active Ergonomics With A Synchro-Tilt Mechanism

Synchro-tilt allows the back to recline at a 2-to-1 ratio relative to the seat. This motion opens the angle between the legs and torso, providing increased circulation. Tilt lock allows the user to secure the chair in the upright posture, or tilt freely. Synchro-tilt models feature side mounted adjustable tension, that modifies the level of resistance to allow the user a custom fit. Basic synchro models feature a center tension knob.

### Basic Synchro-Tilt Mechanism

An economical solution for individuals performing a variety of light tasks throughout the day, or for conferencing applications, where seat depth adjustment is not required.

The basic synchro-tilt allows the back to recline at a 2-to-1 ratio relative to the seat. This motion opens the angle between the legs and torso, providing increased circulation. Tilt lock allows the user to secure the chair in the upright posture, or tilt freely. Center mounted adjustable tension modifies the level of resistance to allow the user a custom fit.

## PROPORTIONAL CONTROLS

### Height Adjustable Lumbar Support

Allows user to adjust lumbar anywhere within a 4" range on mesh work chairs and mesh work stools. Lumbar support slides can be adjusted asynchronously to suit the individual user.

### Adjustable Back Height (Upholstered models only)

Upholstered models feature a standard height adjustment. Position the lumbar support in one of five positions within a 2½" range. Can be adjusted easily from a seated position.

### Pneumatic Seat Height Adjustment

Regulates height of the chair relative to the floor. Standard 4½" of travel on work chairs accommodates average to tall users. Work stools have an extended range that allows 10" of travel.

### Seat Depth Adjustment

Allows seat support to travel front-to-back and lock within a 3" range (mesh and upholstered work chair models). Seat depth adjustment not available on basic synchro models.

**Adjustable Arms**

Height and width adjustable arms will adjust 4" in height and 3" in width for optimal support of elbows and shoulders while keyboarding or conferencing.

Multi-adjustable arms offer 30 degrees of pivot inward and outward as well as up to 4½" of depth adjustment.

**Fixed C Arms**

Provide basic support for users engaging in a variety of tasks throughout the day. Fixed arms limit adjustability but provide consistent aesthetics in conference room settings.

Fixed C arms are available in a black urethane material or polished aluminum with protective black urethane arm pads.

**DESIGN FEATURES**

Access seating is engineered to support a variety of work and conference applications through its versatile performance and aesthetic options.

**Mesh Back**

A breathable mesh back offers a modern aesthetic along with an accentuated lumbar curve, provides superior comfort.

**Upholstered Back**

A fully upholstered back satisfies the discerning user, featuring an enhanced lumbar support and standard integrated height adjustment mechanism.

**Base/Casters**

Base is a composite five-star structure. Dual-wheel casters are available in hard tread for carpet, or soft tread for hard surfaces

**Materials**

- All upholstery foams are CFC-free
- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics and foam meet requirements for CAL TB117-2013. Contact Allsteel Customer Support for CTB133. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013. Allsteel must test a complete chair to supply a certificate of compliance with CTB133.
- Access meets the requirements set forth in ANSI/BIFMA X5.1-2011 and BIFMA G1-2013. Access is warranted for multiple shifts and users up to 300 lbs.
- Access synchro-tilt work chairs and work stools ship knocked down. Basic Synchro work chairs ship fully assembled.

**OPTIONS — ACCESS WORK/CONFERENCE AND STOOL****Back Types:**

- M** Mesh Back
- U** Upholstered Back

**Armrests:**

- H** Height and Width Adjustable (manual width adjustment)
- W** Pivot and Depth Adjustment (includes height and width adjustment)
- F** Fixed C-Arms (urethane)
- P** Fixed Polished Aluminum C-Arms (work chairs only)
- A** Armless

**Pneumatic Cylinder:**

- 2** Standard, allows 4.5" of travel for work chairs
- 4** Extended Range, allows 10" of travel for stools

**Casters:**

- 0** 2½" Dual-wheel Hard Tread for carpets
- 1** 2½" Dual-wheel Soft Tread for smooth surfaces (\$60 extra)

**Frame Color:**

- BLK** Black

**Base:**

- BLK** Black
- PAL** Polished Aluminum (add \$163) work chairs only

**Access Mesh:**

- AM10** Black (Access mesh is only available in Black)

**Upholstery:**

See pages 12-14 for selections. See pages 18-19 for colors and codes.

(See page 158 for COM pricing on Grades 9-22)

AM10 | .

*Acuity is a chair that enhances any environment, any body. Designed in collaboration with Bruce Fifield of Milan-based Design Continuum Italia, Acuity is designed with Italian sensibility and Allsteel ingenuity. Its design and ergonomics work seamlessly while the controls are intuitive. Acuity is elegant and pleasing to the eye, as anything inessential has been stripped away, leaving behind only a purity of form.*

*Acuity is level®2 certified and has achieved SCS Indoor Advantage™ Gold Certification. Acuity is designed and manufactured to have minimal impact on both the physical and social environment, made with no PVC components and has a recycled content of 28%-37%, depending on chair base selected.*

## KEY FEATURES

### AcuFit®

Acuity provides ideal ergonomics, instantly. We used the latest anthropometric databases, high-tech modeling, and intense observation to understand just what a body needs. You'll feel it the minute you sit – snug support and contoured cushioning that conforms to your body and stays with you throughout the day. No matter what size you are or how you work, Acuity adapts, automatically.

### Weight-activated mechanism

A ground-breaking, weight-activated mechanism built into the chair's structure does two things critical to effective ergonomics: automatically adjusts recline tension in response to the user's weight; and, keeps the seat and back moving smoothly together during recline, thereby maintaining perfect balance, body angle, and focus.

### Hybrid seat cushion

A unique combination of materials provides properties critical to comfort. A molded foam base with additional memory foam offers softness when you first sit along with greater support over time. This translates into instant comfort, the elimination of pressure points, and a healthy sitting experience over every hour of the day.

### Conforming mesh back

Form creates function with a back designed to provide ideal ergonomics for bodies of every shape and size. The mesh carrier mirrors the shape of the human spine, offering snug support to the shoulders, lumbar area, and everywhere in between, simultaneously and continuously. In addition, the structure and materials of the yoke have inherent dynamic properties that promote healthy posture by allowing just the right amount of flex and body movement.

## Intuitive Controls

Fine-tuning the fit is critical to optimizing ergonomics and improving personal comfort. Acuity's controls are well-marked, easy-to-find tabs, located along the sides of the seat so they're simple to see, use, and understand. Now you'll never have to get out of your seat or fuss with paddles and knobs to adjust your chair.

## Materials and Finishes

Acuity has been designed to complement any interior design, any organizational aesthetic. Purity of form, sensual lines, and a slender profile let it make a supportive statement to every environment, every body. Choose from several classic colors for chassis, base, caster, mesh carrier, and mesh and a wide variety of standard and partnership upholstery options.

## Optional Upholstered Jacket

Dress for success with a slip on jacket that offers premium appeal in conference areas, private offices, or the boardroom. Elegantly tailored with a simple snap closure and seven stitches per inch, architects and interior designers can choose from jackets in hundreds of approved colors. Remove the jacket and you're back to mesh for everyday flexibility, anywhere in the office.

## Casters

Black dual-wheel hard tread casters for carpet are standard.

Optional multi-surface casters provide smooth functioning on any surface, from a carpeted conference room to polished concrete. Finishes that match bases in standard black, graphite, or polished aluminum give Acuity head-to-toe elegance.

## Fully Adjustable Arms

Intuitive controls let you find any of the eight arm positions. A single lever releases the arms to slide up or down; a button right where the thumb naturally lands lets you move the arm pad inward or outward, forward or backward. You can also pivot the front of the arm pads inward to move in closer to your desk and offer support while working.

## Fixed Arms

Provide basic support for people who face a varied work day. Fixed arms limit adjustability and maintain aesthetics in conference room settings. Acuity's Fixed T Arms are 100% cast aluminum.

## Materials

- All upholstery foams are CFC-free.
- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering information.
- Flammability code compliance of Allsteel textiles and seating is listed on pages 18-19. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013. Allsteel must test a complete chair to supply a certificate with CTB 133.

Acuity meets the requirements set forth in ANSI/BIFMA X5.1-2011 and BIFMA G1-2013. Acuity is warranted for multiple shifts and users up to 300 lbs.

## OPTIONS — ACUITY:

### Armrests:

- W** Fully Adjustable Arms
- F** Fixed Arms
- A** Armless

### Jacket:

- L** Leather
- F** Fabric
- M** (None)

### Chassis:

- G** Graphite Chassis
- S** Silver Chassis
- W** Brilliant White (limited to Titanium frames)
- P** Polished Aluminum Chassis

### Back Frame/Mesh:

- GC** Graphite Carrier/Clay Mesh
- GD** Graphite Carrier/Dusk Mesh
- GM** Graphite Carrier/Mist Mesh
- TL** Titanium Carrier/Lustre Mesh
- TM** Titanium Carrier/Mist Mesh
- TN** Titanium Carrier/Navy Mesh

### Fire Code:

- NO** Standard Upholstery, No Fire Code
- FC** Fire Code Option for CTB 133 / Boston Fire Code / NY/NJ Port Authority (\$100 extra)

### Base:

- P71** Black Polymer Base
- P85** Graphite Painted Aluminum Base (\$143 extra)
- PR6** Silver Painted Aluminum Base (\$143 extra)
- PQ8** Brilliant White Painted Aluminum Base (\$143 extra)
- PAL** Polished Aluminum Base (\$213 extra)

### Pneumatic Cylinder:

- 2** Standard; allows 5" of travel
- 3** Short; non-standard 3½" of travel to meet BIFMA G1-2002

### Casters:

- H** Black Dual-Wheel Hard Tread for carpet
- B** Black Multi-Surface (\$96 extra)
- T** Titanium Multi-Surface (\$96 extra)
- P** Polished Aluminum Multi-Surface (\$130 extra)

### Upholstery:

See pages 56-57 for Centurion model.

See pages 12-14 for other upholstery selections.

See pages 18-19 for colors and codes

▲ Indicates upholstery available for Acuity jacket

Armpads (upholstered option available on Leather models)

- S** Standard Polyurethane Armpad
- A** Upholstered Armpad — Standard Leather, only available on fully adjustable arms (\$95 extra)

Jacket — Upholstery on Acuity jacket models are subject to creases and gathers. Fabric selection includes a subset of the Standard Upholstery Options to optimize customer satisfaction.

**NOTE:** Not all options listed above are available on all models. See pages 56-57 for options by model.

# Seating — Work

- Features and adjustments on all Acuity models: Conforming Mesh Back, AcuFit® Tilt Lock with Recline Tension, Seat Depth, and Pneumatic Adjustment

GSA SIN 33721

Acuity side chairs provide an ideal solution for busy work areas such as training rooms, gathering areas, informal conferencing, cafés, and more. With a stackable design and pivoting back, Acuity side chairs provide the perfect combination of versatility and unexpected comfort.

## MODELS AND OPTIONS

Acuity offers side chair models with mesh backs in two frame colors.

Side chairs feature **arm and armless models** with casters or glides.

**Glides** are available in nylon, nickel-plated, or felt options. Nylon glides are recommended for hard surfaces, commercial carpet, and damp environments. Nickel-plated glides are recommended for carpet. Felt glides are recommended for wood, tile, or high-shine floor surfaces.

**Multi-surface casters** are also available.

**Chairs ship up to two per carton to minimize waste.**

## CONSTRUCTION

**Steel frames and structural moldings** create a durable design that performs in a variety of environments.

**Seat upholstery** is easily field replaceable allowing users to extend the lifecycle of the chairs.

Multi-purpose side chairs **stack up to 4-high** on the floor.

Acuity mesh chairs feature Acuity Mesh. This construction provides responsive, conforming back support and an open, airy aesthetic.

**ACM-MUGO — Mesh Back and Upholstered Seat**

**ACM-MUCA — Mesh Back and Upholstered Seat**

**UPHOLSTERY AND CONTOURING**

Acuity side chairs feature a pivoting back that provides unexpected comfort in any application. The **pivoting back** provides support while encouraging movement that makes for healthy sitting. The **backrest** features a contoured lumbar support to help relieve stress on the back. Added movement and support allow the Acuity multi-purpose side chair to go from project conference rooms to teaming areas to training rooms with ease.

The upholstered seat features a generous 2" of high-resiliency molded foam padding for comfort and long-term support.

All upholstery foams are **CFC-free**.

All **COMs/COLs** must be approved for upholsterability or applicable fire code compliance prior to order entry. See COM ordering instructions on pages 6-7.

**Flammability** code compliance of Allsteel textiles and seating is listed on pages 12-14. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013. Allsteel must test a complete chair to supply a certificate of compliance with CTB133, contact Allsteel Customer Support.

Acuity meets the requirements set forth in ANSI/BIFMA X5.1-2011. Acuity side chairs are warranted for users up to 300 lbs.

**OPTIONS — ACUITY MULTI-PURPOSE SIDE:**

Versions include arm and armless models with glides or casters with an upholstered seat and mesh back.

Back Type:

**M** Mesh

Seat Type:

**U** Upholstered

Frame Type:

**C** Casters

**G** Glides

Arm Option:

**O** Arms (Arm color will match carrier color — black or titanium)

**A** Armless

Glides/Casters:

**0** Nylon Glides for hard surfaces and commercial carpet

**1** Nickel-plated Glides for carpet (\$16 extra)

**2** Felt Glides for wood, tile, or high-sheen surfaces. (\$16 extra)

**3** Multi-surface Casters

Frame Color:

**P85** Graphite

**PR6** Silver

**P8X** Solar Black

**P8T** Titanium

Carrier/Mesh Color:

**BC** Charblack Carrier/Clay Mesh

**BD** Charblack Carrier/Dusk Mesh

**BM** Charblack Carrier/Mist Mesh

**TL** Titanium Carrier/Lustre Mesh

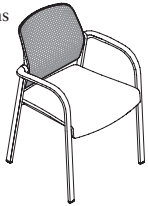

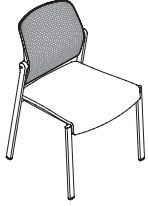

**TM** Titanium Carrier/Mist Mesh

**TN** Titanium Carrier/Navy Mesh

Select the Upholstery:

See pages 12-14 for selections and see pages 18-19 for colors and codes.

(See page 159 for COM pricing on Grades 9-22)

NOTE: Acuity side chairs ship two per carton to minimize waste. Model numbers and prices are per chair.

*Clarity offers a clean, simple design that preserves only the essential elements of form and function. Designed in collaboration with BMW Group DesignworksUSA, Clarity combines a pure, honest aesthetic that transcends the floor plan with an unexpected comfort that anticipates your every posture.*

### Form

The streamlined design creates a unique visual interest that inspires your imagination without distracting your focus. Clarity's frame and base are constructed of aluminum, offering superior quality and durability. Choose from several chair styles, nine mesh colors, and a variety of frame finishes to complement spaces from formal to casual. Wherever you work, it goes.

### Function

The continuous mesh seat and back offer instant comfort and support with minimal adjustment. You can sit upright. Side sit. Turn around. Or lean over the back. With no fussing and less fine-tuning. Anywhere you go, and any way you sit, it works.

### Versatility

Because form and function are simplified, Clarity adapts to any space you're in, as well as any type of work you're doing. From focused heads-down work to engaged collaboration to active lounging. It's always a reflection of the space it's in and the people who use it.

C50MFC

C40MFC

CLOMFC

## DESIGN FEATURES

Clarity seating is engineered to support a variety of work, conference, and lounge applications that share a simple, intuitive, and active design.

### Fixed Arms

Provide basic support for users engaging in a variety of tasks throughout the day. Arms come with protective urethane arm pads. Fixed arms limit adjustability but provide consistent aesthetics in conference room settings.

### Arm Covers

Optional soft arm pad sleeves are available as a set, one left and one right. Pad sleeves slip over existing arms on a Clarity work, guest, or lounge chair. Sleeves are made of 1/8" thick santoprene and are available in G Graphite or T Titanium.

### Pneumatic Seat Height Adjustment

Regulates height of work chair relative to the floor. Standard 5" of travel accommodates average to tall users.

### Base/Casters/Glides

Work chair bases are a five-star design, C5 models are aluminum and polymer base work models are composite. Dual-wheel casters are available in hard tread for carpet, or multi-surface for any floor surface.

Glides on guest and lounge chairs provide stability as user changes position. Cylinders return chairs to center position.

### Materials

- All models meet CAL133.
- All COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics meet requirements for CAL TB117-2013. Contact Allsteel Customer Support for CTB133. COM/ COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013. Allsteel must test a complete chair to supply a certificate of compliance with CTB133.
- Clarity is warranted for multiple shifts and users up to 300 lbs.

---	---

People are moving around the workspace to get work done, and the conference room or shared bench is the home away from home. The Evo collection is adaptable and interchangeable across multiple spaces to provide consistent comfort while maintaining a cohesive design.

## KEY FEATURES

Evo chairs feature weight-activated recline so there's no additional tension adjustment. Intuitive controls, along with specially sculpted and formulated seat foam, create a comfortable sitting experience for wherever and however people work.

### Arms

Open arms allow for multiple sitting postures and remain lateral when reclining for maximum support. Options for work and conference models: 4D adjustable arms, height-adjustable arms, fixed polished aluminum arms, or armless.

### Accent stitching

Accent stitching, available in nine colors, offers a way to make a design statement on work and conference models.

### Back support

Contoured frame provides upright back support. Optional user-adjustable lumbar can be added at any time.

### Up-front controls

Integrated, up-front controls are easy to access and use and contribute to an overall clean aesthetic.

### Height-Adjustable Footring

Travels 8" to ensure users have comfortable support of their feet and legs. The footring has a 20" diameter.

## MATERIALS

All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.

Allsteel fabrics meet requirements for CTB117. Contact Allsteel Customer Support for CTB133. COM/COL manufacturers

supply certificates of compliance for fabric-only tests such as CTB117. Allsteel must test a complete chair to supply a certificate of compliance with CTB133.

Evo meets the requirements set forth in ANSI/BIFMA X5.1-2011 and BIFMA G1-2013. Evo is warranted for multiple shifts and users up to 300 lbs.

Evo Side Chair is warranted for users up to 300 lbs.

### 4D adjustable arms

Evo's 4D arms are fully adjustable in height, width, depth, and can pivot to provide optimal support. Pivot the front of the arm pads inward to move in closer to your desk and offer support while working.

### Height-adjustable arms

Provides height adjustments for optimal support of elbows and shoulders while keyboarding or conferencing while providing ease of entry/exit.

### Fixed polished aluminum arms

Provide basic support for users engaging in a variety of tasks throughout the day. Arms come with protective black, flint, titanium or salt urethane arm pads to match the specified frame finish. Fixed arms limit adjustability but provide consistent aesthetics in conference room settings.

### Optional adjustable lumbar support

To accommodate personal preference, an optional external lumbar support can be added at any time with 4" range of adjustment.

### Base and casters

Work chair bases are a five-star design. Dual-wheel casters are available in hard tread for carpet, or multi-surface for any floor surface.

**SIDE CHAIR MODELS AND OPTIONS**

Evo offers side chair models in four frame colors with mesh backs in five colors. Side chairs feature arms with casters or glides. Glides are available in nylon, nickel-plated, or felt options. Nylon glides are recommended for hard surfaces, commercial carpet, and damp environments. Nickel-plated glides are recommended for carpet. Felt glides are recommended for wood, tile, or high-sheen floor surfaces. Multi-surface casters are also available. Chairs ship up to three per carton to minimize waste. Evo Side chair can be stacked up to four high.

**OPTIONS — WORK/CONFERENCE/STOOL**

Chair Type:

- DWW** Work
- DWC** Conference
- DWS** Stool

Back Type:

- M** Mesh (Work/Stool)
- U** Upholstered (Conference)

Overall Size:

- H** High-Back (Work/Stool)
- M** Mid-Back (Conference)

Arms:

- W** 4D Adjustable Arms
- H** Height Adjustable Arms
- F** Fixed Polished Aluminum Arms
- A** No Arms

Fire Code:

- NO** No Fire Code

Frame Color (Work/Conference/Stool):

- BLK** Black
- E9** Flint (add \$80)
- ST** Salt (add \$80)
- TI** Titanium (add \$40)

Mesh Color (Work, Stool, Side):

- C** Clay            **M** Mist
- D** Dusk            **N** Navy
- L** Lustre

Lumbar (Work, Stool):

- L** Yes (\$50 extra)    **N** No

Cylinder:

- 2** Standard, allows 5" of Travel
- 3** Short, allows 2½" of Travel
- 4** Stool, allows 10" of Travel

Base Color:

- BLK** Black
- E9** Flint
- ST** Salt
- TI** Titanium
- PAL** Polished Aluminum (\$145 extra)

Casters:

- H** Black Hard Tread
- B** Black Multi-Surface (\$60 extra)
- E9** Flint Multi-Surface (\$60 extra)
- ST** Salt Multi-Surface (\$60 extra)
- T** Titanium Multi-Surface (\$60 extra)
- PAL** Polished Aluminum Multi-Surface (\$130 extra)

Upholstery:

See pages 12-14 for selections, colors, and codes.

Accent Stitching:

Accent stitching for seat (\$31 extra) and for Conference back (\$77 extra). See thread color/code options on page 69. Variance in accent stitch consistency in linearity should be expected based on material specifications.

Pad Color for Lumbar is **TGR** Translucent Graphite.**OPTIONS — SIDE CHAIR**

EVO

*Inspire is designed to support a multitude of higher education environments. In Allsteel's second collaboration with Bruce Fifield of Milan-based Design Continuum Italia, Inspire responds to the specific needs of today's dynamic learning environments. Incorporating automatic comfort technologies, students can now stay comfortable longer promoting active, engaged learning.*

*Inspire has achieved SCS Indoor Advantage Gold Certification and level® 2 certification. Inspire is designed and manufactured to have minimal impact on both the physical and social environment, made with no PVC components, and ranges in percent recyclable from 59% to 98%.*

## KEY FEATURES

### TriFit™ Comfort Technologies

Inspire encourages interaction and involvement through unrestricted freedom of movement. The TriFit technology incorporates seat suspension, back recline, and seat flexure in a non-mechanical system that allows users to move freely and learn comfortably.

### Breadth of Line

Today's learning environments are extending beyond the classroom. Spaces are needed that invite interaction and support collaboration. With Inspire's broad statement of line, versatile spaces are created not only in classrooms, but also in active learning environments – cafés, libraries, labs, and team project rooms – throughout campus.

### Lasting Performance

Higher education environments mandate lasting performance. With Inspire's 4-sided welded steel frame construction, it creates a durable design that withstands active environments. The back recline and seat movement technologies are robust and non-mechanical to provide long-lasting, quiet use.

## MODELS AND OPTIONS

Inspire models are available with arms or armless. Arm models feature two arm cap options: non-flexible for high-use environments and flexible for enhanced comfort.

Seat and back upholstery options are available on all models. Upholstery can be field-installed and is field-replaceable.

## MATERIALS AND FINISHES

Polymer shells are offered in eight energizing colors and are made from recyclable material.

Trisect seating upholstery provides a high performance, sustainable fabric option to complement the eight polymer shell colors. This EIP antimony-free fabric incorporates Greenshield finish. Additional upholstery options also available.

- All upholstery foams are CFC-free.
- All COMs/COLs must be approved for upholsterability and applicable fire code compliance prior to order entry. See COM ordering instructions on pages 6-7.
- Allsteel fabrics and foam meet requirements for CAL TB117-2013. Contact Allsteel Customer Support for CTB133. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013. Allsteel must test a complete chair to supply a certificate of compliance with CTB133.
- Flammability code compliance of Allsteel textiles and seating is listed on pages 12-14. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013.
- Allsteel must test a complete chair to supply a certificate of compliance with CTB133.

Inspire meets the requirements set forth in ANSI/BIFMA X5.1-2017. Inspire is warranted for multiple shifts and users up to 300 pounds. Inspire four-leg stack and sled base chairs ship two per carton. All other models ship one per carton. Work chairs and work stools ship fully assembled. Model numbers and pricing are per chair.

**4-Leg Multi-Purpose**

4-Leg Multi-Purpose chairs can stack five high.

Glides are available in nylon, nickel-plated steel, or nylon with felt options. Nylon glides are recommended for hard surfaces, commercial carpet, and damp environments. Nickel-plated steel glides are recommended for carpet. Nylon with felt glides are recommended for wood, tile, or high-sheen floor surfaces.

Multi-surface casters are also available.

Upholstery

See pages 12-14 for selections and pages 18-19 for color codes.

**4-Leg Tablet Arm**

4-Leg Tablet Arm chairs can stack three high.

Tablets are field-installed to the chairs.

Tablet material consists of 3/4" thick 11-ply laminated Baltic Birch plywood.

Flip-and-fold tablet option provides 6 degrees of lateral rotation in the use position to accommodate a wider range of user types. It also flips up 90 degrees and rotates back 180 degrees to store when a tablet is not needed.

Glides are available in nylon, nickel-plated steel, or nylon with felt options. Nylon glides are recommended for hard surfaces, commercial carpet, and damp environments.

Nickel-plated glides are recommended for carpet. Felt glides are recommended for wood, tile, or high-shine floor surfaces.

Multi-surface casters are also available.

**NOTE:** Models with the fire code option are available in Black/Onyx polymer shell only.

Upholstery

See pages 12-14 for selections and pages 18-19 for color codes.

**MULTI-PURPOSE WORK STOOL**

**Base/Casters**

Base is a black colored composite five-star structure. Dual-wheel casters feature hard tread for carpeted floors or soft tread for smooth floors.

**Height-Adjustable Footring**

Travels 8" to ensure users have comfortable support of their feet and legs. The footring has a 20" diameter.

**Pneumatic Seat Height Adjustment**

Regulates height of stool relative to the floor.

Includes extended-range height pneumatic cylinder with 10" of vertical travel.

**OPTIONS — MULTI-PURPOSE WORK STOOL**

Upholstery Option:

- N** None (Polymer seat and back)
- S** Upholstered Seat Pad
- U** Upholstered Seat and Back Pad

Armrests:

- O** Fixed Arms
- A** Armless

Fire Code:

- NO** Standard Upholstery, No Fire Code
- FC** Fire Code Option for CTB 133 / Boston Fire Code / NY/NJ Port Authority (\$100 extra) *See note below.*

Pneumatic Cylinder:

- 4** Extended Range Cylinder; allows 10" of travel

Type Casters:

- 0** 2½" Black Dual-wheel Hard Tread for Carpet
- 1** 2½" Black Dual-wheel Soft Tread for Smooth Surfaces
- 2** Glides

Arm Cap:

- N** No Arm
- H** Non-Flexible
- F** Flexible (\$20 extra)

Frame Finish with Charblack base:

<b>Attention</b>	Particles can become lodged in nylon and mar floor surface.	Particles can become lodged in felt and mar floor surface.	Cleaning chemicals and water can cause rusting.	Resists moving/sliding. Could lead to chairs tipping back.

## Inspire Room Typicals

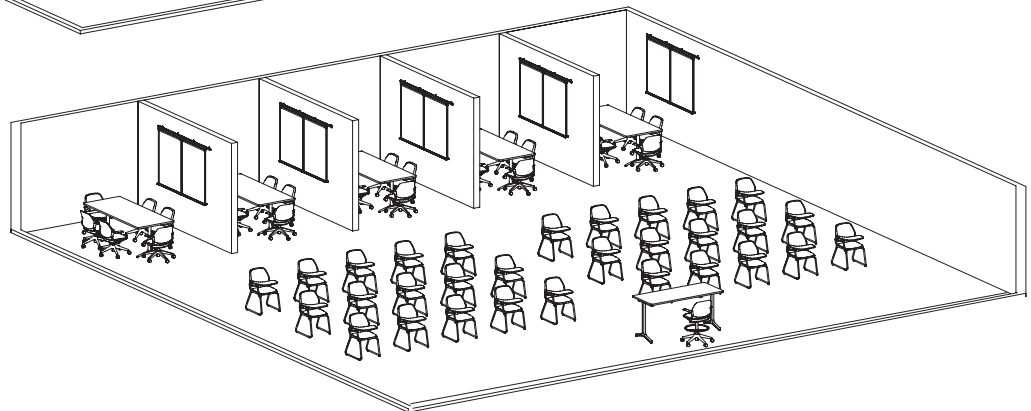

*These eight typicals show various arrangements featuring Inspire.*

### CLASSROOM

Collaborative areas feature Inspire four-leg stack chairs with casters around Merge® Power Bay™ tables. Instructor has an Inspire work stool at a variable height table.

### CLASSROOM

Sled Base Tablet Arm with center aisle. Instructor has an Inspire Multi-Purpose Work Stool with a variable height table. Break-out areas feature Inspire Multi-Purpose Work Chair with tables.

### TEAM ROOM

Inspire 4-Leg Multi-Purpose with casters around a Merge Power Bay table. Stride high credenza along wall.

### U SHAPE CLASSROOM

Inspire 4-Leg Multi-Purpose with glides around tables. Instructor has an Inspire Multi-Purpose Work Stool with a variable height table.

**CAFÉ/TRIUM**

Inspire 4-Leg Multi-Purpose with glides around Merge tables. Inspire four-leg stools with Merge standing height tables occupy the perimeter.

**COMPUTER LAB**

Inspire Multi-Purpose Work Chair with tables. Instructor has an Inspire Multi-Purpose Work Stool at a variable height table.

**FACULTY OFFICE**

Inspire 4-Leg Multi-Purpose with casters around a Merge table create a teaming area in a Stride office with an Acuity® chair.

**SEMINAR**

Inspire 4-Leg Multi-Purpose with casters around a Merge Power Bay table.

## DESIGN FEATURES

Choose the options specific to your needs.

### Basic synchro control adjustment

Manual crank tension with knob and an upright lock.

### Enhanced synchro-tilt control

Manual crank tension adjustment with easily reached lever and three locking positions for the back.

### Weight activated control

Automatic tension control with an upright lock and tilt limiter.

### Mesh Backs

Mesh back chairs are available in six mesh colors.

### Optional adjustable lumbar support

Lyric provides automatic lumbar support. To accommodate personal preference, an optional external lumbar support can be added at any time with 4" range of adjustment.

### 4D fully adjustable arms

Lyric's 4D arms are fully adjustable in height, width, depth, and can pivot to provide optimal support. Pivot the front of the arm pads inward to move in closer to your desk and offer support while working.

### 2D adjustable arms

Provides height and width adjustments for optimal support of elbows and shoulders while keyboarding or conferencing while providing ease of entry/exit.

### Fixed arms

Provide basic support for users engaging in a variety of tasks throughout the day. Fixed arms limit adjustability but provide consistent aesthetics in conference room settings.

### Pneumatic seat height adjustment

Regulates height of work chair relative to the floor. Standard 5" of travel accommodates average to tall users. Stools offer 10" of travel.

### Seat depth adjustment

Allows seat cushion to manually adjust front to back.

### Base and casters

Work chair and stool bases are a five-star design. Dual-wheel casters are available in hard tread for carpet, or multi-surface for any floor surface.

### Materials

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions. Allsteel fabrics meet requirements for CTB117. Contact Allsteel Customer Support for CTB133. COM/COL manufacturers supply certificates of compliance for fabric only tests such as CTB117. Allsteel must test a complete chair to supply a certificate of compliance with CTB133.
- Lyric meets the requirements set forth in ANSI/BIFMA X5.1-2011 and BIFMA G1-2013. Lyric is warranted for multiple shifts and users up to 300 lbs.

### Height-Adjustable Footring

Travels 8" to ensure users have comfortable support of their feet and legs. The footring has a 20" diameter.

## OPTIONS - WORK/CONFERENCE OR STOOL

### Chair Types:

<b>CWW</b>	Weight Activated Work Chair
<b>CSW</b>	Synchro-Tilt Work Chair
<b>CBW</b>	Basic Synchro Work Chair
<b>CSS</b>	Synchro-Tilt Stool

### Back:

<b>MH</b>	Mesh High-Back
<b>MM</b>	Mesh Mid-Back

### Arms:

<b>W</b>	4D Fully Adjustable
<b>H</b>	2D Adjustable
<b>F</b>	Fixed
<b>A</b>	Armless

## DESIGN FEATURES

An economical solution, suited for larger and taller people who perform a variety of tasks. Lyric Large & Tall is warranted for multiple shifts and users up to 400 lbs.

### Enhanced synchro-tilt control

Manual crank tension adjustment with easily reached lever and three locking positions for the back.

### Mesh Backs

Mesh back Large & Tall chairs are available in Black mesh.

### 2D adjustable arms

Provides height and width adjustments for optimal support of elbows and shoulders while keyboarding or conferencing while providing ease of entry/exit.

### Fixed arms

Provide basic support for users engaging in a variety of tasks throughout the day. Fixed arms limit adjustability but provide consistent aesthetics in conference room settings.

### Pneumatic seat height adjustment

Regulates height of work chair relative to the floor. Standard 5" of travel accommodates average to tall users.

### Base and casters

Bases are a five-star design. Dual-wheel casters in multi-surface for any floor surface.

### Materials

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics meet requirements for CTB117. Contact Allsteel Customer Support for CTB133. COM/COL manufacturers supply certificates of compliance for fabric only tests such as CTB117. Allsteel must test a complete chair to supply a certificate of compliance with CTB133.
- Lyric LT meets the requirements set forth in ANSI/BIFMA X5.1-2011 and BIFMA G1-2013. Lyric LT is warranted for multiple shifts and users up to 400 lbs.

Wherever they are, invite visitors to sit in style with options like an upholstered or mesh back, adding comfort and style to any location.

## KEY FEATURES

The waterfall seat front reduces pressure points and the intuitive back design offers built-in lumbar support. Lyric side chairs can be stacked up to four high.

## MODELS AND OPTIONS

Lyric side chair models with back types in mesh or upholstered mesh, and in two frame colors. Side chairs feature arm models with casters or glides.

Glides are available in nylon, nickel-plated, or felt options. Nylon glides are recommended for hard surfaces, commercial carpet, and damp environments. Nickel-plated glides are recommended for carpet. Felt glides are recommended for wood, tile, or high-shen floor surfaces. The versatile multi-surface casters are designed for use on hard or soft surfaces.

Chairs ship up to three per carton to minimize waste.

## MATERIALS

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics meet requirements for CTB117. Contact Allsteel Customer Support for CTB133. COM/COL manufacturers supply certificates of compliance for fabric only tests such as CTB117. Allsteel must test a complete chair to supply a certificate of compliance with CTB133.
- Lyric side chairs are warranted for users up to 300 lbs.

*Mimeo seating from Allsteel is designed to move with you. Created for today's active workplace, active workstyles, and active sitting, Mimeo is responsive and supportive of your every move. It hugs you. Embraces you. Envelops you. No matter your task. No matter your size or shape. Mimeo becomes one with you.*

*Designed in partnership with Bruce Fifield of Studio Fifield, Milan, Italy*

### Visually moving.

Mimeo's distinctive design and smart use of materials make a strong visual impact. It's appropriately scaled to impress and inspire across an open floorplan without overwhelming the environment. Comfortably moving from one space to the next, it brings style and character wherever it's used.

### Always the right fit.

Mimeo's lightweight and intuitive design adapts to any type of work you're doing. Experience immediate and lasting comfort for focused work, as well as in project rooms and open desking areas where activities change day to day or hour to hour. Mimeo is ideal for highly active and collaborative workstyles and enhances every space.

### Uncompromised comfort and support.

Mimeo's enveloping shape and dynamic back maintain constant contact with you, reducing and evenly distributing pressure points across the entire frame. No matter how you sit or move, the weight-activated motion adjusts automatically. Your whole body is supported. And each user, regardless of size, shape, or posture, has the same supportive experience.

### A new standard in weight activation

Mimeo's recline tension has been engineered to automatically adjust to the specific needs and body weight of each user without the need for manual adjustment.

The innovative weight-activated chair motion delivers the appropriate amount of tension for full recline, upright sitting, and every posture in between. As you effortlessly recline, the seat lifts your bodyweight, which modifies the amount of tension accordingly. The result is a personalized, balanced recline that allows for comfortable and healthy movement for any body, in any posture.

MIW-KWNO

MIS-KWNO

**DESIGN FEATURES**

Mimeo's innovative back-pattern design provides integrated lumbar support while accommodating every movement. The generous seat width and slightly curved arms invite unrestricted movement and comfort for all postures and body types. Mimeo is lightweight and easy to transport with an integrated back handle, bringing function to any space, effortlessly.

**IntelliForm™ back technology**

Exclusive technology combines the benefits of the compliant, polymer back with flex wings, supportive uprights, and the soft, breathable Mimeo mesh material. The innovative back design and carefully selected materials have been engineered to deliver personalized comfort for each user, even as they move and change postures. The polymer back is highly pliable, allowing the material to flex and move along with the user.

**Optional adjustable lumbar support**

Mimeo provides automatic lumbar support. To accommodate personal preference, an optional external lumbar support can be added at any time with 4" range of adjustment.

**4D adjustable arms**

Mimeo's open arm design moves with you as you recline to support your arms in a variety of postures. Adjustments in four directions allow support during work tasks, and the ability to position arms close to the body.

**Fixed arms**

Provide basic support for users engaging in a variety of tasks throughout the day. Arms come with protective black urethane arm pads. Fixed arms limit adjustability but provide consistent aesthetics in conference room settings.

**Pneumatic seat height adjustment**

Regulates height of work chair relative to the floor. Standard 5" of travel accommodates average to tall users. Stools offer 10" of travel.

**Base and casters**

Work chair bases are a five-star design. Dual-wheel casters are available in hard tread for carpet, or multi-surface for any floor surface.

**Materials**

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics meet requirements for CTB117. Contact Allsteel Customer Support for CTB133. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CTB117. Allsteel must test a complete chair to supply a certificate of compliance with CTB133.
- Mimeo meets the requirements set forth in ANSI/BIFMA X5.1-2011 and BIFMA G1-2013. Mimeo is warranted for multiple shifts and users up to 300 lbs.

**Height-Adjustable Footring**

Travels 8" to ensure users have comfortable support of their feet and legs. The footring has a 20" diameter.

--	---	---

*Nimble is a high density stacking solution that is both extremely durable and surprisingly comfortable. Durable because we use the thickest wire frame in the industry. Comfortable because of the hidden front support bar, the contoured polypropylene back and seat along with the flexibility of the frame. The clean design will appeal to designers and facility managers alike.*

Brackets are sold in packages of eight (for four chairs). The brackets can be added to Nimble chairs at any time.

## MODELS AND OPTIONS

The Nimble chair is suited for team conference, cafeterias, auditoriums, or visitor's chair applications.

Nimble **stacks 36 chairs high** in 66"H by 50"D by 22"W (on a cart). A maximum of 12 chairs can be stacked without a cart with a dimension of 40"H by 33"D by 19½"W.

The **cart** is available in black epoxy paint finish with black casters. The cart angles chairs in a neat vertical arrangement that fits through doorways and can be moved by one person. Carts are shipped one per carton.

## SEATS AND BACKS

The seat features a **waterfall** edge to *enhance circulation and reduce fatigue*. The backrest features contoured **lumbar** support to help *relieve stress in the spine*.

The **seat and backrest shells** are color-impregnated, washable polypropylene with U.V. inhibitors.

The polypropylene shells are easily **field replaceable** with simple hand tools for long life.

## GLIDES

Nimble offers glide options for different types of flooring.

**Polycarbonate glide** is standard and well-suited for carpet and vinyl flooring.

**Stainless steel glide** can provide extra protection when used on rough, gritty, or hard surfaces (concrete).

**Felt-covered polycarbonate glide** is recommended for wood, tile, or high-shine gloss floor surfaces to protect the finish longer.

## GANGING BRACKETS

Brackets securely connect Nimble chairs together for a neat, aligned row. The brackets are snapped in place over the chair glide (two brackets per chair). To connect the chairs, snap the bracket from one chair leg to the adjacent chair leg. To disconnect, unsnap the bracket. The chairs stack with the brackets in place.

## FRAMES

The sturdy, **12mm wire frame** provides clean lines and excellent strength, ideal for high-density stacking.

The **chrome, black or silver epoxy powder-coated frame** is durable and scuff-resistant and complements any environment.

**Powder coating** is a non-hazardous and solvent-free process which provides an environmentally friendly, baked-on, durable finish. **Chrome** is recommended for high-intensity stacking applications due to its chip-resistant properties.

## SHIPPING

Nimble chairs **ship in cartons containing 4 chairs** to reduce packaging waste.

## STANDARDS

Nimble meets the requirements set forth in ANSI/BIFMA X5.1-2011. Nimble is warranted for users up to 300 lbs.

All Nimble models meet CTB133 fire code standards.

O6 is a task chair that answers the ergonomic demands and needs put forth by the user while addressing the mental well-being that is usually left behind in today's seating world. The workplace is about people and the furniture should be an extension of those individuals, not the other way around. O6 is the culmination of research that has deemed comfort, ergonomics, and fresh design language as keys to win.

## KEY FEATURES

O6 chairs feature weight-activated recline so there's no additional tension adjustment. Intuitive controls, along with specially sculpted and formulated seat foam, create a comfortable sitting experience for wherever and however people work.

### Customization

O6 allows for a wide range of color optionality. The O6 family is offered in two different meshes, totaling 29 distinct mesh colors. Coupled with 4 frame colors to choose from, O6 offers users the chance to make a design statement throughout their workspace.

### 4D Fully Adjustable Arms

O6's 4D arms are fully adjustable in height, width, depth, and can pivot to provide optimal support. Pivot the front of the arm pads inward to move in closer to your desk and offer support while working.

### 2D Adjustable Arms

Provides height and width adjustments for optimal support of elbows and shoulders while keyboarding or conferencing while providing ease of entry/exit.

### Pneumatic Seat Height Adjustment

Regulates height of work chair relative to the floor. Standard 5" of travel accommodates average to tall users. Stools offer 10" of travel.

### Seat Depth Adjustment

Allows seat cushion to manually adjust front to back.

### Height-Adjustable Footring

Travels 8" to ensure users have comfortable support of their feet and legs. The footring has a 20" diameter.

### Optional Adjustable Lumbar Support

To accommodate personal preference, an optional external lumbar support can be added at any time with 4" range of adjustment.

### Base and Casters

Work chair bases are a five-star design. Dual-wheel casters are available in hard tread for carpet, or multi-surface for any floor surface.

## Materials

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics meet requirements for CTB117. Contact Allsteel Customer Support for CTB133. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CTB117. Allsteel must test a complete chair to supply a certificate of compliance with CTB133.
- O6 meets the requirements set forth on ANSI/BIFMA X5.1-2017 and BIFMA G1-2013. O6 is warranted for multiple shifts and users up to 300 lbs.

The Pli task seating portfolio provides distinctive performance and exceptional simplicity of movement. The innovative auto-fitting design enables each user to experience maximum ergonomic support for extended use without performing a series of multiple, complex adjustments. Sit, move, reach, work, and Pli adjusts to the movements and contours of each user.

## KEY FEATURES

The crucial criterion for wellness is a seating portfolio that combines the ergonomic support you need with the comfort you should never be without. Every one of the Pli chair models adapts to dynamic user movements with simplicity and responsiveness, ensuring a seated posture that is both healthful and comfortable.

### Minimal Adjustments

The distinctive 4-point seat suspension system ensures that Pli creates multi-position support without painstaking manual adjustments. Sit, and Pli conforms to you. The intuitive and easy height-adjustment control enables Pli to accommodate nearly every user stature. One adjustment is all you need to make.

### Back Support

Each Pli seating model offers flexible and responsive edgeless back support that transcends rigid perimeters, moving with the movements of the user. The conforming mesh back offers support to the lumbar area throughout the sit.

### 2D Adjustable Arms

Provides height and width adjustments for optimal support of elbows and shoulders while keyboarding or conferencing while providing ease of entry/exit.

### Fixed Arms

Provide basic support for users engaging in a variety of tasks throughout the day. Arms come with protective black, flint, titanium or salt urethane arm pads to match the specified frame finish. Fixed arms limit adjustability but provide consistent aesthetics in conference room settings.

### Pneumatic Seat Height Adjustment

Regulates height of work chair relative to the floor. Standard 5" of travel accommodates average to tall users. Stools offer 10" of travel.

### Height-Adjustable Footring

Travels 8" to ensure users have comfortable support of their feet and legs. The footring has a 20" diameter.

### Base and Casters

Work chair bases are a five-star design. Dual-wheel casters are available in hard tread for carpet, or multi-surface for any floor surface.

## Materials

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics meet requirements for CTB117. Contact Allsteel Customer Support for CTB133. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CTB117. Allsteel must test a complete chair to supply a certificate of compliance with CTB133.
- Pli is warranted for multiple shifts and users up to 300 lbs.
- **Pli meets the requirements set forth in ANSI/BIFMA X5.1-2011.**

*With two frame finishes and six mesh color options that allow you to create your own aesthetic, Quip acts as a clever commentary on your company's personality.*

### Exceed expectations, not your budget.

Quip is the prize fighter of work chairs and work stools. This is a hard-working, no-nonsense chair that supports you through heads-down work, lunch breaks, and whatever else the day brings.

### All comfort. No fuss.

Easy-to-use adjustments, including seat depth, make Quip a comfortable sit.

1. Height-adjustable arms adjust side-to-side and front-to-back. Fixed arms and armless options are also available.
2. Intuitive standard controls include height adjustment, tilt tension, tilt lock, and seat depth, an adjustment that customizes the chair to your body.
3. Lumbar support has been engineered into the back. Optional lumbar support allows users to adapt the chair to their needs with minimal effort.

## DESIGN FEATURES

The jack-of-all-trades functionality you need. The attention-commanding look everyone loves. Quip wraps it all up in one smart investment.

### Frame finishes

A Black or White finish pairs with any of the mesh and upholstery color options for a stylish chair.

### Mesh and upholstery colors

From playful to traditional and every stop in between, there's a color combination that fits your space. You can even mix and match mesh and upholstery colors to get the exact look you want.

### 3D Adjustable arms

3D adjustable arms adjust up and down with armpads that adjust side-to-side and front-to-back to allow support during work tasks.

### Fixed arms

Provide basic support for users engaging in a variety of tasks throughout the day. Fixed arms limit adjustability but provide consistent aesthetics in conference room settings.

### Optional adjustable lumbar support

Adjustable lumbar support to accommodate personal preference. An optional external lumbar support can be added at any time.

### Pneumatic seat height adjustment

Regulates height of work chair relative to the floor. Standard 5" of travel accommodates average to tall users. Stools offer 10" of travel.

### Base and Casters

Work chair and stool bases are a five-star design. Dual-wheel casters are available in hard tread for carpet, or multi-surface for any floor surface.

### Materials

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics meet requirements for CTB117. Contact Allsteel Customer Support for CTB133. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CTB117. Allsteel must test a complete chair to supply a certificate of compliance with CTB133.
- Quip meets the requirements set forth in ANSI/BIFMA X5.1-2011 and BIFMA G1-2013. Quip is warranted for multiple shifts and users up to 300 lbs.

### Height-Adjustable Footring

Travels 8" to ensure users have comfortable support of their feet and legs. The footring has a 20" diameter.

Examples: STNO.WT.W.L.3.B.SBM25.NR10 VSTNO.BLK.F.N.2.H.SBM01.CU42 STLUK.WT

Relate combines everything you want into a single collection of seating. A synchronous mechanism and a unique pivoting back provide exceptional ergonomics for more people at more tasks. Active adjustments allow you to control and customize your seating tension and support relative to any task. Replaceable high-wear parts encourage you to repair rather than replace your chairs. And, the full line of models makes coordinating office seating simple.

## KEY FEATURES

Relate's Body Adaptive Control™ combines a weight-sensing synchronized tilt mechanism with a pivoting back, resulting in improved pressure distribution, superior back support, and movement for healthy sitting.

### Synchronized Tilt

The synchronized tilt motion keeps the user's head level when reclining to improve mental focus and productivity, while reducing neck and eyestrain.

### Pivoting Back

The position of the pivoting back aligns with the natural position of the spine. This alignment keeps the spine supported in its proper curvature, which increases comfort. The adaptive, pivoting motion provides continuous back support while encouraging movement. Movement while sitting replenishes the spinal discs with nutrients, which reduces fatigue and keeps discs healthy.

### Quick Tension™ Lever

Features 5 settings to quickly adjust from low to high tension. Allows for frequent adjustment throughout the workday to provide custom support for different tasks.

### Height-Adjustable Lumbar Support

Allows users to adjust lumbar support anywhere within a 4" range on upholstered and mesh work/conference chairs. Lumbar support on mesh chairs can be adjusted asynchronously.

### Pneumatic Seat Height Adjustment

Regulates height of chair relative to the floor.

- Standard cylinder with 5" of travel accommodates average or tall users.
- Optional short cylinder with 3½" of travel keeps chair closer to the floor for shorter users, allowing all models to meet BIFMA G1-2002 solutions for VDT users.

### Seat Depth Adjustment

Adjusts from front-to-back, within a 3" range, to accommodate different leg lengths.

RL-MHW — Mesh High-Back

RL-UHC — Upholstered High-Back

**Fully Adjustable Arms**

Arms are fully adjustable in height, width, depth, and can pivot to provide optimal support. Pivot the front of the arm pads inward to move in closer to your desk and offer support while working.

**Adjustable Arms**

Adjust in height, width, and depth for optimal support of elbows and shoulders while keyboarding or conferencing.

**Fixed C Arms**

Provide basic support for people who face a varied workday. Fixed arms limit adjustability and maintain aesthetics in conference room settings. Cast aluminum fixed C arms are available in polished aluminum or powder-coated finishes to match the frame color.

**DESIGN FEATURES**

Relate seating is engineered to last a lifetime, simplify maintenance, and reduce costs.

**Base/Casters**

Base is composite five-star structure. Specific models are available in polished aluminum. Dual-wheel casters feature hard tread for carpeted floors or soft tread for smooth floors.

**Link Mesh**

Relate's Link Mesh is a leno weave with a polyester elastomeric and a polyester fill yarn. This construction provides responsive, conforming back support and an open, airy aesthetic. Link Mesh is 100% recyclable.

**Materials**

- All upholstery foams are **CFC-free**.
- All **COMs/COLs** must be approved for upholsterability or applicable fire code compliance prior to order entry. See COM ordering instructions on pages 6-7.
- **Flammability** code compliance of Allsteel textiles and seating is listed on pages 12-14. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013. Allsteel must test a complete chair to supply a certificate of compliance with CTB133.

Relate meets the requirements set forth in ANSI/BIFMA X5.1-2011 and BIFMA G1-2013. Relate is warranted for multiple shifts and users up to 300 lbs.

Relate work chairs with adjustable arms ship knocked down.

**OPTIONS — RELATE WORK/CONFERENCE:**

Versions include High-Back models in mesh or upholstery with adjustable arms, fixed C arms, or without arms.

**Back Type:**

- M** Mesh (only available in High-Back)
- U** Upholstered

**Overall Size:**

- H** High-Back

**Armrests:**

- P** Fully Adjustable Arms
- W** Adjustable Arms
- C** Fixed C Arms
- A** Armless

**Pneumatic Cylinder:**

- 2** Standard, allows 5" of travel
- 3** Short, 3½" of travel to meet BIFMA G1-2002

**Casters:**

- 0** 2½" Black Dual-wheel Hard Tread for carpet
- 1** 2½" Black Dual-wheel Soft Tread for smooth surfaces (\$60 extra)

**Lumbar:**

- L** Height-Adjustable

Aluminum Option: (Aluminum models only — see pages 132-133)

- A1** Aluminum Base

**Fixed C arm Option:**

- A3** Aluminum Base and Aluminum Fixed C Arm (add \$153)

Relate offers a full line of seating in complementary finishes making it simple to coordinate seating for the entire office. The Relate work stool is the perfect solution for anyplace where work happens at a standing height position. Relate work stools feature all of the same intuitive, ergonomic adjustments as the Relate work/conference chair.

## KEY FEATURES

Relate's Body Adaptive Control™ combines a weight-sensing synchronized tilt mechanism with a pivoting back, resulting in improved pressure distribution, superior back support, and movement for healthy sitting.

### Synchronized Tilt

The synchronized tilt motion keeps the user's head level when reclining to improve mental focus and productivity, while reducing neck and eyestrain.

### Pivoting Back

The position of the pivoting back aligns with the natural position of the spine. This alignment keeps the spine supported in its proper curvature, which increases comfort. The adaptive, pivoting motion provides continuous back support while encouraging movement. Movement while sitting replenishes the spinal discs with nutrients, which reduces fatigue and keeps discs healthy.

### Quick Tension™ Lever

Features 5 settings to quickly adjust from low to high tension. Allows for frequent adjustment throughout the workday to provide custom support for different tasks.

### Height-Adjustable Lumbar Support

Allows users to adjust lumbar support anywhere within a 4" range on upholstered and mesh work stools. Lumbar support on mesh work stools can be adjusted asynchronously.

### Pneumatic Seat Height Adjustment

Regulates height of stool relative to the floor. Includes extended range height pneumatic cylinder with 10" of vertical travel.

### Seat Depth Adjustment

Adjusts from front-to-back, within a 3" range, to accommodate different leg lengths.

### Height-Adjustable Footring

Travels 8" to ensure users have comfortable support of their feet and legs. The footring has a 20" diameter.

RLS-MHW — Mesh High-Back

**Fully Adjustable Arms**

Arms are fully adjustable in height, width, depth, and can pivot to provide optimal support. Pivot the front of the arm pads inward to move in closer to your desk and offer support while working.

**Adjustable Arms**

Adjust in height, width, and depth for optimal support of elbows and shoulders while keyboarding or conferencing.

**Fixed C Arms**

Provide basic support for people who face a varied workday. Fixed arms limit adjustability and maintain aesthetics in conference room settings. Cast aluminum fixed C arms are available in powder-coated finishes to match the frame color.

**DESIGN FEATURES**

Relate seating is engineered to last a lifetime, simplify maintenance, and reduce costs.

**Base/Casters**

Base is composite five-star structure. Dual-wheel casters feature hard tread for carpeted floors or soft tread for smooth floors.

**Link Mesh**

Relate's Link Mesh is a leno weave with a polyester elastomeric and a polyester fill yarn. This construction provides responsive, conforming back support and an open, airy aesthetic. Link Mesh is 100% recyclable.

**Materials**

- All upholstery foams are **CFC-free**.
- All **COMs/COLs** must be approved for upholsterability or applicable fire code compliance prior to order entry. See COM ordering instructions on pages 6-7.
- **Flammability** code compliance of Allsteel textiles and seating is listed on pages 12-14. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013. Allsteel must test a complete chair to supply a certificate of compliance with CTB133.

Relate meets the requirements set forth in ANSI/BIFMA X5.1-2011 and BIFMA G1-2013. Relate Work Stools are warranted for multiple shifts and users up to 300 lbs.

**OPTIONS — RELATE WORK STOOL:**

Versions include High-Back models in mesh or upholstery with adjustable arms, fixed C arms, or without arms.

Back Type:

**M** Mesh

---	---	--

Relate multi-purpose side chairs provide an ideal solution for busy work areas such as training rooms, gathering areas, informal conferencing, cafés, and more. With a stackable design and pivoting back, Relate side chairs provide the perfect combination of versatility and unexpected comfort.

### MODELS AND OPTIONS

Relate offers side chair models with **back types** in mesh, upholstery, and wood in three frame colors.

Side chairs feature **arm and armless models** with casters or glides.

**Glides** are available in nylon, nickel-plated, or felt options. Nylon glides are recommended for hard surfaces, commercial carpet, and damp environments. Nickel-plated glides are recommended for carpet. Felt glides are recommended for wood, tile, or high-shine floor surfaces.

**Multi-surface casters** are also available.

**Chairs ship up to two per carton to minimize waste.**

### CONSTRUCTION

**Steel frames and structural moldings** create a durable design that performs in a variety of environments.

**Seat and back upholstery** are easily field replaceable allowing users to extend the lifecycle of the chairs.

Multi-purpose side chairs **stack up to 4-high** on the floor.

Mesh chairs feature Link™ Mesh. **Link Mesh** is a leno weave with a polyester elastomeric and a polyester fill yarn. This construction provides responsive, conforming back support and an open, airy aesthetic. Link Mesh is 100% recyclable.

RLM-UUCA — Upholstered Back and Upholstered Seat

**UPHOLSTERY AND CONTOURING**

Relate multi-purpose side chairs feature a pivoting back that provides unexpected comfort in any application. The **pivoting back** provides support while encouraging movement that makes for healthy sitting. The **backrest** features a contoured lumbar support to help relieve stress on the back. Added movement and support allow the Relate multi-purpose side chair to go from project conference rooms to teaming areas to training rooms with ease.

The upholstered seat features a generous 2" of high-resiliency molded foam padding for comfort and long-term support.

All upholstery foams are **CFC-free**.

All **COMs/COLs** must be approved for upholsterability or applicable fire code compliance prior to order entry. See COM ordering instructions on pages 6-7.

**Flammability** code compliance of Allsteel textiles and seating is listed on pages 12-14. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013. Allsteel must test a complete chair to supply a certificate of compliance with CTB133.

Relate meets the requirements set forth in ANSI/BIFMA X5.1-2011. Relate side chairs are warranted for users up to 300 lbs.

**OPTIONS — RELATE MULTI-PURPOSE SIDE:**

Versions include arm and armless models with glides or casters in an upholstered seat and mesh, upholstered, or wood back.

Back Type:

- M** Mesh
- U** Upholstered

Seat Type:

- U** Upholstered

Frame Type:

- C** Casters
- G** Glides

Arm Option:

- O** Arms
- A** Armless

Glides/Casters:

- 0** Nylon Glides for hard surfaces and commercial carpet
- 1** Nickel-plated Glides for carpet (\$16 extra)
- 2** Felt Glides for wood, tile, or high sheen surfaces. (\$16 extra)
- 3** Multi-surface Casters

Frame Color: (mesh frame black for all but Titanium)

Relate 4-Leg Stools are the perfect solution for any application where people prefer a standing height position such as cafés, standing height workstations, touchdown areas, and coffee bars. Similar to the side chair, Relate 4-Leg Stools feature a pivoting back for exceptional comfort and support.

**RLC-WUGA —  
Wood Back**

## MODELS AND OPTIONS

Relate 4-Leg Stools are available with mesh, upholstered or wood backs. Four-legged stools feature arm and armless models with glides.

**Glides** are available in nylon, nickel-plated, or felt options. Nylon glides are recommended for hard surfaces, commercial carpet, and damp environments. Nickel-plated glides are recommended for carpet. Felt glides are recommended for wood, tile, or high-sheen floor surfaces.

## CONSTRUCTION

**Steel frames and structural moldings** create a durable design that performs in a variety of environments.

**Seat upholstery** is easily field replaceable allowing users to extend the lifecycle of the chairs.

## UPHOLSTERY AND CONTOURING

Relate 4-Leg Stools feature a pivoting back that provides unexpected comfort in any application. The **pivoting back** provides support while encouraging movement that makes for healthy sitting. The **backrest** features a contoured lumbar support to help relieve stress on the back.

The upholstered seat features a generous 2" of high-resiliency molded foam padding for comfort and long-term support.

All upholstery foams are **CFC-free**.

All **COMs/COLs** must be approved for upholsterability or applicable fire code compliance prior to order entry. See COM ordering instructions on pages 6-7.

**Flammability** code compliance of Allsteel textiles and seating is listed on pages 12-14. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013. Allsteel must test a complete chair to supply a certificate of compliance with CTB133.

Relate meets the requirements set forth in ANSI/BIFMA X5.1-2011. Relate four-legged stools are warranted for users up to 300 lbs.

## OPTIONS — 4-LEG STOOL:

4-Leg Stools are available in arm or armless models with glides, an upholstered seat and wood back.

Back Type:

- M** Mesh
- U** Upholstered
- W** Wood (Wood, as a natural material, is subject to nature's quality control with variations in grain pattern and tone.)

Seat Type:

- U** Upholstered

Frame Type:

- G** Glides

Arm Option:

- O** Arms
- A** Armless

Glides:

- 0** Nylon Glides for hard surfaces and commercial carpet
- 1** Nickel-plated Glides for carpet (\$16 extra)
- 2** Felt Glides for wood, tile, or high sheen surfaces. (\$16 extra)

Frame Color: (mesh frame black for all but Titanium)

- CBK** Charblack
- P8T** Titanium
- P8X** Solar Black
- PR6** Silver (arms are Charblack)

Mesh Color (for Mesh Backs only):

Available on Charblack (**CBK**) mesh frames (**CBK, PR6, and P8X** frame color choices)

- LKM01** Carbon
- CM21** Clay
- CM30** Lime

Available on Titanium (**P8T**) mesh frames (**P8T** frame color choice)

- LKM01** Carbon
- CM28** Navy
- CM23** Platinum
- CM29** Taupe

Wood Finishes (for Wood Backs only):

- NE800** Natural Maple
- NC777** Burnished Cherry
- NC701** Light Cherry

Select the Seat Upholstery:

See pages 12-14 for selections.

See pages 18-19 for colors and codes.

(See page 162 for COM pricing on Grades 9-22)

RELATE

*Seek is a multi-purpose chair designed for today's ever-changing corporate environments that require durability, versatility, and beauty. Its light-weight mobile design is ideal for multi-purpose settings such as adjunct teaming areas, conference rooms, classrooms, training rooms, and cafés.*

*The idea has always been to provide seating that one can sit in...not on. Seek achieves this with a deceptively simple design that conforms to the shape and movement of each user's body. Its pivoting back allows for natural shifts in posture while intuitively distributing lumbar support. The contoured seat reduces pressure points and evenly distributes weight for long-term comfort. So sit back, relax, and let Seek do all the work.*

## MODELS AND OPTIONS

With Seek, extended periods of sitting are refreshingly comfortable. Designed to move with the body and minimize pressure points, Seek conforms to each user's body movement, so no matter how they sit — or how long they stay — they stay comfortable.

**Weight-assisted pivot back** technology intuitively provides balance and lumbar support for ergonomic recline.

**Contoured seat design** distributes weight evenly, stabilizing the sitting bones during forward and reclined comfort. Universal fitting, Seek comfortably accommodates 95% of users.

**Arm and armless** models available. The curved shape of the arms accommodates differences in elbow height. The downward curve helps when approaching worksurfaces.

**Casters or glides** are available. Glide options include nylon, nickel-plated, or felt. The versatile multi-surface casters are designed for use on hard or soft surfaces.

**Seek offers the ability to stack, to nest, and to nest the stacks** for optimum space efficiency. The seat folds up so multiple chairs nest together like grocery carts. Four nested chairs can move or store together in a discrete 37-inches of space. Each additional nested chair adds 5 $\frac{1}{8}$ " of depth. Multiple chairs can stack up to four high in a space of 53"H x 28"W x 22"D. Each additional stack of nested chairs adds 15" of depth.

A Seek stack height of 4 chairs is recommended for storage density that allows the stacks to nest together. A maximum stack height of 6 chairs should not be exceeded when transporting the stacks of chairs.

**Chairs ship two per carton to minimize waste.** Model numbers and prices are per chair.

K-MUCO

K-PPCA

**CONSTRUCTION**

The solid construction meets or exceeds industry standards for performance. Seek’s flexible molded-polymer backrest facilitates heat-reducing airflow. Optional mesh back lets light and air through for added comfort.

Seek’s polymer shells are made from recyclable color-matched polymers with UV resistance to preserve colorfastness and ensure long-term durability. Allsteel paint finishes (for frames) are formulated for optimum hardness and chip resistance.

Seek meets the requirements set forth in ANSI/BIFMA X5.1-2011. Seek is level®2 certified. Seek is warranted for multiple shifts and users up to 300 lbs. Its lightweight construction makes it easy to move.

Allsteel fabrics and foam meet requirements for CAL TB117-2013. Contact Allsteel Customer Support for CTB133. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013. Allsteel must test a complete chair to supply a certificate of compliance with CTB133.

**OPTIONS — SEEK:**

Backrest Style:

- M** Mesh Back (Dusk Mesh only)
- P** Polymer Back

Seat Style:

- U** Upholstered Seat
- P** Polymer Seat

Casters/Glides:

- C** Casters
- G** Glides

Armrests:

- O** Arm Chair
- A** Armless

Svelte is a modern, multi-functional office chair that brings refined, yet affordable, sophistication across a variety of applications. Sophistication shouldn't have to be expensive, and quality can be affordable. Svelte gracefully alleviates the disparity between low-cost and luxury with an elegant design that possesses an aesthetic as slender as the stack of cash to afford it. Combine that with its ability to consistently perform across almost any office setting, and it only adds to its value. Svelte meets the requirements set forth in ANSI/BIFMA X5.1-2013. Svelte is warranted for multiple shifts and users up to 300 lbs.

\*COM Yardage is listed for total yardage/feet required for a model, with applicable yardage/feet for individual components listed.

Tolleson Side chairs are versatile as they can move from office to conference room to waiting area applications. The menu of back shapes, finishes, and arm and armless options change the appearance, but the excellent comfort and consistent durability remain throughout.

Designed by Greg Saul and Tom Tolleson of Tolleson/Design.

**MODELS AND OPTIONS**

Tolleson side chair models feature a generous and inviting scale suited for waiting areas, conference, office, cafeteria or guest chair applications.

The **two backrest shapes** create versatile options which can coordinate with other Allsteel seating lines and any environment. Even though the backrest shape changes the comfort stays consistent.

**Arm and armless** models are available. Armcaps are wide to support the arm. The curved shape accommodates differences in elbow heights. The arm curves downward to help approach worksurfaces.

The **arm caps** are washable, impact-resistant nylon. Arm caps are easily field replaced using two machine screws per arm cap.

**Armless** models feature a metal cap which finishes the ends of the tubes.

**Glides** are standard with nickel-plated or nylon options. Nickel-plated glides are recommended for carpeted applications. The plastic surface of the black nylon glide is recommended for other surfaces or damp environments.

**Casters** are available on armed models to add mobility for training rooms and multi-purpose applications.

**Chairs ship up to two per carton to minimize waste.** Model numbers and prices are per chair.

**CONSTRUCTION**

The construction meets or exceeds industry standards for performance. The strong, 1" round, 16 gauge steel tubular frame construction provides exceptional strength and durability suitable for waiting areas and office applications. All connections are **steel-to-steel**.

The **steel tubular frame** extends the length of the armrest for superior strength while the chair is being lifted or stacked. The chair is lifted by the steel frame and not just an arm cap.

The backrest features a double-shell plywood construction with compound contouring for lumbar support.

The **seat** features an injection molded **polypropylene** seat which surrounds the tubular frame. The bottom of the seat is always black. It features a smooth profile so the chair can be stacked.

Arm and armless chairs can be **stacked up to five high** on the floor. On the cart, chairs can be stacked up to eight high.

**UPHOLSTERY AND CONTOURING**

The **outer back shell** is upholstered in a fabric to match the inner seat and back for a tailored appearance.

The **seat** features a generous 2½" of high-resiliency molded foam padding for comfort and long-term support. The **backrest** features contoured lumbar support to help relieve stress in the spine.

All upholstery foams are **CFC-free**.

All **COMs/COLs** must be approved for upholsterability or applicable fire code compliance prior to order entry. See COM ordering instructions on pages 6-7.

**Flammability** code compliance of Allsteel textiles and seating is listed below. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CTB 117. Allsteel must test a complete chair to supply a certificate of compliance for CTB 133.

Tolleson Side meets the requirements set forth in ANSI/BIFMA X5.1-2011.

Tolleson side chair with glides is warranted for users up to 300 lbs. Tolleson side chair with casters is warranted for users up to 225 lbs.

**OPTIONS — TOLLESON SIDE CHAIR:**

Backrest Shapes:

- Keystone
- Square

Armrests:

- Armless
- Arms

Glides:

- 0** 1" Diameter Nickel-plated Glides for carpets
- 1** 1" Diameter Nylon Glides for hard surfaces

Casters: (not available on armless versions)

- 3** 2½" Dual-wheel Soft Tread for smooth surfaces (\$60 extra)

Tubular Frame Colors:

- P71** Black
- PR6** Silver
- P8X** Solar Black
- P8T** Titanium

*Introducing Vicinity, the newest addition to Allsteel's Social Collaborative collection of furniture.*

**Your next great idea happens here.**

*The cafeteria has evolved from a small, back-of-office nook to a vibrant, front-and-center space for planned and impromptu meetings, or for giving guests a taste of your company's culture. Vicinity meets these needs with the flexibility to fit more spaces around your office and a style that's distinctively yours. It's perfect for creative breaks, standing meetings, relaxed eating, or heads-down work.*

*The best ideas are born from connection. Vicinity gives you the space you need to discover what's possible.*

Choose from multiple color and finish combinations to fit the style of your office.

Simple, clean lines serve as the calling card for your company's personality.

Lightweight pieces are easy to move and utilize for whatever your office needs.

**MODELS AND OPTIONS**

Vicinity seating is available as seated, counter, or standing heights, with formed wire-frame or tube legs. Vicinity seating is produced using material-efficient processes; little waste is generated during the manufacture of these chairs and what is generated can be recycled into new components. The seating bases all contain at least 25% post-consumer recycled content.

Glides are available in nylon or polycarbonate, nickel-plated or steel, and felt or rubber. Nylon glides or polycarbonate are recommended for hard surfaces, commercial carpet, and damp environments. Nickel-plated and steel glides are recommended for carpet. Felt glides are recommended for wood, tile, or high-sheen floor surfaces.

Vicinity offers 8 different polymer shell colors and nine frame finish colors. 4-Leg and sled base chairs stack up to 10 chairs high in 44"H. Chairs ship up to four per carton to minimize waste. Model number and prices are per chair.

Vicinity meets the requirements set forth in ANSI/BIFMA X5.1-2017. Vicinity is warranted for multiple shifts and users up to 300 lbs.

- Allsteel fabrics and foam meet requirements for CTB117.
- Blank spaces indicate that a product has not yet been tested or that it failed.
- Contact Allsteel Customer Support for other flammability code approvals.

Jetty:Mod supports individual and group activities in cafes, atriums, and walkways while also influencing and directing circulation patterns. Its modern, modular, and can be modified to fit whatever the installation requires.

Jetty:Mod was designed to focus on work geometry and how to properly support you. Making sure to have proper sit depth and posture. There are two different versions or dimensions. The lounge version is 30" wide by 30" deep and you sit 18" off of the floor. This allows for more trust conversations to happen or to relax for the day. The work version is 24" wide by 24" deep and you sit 19.5" off of the floor. This will allow for a more upright position to do active work.

**Lounge**  
18"H x 30"D x 30"W

**Work**  
19.5"H x 24"D x 24"W

**WORK GEOMETRY**

It is important to determine whether the clearances between work mode/lounge mode and table are large enough to allow for an individual's legs to be positioned under the table and yet not too large as to result in awkward upper body positions when using the worksurface.

**WORK POSTURE & STANDARD HEIGHT TABLE**

When specifying the work posture Jetty:Mod it is recommended to pair with standard height tables that provide 9"-10" of leg clearance.

Standard Table Height: 28"-29.75"

**LOUNGE POSTURE & CONTINENTAL HEIGHT TABLE**

When specifying the lounge posture Jetty:Mod it is recommended to pair with continental height tables that provide 8.5"-10" of leg clearance.

Continental Table Height: 25"-27.75"

**MODELS AND OPTIONS**

Jetty:Mod is comprised of seating, arms, tables, screens, legs and connectors that allow you to create an array of configurations.

The seating includes Ottomans, Single Seats and Backs, Half-Backs, Serpentine Ottoman and Serpentine Seat and Back units.

Arms include Tailored Arms, Box Arms and Bolster Arm.

Tables are connected or an accessory to the overall configuration. These include Connecting Tables, both full and half, Serpentine Tables, End Caps, Shared Arm, Tablet Table and Coffee Table.

Screens provide privacy in any space. There are 4 different lengths of screens that can be attached to seating and tables.

Legs and connectors coincide with the work or lounge version.

**APPLICATIONS**

This sofa system supports applications for private offices, work islands, booths, individual workspaces and banquettes.

**MATERIALS**

All COMs/COLs must be approved for upholsterability. See pages 6-7 for COM ordering instructions.

**OPTIONS — SEATING**

Description:

Ottoman — Straight or Serpentine

Seat and Back — Straight, Serpentine, Half Back or Corner

FSC Certified Wood:

**FSC** FSC Certified Wood

Seat Upholstery:

See page 178 for upholstery selections.

Back Upholstery:

See page 178 for upholstery selections.

**OPTIONS — ARMS**

Description:

Tailored Arms - Left and Right

Box Arms - Left and Right

Bolster Arm

FSC Certified Wood:

**FSC** FSC Certified Wood

Upholstery:

See page 178 for upholstery selections.

**OPTIONS — TABLES**

Description:

Connecting Tables - Full, Half, Notched or Serpentine

Accessory Tables - End Caps, Shared Arm or Tablet Table

Tables - Coffee Table

FSC Certified Wood:

**FSC** FSC Certified Wood

Laminate Table Tops and Skirts:

See page 177 for laminate finishes and codes.

Painted Base:

See page 177 for paint finishes and codes.

**OPTIONS — LEGS AND CONNECTORS**

Description:

Legs and Connectors - Straight or Serpentine

Painted Legs and Connectors:

See page 177 for paint finishes and codes.

**OPTIONS — SCREENS**

Description:

24", 36", 30" and 45"

Screen Upholstery:

See page 178 for upholstery selections.

**OPTIONS — ELECTRICAL**

Description:

Electrical can be attached under seats and tables. Electrical includes Miki Undermount, hard wire and corded infeed wire options, and jumper kits that have 3 cord length options. See pages 210-211 for specifications and examples. See page 212 for electrical components.

A full gallery of typicals can be found on our website: <https://www.allsteeloffice.com/design-resources/idea-starters>. Each typical includes a complete BOM with current pricing, downloadable CAD files, and PDFs of each drawing.

Serpentine

\*Rule: Serpentine units need to have a leg at each connection point wherever there is the biggest radius. At the smallest radius, you will need a leg every 2 units. Where there isn't a leg, you can use a serpentine in-line connector.

## General Guidelines When Working With Jetty:Mod

### SEATING

Corner Units - BPLCS, BPLCM, BPLWCS, BPWCM

- Corner unit is used to make an L-application and should not be used to end a run
- Corner unit needs to be specified with 2 corner post legs (BPLCRPL and BPWCRPL)

Calf Rest - BPLCR

- Calf Rest can only be used with the lounge version of Jetty:Mod
- It is recommended to be placed at the front of the sofa unit it is being attached to, and should be placed either to the right or the left of the unit. This will depend on what the application is.
- Calf Rest is attached with 2 brackets to the bottom of the sofa unit, and then comes with 2 post legs that will go at the end to support

Serpentine Units - BPLSWS, BPLSWM, BPLSNS, BPLSNM, BPLSO, BPWSWS, BPWSWM, BPWSNS, BPWSNM, BPWSO

- Serpentine units need to have a leg at each connection point wherever there is the biggest radius. At the smallest radius, you will need a leg every 2 units. Where there isn't a leg, you can use a serpentine in-line connector.

See **specifying** examples below

What to Specify:

- 4 Serpentine Wide at Back (BPLSWS)
- 4 End Leg with Metal Cover (BPLELC)
- 4 Serpentine In-Line Leg 30 (BPLSIL30)
- 2 Serpentine In-Line Connector 30 (BPSIC30)

What to Specify:

- 4 Serpentine Wide at Back (BPLSNS)
- 4 End Leg with Metal Cover (BPLELC)
- 4 Serpentine In-Line Leg 30 (BPLSIL30)
- 2 Serpentine In-Line Connector 30 (BPSIC30)

What to Specify:

- 2 Serpentine Wide at Back (BPLSWS)
- 2 Single Seat and Back (BPLSS)
- 4 End Leg with Metal Cover (BPLELC)
- 2 Serpentine In-Line Leg 30 (BPLSIL30)
- 2 Serpentine In-Line Leg 15 (BPLSIL15)
- 2 Serpentine In-Line Connector 15 (BPSIC15)

What to Specify:

- 2 Serpentine Wide at Back (BPLSNS)
  - 2 Single Seat and Back (BPLSS)
  - 4 End Leg with Metal Cover (BPLELC)
  - 2 Serpentine In-Line Leg 30 (BPLSIL30)
  - 2 Serpentine In-Line Leg 15 (BPLSIL15)
  - 2 Serpentine In-Line Connector 15 (BPSIC15)
- Note: This can also be done using the work version

What to Specify:

- 4 Serpentine Wide at Back (BPLSWS)
- 1 Serpentine Connecting Table (BPCTO30)
- 4 End Leg with Metal Cover (BPLELC)
- 6 Serpentine In-Line Leg 30 (BPLSIL30)
- 2 Serpentine In-Line Connector 30 (BPSIC30)

What to Specify:

- 4 Serpentine Wide at Back (BPLSNS)
- 1 Serpentine Connecting Table (BPCTO30)
- 4 End Leg with Metal Cover (BPLELC)
- 6 Serpentine In-Line Leg 30 (BPLSIL30)
- 2 Serpentine In-Line Connector 30 (BPSIC30)

What to Specify:

- 2 Serpentine Wide at Back (BPLSNS)
- 2 Single Seat and Back (BPLSS)
- 1 Serpentine Connecting Table (BPCTO30)
- 4 End Leg with Metal Cover (BPLELC)
- 4 Serpentine In-Line Leg 30 (BPLSIL30)
- 2 Serpentine In-Line Connector 15 (BPSIC15)

What to Specify:

- 2 Serpentine Wide at Back (BPLSWS)
- 2 Single Seat and Back (BPLSS)
- 1 Serpentine Connecting Table (BPCTO30)
- 4 End Leg with Metal Cover (BPLELC)
- 4 Serpentine In-Line Leg 30 (BPLSIL30)
- 2 Serpentine In-Line Connector 15 (BPSIC15)

## HOW TO SPECIFY JETTY:MOD

**EXAMPLE #1**

- (3) BPLSS - Lounge Single Seat and Back
- (1) BPLB - Lounge **Bolster** Arm
- (1) BPLBL - Lounge Box Arm Left
- (1) BPLBR - Lounge Box Arm Right
- (4) BPLEL - Lounge End Leg for Attaching
- (4) BPLSIC - Lounge Straight In-Line Connector

**EXAMPLE #2**

- (1) BPLSS - Lounge Single Seat and Back
- (1) BPLCR - Lounge Calf Rest
- (1) BPBSCR30 - Lounge Screen 30"
- (1) BPBSCR45 - Lounge Screen 45"
- (1) BPCT15 - Half Connecting Table 15" x 30"
- (1) BPTT - Swivel Tablet
- (4) BPLELC - Lounge End Leg with Metal Cover
- (2) BSSICC - Short In-Line Connector

Note: One pod is specified, multiply by 3 for total

**EXAMPLE #3**

- (10) BPLSWS - Lounge Serpentine Wide at Back
- (5) BPLCTO30 - Lounge Serpentine Connecting Table
- (4) BPLELC - Lounge End Leg with Metal Cover
- (23) BPLSIL30 - Lounge Serpentine In-Line Leg 30
- (5) BPSIC30 - Serpentine In-line Connector 30

**EXAMPLE #4**

- (2) BPLSS - Lounge Single Seat and Back
- (1) BPCT30 - Connecting Table 30" x 30"
- (4) BPLELC - Lounge End Leg with Metal Cover
- (4) BPLSIL - Lounge Straight In-Line Leg

## EXAMPLE #5

- (6) BPLSS - Lounge Single Seat and Back
- (2) BPLB - Lounge **Bolster** Arm
- (1) BPLTL - Lounge Tailored Arm Left
- (1) BPLTR - Lounge Tailored Arm Right
- (2) BPTT - Swivel Tablet
- (1) BPT60 - Lounge End Cap 60"
- (8) BPLEL - Lounge End Leg for Attaching
- (8) BPLSIC - Lounge Straight In-Line Connector

## EXAMPLE #6

- (6) BPLSS - Lounge Single Seat and Back
- (1) BPLSWS - Lounge Serpentine Wide at Back
- (1) BPLSNS - Lounge Serpentine Wide at Back
- (1) BPLCTO30 - Lounge Serpentine Connecting Table
- (2) BPT30 - Lounge End Cap 30"
- (2) BPTS30 - Lounge Shared Arm
- (4) BPLEL - Lounge End Leg for Attaching
- (4) BPLSIC - Lounge Straight In-Line Connector
- (10) BPLSIL30 - Lounge Serpentine In-Line Leg 15
- (2) BPSIC15 - Serpentine In-line Connector 15

**ARMS**

Tailored Arms - BPLTL, BPLTR, BPWTL, BPWTR

- Tailored Arms can only be used at the end of the run, not in between units

Box Arms - BPLBL, BPLBR, BPWBL, BPWBR

- Box Arms can only be used at the end of the run, not in between units

Bolster Arms - BPLB, BPWB

- Bolster Arms can only be used in between units that have a seat and back. It is recommended to not be used with an ottoman

**TABLES**

Connecting Tables - BPCT30, BPCT24

- Connecting tables can go in between seating units and at the end of a run
- If a connecting table is in between 2 seat units, it will need 4 in-line legs (BPLSIL or BPWSIL) at each connection point between the units
- If a connecting table is placed at the end of a run, it will need 2 in-line legs (BPLSIL or BPWSIL) and then 2 end legs with a metal cover. You need a point of connection for the connecting tables

Half Connecting Tables - BPCT15, BPCT12

- Half connecting tables can go in between seating units and at the end of a run
- If a half connecting table is in between 2 seat units, it will need 2 in-line legs (BPLSIL or BPWSIL) at 2 of the connection points and the 2 short in-line (BSSICC) connectors at the other 2 connection points
- If a half connecting table is placed at the end of a run, it will need 2 short in-line connectors (BSSICC) and then 2 end legs with a metal cover. You need a point of connection for the half connecting tables

Serpentine Connecting Tables - BPCTO30, BPCTO24

- Serpentine connecting tables can go in between seating units and at the end of a run
- If a serpentine connecting table is in between 2 linear seat units, it will need 4 serpentine in-line legs (BPLSIL15 or BPWSIL15) at each of the connection points
- If a serpentine connecting table is in between 2 serpentine units, it will need 4 serpentine in-line legs (BPLSIL30 or BPWSIL30) at each of the connection points
- If a serpentine connecting table is in between 1 serpentine unit and 1 linear unit, the linear to serpentine will have a different leg compared to the serpentine to serpentine connection. You will need to specify 2 serpentine in-line legs (BPLSIL30 or BPWSIL30) and 2 serpentine in-line legs (BPLSIL15 or BPWSIL15)

Corner Connecting Tables - BPCCT30, BPCCT24

- Corner table is used to make an L-application and should not be used to end a run
- Corner table needs to be specified with 2 corner post legs (BPLCRPL and BPWCRPL)

Notched Tables - BPNT30, BPNT15, BPNT24, BPNT12

- When pairing legs with notched tables, follow same guidelines that are used for connecting and half connecting tables
- It is recommended that you put a tablet arm within the notches. Items that we do not recommend are bolster arm, arms and the shared arm

End Caps - BPTE30, BPTE60, BPTE24, BPTE48

- End caps should be used at the end of a run, connecting into the end legs for attaching (BPLEL or BPWEL)
- The longer end caps are used to span across two units that are back-to-back

Shared Arms - BPTS30, BPTS24

- Shared arms are recommended to be used in between 2 seat and back units (serpentine or linear)

Swivel Tablet - BPTT

- Swivel tablet can go at the end of the run or in between units (serpentine or linear)

Coffee Table - BPCT2445

- Coffee table should be used on its own as a stand alone coffee table

**LEGS, CONNECTORS AND METAL PIECES**

*You will need to specify two legs or connectors at each connection point. For example, if you have a two-seat sofa, you would need to specify two in-line connectors where the sofa units meet and then four end legs (two at one end and two at the other end of the sofa).*

Straight In-Line Connectors - BPLSIC, BPWSIC

- Straight in-line connectors are used to connect 2 linear units together, both seating and tables
- Swivel tablet, bolster arm and shared arm can be inserted into the in-line connectors

End Legs for Attaching - BPLEL, BPWEL

- End legs for attaching are used at the end of a run
- Tailored arms, box arms and tablet arm can be inserted into the end legs at the end of a run

End Legs with Metal Cover - BPLELC, BPWELC

- End legs with the metal cover are used at the end of a run where nothing will be inserted or attached to them

Corner Post Legs - BPLCRPL, BPWCRPL

- Corner post legs are to be used with corner seating and tables
- When corner units are used, 2 corner post legs will need to be specified

Serpentine In-Line Connector - BPSIC15, BPSIC30

- BPSIC15 should be used when connecting a linear unit to a serpentine unit
- BPSIC30 should be used when connecting a serpentine unit to a serpentine unit

Serpentine In-Line Leg - BPLSIL15, BPLSIL30, BPWSIL15, BPWSIL30

- BPLSIL15 and BPWSIL15 should be used when connecting a linear unit to a serpentine unit
- BPLSIL30 and BPWSIL30 should be used when connecting a serpentine unit to a serpentine unit

4 Unit Beam Connector - BP4UC

- The 4 unit beam connector can be used to connect 4 linear units together without having to put a leg in between
- This cannot be used with serpentine units

Short In-Line Connector - BSSICC

- Short in-line connector should be used when connecting a single seat and back unit to a half connecting table, and should be placed in between those units

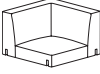

Coat Hanger - BPCH

- The coat hanger can be placed on the back of seat and back, half back and serpentine units

## SCREENS

Screens - BPBSCR30, BPBSCR45, BPBSCR24, BPBSCR36

- The 30" and 45" screens should be paired with the lounge version, and the 24" and 36" should coincide with the work version
- Screens are attached to the bottom of the seat and tables
- Screens can go on the back and sides of seating units. Screens can be attached to the back of the tables, but cannot attach to the sides of them.
- They cannot be used in between units

\*COM Yardage is listed for total yardage/feet required for a model, with applicable yardage/feet for individual components listed.

Jetty:Mod electrical will be attached to the underside of the sofa. Electrical includes the Triplex system that has jumper kits, corded infeed, hardwire infeed and H-Connectors. Jumper kits, corded infeed and hardwire infeed are available at various lengths to support an array of configurations. Miki undermount units plugged into the Triplex system and placed at the front of the sofa. The Miki undermount power module has 1 simplex and 2 USB outlets.

It's the customer's responsibility to ensure that installation and use of the electrical system, the number of receptacles used on a given circuit, and connections to the building power supply meets all local and national electrical codes.

### GUIDELINES WHEN WORKING WITH ELECTRICAL FOR JETTY:MOD

Miki Undermount - APWRMOD1UWM

- The Miki undermount consists of 1 simplex and 2 USB outlets
- Miki undermount power modules can be placed at the front of seat and table units. It cannot be placed where there is a support leg.
- 72" corded Miki undermount power modules can be specified on their own if the Jetty:Mod layout is placed along a wall with building power close enough to reach or within proximity of floor outlets.
- Miki can also be paired with the Triplex system to route a series of electrical components for larger Jetty:Mod configurations and/or if a hardwired in-feed is required/ desired.

Triplex Circuit 1 Jumper Kit - ATPKIT48, ATPKIT60, ATPKIT72

- Triplex Jumper Kits include 4-Trac Triplex Raceway available in lengths of 48", 60" and 72", conduit clamps and Triplex receptacle mounting bracket
- It is recommended to position the jumpers in the middle of the seat or table units that the electrical is going under

Triplex Circuit 2 Jumper Kit - ATPKIT482, ATPKIT602, ATPKIT722

- Triplex Jumper Kits include 4-Trac Triplex Raceway available in lengths of 48", 60" and 72", conduit clamps and Triplex receptacle mounting bracket
- It is recommended to position the jumpers in the middle of the seat or table units that the electrical is going under

Triplex Corded Infeed - ATPCIF48, ATPCIF72

- Triplex Corded Infeed includes a straight corded infeed with a straight 15 amp plug that is available in 48" and 72". Also available is an H-Connector with a mounting bracket.

Triplex Hardwire Infeed - ATPHWIF72

- Triplex Hardwire Infeed includes a straight hardwire infeed that is available in 72" and an H-Connector

Triplex H-Connector - ATPSPLIT

- H-Connectors are used to connector jumpers that will go in different directions whether that's a 90 degree turn or serpentine configurations

**ELECTRICAL EXAMPLE 1 — L-SHAPE**

RECHARGE

- ⊕ Partnership Program — See page 9 for details.
- Available upholstery option
- ◆ Available upholstery option with CTB133 approval — requires FC suffix added to model (FC extra, \$ varies by series)
- Allsteel fabrics and foam meet requirements for CTB117.
- Blank spaces indicate that a product has not yet been tested or that it failed.
- Contact Allsteel Customer Support for other flammability code approvals.

*Designed in partnership with Chris Adamick, Recharge includes soft seating pieces and tables that can be integrated for private, public, or collaborative settings.*

## MODELS AND OPTIONS

Recharge seating is available in four different options: Pouf, Bench, Bench with Bolster, and Bench with Bolster and Screen. Bolsters are available as full width, half-width, and as corner units providing a large array of configurations.

Recharge Tables can stand alone or allow connection of seating components to create straight or 120-degree configurations. Power options are also available.

## APPLICATIONS

Use Recharge as booths, micro-environments or bench seating in café areas, lobbies, open plan, atrium spaces, or reception areas.

## KEY FEATURES

Recharge modular lounge seating is constructed of fabric covered foam with upholstery-grade FSC plywood core and box joints.

Each bench has glides that can be adjusted up to 2".

## MATERIALS

- All COMs/COLs must be approved for upholsterability. See pages 6-7 for COM ordering instructions.

## OPTIONS — MODULAR LOUNGE SEATING

Description:

Bench — Single or Double width seats (no back bolster)

Bench with Bolsters — Single or Double width seats with full, half, or corner bolsters

Bench with Bolsters and Screens — Single or Double width seats with full, half, or corner bolsters and full width or full width and 3/4 side screens.

Poufs (mini ottomans) — Round or Square seat

FSC Certified Wood:

**FSC** FSC Certified Wood

Bench Seat Upholstery:

See page 242 for upholstery selections.

Bench Seat Welt Cord Upholstery:

See page 242 for upholstery selections.

Bolster Upholstery:

See page 242 for upholstery selections.

Bolster Welt Cord Upholstery:

See page 242 for upholstery selections.

## OPTIONS — MODULAR LOUNGE CONNECTORS AND TABLES

Description:

Connector Tables — Straight or 120-Degree

Tables — Coffee, Work, or Corner

Laptop Table

Connector Tables

Painted Table Base

See page 241 for paint finishes and codes

## OPTIONS — ELECTRICAL

Description:

Electrical ports are available on seat benches and connector tables with corded, 4-Wire Kits, or hard wire options. See pages 246-247 for specifications and examples. See page 257 for electrical components.

A full gallery of typicals can be found on our website: <https://www.allsteeloffice.com/design-resources/idea-starters>. Each typical includes a complete BOM with current pricing, downloadable CAD files, and PDFs of each drawing.

Crescent lounges create alternative meeting spaces.

Private booths are familiar, cafe-like work settings.

Clusters provide seating options and power for common spaces.

Privacy banquettes form concealed space for a small group.

Sofas offer space to think away from the desk.

Sectional sofas easily scale up or down in length.

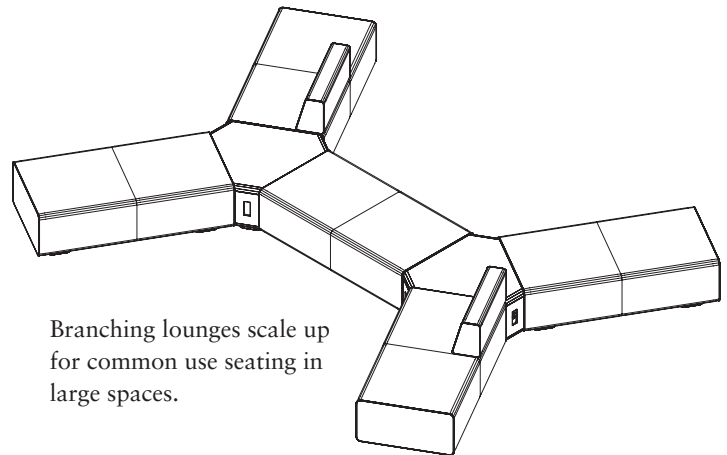

Sectional sofas easily scale up spontaneous work beyond the desk, or down in length.

Space-dividing banquettes define zones with runs of seating.

Sectional return sofas turn 90 degree corners.

Branching lounges scale up for common use seating in large spaces.

**POWER-READY MODELS**

Recharge power-ready Bench models and Connector Tables have cut-out(s) that will accept Recharge Power Ports (ordered separately).

Electrical cutout on the soft seating pieces is located on the side or in the front of the unit. The opening is 1.94"W x 6.25"H.

All Connector Tables come with or without an electrical cutout in them. The 120° x 3 Connector Table has three electrical cutouts, while the 120° x 2 and Straight Connector Tables have one electrical cutout. Electrical components need to be ordered separately from the units.

Recharge Power Ports are UL listed. All power modules have 2 simplex and 2 USB outlets. Three power options with cords are available:

- Corded – plugs a single unit into standard outlet
- Hardwire – connects a single unit to power source by a licensed electrician
- 4-Wire used for powering multiple units – requires 4-Wire Infeed Kit. 4-Wire Jumper Kit(s) may also be required when powering multiple units from the same Infeed. See examples.

It's the customer's responsibility to ensure that installation and use of the electrical system, the number of receptacles used on a given circuit, and connections to the building power supply meets all local and national electrical codes.

**STEPS FOR ORDERING RECHARGE 4-WIRE POWER KITS:**

1. Determine the number and location of powered ports in configuration. A maximum of thirteen Recharge ports can be connected on one Infeed.
2. Order one 4-Wire Power Port for each powered Recharge Unit.
3. Order one Infeed Kit. Each Infeed Kit includes H-Connector which can power either:
  - 3 Recharge units
  - 2 Recharge units and 1 Jumper
  - 1 Recharge unit and 2 Jumpers
  - 3 Jumpers
4. Determine if Jumper with H-Connector Kits are needed for connecting multiple powered Recharge units.
  - A Jumper Kit is required if the distance between the H-Connector on the end of Infeed or Jumper is greater than 72" to the Power Port cutout on the Recharge unit.
  - Jumper Kits are available in 42" and 72" lengths.
  - Infeeds and Jumpers can't plug directly into Power Port.

**ELECTRICAL EXAMPLE 1 — 2 variations**

- 2 – 4-Wire Power Ports
- 1 – Infeed Kit

**ELECTRICAL EXAMPLE 2**

- Any soft seating with 2 MLM16's (120 x 2 connectors)
- 2 – 4-Wire Power Ports
- 1 – Infeed Kit

**ELECTRICAL EXAMPLE 3**

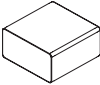

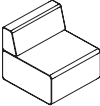

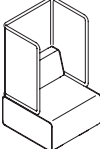

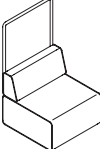

- MLM1's and/or MLM2's with a MLM15 (straight connector table in the middle).
- 3 – 4-Wire Power Ports
- 1 – Infeed Kit
- 2 – 72" Jumper Kits

**ELECTRICAL EXAMPLE 4**

- MLM1's and/or MLM2's with 4 MLM15's (straight connector tables on the ends).
- 4 – 4-Wire Power Ports
- 1 – Infeed Kit
- 2 – 72" Jumper Kits
- 1 – 42" Jumper Kit

- ⊕ Partnership Program — See page 9 for details.
- Available upholstery option
- ◆ Available upholstery option with CTB133 approval — requires FC suffix added to model (FC extra, \$ varies by series)

Take collaboration to a new level.

Rise transforms any space into a meeting space. It is tiered and modular upholstered seating that allows a number of people to gather without taking over an entire room.

Single-sided application:  
3-tier, 2-tier, 3-tier, 2-tier

**MODELS AND OPTIONS**

Rise is designed as building blocks that can be combined into a variety of configurations. Rise is available as non-powered or power-ready. Rise is not intended for use as stairs.

**APPLICATION**

Use Rise back-to-back or side-by-side against a wall in atriums, open plan areas, brainstorming/huddle rooms, conference room, cafés, waiting areas, or lounges.

**KEY FEATURES**

Rise is constructed of fabric covered foam with upholstery-grade FSC plywood core, box joint, and corner block construction.

Rise has glides that are adjustable up to 2".

Ganging brackets with screws are included for connecting multiple units. Two brackets are required to connect two Rise units together. Soft Wall requires a special ganging bracket S922GB if it is not put between two units.

Double-sided application:  
2-tier, 3-tier, 2-tier, 3-tier

**DIMENSIONS**

**RISE 2-TIER**

2-Tier — 34"H x 36"W x 40"D  
2-Tier Corner\* — 34"H x 40"W x 40"D  
Tiers 1 and 2 — 17"H x 20"D

**RISE 3-TIER**

3-Tier — 34"H x 36"W x 40"D  
Tier 1 — 9½"H x 12"D  
Tier 2 — 16"H x 18"D  
Tier 3 — 8½"H x 10"D

\*NOTE: Dimension of unit may not fit through standard door, check installation site prior to ordering.

**MATERIALS**

The outside cover on Rise is fully upholstered. Rise can be specified in a solid color or two-tone on selected models.

- Due to the dimension of the seat Rise fabric will be pattern cut.
- All upholstery foams are CFC-free.
- All COMs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- **Flammability** code compliance of Allsteel textiles and seating is listed on pages 15-17. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013. Allsteel must test a complete model to supply a certificate of compliance with CTB133.

Rise is warranted up to 300 lbs per unit.

See pages 15-17 for upholstery selections.  
See pages 18-19 for colors and codes.

**CORNER MODELS**

Corner Rise models are available in two-tier models and are 40"W x 40"D. Units can be specified in a solid color or two-tone.

**Corner Application:**  
2-Tier, 2-Tier Inside Corner, 2-Tier

**POWER-READY MODELS**

Power-ready Rise models have a cut-out on the front right side of the lower tier (see below) that will accept a Rise Power Port (ordered separately). The opening is 6.25"W x 1.94"H.

Rise Power Ports are UL listed and constructed out of anodized aluminum with a painted, steel faceplate and two water-proof outlets and two USB ports. Three power options are available:

- Corded — plugs a single unit into standard outlet
- Hardwire — connects a single unit to power source by a licensed electrician
- 4-Wire used for powering multiple units — requires 4-Wire Infeed Kit. 4-wire Jumper Kit(s) may also be required when powering multiple units from the same infeed. See examples.

It's the customer's responsibility to ensure that installation and use of the electrical system, the number of receptacles used on a given circuit, and connections to the building power supply meets all local and national electrical codes.

**Front view of 3-Tier Rise Unit**

**STEPS FOR ORDERING RISE 4-WIRE POWER KITS:**

1. Determine the number and location of Powered Rise units in configuration. A maximum of thirteen Powered Rise units can be connected on one Infeed.
  2. Order one 4-Wire Power Port for each Powered Rise unit.
  3. Order one Infeed Kit. Each Infeed Kit includes H-Connector which can power either:
    - Three Rise units.
    - Two Rise units and one Jumper.
    - One Rise unit and two Jumpers.
    - Three Jumpers.
  4. Determine if Jumper with H-Connector Kits are needed for connecting multiple Powered Rise units.
    - A Jumper Kit is required if the distance between the H-Connector on the end of Infeed or Jumper is greater than 72" to the Power Port cut-out in Rise unit.
    - Jumper Kits are available in 36", 72", 108" and 144" lengths.
    - Infeeds and Jumpers can't plug directly into Power Port.
- See examples below. Electrical components listed on page 265.

**Example 1 — Single-sided Application (Top View)**

- 5 – 4-Wire Power Ports
- 1 – Infeed Kit
- 1 – 108" Jumper Kit

**Example 2 — Double-sided Application (Top View)**

- 5 – 4-Wire Power Ports
- 1 – Infeed Kit
- 1 – 72" Jumper Kit

- Partnership Program — See page 9 for details.
- Available upholstery option
- ◆ Available upholstery option with CTB133 approval — requires FC suffix added to model (FC extra, \$ varies by series). Creases and gathers may be visible with CTB133 Fire Code seating due to the construction of the fire barrier material used.

- Allsteel fabrics and foam meet requirements for CTB117.
- Blank spaces indicate that a product has not yet been tested or that it failed.
- Contact Allsteel Customer Support for other flammability code approvals.

*Retreat Lounge is a space-defining collection that supports real work in often underutilized spaces. It defines areas for small groups, provides privacy for individuals, and offers visual consistency in space planning. The lounge collection includes wing-back, high-back, and low-back chairs, and a matching ottoman.*

*Retreat Executive, Conference and Side seating extends premium comfort throughout meeting and private office spaces with its iconic design know from the Retreat lounge collection. The soft, organic shape of Retreat speaks to multiple generations of leaders, while creating a timeless and cohesive aesthetic that does not overwhelm the space or user.*

**DESIGN FEATURES**

Retreat is a space defining lounge collection that supports real work in often underutilized spaces. It defines space for small groups, provides privacy for individuals, and visual consistency in planning and varied elevations.

**Arms**

Arm height is specific for comfort or laptop placement.

**High-Back and Wing-Back**

High-back protects back of head and wing-back provides added visual privacy. Relaxed tailoring is normal and expected in the upper headrest of the wing back (see illustration below).

**Base Options for Chairs**

Select between fixed, swivel, or return-to-center base.

**Materials**

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics meet requirements for CTB117. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CTB117.

**OPTIONS**

Chair Type:

- VERW** Wing-Back Upholstery
- VERH** High-Back Upholstery
- VERL** Low-Back Upholstery
- VERO** Ottoman Upholstery

Fire Code:

- NO** Standard Upholstery, No Fire Code

Base Type (if applicable):

- F** Fixed (Subtract \$300)
- S** Swivel
- R** Return-to-Center (\$265 extra)

Body Upholstery:

See page 271 for upholstery selection. Future “Non-stretch” fabrics will require dual zippers on wing back models (see illustration below).

Single Zipper

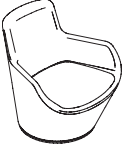

Dual Zipper

Seat Upholstery and Leather:

See page 271 for upholstery and leather selection.

Upcharges listed for Grades 2 and above, add to Base Price. Grades 9-22 on page 330.

*Introducing Parallel, a collection of soft seating and coordinating tables that adapts to a variety of spaces. Parallel is at home in reception areas and collaborative workspaces, accommodating different functions while maintaining a consistent aesthetic. With HBF Textiles, Allsteel fabrics, or a designer's own material, Parallel provides a canvas to make a strong first impression anywhere it's used.*

*Designed in partnership with Chris Adamick.*

**Club Plus Lounge**

## DESIGN FEATURES

### Functional Versatility

*Flexible and functional, Parallel soft seating can be considered a workhorse in helping meet a company's workplace needs, whether it be casual conference areas, lobby and reception settings, or collaborative hubs.*

The variety of sizing and features allows Parallel to adapt from reception to collaborative areas throughout a workspace. The clean lines work well with current and future furniture settings. Generous sizing and thoughtful comfort considerations make the sit comfortable for five minutes or two hours.

### Design Versatility

*Cutting a sleek profile with tapered ellipse legs and a slim, stylistic reveal, Parallel is intended to work with your favorite Allsteel platforms without overpowering the space. The sharp tailoring of the upholstery paired with the dual-density foam means comfort without sacrificing aesthetics.*

The Parallel club chair, club plus lounge, and modular sofa options, as well as the coordinating side and coffee tables, enable a diverse array of setups, from structured stylized formal, to a warmer domesticated corporate vibe, to flexible collaborative in combination with other Allsteel products. A variety of upholstery materials and frame colors celebrates beautiful form while telling a strong design story.

### Wide Arms

6" wide arms with high-density foam allow for a comfortable surface for device usage, and the optional removable sleeve accessory, available in three finishes, makes a stable worksurface on the arm. Designed for comfort but also with the intent that all surfaces are sitting surfaces, Parallel is built to handle perching on the arms and back.

### Design Nuances

- Legs – Ellipse, tapered shape set to the very edge of the frame
- Reveal – Slim reveal around the entire perimeter
- Tailored upholstery – Available with a channeled design detail for a more refined aesthetic

### Materials

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics meet requirements for CTB117. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CTB117.

### Tables (page 286)

- Available with laminate or veneer tops.
- Leg finish option includes painted (color specified) or polished chrome.

## OPTIONS

### Seat and Back Upholstery:

**C** Channeled

### Base Colors:

**P4Q** Carbon

**PR6** Silver

**PJW** Designer White

**PJE** Pyrite

**POL** Polished Chrome

### FSC Certified Wood:

**FSC** FSC Certified Wood

### Seat and Back Upholstery:

See pages 278-279 for colors and codes

### Optional Arm Sleeve Paint Colors:

**P1 P2 P3**

See page 279 for colors and codes

### Table Bases:

**P4Q** Carbon

**PR6** Silver

**PJW** Designer White

**PJE** Pyrite

**POL** Polished Chrome

### Laminate Tabletops:

**L1** Core / Woodgrain

**L2** Woodgrain

**L3** Textured Woodgrain

See page 279 for finishes and codes

### Veneer Tabletops:

**V1** Stratawood

**V3** Natural – Flat Cut

**V5** Natural – Rift Cut

See page 279 for finishes and codes

### Corian Tabletops:

**A** **SAW** Cameo White

**B** **SDW** Designer White

**C** **SES** Deep Night Sky

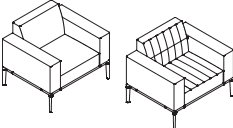

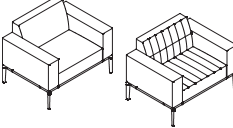

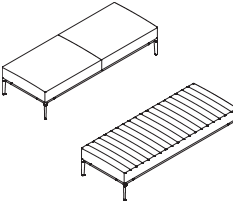

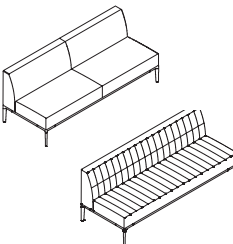

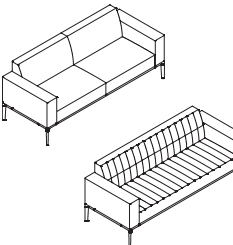

More Corian colors available as specials. Contact AllsteelFinishes@allsteeloffice.com for Corian catalog.

*Linger is a lounge chair that accommodates a variety of postures. Take a seat for longer meetings, sit upright, lounge, or swing your legs over the side. Perch on the back for shorter interactions when you don't want to commit to the sit.*

## MODELS AND OPTIONS

Linger is available in one size with an upholstered seat and a base that can be painted or polished aluminum. Linger is available in solid or two-tone upholstery options.

## APPLICATION

Place Linger in open areas, public or neighborhood spaces, small conference rooms, dedicated collaboration rooms, dormitory lounges, libraries, or hospitality waiting areas.

## KEY FEATURES

Linger is constructed of upholstery over frame and foam with either a painted or polished aluminum base. The core is upholstery-grade FSC plywood with box joint and corner block construction. The base swivels so you can engage the whole room. Plus it self-centers to its original position when not in use to keep spaces ready for the next meeting. Upholster the seat and sides in two different fabrics to create a unique aesthetic. Linger accommodates multiple postures, including the ability to sit on the back ledge.

## MATERIALS AND FINISHES

Linger has a fully upholstered seat that can be specified as a single upholstery or two-tone.

- All upholstery foams are CFC-free.
- All COMs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- **Flammability** code compliance of Allsteel textiles and seating is listed on pages 18-19. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013. Allsteel must test a complete model to supply a certificate of compliance with CTB133.

Linger is warranted for users up to 300 lbs.

## OPTIONS — LINGER

Base Color:

- PR6** Painted Silver
- PAL** Polished Aluminum

FSC Certified Wood:

- FSC** FSC Certified Wood

Upholstery:

- See pages 18-19 for upholstery selections.
- See page 306 for colors and codes.

Reflect creates personal refuges around the open office — in the hallway, adjacent to a row of workstations, or near a wall of windows. Enjoy the privacy of a large, sound-stifling back that reduces distractions and communicates unavailability. Or the generous space formed from wide armrests and an oversized seat, allowing room for your laptop, paperwork, and other tools of the trade. And the comfort of padded upholstery, which cushions you as you finish that email, report, or video call.

With Reflect, going solo doesn't always mean you have to go at it alone. Arrange multiple seats into pairs or pods to give team members a new space to collaborate. Use the concealed swivel to move towards or away from others as needed.

Some time away is good for everyone. Focus your attention in the right place with Reflect.

**MODELS AND OPTIONS**

Reflect is available with an upholstered seat/back and upper shell. Lower shells are veneer and each unit ships with a steel base plate for stationary placement.

**APPLICATION**

Place Reflect in open areas, public or neighborhood spaces, adjacent to workstations or in a cafe-type setting.

**KEY FEATURES**

*Surprising Functionality*

With an integrated swivel-based mechanism, Reflect enables multiple work modes — from 1:1 conversation to private office focus.

*Communicated Privacy*

Sight-blocking and sound dampening upper shell visually communicates unavailability and creates private seclusion.

*Comfortable Yet Active*

Ergonomically designed soft seating promotes upright postures and active working behaviors for the task at hand.

*Beautifully Designed*

Reflect's asymmetrical aesthetic is visually compelling and intuitively offers ancillary worksurface support for beverages and writing with its extended width armrest.

**CONSTRUCTION**

Reflect is constructed of fabric covered foam with an upholstery-grade FSC plywood core with box joint and corner block construction.

FSC Certified Wood at Allsteel  
See page 435 for more information.

*The best work happens when the right people come together in the right space. A space that facilitates uninterrupted thought and sets team members up for everyday office victories.*

*Meet Clubhouse, the newest addition to Allsteel's Social Collaborative collection of furniture.*

*It's where seating, surface and seclusion come together. Clubhouse is easy to set up in any space and fits however your team works. Its framed design serves a dual purpose: promoting collaboration while reducing outside distractions by communicating to others that work is happening inside.*

*Great things happen in your go-to place. That's the beauty of Clubhouse – the get-together getaway space.*

## AVAILABLE CONFIGURATIONS

Clubhouse is available in fourteen unique configurations that span between two different heights. Optional console and storage components provide ancillary worksurface support, media wall applications support technology and a wide array of fabrics and finishes allow for creative expression.

## APPLICATION

Like its sister products, Clubhouse addresses the modern workplace's need for flexibility in an open office design. By forming — not filling — a room, Clubhouse creates a secluded space within any place:

- The brainstorm retreat.
- A private area for the job interview.
- The temporary office for writing that memo to the boss.

## KEY FEATURES

### *Spatial Delineation*

- Microarchitectural-like frame forms a 3D boundary and creates a space within a space.
- Semi-translucent back and side screening elements visually establish privacy and communicate unavailability

### *Extended Use Comfort*

- Soft seating provides long-term comfort for small to mid-sized groups.
- Optional console and storage components provide ancillary work surface support.

### *Support for Technology*

- Optional media wall and table support digital content sharing and power distribution.
- Integrated power within console and storage pieces further enable the usage of technology.

## CONSTRUCTION

The construction of Clubhouse meets or exceeds industry standards for performance.

- Aluminum vertical uprights and horizontal extrusions are robust yet maintain a stream-line design.
- Back and side screens are made from durable polyester yarns. Screens are securely fastened across the top and a magnetic connection across the bottom allows the screen not to be damaged if impacted.
- Seating and console units are constructed of fabric covered foam with a plywood core.

## ELECTRICAL

Electrical is to be separately specified and can be integrated within media walls, consoles and storage components. Standard, Chicago and New York electrical-coded models are available for specification throughout each of the previously indicated items.

When a media wall electrical assembly is specified, table top power integration is automatically included.

Console and storage power integration is only available on a single side of a Clubhouse configuration and is to be called out during the specification process.

Please refer to page 326 for additional information on electrical and power for Clubhouse.

**NOTE:** Clubhouse Typicals can be found at <https://www.allsteeloffice.com/design-resources/idea-starters>

Clubhouse with Table and Media Wall, power ready.

**CONSOLE AND STORAGE ELECTRICAL**

Console and storage Clubhouse units that are “power ready” require electrical module kits to be ordered separately based on local requirements. Select either Standard, Hardwire, or New York standard kits. Consult with your local electrician for the unit that is in compliance

with local and national electrical codes. Verify code requirements before ordering. Chicago requires hardwiring. Exposed power module (shown) consists of one simplex receptacle and one USB hub for powering two devices.

Standard Kit

Hardwire Kit

**Standard Electrical Kit** for Clubhouse “power ready” console or storage units comes with one power module with 72" cord, H-connector, and a 72" sealtight infeed cable. The infeed cable can be connected to a power monument located within the plinth base on the side where the powered console or storage unit is located; or it can be routed under the plinth base to an external power monument as shown above.

**Hardwire Electrical Kit** for Clubhouse “power ready” console or storage units comes with one power module with a 110" of flex cable. The infeed cable can be connected to a power monument located within the plinth base on the side where the powered console or storage unit is located; or it can be routed under the plinth base to an external power monument as shown above.

**New York Electrical Kit** for Clubhouse “power ready” console or storage comes with one power module, H-connector, and cable to New York infeed box which can be attached to the inside surface of plinth base.

**MEDIA WALL ELECTRICAL**

Media Wall Clubhouse units are “power ready” and require electrical module kits to be ordered separately based on local requirements. Select either Standard, Hardwire, or New York Standard kits. Consult with your local electrician for the unit that is in compliance with local and national electrical codes. Verify code requirements before ordering. Chicago requires hardwiring. Exposed power module (shown above) consists of three simplex receptacles and a USB hub for powering two devices.

**Standard Electrical Kit** for Clubhouse “power ready” media wall units comes with one external power module (described above), one internal power module with two simplex outlets to power monitor and accessory, H-connector, and a 72" sealtight infeed cable.

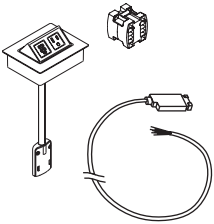

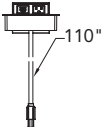

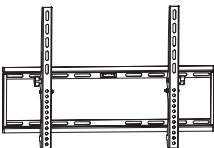

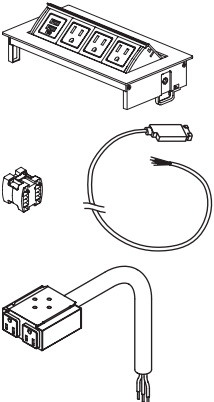

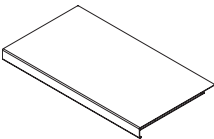

The infeed cable for Standard or Hardwire electrical can be connected to a power monument located within the plinth base on either side of unit; or it can be routed under the plinth base to an external power monument as shown above.

**Hardwire Electrical Kit** for Clubhouse media wall units comes with one external power module (described above), one internal power module with 72" cord and two simplex outlets to power monitor and accessory, H-connector, and a 72" flex infeed cable.

**New York Electrical Kit** for Clubhouse media wall units comes with one external power module (described above), one internal power module with 72" cord and two simplex outlets to power monitor and accessory, H-connector, and cable to New York infeed box which can be attached to the inside surface of plinth base (shown at right).

For specification information see page 326.

FSC Certified Wood at Allsteel  
See page 435 for more information.

ACCENT TABLES OVERVIEW

The spun aluminum Belong occasional tables offer needed horizontal surfaces for small group meeting areas while providing a pleasing aesthetic.

**MODELS AND OPTIONS**

The sculptural curved shape and lightweight design are available in two sizes — Coffee (16"H x 32" diameter) or Side (21"H x 16 diameter). The Belong tops are available in laminate, veneer, or glass with painted pan.

**APPLICATION**

Place in lounge and reception areas, small conference and huddle rooms, media and library areas, and cafés.

**KEY FEATURES**

Belong offers ample horizontal writing surface as a side table next to a chair or bench, or as a small coffee table surrounded by seating. Its organic hourglass shape provides legroom for users to sit up close when using laptops or tablets.

**Belong Side Table**

**Belong Coffee Table**

BELONG

**Belong Side Tables**

- Feature a 16" diameter top.
- Available in with four top finishes: laminate, glass, and veneer.
- Belong Side Table Base is 21"H.
- Specify top and base separately.

**Belong Coffee Tables**

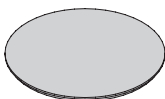

- Feature a 32" diameter top.
- Available in three top finishes: laminate, glass with painted pan, and veneer.
- Belong Coffee Table Base is 16"H.
- Specify top and base separately.

Height-Adjustable Worksurfaces, Bases, and Controls

Height-Adjustable Worksurfaces (page 379)

- Height-adjustable worksurfaces are available in laminate with flat edge and rectangular veneer with matching square edge.
- T-mold is used on the edge of curved worksurfaces. This will have a noticeable visual difference when directly adjacent to straight worksurfaces.
- Worksurface dimensions are nominal. Actual widths are reduced by 2" (1" each side) and worksurface depths are reduced by ¼". Corner cove depth is nominal, actual is 1" less.
- **Rectangular undersized worksurface models' (model number ending in -U) actual widths and depths are reduced by 2".**
- **Corner Cove undersized worksurface models' (model number ending in -LD) actual dimensions are reduced by 2".**
- Altitude worksurfaces are pre-drilled with mounting location for bases.
- Rectangular worksurface grommet location is limited to center location due to mounting of worksurface supports at each end of the worksurface.
- **A6 load capacity is 250 lbs for 2-leg models, 320 lbs for 3-leg models, 350 lbs for 2-leg Max models, and 500 lbs for 3-leg Max models. This includes the weight of the worksurface.**
- **Certain two-piece top configurations may require two stiffeners depending on the footprint of your station.**

Height-Adjustable Bases (pages 376-377)

- Electronic height-adjustable base units are available in six styles: A6-T Base with 2 legs, A6-C Base with 2 legs, A6-T Base with 3 legs, A6-C Base with 3 legs, A6-T Max Base with 2 legs, A6-C Max Base with 2 legs, **A6-T Max Base with 3 legs, and A6-C Max Base with 3 legs.**
- A6 2-stage 1.2"/sec, A6 3-stage 1.4"/sec, A6 Max .8"/sec. Motor devices have a continuous cycle time of 2 minutes with an 18 minute rest period before it can be cycled again.
- Control box is powered by 110-120V/60Hz/4A. Standby power is < 0.1 Watts. Power cords on A6-T models are 10'.
- Pedestals taller than 24½" for 2-stage models and 19½" for 3-stage models when placed under table will limit range in lowest position.
- Mobile box/file pedestals will clear feet on height adjustable base but will extend past edge of worksurface in that position. See chart on page 373.
- Moving worksurfaces can collide with other components. It is important to ensure free range of motion prior to operating the table.
- All tables have adjustable glides providing ½" adjustment on A6.
- Slide glides offered as a .option and model level. Only available on 2-leg bases.
- **3-Leg standard bases can accommodate worksurface configurations from 24"D x 48"W x 36"W to 30"D x 72"W x 48"W.**
- **3-Leg Max bases can accommodate worksurface configurations from 24"D x 48"W x 36"W to 30"D x 72"W x 72"W.**
- Casters available on model level for retrofitting on 2-Leg Bases ONLY.
- Altitude A6 tables feature **collision detection**, a feature designed to stop table travel when the table detects an obstacle.
- Altitude A6 bases specified with a work surface 60"W and greater require the use of an external stiffener. An external stiffener is included in Altitude work surface models 60"W and greater (all models ending with letter -D). If a non-Altitude work surface is being used, an external stiffener may need to be specified separately.

A6 Control Options

- Memory Controls are now a .option.
- Up/Down: Basic Up/Down control.
- Memory Control: 4 memory pre-set options allow the user to adjust their height to their preferred heights.
- Paddle: Simple, aesthetic control with 1 memory pre-set option and reminder mode.
- Foot Control: Basic up/down wireless, hands free control. Can be paired with hand controls for multi-control option.
- Bluetooth Capability: A6 optional Bluetooth capability is sold as accessory model A6BLUETOOTH. Bluetooth is enabled through smartphone app AiDesk. Bluetooth control will only work with 2-leg A6 tables. Bluetooth control will **not** work with 3-leg A6 tables.

Altitude Basic (page 379)

- Altitude Basic can accommodate either 24"D or 30"D work surfaces
- Altitude Basic can accommodate work surfaces ranging from 48"W to 60"W, 60"W is the maximum work surface size for the Altitude Basic
- Supports weight capacity of 180 lbs.
- Control Box: 100-240V, 3.6A, 50/60Hz, 400W
- 9' grounded power cord
- 1½"/second travel speed
- Available in silver only
- Available with up/down control only
- Features "easy-to-assemble" installation

Foot Controls

- Wireless, hands free control.
- Can be paired with hand control for multi-control option.
- 2 AAA batteries needed. Batteries not included.

Cross-sectional Area Inside Under Worksurface Troughs

## Cable & Wire Management

Cable Management Tray

Wire Management Channel

### Cable Management Tray (page 384)

- Attaches under the worksurface to contain cables.
- Metal tray shelf is 4" deep. Can hold electrical power strip and/or surge protector.
- 24" and 36" lengths, use multiple units for larger worksurfaces.
- Attachment hardware included, specify paint color.

### Wire Management Channel (page 384)

- Self adhesive backing to attach to panels and underside of worksurfaces.
- Flexible strips allow cabling to enter/exit and can be contained inside the 2-cavity profile.
- Each cavity provides space for a maximum of six .22" dia. cables. Total capacity = 1 sq. in.

### Cord Management Chain (page 384)

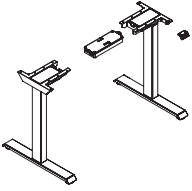

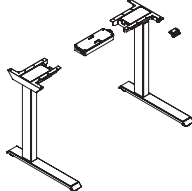

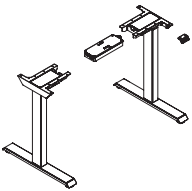

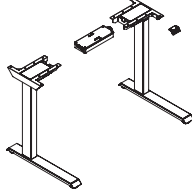

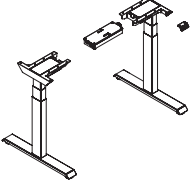

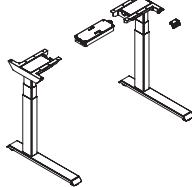

- Works with Approach and Altitude **A6-units**.
- Used to route and conceal power/data cables from control box and other devices. Includes all mounting hardware and a plate to secure to a leveling glide.
- Houses 6 cables @ 0.300" diameter.
- Made of plastic chain with plastic attachment brackets at each end. Only comes in Black finish.

### Under Worksurface Trough (page 384)

- Used to conceal wires and control box below worksurfaces. Trough can be configured at various height/width combinations to meet capacity needs — see illustrations below.
- On 48"W and 54"W worksurfaces use one 17"W trough. 54"W has space to use 2 – 17"W, if necessary.
- On 60"W, 66"W, and 72"W worksurfaces use the 36" trough.
- On 84"W worksurface use 2 – 17"W troughs.

### Quad Tap (page 384)

- Under surface mounting, used on any worksurface.
- 10' Power cord. UL Listed
- 4 Simplex receptacles.
- May be used in conjunction with hinged trough to reduce the number of cords routed from a worksurface to a beam.

Shippable by small-package carrier.

Screens

- See Table 1 for overall table width and depth for each screen shape.
- Adding a screen adds 3" to depth of the table.
- Adding a screen adds 1" to the width of the table per return wing.
- RH L-screens have return wing on user's right; LH opposite.
- **When using a 24"D worksurface with Altitude screens, you must specify a T-foot.**

Power Module

- Contains 5 simplex outlets and 1 dual USB.
- Available in plastic or metal. Metal power module is required for Chicago code.
- Cord options include straight and curly.
  - Straight cord is 144"
  - Curly cord is 120"

ALTITUDE

**Altitude — Metal Screens** (page 406)

- Powder coated magnetic metal privacy screen.
- Metal surfaces can be easily disinfected with cleaners. See cleaning guide for more details at AllsteelOffice.com.
- Available in all standard paint colors.
- Provides 1" gap along the back for accessory mount and cord drop.
- Available in 48"W, 54"W, 60"W, 66"W and 72"W.
- 66"W and 72"W screens include 3rd center bracket.
- Available in Straight, L- and U-shape configurations. Above and Above/Below desk applications.
- L- and U-Shape screens are not compatible with shrouded Height Adjustable Table legs.
- Optional tackable accessories specified separately.
- 66"W tackable accessory comes as a set of (2) 24"W.
- 72"W tackable accessory comes as a set of (2) 20"W.
- Available in standard and extended wings.
- Wings mount flush to the edge of the surface with an L-Bracket.
- 20"W tackable accessory must only be applied to both standard and extended wings without accessory slots.
- Wings are available with accessory slots that accept Radii Hot File, Side Saddle and Coat hook.
- Top slot can accept one Radii accessory.
- Bottom slot can accept a Coat hook and one other accessory.
- Accessories can hang on either side of the wing.
- TIP: If the Hot File is used in the top slot, it will block access for accessories in the bottom slot.
- Do not hang more than 5lbs of weight on wings.
- Screens are compatible with Radii undermount storage.
- Not compatible with standard 120-worksurfaces. Contact Allsteel TPG for custom sizes.
- **When using a 24"D worksurface with Altitude screens, you must specify a T-foot.**

**Size Reference Matrix**

Tackboards	Wing	48"W	54"W	60"W	66"W	72"W
Actual Dimensions	20"W	30"W	36"W	42"W	20"W	24"W
Set of Tackboards	1	1	1	1	2	2

**Accessories — Tackboard** (page 407)

- Tackable accessories come with metal frame available in standard paint colors and fabric options.
- Attach to the screen using a dual lock tape (included in hardware).

**Accessories — Radii** (page 407)

- Wings are available with accessory slots that accept Radii Hot File, Side Saddle and Coat hook.
- Top slot can accept one Radii accessory.
- Bottom slot can accept a Coat hook and one other accessory.
- Accessories can hang on either side of the wing.
- TIP: If the Hot File is used in the top slot, it will block access for accessories in the bottom slot.

**Accessories — Further Worksurface Rail Mount** (page 413)

- Accessory rail must be field cut to fit between the screen brackets.
- The following accessories are not compatible with screens: U9WTC and U9TM.

**GENERAL OVERVIEW**

- Accommodates power and lay-in capacity for data cables.
- Available in 48", 54", 60", 66", and 72" lengths.
- Maximum of 2 duplexes and 2 data ports per side of rail.
- Models come equipped with hardware for in-line connections.
- Fiber optic cables can follow 90 degree turns at the intersection of the power rails.
- Power harnesses snap into electrical brackets within the power rail and accept duplex receptacles.
- Electrical power harness accepts up to 2 duplex receptacles per side of rail.
- End caps are required at an end-of-run, unless connected to an end-of-run power pole or a hub.
- Power rail can be set low to the floor using the floor legs or raised off the floor at 20½" H with elevated legs.

- 1) Power Rail
- 2) Power Rail Support
- 3) Universal Connector
- 4) End Cap

ALTITUDE

**WORKING WITH ALTITUDE POWER RAILS**

**Low Rail with Floor Legs:**

- Each power rail is supported by (2) floor legs.
- Floor legs have a leveling mechanism that can adjust up to 1¼"H.
- Legs are specified separately and come in qty of 1. Each leg is 7¼"D x 2¼"W.
- Leg is inset 2.8" from end of the power rail.
- Universal connector allows "L", "T" and "X" configurations.
- Can connect directly to another power rail in linear applications without use of the universal connector.
- Cannot mount screens on the low rail.
- Power infeed can access the power rail in multiple ways:
  - through a receptacle position on the power rail (side infeed).
  - through the end cap on to the first power block.
  - through power pole using a power pole connector kit.

**Raised Rail**

- Power rails can be raised up to 20½"H using Elevated Legs and/or Hubs.
- Elevated Legs and Hubs can be used in conjunction to create the desired capability and aesthetic.
- Can be in Linear, L-, T- or X-configurations using Elevated Legs, Hubs or Universal Connector.
- Supports screens. See screens section for more details.
- Elevated Legs
  - Inset 2.8" from end of the power rail.
  - Can be shared in between the two rails in linear configuration.
  - Cannot route power and/or data.
  - Specified separately and come in qty of 1. Foot is included.
  - Leg is 15¼"D x 2¼"W x 17¾"H.
  - Order RFDRAWAB separately to anchor to floor. Appropriate fasteners per floor type sourced locally.
- Support Hubs
  - Connect directly to the power rail.
  - Can be shared in between the two rails.
  - L-, T- and X-hubs can be shared in between power rails.
  - End of Run hub is only specified at end condition.
  - Can route power and/or data.
  - Can integrate power pole. Power Pole connector kit is specified separately and come in qty of 1. Foot is included.

**Screens**

- Constructed of painted steel material.
- Standard Allsteel paint options can be applied.
- Screen height is 20"H, provides overall height of 42"H above fixed floor.
- Painted steel is magnetic and cleanable. Refer to cleaning solutions page at Allsteel Office website.
- Attachment hardware included.

ALTITUDE

Altitude Desk + 60"W Low Rail + WKSWMC

Altitude Desk + 60"W Raised Rail + A9CLWMC

### WORKING WITH CABLE MANAGEMENT

- Used to route and conceal power/data cables from control box and other devices. Includes all mounting hardware.
- Houses 6 cables @ 0.300" diameter.
- Specify WKSWMC for 58" chain. Only comes in Black Finish. Recommended for use with Low Rail.
- Specify A9CLWMC for 36" chain. Comes in Black, White and Silver. Recommended for use with Raised Rail.
- Links the power rail to a height adjustable desk.
- Has two connecting points: Top section connects underneath the Height Adjustable Desk and the bottom section connects underneath the power rail using a double-sided tape. Hardware included.
- When mounting the chain to underneath the rail, an adapter link is required. Included in the hardware.

## WORKING WITH POWER RAIL ELECTRICALS

### General Notes about Electrical and Circuitry:

- Power Rail offers a choice of four electrical systems:
  - Four-circuit, 3 + 1
  - Four-circuit, 2 + 2
  - Three-circuit, separate neutrals
  - Eight circuits; two four-circuit systems provided back to back.
  - See Altitude Pricer section “Working with Electrical” for a detailed explanation of each electrical system.
  - All four systems utilize an 8-wire electrical system, rated at 20 amps.
- Per circuit (15 amps Canadian) — 16 amps plannable in U.S.
  - Power Rail and electrical components are UL Listed. Electrical
- Components are also CSA certified.
  - Installation and use of the electrical system, the number of receptacles.
- Used on a given circuit and connections to the building power supply.
- Should follow all local and national electrical codes.

### Electrical Infeeds

- Power infeed cables deliver power from building to panel's electrical system.
- Infeed cables are housed in conduit to separate electrical system from communications and data lines.
- Select quantity of base or ceiling infeed cables depending on individual power requirements.
- Refer to rail supports for infeed access points.

**Routing Power**

- Power infeed can access the raised power rail in multiple ways:
  - Through power pole using a power pole connector kit.
  - Through Support Hubs.
  - Through the infeed vertebrae.

ALTITUDE

**Electrical Systems**

**General Notes about Electric, Circuitry, and Chicago Code:**

- Power Rail offers a choice of four electrical systems:
  - Four-circuit, 3 + 1
  - Four-circuit, 2 + 2
  - Three-circuit, separate neutrals
  - Eight circuits; two four-circuit systems provided back to back.
- See pages 397-398 for a detailed explanation of each electrical system.
- All four systems utilize an 8-wire electrical system, rated at 20 amps per circuit (15 amps Canadian) — 16 amps plannable in U.S.
- Power Rail and electrical components are UL Listed. Electrical components are also CSA certified.
- Installation and use of the electrical system, the number of receptacles used on a given circuit and connections to the building power supply should be in compliance with all local and national electrical codes.

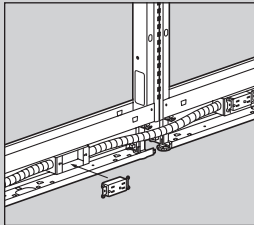

**Caution: Electrical equipment cords or extension cords MUST NOT BE ROUTED through cable openings in frame sides.**

**Note: No more than one conduit that is connected to a harness mounted to horizontal can be routed through the same cut out in the same horizontal at beltline. Attempting to use more will cause binding of conduit and may affect reveals on receptacles.**

**Hardwire New York Code (page 402)**

- Hardwire (New York Code) junction box (model A871400) is used when local electrical codes require hardwire entry. 
- For use in panels 48" W to 72" W.
- Unit must connect to a power harness.
- Customer to furnish all cabling and wiring from power entry to power source.
- Junction box can be positioned at any duplex receptacle location.
- For NY infeed through the end cap:
  - Order 24" pass-thru harness with power block A871124.
  - Will not have power at first cut-out from infeed.
- For NY infeed through a power rail cut-out:
  - Order 48"-72" pass-thru harness with power block. *Harness width must match power rail width.*
  - Will not have power at cut-out location used for infeed.
- For any power rail not used for infeed, order standard electrical power harness.

**Hardwire Chicago Code (page 404)**

- Wiring harnesses and snap connectors are not allowed in Chicago — base pathways must be comprised of all-metallic components.
- The base pathway, junction box (model 873600) clips directly into receptacle locations and can be used both single- and double-sided.
- Customer must furnish conduit, wiring, and designer-type receptacles for the base pathway and conduit, wiring, designer-type receptacles, and receptacle covers for the beltline.
- Power entry can be routed from the floor into a junction box (model 873600). 

**Electrical Infeeds**

- Power infeed cables deliver power from building to panel's electrical system.
- Infeed cables are housed in conduit to separate electrical system from communications and data lines.
- Select quantity of base or ceiling infeed cables depending on individual power requirements.

**Base Infeed (page 403)**

- Sealtight base pathway power infeed mounts into any receptacle position in the base pathway area.
- A heavy rubber sheathing shields conduit, allowing infeed to be exposed.
- A jumper is required to connect base pathway power to beltline.

**Sealtight Electrical Infeed (page 403)**

- Sealtight electrical infeed cable is used with footed panels.
- Should not be ordered prior to installation to have pre-wired as infeed must be routed from inside of panel out to be connected to power.
- Cannot be connected to power harness in panel frame that infeed is brought into unless additional pass-thru harness without power block is used to feed from below beltline to above beltline.

**Power Infeed (page 403)**

- Power infeed connects to a prewired electrical harness in the power rail.
- Most codes allow flex conduit to be exposed after installation. Verify code requirements before ordering for exposed application.

**To Order:**

- Determine which electrical system you will use after consulting your electrician and computer support personnel:
  - The Four-circuit system (4-Hot/2-Neutral/2-Ground)
    - 3 + 1 option
    - 2 + 2 option
  - The three-circuit system (3-Hot/3-Neutral/2-Ground)
  - The eight-circuit system (back-to-back four-circuit systems)
- Determine location, quantity, and circuit of duplexes.
- Determine the appropriate choice and use of isolated, isolated/dedicated, and separate neutrals circuits.
- Specify appropriate power harnesses\* and pass-thru cables.\*
- Determine the location, quantity, and type of power infeed needed.

\* Select power harness models (A8712XX), with the last two digits corresponding with the panel width into which the component is to be positioned.  
The initial cable length can be stretched approximately 3" to transverse "T", "X", "L", and extended straight connectors.

**Flexconnect™ Electrical System Options**

The four-circuit, eight-wire electrical system is widely specified and trusted by hundreds of thousands of end-users. This proven system delivers four circuits for every power infeed in either a 3 + 1 or 2 + 2 configuration. The isolated/dedicated circuits are ideal for sensitive computing equipment, while the common circuits are suitable for faxes, copiers, task lights and other peripherals. Both the 3 + 1 and 2 + 2 systems use the same pre-wired components, making it easy to adjust as electrical needs change.

You can also choose a three-circuit, eight-wire system that has a dedicated neutral for every hot circuit. The three-circuit components have model numbers with an "A" suffix and appear in a gray box in this price.

All three systems utilize an eight-wire electrical system rated at 20 amps per circuit (15 amps Canadian). Concensys panels and electrical components are UL listed and CSA certified.

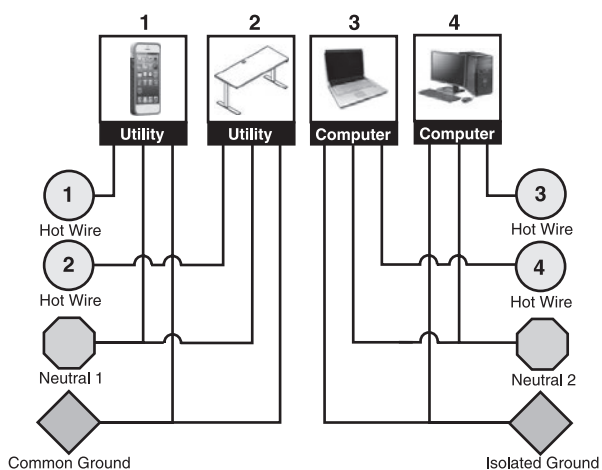

**Four-circuit, 3 + 1 Receptacle Option**

The 3 + 1 option is the electrical standard used on Allsteel systems for many years in most installations. This wiring option provides three utility circuits plus an isolated/dedicated circuit for more sensitive equipment. Circuit 2 (one of the 3 common circuits sharing a neutral wire) cannot be used with single-phase building electrical supply.

**Four-circuit, 2 + 2 Receptacle Option**

The 2 + 2 option is a wiring option that provides two utility circuits and two isolated circuits for more extensive computer usage applications.

Altitude System Receptacle Usage					
Two 8-wire, 20 amp (15 amp Canadian) electrical systems are offered					
Electrical System	Circuitry	Receptacle Capacity			
Four-circuit 4-Hot/2-Neutral/2-Ground	3 + 1	Common Circuit-1 A873501	Common Circuit-2 <sup>(1)</sup> A873502	Common Circuit-3 A873503	Iso/Dedicated Circuit-4 A873504
	2 + 2	Common Circuit-1 A873501	Common Circuit-2 A873502	Isolated Circuit-3 A873506	Isolated Circuit-4 A873504
Three-circuit 3-Hot/3-Neutral/2-Ground	w/separate neutrals	Common Circuit-1 A871501A	Common Circuit-2 A871502A	Iso/Dedicated Circuit-3 A871503A	N/A

(1) Circuit 2 (one of the 3 common circuits sharing a neutral wire) cannot be used with a single-phase building electrical supply.

**Notes:**

- Four-circuit components and three-circuit components (with suffix "A") cannot be used together.
- Components of the two systems are keyed differently to prevent components of one system being connected to components of another system.
- Allsteel model numbers are printed on the UL labels, and components are color-coded to provide visual identification of the different components.
- Four-circuit components have black plastic parts.
- Three-circuit components have rust-colored terminal ends and receptacle backs are rust-colored.

**Duplex Receptacle**

15 amp receptacle

### Infeeds

- Power infeed cables deliver power from building to Power Rail's electrical system.
- Infeed cables are housed in conduit to separate electrical system from communications and data lines.
- Select quantity of infeed cables depending on individual power requirements.

### Base Infeed:

- Sealtight base pathway power infeed mounts into any receptacle position in the power rail housing.
- A heavy rubber sheathing shields conduit, allowing infeed to be exposed.

### Sealtight Electrical Infeed:

- Sealtight electrical infeed is used for power entering through the end cap.
- Should not be ordered prior to installation to have pre-wired as infeed must be routed from inside of the power rail out to be connected to power.

### Power Harness

**Electrical power harnesses** are used to distribute power in the power rail. **Power blocks** on electrical power harness accept duplex receptacles.

- Electrical power harnesses are used to distribute power in Power Rails. Harnesses must be installed in each power rail housing.
- Specify harness length to match rail housing length. Each power harness accepts four duplex receptacles (two on each side of power rail housing).
- Connectors at both ends of power harnesses allow power distribution in either direction.
- Harness power blocks snap directly onto brackets in power rail housing.

### Power Blocks

- Power blocks snap directly onto brackets in the power rail and accept receptacles (sold separately) on each side of harness.

### Duplexes

Duplex Receptacles

### Receptacle Color Recommended to Coordinate with Paint Color

Paint Color	Receptacle Color
Bungalow — P7C .....	Muslin — EU
Champagne Metallic — PR5 .....	Muslin — EU
Cinder — P7Q .....	Brownstone — EY
Fossil — P28 .....	Flint — E9
Gunmetal Metallic — PR3 .....	Brownstone — EY
Parchment — P93 .....	Muslin — EU
Pebble — P8R .....	Loft — EV
Pewter — P8D .....	Flint — E9
Platinum — PR2 .....	Loft — EV
Platinum Metallic — P42 .....	Silver — E5
Salt — P8C .....	Silver — E5
Titanium — P8T .....	Silver — E5

- Duplex receptacles snap into power blocks of power harnesses.
- Duplexes are available in multiple colors. See inside front cover for finishes.
- Each receptacle is labeled to indicate which circuit it will be connected to: 1, 2, 3 or 4.
- Duplexes are model specific to support either 3 + 1 and 2 + 2 electrical infeed; or have an "A" suffix and are designed to support a three-circuit separate neutral electrical infeed.
- At least one duplex must be installed in upper housing side of rail housing assembly (see page 401, "Working with Electrical and Data").

### Data

Voice/Data Receptacle

#### Data Faceplates:

- Fit into data port openings in Power Rail Housing.
- Due to rail housing depth, data modules should not be used back-to-back.

- Ports 1 and 4 accept duplexes, port covers and base infeeds.
- Ports 2 and 3 accept data and port covers.
- Either U1 or U4 must always contain a duplex.
- Data cannot be back-to-back (data in L2 + U2 or L3 + U3 combinations are not permitted).

### Port Cover

- Port covers must be used where no duplex or data faceplate is present.
- Fits into Power Rail port locations in place of duplex receptacles and data faceplates.
- Does not fit into port sizes of other product lines.

### Cable Capacity

- The power rail housing allows continuous voice and data lines to run without interruption.
- Lay-in is provided for environments where systems furniture or cabling are subject to frequent change.
- Lower cavity allows 6 voice/data cables (1/4" dia).
- Upper cavity lay-in allows 6 voice/data cables (1/4" dia).

## Power Rail Receptacle Locations

- For example, in a four-circuit system:
  - Circuit 1 — calculators, fans, etc.
  - Circuit 2 — task lights (could be wired to wall switch)
  - Circuit 3 — CRT or flat screen monitors
  - Circuit 4 — CPUs
- Use circuit 4 for power-sensitive electronic equipment.

**Placement of pedestals and lateral files** may render some duplex locations inaccessible. Pedestal placement may also affect compatibility with pull-up receptacles.

For specification information see page 399.

*Examples:*

### Rail Accessories

Side View

Top View

Phone/ Tablet Stand      Pencil Holder      Rail Mounted Shelf      Vertical Paper Tray

Front View

### Worksurface Mounted Rail (page 413)

- Aluminum extrusion designed to mount to flat edge worksurfaces. Comes with rail and hardware for mounting.
- Mounted rail extends 3/4" on underside of worksurface which may interfere with the mounting of storage and screens.
- Widths available for Altitude tables 12" through 66" in 6" increments. Can pass across seams of ganged worksurfaces in tethered applications.
- Passes behind worksurface bracket on tethered applications.
- For freestanding applications rail should be 6" shorter than worksurface (i.e. 54" rail for 60" worksurface).

### Rail Mounted Accessories

Not recommended for use on panel systems with attached worksurfaces due to fit up issues created with worksurface and panel. Adding accessory rail shifts worksurface — 3/8" away from panel along that edge. Forcing worksurface into place crushes fabric tile and with tiles of other material (steel, marker board, etc) is likely to scratch, dent, or otherwise damage tile during installation.

### U9TM Phone/Tablet Stand (page 413)

- 6 1/2"H x 4 1/4"W and angles back 1 1/4".
- Has a 1/4" x 1" slot in bottom flange to allow for routing cables. Requires 1 1/4" space behind worksurface edge in order to be used.

### U9TP Pencil Holder (page 413)

- 2 3/8"H x 6"W x 3"D.
- Holds approximately twenty #2 pencils.

### U9TS Rail Mounted Shelf (page 413)

- 8"W x 4 1/2"D and sits 2 3/8" higher than top of worksurface.
- Holds up to 8 pounds.

### U9TF Vertical Paper Tray (page 413)

- Sits 12"H x 1 1/2"W x 12"D from back of worksurface.
- Folder front stands 9" high from worksurface top, 1/4" space holds about 280 sheets of copy paper.

### U9WTC Cord Organizer (page 413)

- Can attach to both bottom of worksurface or slides into rail.
- 4"W x 7/8"D, made from sheet metal.
- Top sits flush with worksurface if mounted to worksurface.
- 4 cable cut outs: 2 - .250" diameter and 2 - 0.147" diameter; .250" diameter cut outs are centered between the .147" diameter cut outs.

### Universal Hook (page 413)

- Mounts to underside of worksurface and provides storage for bags, coats and purses. Can be used as a horizontal wire manager.

## Extensions — Introduction

Extensions accessory line by Allsteel is designed to help you create your own space.

- **Create a unique space**

Each person is unique, no one person works exactly like another, and different tasks require different tools. Extensions work tools allow each person the ability to create a unique environment that is all their own. Lots of paper to manage? Need active files within arm's reach? Want to maximize your worksurface space? Need light somewhere other than below a cabinet? Whatever the task, we have the tools to accommodate your workstyle.

- **Create a comfortable space**

With a full line of organization, ergonomic, and illumination tools, Extensions allow you to create a comfortable, ergonomic work area. Organization tools keep important items visible and within your reach. Ergonomic tools help you stay comfortable while working. Illumination tools allow you to put your light where it suits you.

- **Create an organized space**

Tired of all the piles of paper building up on your worksurface? Organization tools house your materials and keep them in an orderly fashion. With a combination of hanging or freestanding organizational accessories, Extensions let you manage everything from binders to paper clips.

- **Organization tools**

Work tools are a durable metal construction. Extensions allow you to manage your workspace smartly with tools like the phone caddy to elevate the phone off the worksurface, landscaped mail box trays to minimize worksurface intrusion, folder holders and tool box pencil holders that hang off the slat rail and each other.

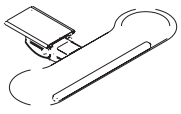

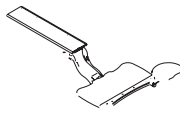

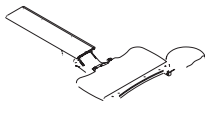

Increase your efficiency with organization!

- **Ergonomic tools**

Ergonomics is more than just comfort, it's flexibility and safety. The adjustable keyboard options allow users to maintain and vary comfortable wrist and arm positions throughout the day, whether typing or mousing. Monitor Arms offer versatile adjustability while providing optimum comfort for the eyes, neck, and shoulders.

- **Illumination tools**

Sleek and flexible, our lighting components offer you several choices. Recessed task lights conserve space and feature electronic ballast for longer bulb life and cooler operating temperature. LED tasklights' slim design blends in with its surrounding while utilizing energy-efficient LED technology. The Link light offers award-winning style to a highly versatile and energy efficient light.

**AKTSHORT Keyboard Support (page 417)**

- Lift and lock intuitive height adjustment.
- Compatible with Altitude Height Adjustable Tables
- Positive and negative tilt for best ergonomic positioning.
- +10°/-20° tilt adjustment and 360° rotation provides support of neutral position of shoulders, arms and wrists while accommodating multiple working postures.
- Surpasses ANSI/BIFMA standards.
- Black powder coat finish.
- Patented secondary slide and unique arm design provide minimal footprint.

**Keyboard Spacer Kit (page 417)**

- Keyboard Spacer Kit required for mounting under Altitude worksurfaces.
- Kit provides ten spacers and hardware for mounting keyboard supports beneath an external worksurface support channel.
- Spacers are 2½"H providing more room beneath surface for mounting.

**CPU Hammock (page 417)**

- Features 360-degree swivel with an 11" track.
- Load capacity is 75 lbs.
- CPU must be minimum of ¾"W with maximum dimension of 64" in perimeter.
- Handy adjustment tool stores within unit.
- Safety feature prevents accidental release of straps and straps can be adjusted while CPU is installed.
- Can be used on Height Adjustable Tables as long as it is attached with spacer model AKMH. Take into account required leg room for users.

**AKTMID and AKTLONG Keyboard Support (page 417)**

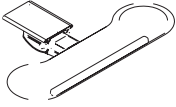

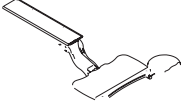

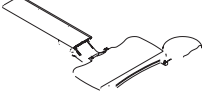

- Lift and lock intuitive height adjustment.
- Positive and negative tilt for the best ergonomic positioning.
- +10°/-20° tilt adjustment and 360° rotation provides support of neutral position of shoulders, arms, and wrists while accommodating multiple working postures.
- Non-handed mouse tray can be moved from right hand to left hand side.
- Surpasses ANSI/BIFMA standards.
- Black powder-coat finish.

For specification information see page 416.

**How to specify —**  
Select the  
Model Number  
from above.

Examples: AKMH ACPU1

 Shippable by small-package carrier.

Allsteel's tool rail works in conjunction with a variety of accessories. Modular accessories free up worksurface space and provide orderly storage that is well within reach. Units can be arranged and rearranged to respond to changing workflow. The work tools that attach to the tool rail are:

- Mail Box
- Folder Holder
- Phone Caddy
- Binder Bin
- Tool Box
- Clip Caddy™
- Sidebar™ Personal Shelf
- Paper Wave™
- Gripper Clip

Additional accessories that work with the **tool rail work tools** aesthetically are:

- Bookends
- Freestanding Mail Box

Coat hooks, marker boards and center drawers round out the organization offering.

Tool rail, shown above, is height-adjustable in 1" increments using slots in panels or metal hutch. Tool rail shown with two tool boxes, two mail boxes, folder holder, and phone caddy. Folder holders and binder bins extend below a tool rail. Paper Wave and contents extend above a tool rail.

### Tool Rails and Work Tools (page 421)

- Sturdy aluminum extrusion with steel support construction.
- Powder coated for durable finish.
- Use to hang Extensions tools. Cannot be used to support monitor arms.
- Suggested weight capacity not to exceed 80 lbs.
- Consideration needs to be given to height of tools and location of worksurfaces.
- For use with Terrace®, Concensys®, and Optimize™ systems.
- 5" high rail (widths coordinate with panels).
- Attachment via vertical reveals.
- Can be hung from wall track. Good solution for above copiers.
- Systems tool rail is off-modular — can be used on a panel of equal width or one size smaller.
- May span two panels of appropriate size, i.e., 60" W Tool Rail on two 30" W panels.

### Tool Rail for Hutches (page 421)

- Will work on Universal, Terrace, Optimize, and Concensys system hutches produced after July 2, 2000 and Align™ metal hutches.
- Sturdy aluminum extrusion with steel support construction.
- Powder coated for durable finish.
- Use to hang Extensions tools. Cannot be used to support monitor arms.
- Suggested weight capacity not to exceed 80 lbs.
- Consideration needs to be given to height of tools and location of worksurfaces.

### Mail Box (page 422)

- Holds standard letter-size paper and inter-office envelopes.
- Minimal horizontal intrusion.

### Folder Holder (page 422)

- Holds manila envelopes.
- Is capable of hanging on other folder holders to maximize space.
- Stores vertically for easy access to files.

### Phone Caddy (page 422)

- Holds telephone at optimum ergonomic angle.
- Wire management cut-outs.
- Accommodates standard phone sizes.

### Binder Bin (page 422)

- Holds folders, binders, and manuals.

### Tool Box (page 422)

- Holds pencils and other writing utensils, large post-it notes, and other desk top accessories.

### Clip Caddy™ (page 422)

- Holds paper clips and other small objects.

### Sidebar™ Personal Shelf (page 422)

- Holds office supplies and personal effects.

### Paper Wave™ (page 422)

- Provides 3 fully divided slots for organizing files.
- Keeps papers from "bowing" at bottom.

**Gripper Clip** (page 422)

- Binds project papers together.
- Mounts to tool rail or tool tile.

**Bookends** (page 422)

- Can be used on shelves or in cabinets.
- Used to hold books, binders, and catalogs upright.

**Freestanding Mail Box** (page 422)

- Incorporates similar aesthetic to mounted Mail Box.
- Mounting brackets allow for free access from front and back.
- Sold in pairs of two; will stack up to eight high.
- Individual mail box dimension = 1 3/4" H.
- Stacking brackets are black.

**Coat Hook APMC6** (page 422)

- Hangs directly into slotted Terrace®, Optimize™, or Concensys® panel frame.
- Use for coat or bag.
- Package of six.
- Available in black only.

**Power/Data Modules — Clamp On Worksurface** (page 428)

- On-surface mounting option, fits on any worksurface with a 4" overhang.
- 6' Power cord. UL Listed.
- Includes adapters to allow use of commercially available data terminals or blanks to fill unused openings. Many of the AMP, AT&T, Krone, Leviton and most commercial data terminals can be used.

**Power/Data Modules — Clamp On Worksurface** (page 428)

- Worksurface clamp can be used on any surface with a 2 1/2" overhang.
- Must be installed at time of initial worksurface installation if installing between a worksurface and panel.
- 6' Power cord. UL Listed.
- The USB hub allows simultaneous powering of 2 USB-A devices. The USB hub is a charger only, no ability to connect to a PC. The charging capacity is limited and may not charge all devices.
- Qi compatible wireless charging available on select models.

**Power/Data Modules — Under Worksurface** (page 428)

- Under surface mounting can be used on any surface with a 5" clearance.
- 6' Power cord. UL Listed.
- Hardware not included.

**Worksurface Power/Data Module** (page 428)

- Provides easy access to technology at primary worksurface.
- Mounts to edge of a worksurface and requires 3/8" gap. Consider whether 3/8" gap will work with layout.
- Must be mounted at time of initial worksurface installation if mounting between a worksurface and a panel. Maintaining 3/8" gap may not be possible with worksurfaces that are panel wrapped.

**Miki Power Modules** (page 428)

- Table top and undermount units.
- Hardware not included on undermount.
- 6' Power cord, UL Listed.
- 1 AC power and 1 dual USB configuration.

**Vesta Mobile Power** (page 428)

- 3 AC power simplex, 1 dual USB-A, 1 USB-C configuration.
- 10' Retractable power cord, UL Listed.
- Unit weighs 13 lbs.

**Metal Center Drawers** (page 423)

- All metal center drawers feature pencil trays with three compartments for storage.
- Center drawers will not fit in center of 24" D worksurfaces which are wider than 60" due to location of center support bracket.
- For locking specifications, see pages 292-293 in the Desking and Benching Price & Specification Guide.
- Ball-bearing slide suspension.

**Laptop Drawer — U7WDA** (page 423)

- Drawer body made of sheet metal.
- Drawer front made of 3/4" particleboard with laminate on both sides and fused laser edge banding.
- Core removable lock is located on right side drawer front
- 17 7/8" W x 18" D x 3 3/8" H Outside (interior 13" W x 16" D x 1 7/8" H)
- Minimum surface depth is 21" for surfaces not using an external stiffener; and 27" for surfaces using an external stiffener.
- Drawer extends 16"
- Maximum load: 45 lbs (functional BIFMA load)
- Drawer assembly and cover have cut out in back to allow for cables to exit drawer.
- Distance from floor to bottom of unit w/glides fully retracted is 24 3/4".
- Does not interfere with Further leg mounting plates so drawer can be placed directly next to either a system or table leg.
- When being placed next tower storage using the tower ell bracket (Z6LB) to support surface the drawer must be inset 3" to clear the ell bracket.
- Can be placed directly next to any support storage from any Allsteel product line (excluding towers).
- Flat brackets — drawer must be offset 3" from seam between surfaces to clear the bracket. See illustration at left.
- Can be used with rabbit edge worksurface models but there will be a larger reveal between surface and drawer.
- Can be used with knife edge worksurface models but reveal and depth need to be considered.

**Flat Brackets**

Front View

Top View

**Polymer Center Drawer - ACD1** (page 423)

- 20 1/2" W x 17" D x 2" H
- Available in black only
- Made from ABS.
- Minimum clearance for mounting: 23" W x 16 1/4" D x 2" H.
- Retracts on 16" ball-bearing slides.
- Can be used on worksurfaces with Height Adjustable Bases as long as it is attached with spacer model AKMH.
- Can store up to 25 lbs.

**Name Plate** (page 422)

- Comes in a 10-pack.
- Metal backer installs under a Terrace or Optimize top cap, can be used with frameless glass.
- Cover is a transparent polycarbonate insert.
- Full plate is 8 1/2" W x 2 5/8" H.

Allsteel Extensions offers Illumination in three styles — Undercabinet LED Light, Wand Light, and **Splitly Light**.

**Recessed Undercabinet LED Light**

Recessed task lights conserve space and provide an efficient solution for illuminating the workplace. All models are equipped with LED strips.

Recessed task light models mount under storage cabinets or shelves to provide optimal space utilization. Models are available in two styles and three sizes to correspond with the width of the cabinet or shelf. Task lights with a fused plug are available to meet Chicago electrical code.

**Undercabinet LED Light**

The Undercabinet LED Light is a low-profile, linear solution for overhead cabinets and shelves and is an ideal solution for painted wood storage. It utilizes energy-efficient LED technology which provides a long life. The Undercabinet LED Light provides the opportunity to mount the fixture where light is needed most.

The Undercabinet LED Light features a metal trough reflector with diffuser lens. The light has a sleek 1/2" thick profile and provides two options for mounting, either magnetically or with hardware. Undercabinet LED Lights can be daisy-chained.

Optional undercabinet occupancy sensor is available which will automatically turn off the fixture after 30 minutes of no detection and back on immediately as the user re-enters the detection range using Passive Infrared (PIR) sensor technology. Unit features 360° lens with 90° outward detection angle, providing a 36" coverage diameter at 18". Occupancy sensor comes with connector and is required to be connected in the sequence shown below. Connect occupancy sensor to a light, or first light in daisy chain to control all linked lights.

**CONNECTION SEQUENCE\***

\*Cannot deviate from this sequence

**Recessed Task Lights (page 426)**

- Black Metal Construction with 9' long black cord attached to right rear corner of the fixture.
- LED strip comes installed within light.
  - 50,000 hour life span
  - 120V-277V
  - CCT 4000K
  - CRI 80+
- Includes 4 cord retainer clips.
- Shorter width models can be used on wider overheads, shelves and hutches.
- On/Off switch provides individual control of tasklight within the workstation.
- Daisy chain models require a master control model — 10 fixtures maximum.
- RECOMMENDATION: Provide a separate circuit for task lights to ensure proper, long-term operation.

**Undercabinet LED Lights (page 426)**

- Low profile energy-efficient LED task light for use with overhead storage cabinets and shelves.
- 20W power supply for 10W 17" unit (.166 amps).
- 20W power supply for 20W 31" unit (.166 amps).
- 60W power supply for daisy-chain starter units (.5 amps). Must order one starter unit for each daisy-chain application.

LED Light Combinations Must Not Exceed 60W in Combination	Power Usage
6X 17"	60W
3X 31"	60W
1X 31" + 4X 17"	60W
2X 31" + 2X 17"	60W

- The combinations that could max out 60W are featured above. *Daisy chained units have a power limit of 60W from one power entry. 17W units use 10W and 31W units use 20W.*
- Specify up to 5 additional 17" interconnect units (ALED17UJMP30) to daisy-chain together with 17" daisy-chain starter fixture (ALED17U60).  
*Example: Daisy-chain 4 – 17" undercabinet LED lights:*  
Specify: 1 ALED17U60  
Specify: 3 ALED17UJMP30 with 10" jumper cord
- Specify up to 2 additional 31" interconnect units (ALED31UJMP30) with 10" jumper cords to daisy-chain together with 31" tasklight (ALED31U60); or 17" daisy-chain starter fixture (ALED17U60).
- 3500K color temperature.
- 131 footcandles at 18" on ALED31U; 76 footcandles at 18" on ALED17U.
- Magnetic or screw-mount option — attachment hardware included.
- On 20 watt models, power drive is attached to plug: allow 1 1/8" D space at outlet.
- On 60 watt models, power drive brick is in center of cord.
- Includes 3 cord retainer clips.
- Meets California Title 24 Energy Efficiency Standards.
- "Instant On" switch with infinite dimming cycle from 100% to 15% with the last state memory, allowing the user to set their desired level of lighting.
- Fixture automatically turns off after 10 hours of use to reduce unwanted energy use.
- Optional occupancy sensor automatically turns off all interlinked fixtures after 30 minutes of no detection and back on immediately when detection is found.

Overhead Length	Suggested LED Sizes
24	17
30	17
36	17
42	31
48	17 + 17
60	31 + 17
72	31 + 31

Note: LED lights may need to be positioned along length properly to allow jumping to additional overheads. Suggested sizes above are recommendations for single overheads to provide as much light along length of overhead as possible.

The suggested sizes factor in 4 inches of room for the power inlet and occupancy sensor (optional).

**Wand™ Task Light**

Wand freestanding task light offers a clean, simple design along with powerful LED technology to illuminate the workspace. The swivel base and arm tilt allow users to position the light just where they need it. The 7.7 watt LED light offers efficiency and long life, providing up to 25 years of daily use. The slim, sleek design makes it easy to integrate into any workspace. Wand task light is 97% recyclable. Occupancy sensor and/or charging models available.

**Wand LED Freestanding Task Light (page 427)**

- Available in Silver or White. 9'4" cord is Silver.
- Full range dimming from 100% – 10% with last state memory.
- Uses 5W at highest setting and as low as 1 watt at its lowest setting, providing 75 to 12.7 footcandles of light, respectively (16" above worksurface).
- 7½" round swivel base and 16½"H tilt arm allow versatile positioning of the 13" lampshade.
- Designed for 50,000 hours of life.
- Color Temperature: 3500K. Color Rendering Index (CRI): 80.
- Materials: aluminum arm and lampshade, steel base.
- Weight: 4.4 lbs. 97% recyclable, 76% post-consumer.
- Certifications: UL and CUL. TAA compliant.
- Occupancy sensor available with automatic shut-off after 15 minutes if no motion is detected.
- USB model features USB-A (1), USB-C (1) charging within base of unit.
- USB model also features occupancy sensor. 7.5W (A) & 18W (C) power consumption.

**Splitty Task Light**

Splitty's organic and modern design compliments the workstation while also bringing rich features to the user. In addition to illuminating the space, Splitty can also be a teleconferencing tool through Splitty's 360-degree light head adjustment and soft touch, continuous dimming. Integrated charging allows for small personal device charging crucial to the modern worker's workplace toolkit while minimizing clutter within the station. Optional clamp or tool tile mounts available as accessories.

**Splitty Task Light (page 427)**

- Available in Silver, White, or Black (accessories available in silver only).
- Cord is 12' long.
- Cord is silver when black or silver finish specified, white when white light is specified.
- Soft touch on/off, dimming.
- Continuous dimming (100% – 3%) with last state memory.
- 5.8W of energy consumption. 7W at highest setting, 0.6W at lowest.
- 5" 360-degree swivel light head, 6.54" round swivel base and 17"H arm. Arm has full 180 degree rotation and 360 degree swivel.
- Designed for 60,000 hours of life.
- Color Temperature: 3500K, Color Rendering Index: 90.
- Materials: aluminum, plastic.
- USB-A has 5W of power consumption.
- USB-A (1) charging at bottom of light arm stem. Charging feature compatible for any mounting method.
- Clamp mount compatible with surfaces ¼" – 2¼" thick.
- Tool tile mount has 1½" adjustment range, minimum slot height of ⅜".

For specification information see pages 424-425.

\*Use of APACSM Slider Model will allow for wider monitor capabilities

### Pivot Standard Weight Monitor Arms

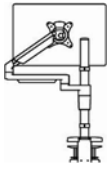

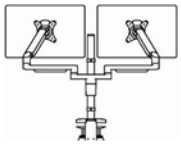

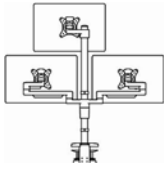

- Adaptable and adjustable to user preference the Pivot monitor arm offers a slim and refined design coupled with easy fingertip adjustment.
- Multiple points of adjustment including 360 degree swivel with optional 180 degree lockout, 18.75" extension, and 10" of height adjustment.
- Monitor tilts +25/-25 degrees.
- Standard weight arms utilize a tension spring that allows for effortless adjustment of monitors to proper ergonomic positions.
- Tension adjustment at multiple points allows for proper adjustment for monitors weight between 6-17 lbs.
- Model includes grommet and worksurface mounting options.
- Desk clamp mounts require ¾" – 2" thick surfaces; grommet mount requires hole diameter of ⅜" to 2" wide and accommodates up to 2" thick surfaces.
- Integrated cable management included with each model. Black models ship with all black cable management pieces, Silver models ship with grey wire management but optional white pieces ship in the box and can be installed on site.
- Dual monitor arm supports up to 25" wide monitors. Wider monitors may require use of optional slider mount model.
- Pivot arms are VESA 75mm and 100mm compatible.
- Quick release feature simplifies monitor installation and changes.

### Pivot Slider Mount

- Provides 11.8" of horizontal movement.
- Allows for wider monitors to be used on dual monitor arms and sit flush side by side.
- Not compatible with Pivot Heavy Duty Series.

### Pivot Heavy Duty Series

- Adaptable and adjustable to user preference the Pivot monitor arm offers a slim and refined design coupled with easy fingertip adjustment.
- Multiple points of adjustment including 360 degree swivel with optional 180 degree lockout, 20.75" extension, and 12" of height adjustment.
- Monitor tilts +25/-25 degrees.
- Tension adjustment at multiple points allows for proper adjustment for monitors weight between 8-35 lbs.
- Model includes grommet and worksurface mounting options.
- Desk clamp mounts require ¾" – 2" thick surfaces; grommet mount requires hole diameter of ⅜" to 2" wide and accommodates up to 2" thick surfaces.
- Integrated cable management included with each model. Black models ship with all black cable management pieces, Silver models ship with grey wire management but optional white pieces ship in the box and can be installed on site.
- Dual monitor arm supports up to 2 monitors weight 4-17.5 lbs each.
- Pivot arms are VESA 75mm and 100mm compatible.
- Quick release feature simplifies monitor installation and changes.

\*Use of APACSM Slider Model will allow for wider monitor capabilities

### Pivot Post Series

- Adaptable and adjustable to user preference the Pivot monitor arm offers a slim and refined design coupled with easy fingertip adjustment.
- Multiple points of adjustment including 360 degree swivel with 21" extension and 10.6" of height adjustment.
- Monitor tilts +25/-25 degrees.
- Tension adjustment at multiple points allows for proper adjustment for monitors weight between 6.5-17 lbs per arm.
- Model includes grommet and worksurface mounting options.
- Desk clamp mounts require 7/8" – 2" thick surfaces; grommet mount requires hole diameter of 3/16" to 2" wide and accommodates up to 2" thick surfaces.
- Integrated cable management included with each model. Silver color option with grey wire management only.
- Dual monitor arm supports up to 25" wide monitors. Wider monitors may require use of optional slider mount model.
- Single and dual models have a post height of 17.7"; Triple monitor model has a post height of 27.5".
- Pivot arms are VESA 75mm and 100mm compatible.
- Quick release feature simplifies monitor installation and changes.

### Pivot Counterweight Kit

- Counterweight Kit to be used with monitors weighing less than 6 lbs.
- Gray color only.
- Counterweight weighs 1 lb. 6 oz.

### Pivot Conversion Kits

- Kit allows user to transform single monitor arm (Standard, Heavy Duty, or Post) into Dual Arm configuration
- Available in black and silver, Post arm only available in silver
- Required wire management included
- Once assembled, will aesthetically emulate dual configuration of chosen arm

**FSC Certified Wood at Allsteel**  
See page 435 for more information.

**Aware Collection**

Allsteel designed a flexible and comprehensive collection of active learning furniture. The Aware Collection consists of buffet and recycle credenzas, mobile and wall-hung marker boards, and unique shaped table tops that offer a timeless design. Look to the Aware Collection brochure for full details.

**Materials and Edge Treatments**

Aware tables offer functional flexibility and aesthetic versatility to provide one, simple solution for the entire office. The broad selection of materials and finishes ensure that the tables look beautiful in any application.

**Laminate Edges**

Flat Edge

T-Mold\*

Knife Edge — All 4 Sides

Eased Edge — Front Side Only

**Veneer Edge**

Square Edge

T-mold tops will have a 3/4" radius on all corners.

24"D or 30"D Knife edge rectangle tops feature a shaped edge on all four sides. Eased edge tops feature a shaped edge on one side.

Allsteel Fluid Form is an advanced surface material that offers a seamless solid base layer with protective coating. Its seamless 3-dimensional edge profile eliminates the need for edge banding or T-mold making it ideal for horizontal surfaces.

**FSC Certified Wood at Allsteel**

Forest Stewardship Council® (FSC) certification promotes the sustainable harvesting of forests worldwide. The FSC program sets requirements for the management of the forest and for everyone that handles the wood from forest to product. Allsteel has an FSC Chain of Custody and can provide FSC certified products to customers who choose to order them. FSC products can contribute to LEED projects. To order FSC products, the "FSC" option must be selected in the model code at time of order. For more information, please contact Customer Support at 888-255-7833.

**Space Requirement Guidelines**

Tables:

- 24"-30"W per person depending on materials
- 4' between tables
- Breakout Rooms 10-12 sq. ft. per person
- Computer Training 20 sq. ft. per person

**Aware Tables — Maximum Space Reduction**

Space reduction when storing:

- up to 71% by nesting
- up to 82% with table truck
- up to 86% by folding

Percentage will vary with quantity and size of tables.

**Space Savings With Nesting Tables**

1. Start with table size in nested position:  
 18"D table = 18"D  
 24"D table = 24"D  
 30"D table = 30"D  
 36"D table = 36"D
2. Add 7¼"D for each additional nested table (no additional required if modesty panel is attached).  
 Example: A 24"D table in nested position is 24"D.  
 Add 9 additional nested tables  
 (9 x = 69¾"D).  
 Depth requirement for ten nested tables is 93¾"D.
3. Add 1½"W for each additional nested T-Leg table to the width of the widest table. Maximum 6" additional width. (3"W for V-Leg; maximum 12" additional width)  
 Example: Ten 72"W tables are nested.  
 72" + 6" = 78"W
4. Total space for 10 nested tables above is 93¾"D x 78"W.
5. Space saved by nesting is over \_\_ square feet.
6. Table height of Aware nested tables:  
 18"D table = 37⅞"H nested  
 24"D table = 41⅞"H nested  
 30"D table = 44⅞"H nested  
 36"D table = 47⅞"H nested

**Folded Tables Standard — Side View**

**T-Leg Nested — Top View**

**V-Leg Nested — Top View**

**POWER/DATA PORT CUTOUTS FOR AWARE TABLES**

When specifying Aware tables, grommets or power/data port cutouts may be specified for power/data. Grommets are available in plastic or oval (shown at right). If cutouts are specified, a pop-up power/data port must be specified for use in the cutout. Cutouts are unfinished and cannot be used as grommet openings. The chart below indicates which grommet or cutout options are available on Aware tables.

- Code**    **Position**
- AGO**    No grommets or cutouts.
- AG1**    Single grommet, centered left to right, 2" from back of surface.
- AG2**    Pair of grommets, approximately 3" in from each side, 2" from back of surface.
- ATC**    One cutout for Pop-up Power, centered left-to-right and front-to-back. Only on 30"D and 36"D tables. Do not specify on folding or nesting tables.
- ATE**    One cutout for Pop-up Power, centered left-to-right, 2" in from back of surface.

**Grommet Locations**

36"D x 72"W	•	•	•	•	•

**WIRE MANAGER CABLE CAPACITY**

21 voice/data cables (.25" dia.) at 60% fill ratio

2 electrical infeed at 60% fill ratio

13 voice/data cables (.25" dia.) at 60% fill ratio

**ELECTRICAL OPTIONS**

Aware Tables offer three power options: Corded, Interlink IQ, or Hardwire. Installation and use of electrical systems, the number of receptacles used on a given circuit, and connections to the building power supply should be in compliance with all local and national electrical codes. Verify code requirements before ordering. Chicago requires hard wiring. Chicago and New York do not permit use of Interlink IQ components.

**Corded**

Corded models plug directly into an outlet. Corded modules cannot plug into other corded power modules. In order to plug into other units the unit would need to be hardwired. When routing corded models to a wall outlet, the maximum amount of cord that can be exposed outside of the furniture is 6 feet. (New York, check local code.)

**Interlink IQ**

Interlink IQ provides the ability to use one 15-amp infeed starter and power up to 8 power modules (including jumpers) off of one infeed starter. Interlink IQ provides a visual indicator of system status. LED illuminates green when you are connected and ready to plug in. A red light indicates you have linked too many units. See page 438 for examples of multiple tables using Interlink IQ components.

**Hardwire**

Hardwire models are provided with 10' of sealtight cable. Customer must furnish junction boxes, conduit, and additional wire to be in compliance with local and national electrical codes.

**Wire Trough**

Attach wire trough as needed to the underside of tables to support cords.

AWARE

**Interlink IQ Examples**

The example above utilizes the following Interlink IQ components to power three 72" W Aware tables:

- 3 – Interlink IQ 60" Power Harnesses  
model number: AW4QH60P  
(provides two AC power receptacles per unit)
- 2 – Interlink IQ 36" Jumpers model number: AW4QJ36
- 1 – Interlink IQ Starter model number: AW4QBI

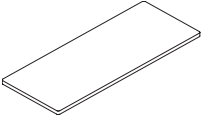

The example below utilizes the following Interlink IQ components to power five 72" W Aware tables:

- 5 – Interlink IQ 60" Power Harnesses model number:  
AW4QH60P  
(provides two AC power receptacles per unit)
- 2 – Interlink IQ 36" Jumpers model number: AW4QJ36
- 1 – Interlink IQ Starter model number: AW4QBI

- Order folding legs separately — see options on page 442.
- Specify grommet location, type, and color — see page 438.
- Eased edge tops feature shaped edge on front side.
- Optional electrical components, wire trough, modesty panel, and ganging hardware ordered separately — see pages 459-462.

Examples: AW3LT1860F.X.LM13EY.AG2PEY AW3FE3072F.FSC.TF33.AG0 [S] Shippable by small-package carrier.

- Order top for folding legs separately — see options on page 441.
- Legs are sold in pairs. Folding models do not include beam; order width to match width of top.
- Leg finish options include painted (color specified) or polished. Legs require some assembly.
- Legs below with top from previous page creates seated height 29"H table. Glides provide ½" of adjustment.
- All casters are urethane tread locking casters. Choice of Black or Silver.

Examples: AW3LT3060T.X.LM13EY.AG2PEY

Shippable by small-package carrier.

- Order top separately — see options on page 451. “T” suffix top for T-legs and “V” suffix top for V-legs.
- Legs are sold in pairs. Nesting models include beam, order width to match width of top. Standing height models come with external stiffener.
- Leg finish options include painted (color specified) or polished. Legs require some assembly.
- Select legs below with top from previous page to create either a seated height 29"H table or a 42"H standing height table. Glides provide ½" of adjustment.
- All casters are urethane tread locking casters. Choice of Black or Silver.

- Order Top separately — see options on page 457. “T” suffix top for T-legs and “V” suffix top for V-legs.
- Leg finish options include painted (color specified) or polished. Legs require some assembly.
- All casters are urethane tread locking casters. Choice of Black or Silver.
- Legs are sold in pairs. Nesting models include beam.
- Legs below with top from previous page creates seated height 29" H table. Glides provide ½" of adjustment.

Examples: AW2TLPGB.P7B AW2TL36N48CS.PAL.S

Shippable by small-package carrier.

**Modesty Panels:**

- 9¼"H x ½"D.
- Modesty panel must be removed from tables prior to folding.
- Tables may be nested with modesty panel attached to table. Nesting depth of additional tables does not increase.
- Modesty panel is undersized by 9¾" from width of table top.
- Nesting V-leg models require one size smaller modesty panel than T-leg. Example: 42"W Nesting V-leg table requires AW4HM36. See below.

**Universal Hook**

Mounts to underside of worksurface and provides storage for bags, coats and purses. Hooks can be used as a horizontal wire manager under worksurface.

**Ganging Bracket**

- One-step tool-free operation.
- Tables have pre-drilled holes for proper installation and alignment of ganging mechanism.
- Includes two ganging links and two screws. Recommend one package of 2 brackets per table.
- **Ganging brackets will not work with knife edge surfaces.**

**Laptop Drawer**

- Drawer body made of sheet metal.
- Drawer front made of 3/4" particleboard with laminate on both sides and fused laser edge banding.
- Core removable lock is located on right side drawer front
- 17 7/8" W x 18" D x 3 3/8" H Outside (interior 13" W x 16" D x 1 7/8" H)
- Minimum surface depth is 21" for surfaces not using an external stiffener; and 27" for surfaces using an external stiffener.
- Drawer extends 16"
- Maximum load: 45 lbs (functional BIFMA load)
- Drawer assembly and cover have cut out in back to allow for cables to exit drawer.
- Distance from floor to bottom of unit w/ glides fully retracted is 24 3/4".
- Can be used with rabbet edge worksurface models but there will be a larger reveal between surface and drawer.
- Can be used with knife edge worksurface models but reveal and depth need to be considered.

**Aware®**

Front View

Top View

**Aware Tables**

- Can only be used on 30" deep surfaces due to interference with internal stiffener.
- Can only be used with fixed legs; no nesting or folding legs.
- Cannot be used with an external stiffener.
- T-legs- drawer must be offset from worksurface edge by edge to leg distance + 3 3/4" to clear leg mounting plate.
- V-legs- drawer must be offset from worksurface edge by edge to leg distance + 3 3/4" to clear leg mounting plate
- See illustrations at left.

**Not on Merge® or Altitude® Tables**

- Cannot be used with Merge tables due to interference with internal stiffener; and Altitude tables due to interference with external stiffener.

[5] Shippable by small-package carrier.

**Wire Trough**

- Accepts cords for routing
- Wire trough adheres and screws to underside of table surface

**Wire Manager Covers**

- Attaches to leg and conceals power, voice, and data cables.
- Will not work on large T folding legs.
- Cable capacity shown on page 438.

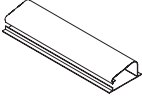

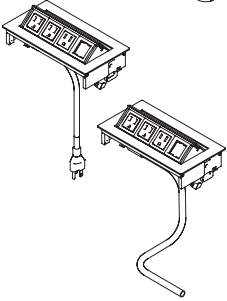

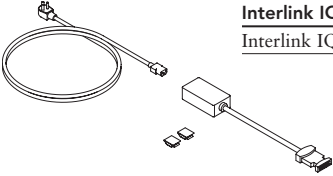

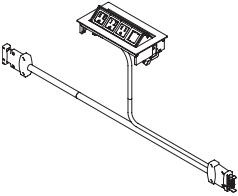

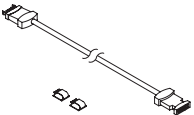

**Power/Data Ports**

- Corded has 10' cord and plug.
- Hardwire has 10' cord.

**Interlink IQ Electrical Modules**

- Pluggable, single circuit electrical system
- UL recognized as a powered table system and meets the requirements of UL 962
- Interlink IQ modules require a minimum of one Interlink IQ starter.
- A maximum of 8 Interlink IQ power modules (including jumpers) can be "daisy chained" together in any combination off of one 15-amp infeed starter.

- System status indicator:
  - Red light indicates too many units connected
  - Green light indicates appropriate use
- All models include wire management clips and hardware
- Power harness includes 60" cord and 11" tail. Daisy chained tables in line over 60" will require 36" jumper between modules.

**Technology Modules**

- Can be mounted by clamping to worksurface or mounting flush to the worksurface top.
- The USB hub allows simultaneous powering of four USB-A devices.
- Technology Modules have 10' cords.
- Opening size needed to flush mount in worksurface.

**Worksurface Power/Data Module**

- Provides easy access to technology at primary worksurface.
- Mounts to edge of a worksurface and requires 3/8" gap. Consider whether 3/8" gap will work with layout.

S Shippable by small-package carrier.

- 2- and 3-Bay credenzas ship fully assembled.
- Available in solid and woodgrain laminate colors. You can select one laminate for the case and a second laminate for the front doors and back panels. Credenza top including front edge is the same color as the case.
- Painted mesh in Designer White, Flint, or Silver at top and bottom of the front and back sides of unit provides passive ventilation.
- Edge guards on mesh and wire manager protects cords and fingers.
- Grommet models feature square Silver metal grommet.
- Six leveling glides on 72"W, four glides on 48"W. Leveling range is 1".
- Credenzas are constructed from ¾" thick high-pressure laminated particleboard with 1 mm edge banding and European cam-and-pin construction.
- Units are shipped with either lock cores removed or as non-locking. Core removable lock option allows key numbers to be easily changed in the field. Cores available in the Casegoods & Storage price list on page 54. Note: Middle cabinet on 3-Bay units do not lock.
- Shelves are painted metal. Base shelves are secured, except center shelf in 72"W credenza.
- Interior bay dimensions are 22"W x 28½"H x 22⅜"D. Secured bottom shelves are 19"D to account for ventilation and wire management. Rated for 50 lbs.
- Removable back(s) snap on for easy component installation.
- Bottom wire management channel runs entire width of credenza.
- Optional top hung drawers (8½"H) use full extension slides; limit of one drawer per bay. Drawers cannot be used in same bay with AV rack, waste pullout, and will limit size of refrigerator.
- Slide out A/V storage rack features EIA spacing with twelve usable rack spaces.
- Units ship with one adjustable shelf per bay. Shelves are adjustable in 6" increments.
- Additional metal shelves are field-installed using supplied template, maximum of three per bay.

- Mobile marker boards are available in porcelain or laminated glass.
- Mobile tack boards are two-sided with platinum fabric and silver frames.
- Feet are 24"D x 3"H on 50"H and 30"D x 3"H on 72"H units. The low profile foot fits under most footed panels and storage.
- Foot design allows multiple boards to be nested.
- Mobile boards have two locking casters.
- Boards are shipped with feet unattached in same package.
- Porcelain boards are two-sided white, magnetic, and can be used for projection. Smooth, dry-erase porcelain surface for easy writing and clean erasing. Low odor markers are not recommended.
- Laminated glass boards are two-sided white, non-magnetic. For best results use bold marker colors. Low odor markers are not recommended.
- Marker and eraser holder comes with suction cups for attachment.
- Optional hooks are designed to hold large easel pads with slots.

Shippable by small-package carrier.

- Wall-hung marker boards are available in porcelain or back painted glass.
- Porcelain boards are white, magnetic, and can be used for projection. Smooth, dry-erase porcelain surface for easy writing and clean erasing. Low odor markers are not recommended. Slim frame design, front of frame is 5/32". Frame is anodized aluminum with mitered corners and extends 3/4" from the wall.
- Porcelain boards can hang either vertical or horizontal. Galvanized steel Z-brackets are included. Wall fasteners not included.
- Glass boards are white, back painted glass that are easy to clean and erase. Constructed with 1/4" tempered safety glass with beveled corners, polished edges, and a steel back. Boards are magnetic. Frameless, floating mounted board extends 1/2" from wall. For best results use bold marker colors. Low odor markers are not recommended.
- Wall-hung boards are designed to easily attach to a solid wall without exposed hardware for an integrated appearance.
- Hanging instructions provided. See glass note below.
- Marker and eraser holder comes with suction cups for attachment.

48"H x 48"W	AW4WB4848G	126	4.7	\$ 4071
36"H x 48"W	AW4WB3648G	95	3.4	\$ 3284

**Note:** If multiple boards are being installed on the same wall, use caution when positioning glass panels next to each other. Due to the weakest point of tempered glass being along the edges, the edges should be protected as much as possible. To insure a successful installation, leave a gap of one quarter inch between boards to prevent damage to the glass. Allsteel will not be held responsible for damage caused by improper installation.

GSA SIN 33721

- Lectern features laminate construction with painted metal base and accents.
- Angled surface is 24"W x 11½"D with ⅜" lip at bottom.
- Removable back panel provides easy power and cord routing from bottom of unit to top.
- Recessed area at top right for water or beverage.

- Metal surface at top left, front for mounting microphone holder or light is 5"W x 7"D. Requires end-user to drill applicable holes for mounting.
- Recessed center area at top front provides room for cords and power supplies. Flip-up laminate door provides easy access and hides cords. Area has an Extron cut-out

- and two simplex cutouts for mounting two AW4LECTPWR power units below. Extron super plate unit purchased separately.
- Storage shelf below angled surface is 4"H x 24¼"W x 10"D. Cut-out at front of compartment for routing cords.
- Four 2¼" casters for mobility, all are locking for lectern to remain stationary when necessary.

AWARE

Setting the table for change.

Today's corporate training room can take many forms, including lectures, brainstorms, and breakouts – sometimes requiring multiple transformations in a single day. Whether you're planning for an hour-long meeting or an aggressive all-day agenda with various room changes, the Aware collection can easily create the space you need right now and adapt to create the space you'll need in a few hours.

Horizontal surfaces to be full-fill, ClearTech finish.

*The beauty of wood is the natural variation of grain patterns and colors that make each piece unique. This variation is also influenced by lighting conditions, orientation of mated parts, and varying acceptance of the finishing process. The varying colors and physical characteristics naturally occur in all wood species but are most pronounced in lighter colored woods, and are especially evident in natural finishes.*

**NOTE:** Refer to individual product pages for upcharges.

**FSC Certified Wood at Allsteel**

See page 435 for more information.

Harvest Classic Table  
120"W x 48"D Full Top with 29"H Non-Powered Base

Harvest brings all the collaborative potential of a multi-purpose table to the corporate environment. It's welcoming. Useful. It invites conversation and interaction whenever people meet up. So it's easy to Harvest the best ideas.

## MODELS AND OPTIONS

Select the seated table height models for meeting and conference rooms or touchdown areas. Or specify a standing-height version for project spaces or cafés. Harvest Classic includes an optional split top that facilitates cord management and power/data hubs that allow for easy access to technology. The sliding doors in the technology trough not only provide easy access to cords from below, but are painted to add an accent color to the space. A solid top can be specified when technology access isn't as critical. Harvest tables are available in laminate or veneer.

## APPLICATIONS

Place Harvest tables in cafés, atrium spaces, libraries, open-plan areas, and conference rooms.

## KEY FEATURES

Harvest Classic tables are offered in a variety of sizes with power and data capability. Inspired by gathering spaces where people like to talk and share, like the dining room table or coffee area in the office, it invites conversation and interaction whenever people meet up.

## TABLE CAPACITIES

Table Top	Seating Capacity
72"W x 36"D	4
72"W x 42"D	4
72"W x 48"D	4
96"W x 36"D	6
96"W x 42"D	6
96"W x 48"D	6
120"W x 36"D	8
120"W x 42"D	8
120"W x 48"D	8

72"W x 36"D Split Top with 42"H Powered End Panel Base

## MATERIALS AND FINISHES

### Laminate Edge

Flat Edge

### Veneer Edge

Square Edge

## CLEARANCE DIMENSIONS

### Between Bases

End panel bases are 3"D making clearance between bases 6" less than the width of top:

- 72"W top has 66" clearance
- 96"W top has 90" clearance
- 120"W top has 114" clearance

### End Panel Bases

All end panel bases have a hidden center channel 7"W x 1½" D for routing cables from floor to trough. The end panel access door can be mounted flush to bottom for a clean aesthetic or rotated to provide a one-half inch offset to allow for additional cord and cable clearance.

Powered end panel models feature cutouts for mounting a power/data hub and align with end panel center channel and the technology trough of top. Full tops (without split) can be used with powered end panels. Cutout is finished with a PR6 Silver bezel.

### Split Tops

Split tops provide a 1¼" gap for routing cords and power adapters. Inside technology trough dimensions are 7"W x 3¼"D.

### Wire Trough and Beam

A recessed wire trough runs the length of all table tops. It is accessible through three sliding doors on the under side. Sliding doors can be easily removed for cleaning.

Center trough with beam is 10¼" wide and extends 5¼" below top. Clearance under top and under trough:

- 29"H End Panels provide 28¾"H / 23"H
- 42"H End Panels provide 40¾"H / 35½"H

Distance from front edge of surface to trough:

- 36"D Top is 12⅞"D
- 42"D Top is 15⅞"D
- 48"D Top is 18⅞"D

### ELECTRICAL OPTIONS

Harvest Classic Tables offer three power options: Corded, Interlink IQ, or Hardwire. Installation and use of electrical systems, the number of receptacles used on a given circuit and connections to the building power supply should be in compliance with all local and national electrical codes. See matrix on page 472 for suggested cord length requirements. Verify code requirements before ordering. Chicago requires hard wiring. Chicago and New York do not permit use of Interlink IQ components.

#### Corded

Corded models plug directly into an outlet and can be mounted back-to-back. Corded modules cannot plug into other corded power modules. In order to plug into other units the unit would need to be hardwired. When routing corded models to a wall outlet, the maximum amount of cord that can be exposed outside of the furniture is 6 feet. (New York, check local code.)

#### Hardwire

Hardwire models are provided with 20' of sealtight cable. Customer must furnish junction boxes, conduit, and additional wire to be in compliance with local and national electrical codes. Hardwire surface mounted modules cannot mount back-to-back and require units to be mounted side-by-side (see below).

### Interlink IQ

Interlink IQ provides the ability to use one 12-amp infeed starter and power up to 8 power modules (including jumpers)

off of one infeed starter. Interlink IQ provides a visual indicator of system status. LED illuminates green when you are connected and ready to plug in. A red light indicates you have linked too many units.

#### Interlink IQ Examples:

- Example #1** – 120" Harvest Classic table with full top, power needed in end panels
- (1) **S913P06LS** – 6' Interlink IQ starter
  - (2) **S913PLE** – Interlink IQ end panel power module
  - (1) **S913P05LJ** – Interlink IQ Jumper
- Example #2** – Two 120" Harvest Classic tables with split tops, power needed in end panels and throughout table
- (1) **S913P06LS** – 6' Interlink IQ starter
  - (2) **S913PLE** – Interlink IQ end panel power module
  - (4) **S913PLM** – Interlink IQ surface mounted power module
  - (2) **S913HPLE** – Interlink IQ Hidden power module

### Harvest Classic Electrical Routing

**Harvest Electrical Cable Length Routing Matrix** Add length from "A" or "F" to power source to dimension below.

Table Width:	Any	72" Wide Top				96" Wide Top				120" Wide Top			
<b>Routing Paths:</b> <i>(Reference illustration above)</i>	A to B	A to C	A to D	A to E	F to D	A to C	A to D	A to E	F to D	A to C	A to D	A to E	F to D
	F to E	F to C	F to B	F to C	F to B	F to C	F to B	F to C	F to B	F to C	F to B	F to C	F to B
<b>Table Height:</b>	29½"H	66"	84"	102"	48"	78"	102"	126"	54"	90"	120"	150"	60"
	42"H	78"	96"	114"	60"	90"	114"	138"	66"	102"	132"	162"	72"

#### General Rules

- Corded power modules cannot plug into other corded power modules. Corded modules can plug into hardwired modules.
- Corded power running to a wall outlet is limited to 6' of cord exposed outside of the furniture. (New York, check local code)
- An Interlink IQ Starter is required for Interlink IQ components and can support a maximum of 8 power modules (including jumpers) in any combination.
- Chicago requires hardwire. Interlink IQ can not be used in Chicago or New York.

- All models below include rectangle top and beams with bottom access sliding doors to create a technology trough. Order the same depth end panel bases separately on page 474.
- Laminate tops have a flat edge that is color coordinated. Veneer tops have a matching square edge.
- Beams with sliding doors are painted metal and available in P1, P2, or P3 paint colors.

GSA SIN 33721

- Models below include two end panel bases and connecting hardware. Order matching depth tops that include beams and doors separately on page 473.
- Laminate end panel bases have a flat edge that is color coordinated. Veneer bases have a matching square edge.
- All end panel bases have a 7" W x 1½" D hidden center channel for routing cables from floor to trough.
- Powered end panel bases are power and data ready. Order electrical and data modules and cables separately. See page 475.
- Powered end panel base has cut-out for mounting end panel power/data module and space in the trough for routing cables.
- Non-Powered end panel bases do not have cut-outs.

HARVEST

- Harvest Classic tables offer three power options: Corded, Interlink IQ, or Hardwire.
- Corded models plug directly into an outlet. Corded modules cannot plug into other corded power modules.
- When routing corded models to a wall outlet, the maximum amount of cord that can be exposed outside of the furniture is 6'. (New York, check local code)
- In order to plug corded models into other units the unit would need to be hardwired.
- Interlink IQ modules require a minimum of one Interlink IQ Starter.
- A maximum of 8 Interlink IQ Power Modules (including jumpers) can be “daisy chained” together in any combination off of one 12-amp infeed starter.
- Interlink IQ provides a visual indicator of system status. LED illuminates green when you’re connected and ready to plug in.
- Hardwire models are provided with 20' of sealtight cable.
- In hardwire applications customer must furnish junction boxes, conduit, and additional wire to be in compliance with local and national electrical codes.

The Harvest Rustic table is designed to help you feel at ease hosting gatherings of all kinds. Seated- and standing-height tables are perfect for everything from the brainstorm to the weekly donut club. All the necessities of the office mixed with an appealing, familiar aesthetic. Bring your team together around the Harvest Rustic table.

### MODELS AND OPTIONS

Harvest Rustic offers three wood finish options for the legs to mix and match a wide selection of laminate top finishes or select a rustic plank top in matching finish. Perfect for cafés, atriums, open-plan areas, and collaboration spaces.

Choose between seated- and standing-height tables, square and rectangular shapes. Standing-height tables have a footrest for added comfort.

Harvest Rustic powered tables include built-in power and USB capabilities to power equipment.

### POWERED TABLES

Each table includes six simplex electrical outlets and six double USB ports (illustrated below) that are recessed at 6 locations within the 12" D x 3" H cubbies located just below table top on the two longest sides. Cubby area provides ample room for power supplies, excess cord, phone, and other paper, binders, or supplies — keeping the table top clear for the work at hand.

### NON-POWERED TABLES

Non-powered models feature a wooden apron on all four sides of the table (no cubbies). Without cubbies, non-powered tables cannot be easily converted to powered tables.

The beauty of wood is the natural variation of grain patterns and colors that make each piece unique. This variation is also influenced by lighting conditions, orientation of mated parts, and varying acceptance of the finishing process. The varying colors and physical characteristics naturally occur in all wood species but are most pronounced in lighter colored woods, and are especially evident in natural finishes.

The Harvest Metal table is designed to help you feel at ease hosting gatherings of all kinds. Seated- and standing-height tables are perfect for everything from the brainstorm to the weekly robotics club. All the necessities of the office mixed with an appealing, familiar aesthetic. Bring your team together around the Harvest Metal table.

### MODELS AND OPTIONS

Harvest Metal offers numerous painted options for the metal legs to mix and match a wide selection of laminate and veneer top finishes. Perfect for cafés, atriums, open-plan areas, and collaboration spaces.

Choose between seated- and standing-height tables, square and rectangular shapes. Standing-height table has a footrest for added comfort.

Harvest Metal powered tables include built-in power and USB capabilities to power equipment.

### POWERED TABLES

Each table includes six simplex electrical outlets and six double USB ports (illustrated below) that are recessed at 6 locations within the 12"D x 3"H cubbies located just below table top on the two longest sides. Cubby area provides ample room for power supplies, excess cord, phone, and other paper, binders, or supplies — keeping the table top clear for the work at hand.

### NON-POWERED TABLES

Non-powered metal models feature cubbies, but without any knock-outs for receptacles. Non-powered tables cannot be easily converted to powered tables.

- Table comes complete with laminate or veneer top, painted metal legs — 29"H seated or 42"H standing height, and support structure — assembly required.
- See page 480 for powered tables.
- Non-powered tables feature a metal apron on the two depth sides and cubby storage on the two width sides. Cubbies on non-powered tables do not have electrical or data ports and therefore cannot be easily converted to powered tables.
- Cubby shelf color is not specified and comes in Flint.

Structure rounds out the Allsteel table offering and supports a wide array of applications, from conference rooms to café settings and everything in between.

The tables are adaptable and interchangeable for use in multiple spaces. The combination of rich details and durable design creates an experience out of any activity at the office while elevating culture and brand. A variety of table top shapes, edges, bases, and finishes ensures a consistent aesthetic throughout the entire floorplan.

### MODELS AND OPTIONS

Structure is available in five heights and ten top shapes.

### APPLICATION

Use in open meeting areas, dedicated collaboration rooms, neighborhood spaces, cafés, large and smaller conference rooms, libraries, and lounge areas.

### KEY FEATURES

Range of shapes, sizes, and configurations to meet the needs of any space available in an array of materials.

### MATERIALS AND EDGE TREATMENTS

Woodgrain laminates will be aligned within  $\frac{3}{8}$ " across seams unless otherwise noted in the price guide pages.

#### Laminate Edges

### GRAIN DIRECTION AND ALIGNMENT

**SINGLE-PIECE TOPS** – Woodgrain laminates as standard product are always oriented with the grain direction running parallel to the length of the table top.

**TWO & THREE PIECE TOPS** – Tops longer than 96". Woodgrain laminates as standard product are always oriented with the grain direction running parallel to the length of the tabletop. Allsteel will create best match grain alignment but cannot guarantee a perfect match along the seam between the pieces of laminate.

**SPECIAL TOPS** – Specials for wide tables. Woodgrain laminates as specials wider than 60" are always oriented with the grain direction running parallel to the seam of the tabletop. Allsteel will create best match grain alignment but cannot guarantee a perfect match along the seam between the pieces of laminate on two and three piece tops.

### RECOMMENDED COORDINATE COLORS

For Plastic Grommets on Laminate specify the same color used for the edge color; or the following plastic grommet color based on edge selected:  
Natural Maple, Fawn Cypress, Natural Recon.....Muslin EU  
Phantom Charcoal.....Flint E9  
Phantom Ecru.....Loft EV  
Portico Teak.....Fossil EH  
Shaker Cherry.....Black E4  
Skyline Walnut.....Flint E9

For Plastic Grommets on Fluid Form specify either same color as painted legs/base; or the following plastic grommet color based on Fluid Form selected:  
Auburn Cherry.....Black E4  
Natural Maple.....Muslin EU

For Plastic Grommets on Veneer the color is predetermined based on finish selection.  
All Maple veneers.....Muslin EU  
All Cherry, Walnut and Dark Rift Oak veneers.....Black E4

Forest Stewardship Council (FSC) is a non-profit organization devoted to encouraging the responsible management of the world's forests. FSC sets high standards that ensure forestry is practiced in an environmentally responsible, socially beneficial, and economically viable way. Allsteel received its FSC Chain of Custody certification in 2010 and can offer FSC Certified products. Select wood-based products can be ordered as FSC certified, either by choosing the FSC option or selecting an FSC laminate or veneer finish at the time of order. For more information, please contact Customer Support at 888-255-7833. (FSC Trademark license code: FSC-CO14704.)

All of Allsteel's tables are level® – 2 certified to the ANSI/BIFMA e3 Furniture Sustainability Standard. See [www.levelcertified.org](http://www.levelcertified.org) for more information.

**NOTE:** Refer to individual product pages for upcharges.

### Structure Bases

\*\*\*Indicates widest width to determine knee space

Large T Base — 29"H  
Available in glides or casters.  
\*\*\*36½"

Medium T Base\* — 29"H  
Available in glides or casters.  
\*\*\*25½"

Small T Base\* — 29"H  
Available in glides or casters.  
\*\*\*19½"

Post-Legs — Fixed or 6" Adjustable  
Height — 29"H  
Available in glides or casters.

Large X Base — 18", 27", 29"H  
Glides only.  
\*\*\*36½"

Medium X Base\* — 18", 27",  
29", 36", 42"H  
Available in glides or casters.  
\*\*\*28½"

Community Legs — 29"H  
Glides only.

Small Cylinder — 29"H  
Glides only.  
\*\*\*18"

Large Square Pedestal —  
18", 27", 29", 36", 42"H  
Glides only.  
\*\*\*25"

Medium Square Pedestal —  
18", 27", 29", 36", 42"H  
Glides only.  
\*\*\*20"

Large Round Pedestal —  
18", 27", 29", 36", 42"H  
Glides only.  
\*\*\*28"

Medium Round Pedestal —  
18", 27", 29", 36", 42"H  
Glides only.  
\*\*\*24"

Large Cylinder — 29"H  
Glides only.  
\*\*\*20"

Large Cylinder w/Power  
Management — 29"H  
Glides only.  
\*\*\*20"

Cube — 29", 42"H  
Glides only.  
\*\*\*20"

Hollow Panel — 29"  
Glides only.  
\*\*\*25½" x 5½"

### Power and Wire Management

10' Corded Power

10' Hardwire Power

Large Undersurface  
Mount Power

Power/Data Ports

Wall Mount Bracket

Table Media Mount

### Structure Adaptive Tables convert any space into a meeting space.

Adaptive Tables feature a self-centering drop leaf and height-adjustable table top to provide a solution that quickly lifts, lowers, and docks to adapt to spontaneous changes in work and space requirements.

### Add Workspace to Existing Worksurfaces

Adaptive Tables feature a self-centering drop leaf and height-adjustable table top allowing the tables to effortlessly dock next to existing worksurfaces. Simply drop the leaf, adjust the height, and dock. The drop leaf is designed to tuck under the worksurface while docking to provide a seamless transition from worksurface to table.

Adaptive table tops are 36" W with the drop leaf up and 22¼" W with the drop leaf down. The bases are 28" in diameter.

Round  
w/Drop Leaf Up

Round  
w/Drop Leaf Down

### Store Tables Beneath Existing Worksurfaces

Adaptive Tables tuck beneath existing worksurfaces by adjusting the height. Adaptive Tables feature a gas cylinder to provide quiet, smooth movement. Simply pull the height-adjustment lever and push down on the center of the table top to lower the height of the table.

To raise the height of the table, simply pull the height-adjusting lever beneath the edge of the table top and the table will automatically rise. Release the height-adjustment lever to set the table height. Adaptive Tables adjust from 26" H to 33" H.

### Convert Table Position from Docked to Freestanding

Adaptive tables quickly convert from a docked position to freestanding by simply pulling the drop leaf up. The self-centering mechanism ensures that the base remains in the center of the table top whether the drop leaf is up or down.

### Combine Table Surfaces and Base Finishes

The wide variety of material options and base finishes allow Adaptive Tables to integrate seamlessly into any space. Table tops are available in laminate, with Flat Edge or Knife Edge treatments. Cast aluminum table bases are available with painted or polished aluminum finishes. Polished Aluminum models feature black vertical columns.

Structure tables exceed BIFMA Standards and are backed by the Allsteel lifetime warranty. Die-cast and extruded aluminum components are lightweight, yet highly durable. The self-centering drop leaf has a maximum load capacity of 125 pounds.

### IN-SURFACE POWER

#### Corded

Corded models plug directly into an outlet and cannot plug into other corded power modules. In order to plug into other units the units need to be hard-wired. When routing corded models to a wall outlet, the maximum amount of cord that can be exposed outside of the furniture is 6 feet.

#### Hardwire

Hardwire models are provided with 10 feet of sealtight cable. Customers must furnish junction boxes, conduit, and additional wire to be in compliance with local and national codes.

Qi charging is available on Corded and Hardwire versions.

- Includes 3 Qi charging coils (5 watts each) for wireless charging.
- Units have LED indicator lights below the lid's surface.
- Units house power and charging USB inside. All units are Qi certified.
- Cut-outs are centered on single-piece tops.
- Cut-outs are available for round, square, and soft square tops 54" or greater.
- Cut-outs are aligned with the shape of the table.

.C0 - No Cut Out  
 .ATE - Small Edge Cut Out, 4" x 8"  
 .C1 - 1 Large Center Cut Out, 5" x 11"  
 .C2 - 2 Large Center Cut Outs, 5" x 11"  
 .C3 - 3 Large Center Cut Outs, 5" x 11"  
 .G1 - 1 Small Center Cutout, 4" x 8"

## LARGE PEDESTAL AND X-BASE

2 electrical infeed (0.55" dia.) and 18 voice/data cables (0.25" dia.) at 60% fill ratio. Note: 3.5" diameter column with wire manager.

## LARGE PEDESTAL AND X-BASE

1 electrical infeed (0.55" dia.) and 23 voice/data cables (0.25" dia.) at 60% fill ratio. Note: 3.5" diameter column with wire manager.

## LARGE T LEG

2 electrical infeed (0.55" dia.) and 11 voice/data cables (0.25" dia.) at 60% fill ratio.

## LARGE T LEG

1 electrical infeed (0.55" dia.) and 16 voice/data cables (0.25" dia.) at 60% fill ratio.

## SMALL AND MEDIUM T LEG

2 electrical infeed (0.55" dia.) and 9 voice/data cables (0.25" dia.) at 60% fill ratio.

## SMALL AND MEDIUM T LEG

1 electrical infeed (0.55" dia.) and 14 voice/data cables (0.25" dia.) at 60% fill ratio.

## MEDIUM PEDESTAL AND X BASE

2 electrical infeed (0.55" dia.) and 11 voice/data cables (0.25" dia.) at 60% fill ratio.

## MEDIUM PEDESTAL AND X BASE

1 electrical infeed (0.55" dia.) and 16 voice/data cables (0.25" dia.) at 60% fill ratio.

## WOOD BASE ELECTRIC CAVITY GUIDE

All wood bases can accommodate cables. The below diagrams document the narrowest opening to plan for when considering which base to order. For the cleanest look and access on a cylinder, consider using AMPTCYLBWM, which includes a larger bottom cavity with door access.

STRUCTURE

- Order Base Separately.
- Order power units separately.
- Tops ship with pilot holes for locating supports.
- Reference page 487 for cutout locations.
- Middle seams on multi-piece tops are not edgebanded.
- External stiffeners are included with top models when required.
- Available in laminate (flat or knife edges).
- For 72" to 84" tops, the woodgrain direction runs parallel with the seam and will have greater alignment variations.

- T-leg table bases are available in painted or polished aluminum.
- T-leg available with glides or casters.
- T-leg casters are locking with urethane tread.
- T-leg glides provide ½" adjustment.
- T-leg bases require some assembly.
- AMPTGST support gussets are needed when ordering 60"W or greater tops with T-Legs.
- Height-adjustable post-legs adjust from 26½"H to 32½".
- Post-leg models contain four legs and ship two per carton.
- Post-legs require some assembly.
- Post-leg glides provide 1¼" adjustment.
- Community table legs come in kits of 2, 4, 6, or 8.
- Community legs provide a recessed channel with cover to route cords from floor to undersurface.
- Community leg glides provide 3" adjustment.

- Tables feature a self-centering drop leaf and height-adjustable table top. See page 486.
- Table tops are 36" W with drop leaf up and 22¼" W with drop leaf down.
- Tables adjust from 26"H to 33"H.
- Tables feature urethane tread locking casters.
- Round tables have a 35" interface when the drop leaf is down.
- Tables will allow slight rotational movement of the worksurface relative to the base because of the functionality of the height adjustable cylinder.

- Table Media Mount is used to mount a television to the end of a table top when not against a wall. Mounting hardware is provided for television sizes 32 to 50 with VESA Mounts of 100x100 to 200x200; for some televisions, additional hardware is required.
- The Wire Management Covers snap on to legs. See wire capacity on page 488.
- The Cable Management Tray attaches under the surface and is 4" deep to contain cables, a power strip and/or surge protector.
- Wire management channel has self adhesive backing to attach to panels or underside of surface.
- Each wire-management channel has 2 cavities that can hold six .22" dia. cables
- Wire basket models include basket and two vertical hanging supports made of .148" dia. steel wire.
- Verticals must be placed 18" or more apart from one another and must be within 15" from each end of the basket. Can hold a maximum load of 25 lbs.
- A cord management snake is used to route and conceal power/data cables from outlet to undersurface. Includes all mounting hardware and a plate to secure to leveling glide. Can house six .300" dia. cables.

S Shippable by small-package carrier.

Cleaning instructions are listed on the back of our fabric cards and are available in written form upon request.

### CLEANING CODES

- D** Dry clean only.
- L** Clean with warm water and mild soap, using clean cloth, as soon as possible.
- P** Clean with detergent and water or perchlorethylene.
- R** Detailed recommended cleaning and/or disinfecting procedures are available upon request.
- S** Only pure, water-free solvents may be used. CAUTION: Use of water-based or detergent-based solvents may cause shrinking and/or permanent water stains.
- SM** Same as S. Do not brush.
- SW** Clean with water-based cleaning agents, foam or pure water-free solvents (Energine, Carbona, Renuzit, or other similar products). Vacuuming or light brushing is recommended to prevent dust and soil buildup.
- W** Water-based cleaning agents or foam may be used.
- WS** See SW.
- X** Brush or vacuum only.
- XS** Brush and vacuum only, NO liquid cleaners.

### CLEANING VINYL

Vinyl-coated fabrics are perhaps the most maintenance-free fabrics ever produced and certainly will provide exceptional service life if given proper care. Almost all vinyl manufacturers now provide information concerning the necessary cleaning procedures for their products. In reality, all care and maintenance instructions are the same for all coated fabrics regardless of their manufacturing origin.

**Everyday soil** — A gentle mixture of any mild soap and warm water will generally dissipate most common soil from the surface. Using a soft cloth, wash the area to be cleaned and rinse. If stubborn dirt remains, such as a stain embedded in the grain of the vinyl, use a soft brush, and if necessary, a touch of cleaning powder. In both situations, rinse and dry with a soft cloth.

**Gum** — Remove as much chewing gum as possible prior to the application of Naptha or Kerosene, worked in with a soft cloth. If gum cannot be removed, ice may be used to harden the gum so that it separates itself from the vinyl surface. (This same method is also useful in removing wax.)

**Ink Spots** — You must work quickly! Magic Marker, India ink, and ballpoint pen immediately will affect pigments, and, for the most part, are difficult to remove. It is recommended that a solution of water and rubbing alcohol be applied and gently rubbed on the spot as soon as possible. Hair sprays containing alcohol are sometimes effective in emergencies for removing ink.

**Nail Polish and Polish Remover** — These products will immediately damage vinyl surfaces and, to retard further damage, should be carefully wiped clean.

**Paint** — Try to remove as soon as possible. It is not recommended that any paint removers or brush cleaners be used. Clean oil-based paints with a soft clean cloth and Naptha. To clean latex-based paints, use the same method as recommended for everyday soil.

**Tar, Asphalt, Etc.** — Petroleum-based products will stain all vinyl if allowed to stand too long. Clean as soon as possible with a cloth followed by the immediate application of Kerosene or Naptha.

Products are now on the market that are manufactured to enhance the beauty and service life of all vinyl. However, by using the methods described above with sensible care and attention, the consumer should enjoy years of satisfaction and pride with any vinyl-coated fabrics.

### CLEANING LEATHER

Because leather is a natural product, it needs very little or no care during normal usage.

**Spots and Spills** — Wipe excess liquid up immediately with a clean, absorbent cloth or sponge. If necessary, use clean lukewarm water only and let dry naturally. If water is used, clean the entire area where the spot occurred. An example would be the entire seat cushion or the entire arm. Do not dry wet areas with hair dryers, etc.

**Stubborn Spots and Stains** — Use a mild, non-detergent cleaner such as bar or Ivory soap. Apply the soap to a clean, wet sponge and wash, then rinse well. Allow to dry naturally.

**Butter, Oil, or Grease** — Wipe excess butter, oil or grease off of the leather with a clean dry cloth, then leave it alone as the spot should dissipate into the leather in a short period of time. Do not apply water or try to wash a butter, oil, or grease spot.

**DO NOT USE** saddle soap, cleaning solvent, furniture polish, oils, varnish, abrasive cleaners, soaps, window cleaner, or ammonia water.

Allsteel, as an HNI company, adheres to the HNI Enterprise Sustainability Policy of 2008 and its related procedures. The Design for the Environment Procedure directs the product design process to consider potential environmental impacts of the product; including materials selection, packaging and transport, product use, and design for disassembly at the end of the product's useful life. The Manufacture for the Environment Procedure sets goals related to energy efficiency, waste recycling, air emissions reductions, worker safety, water efficiency, increased renewable energy, and chemical reductions.

The Enterprise Sustainability Policy sets goals and measures results, driven by the ANSI/BIFMA e3 Furniture Sustainability Standard and evaluated in the 3rd party certification called level®. Rigorous quantitative evaluation criteria cover four categories: materials, energy and atmosphere, human and ecosystem health, and social responsibility. The audit process evaluates the individual products, the manufacturing site(s), and the corporation. Allsteel's furniture is level 2 and level 3 certified to the standard. (ANSI is the American National Standards Institute, an organization that directs the transparent development process of national standards.)

In addition, Allsteel's products support requirements of LEED (Leadership in Energy and Environmental Design), the green building rating system. Whether a customer seeks to achieve LEED certification or just obtain the benefits without certification, Allsteel's products meet the standards set forth in LEED. Allsteel is proud to support sustainability initiatives in the building industry as a member of the U.S. Green Building Council (USGBC).

Allsteel complies with the Federal Trade Commission Part 260 Guide for the Use of Environmental Marketing Claims. Our third-party certifications support our environmental statements and our credibility. Third-party certification involves an independent assessment declaring that specified requirements pertaining to a product, process or management system have been met. Allsteel's third party certifications include BIFMA level® 2, SCS Indoor Advantage™ Gold, and FSC®. Select products are Cradle to Cradle Certified™ Bronze and/or have third party certified Environmental Product Declarations.

Nearly all of Allsteel's products are level 2 or level 3 and Indoor Advantage Gold certified. FSC® certified products are available; check price lists for details.
