LIV

---

## PURPOSEFUL EXPRESSIONS

Versatility finds true expression in LIV's selection of veneers, laminates, upholstery choices, and metal finishes. Each option invites personalization without compromising design excellence. In the spirit of Gunlocke's craftsmanship tradition, LIV empowers spaces to reflect distinctive character, supporting the art of tailored environments with time-honored elegance.

## INTELLIGENT FLEXIBILITY

Today's evolving work settings demand solutions as agile as the people who inhabit them. LIV answers with an adaptable portfolio that includes stacker chairs, guest seating, and stools, all designed to serve the guest experience, foster team interaction, and encourage meaningful connections. Each model is thoughtfully crafted to support the dynamic needs of modern spaces, offering flexibility without compromising on style or comfort.

---

## DESIGN INTEGRITY

---

With LIV, every detail is intentional. Its shell is formed from precision-shaped bent plywood, creating a strong, lightweight structure with a sculptural silhouette. Subtle contours are engineered to support natural posture, delivering ergonomic comfort within a refined, minimalist form. The design maintains visual clarity by eliminating exposed fasteners and ensuring each element contributes to both function and form.
