EDUCATION FURNITURE BUYING TIMELINE

Whether you want a complete overhaul or just a few adjustments, designing an inclusive, multifunctional classroom can be a big project. HON can help! With this handy Buying Timeline resource, you can manage your time efficiently and have everything in place before class is in session.

PLANNING: 9-12 MONTHS OUT
Gather your group to brainstorm about current classroom furniture challenges, needs, wants, and district goals to determine what products will best suit an ideal learning space for students and teachers.

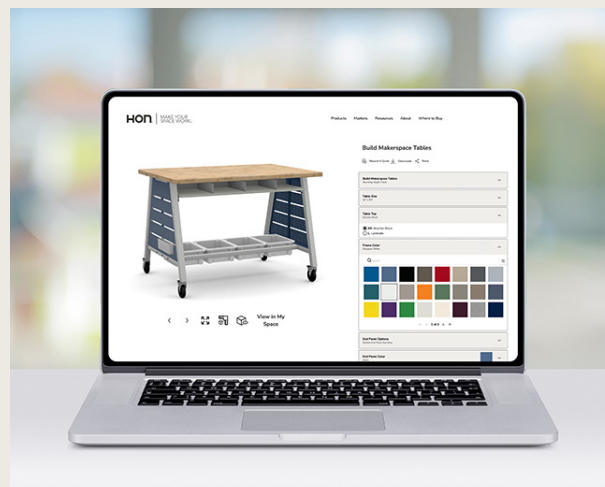

ORDER: 3-8 MONTHS OUT
Once you’ve finalized a budget and have reviewed potential products to fit within your budget needs, you can outline key dates for installation and work through final approvals before ordering.

INSTALLATION: 0-3 MONTHS OUT
Put the finishing touches on final layout plans and prep the space for product installation. Review each product, explain their features, and train educators on new learning strategies made possible by each solution.

*This is a generalized project timeline for Education projects; manufacturing dates may vary.
Please work with your Sales Representative and other key partners to ensure timelines to meet your project needs.

SIZING RECOMMENDATIONS

Comfort and ergonomics matter in the classroom. Picking the right chair for your table or desk should be easy and seamless. When students are positioned correctly, learning thrives. Ensure students have the right amount of knee space between the seat and the bottom of the table so arms can rest comfortably on top of the table and the knees form a 90° angle.

GLIDES GUIDE

Noise can stand in the way of focus and connection in the classroom. HON’s collection of student desks and chairs offer non-abrasive glides to reduce floor damage and minimize the distraction from scraping and scratching. Plus, the less stress your seating endures, the longer it lasts! Optimizing your learning space with the right solutions has never sounded better.
