Approach™

Use Your Space Wisely

The challenge of managing furniture in both the private office and open plan is minimized with a single product line that does both. Approach is a versatile offering of laminate storage, desking, and accessories that allows a consistent and dynamic aesthetic across the workspace. Approach uses space as efficiently as possible – when needs change, it can expand or condense based on company and user requirements. Approach is the perfect way to optimize your space, and space planning, throughout the floorplan.

The Approach portfolio of modular options can be configured to create the right private-office application whether the space is large, small, or unique. Be inspired to rethink how the private office can be utilized to address today's needs while serving more than one purpose.

Functionality for the Way People Work

In the open plan, Approach works with any Allsteel panel system to provide the storage needed for a productive workstation. Choose from a wide variety of towers, credenzas, laterals, pedestals, and bookcases for versatility in space planning and to fit the needs of the user. Available options like laminate finishes, base styles, and pull designs help achieve the look you want to create.

Complement your workspace with collaborative tables featuring Approach splay legs.

A Full-Landscape Solution

Whether in the private office or in open-plan workstations, Approach offers the versatility, functionality, and array of features to create workspaces to accommodate how each individual works best. Worksurface height-adjustability allows a change in posture throughout the day, promoting comfort and a healthier workplace. Storage of all shapes and sizes not only addresses project filing and a place for frequently accessed items, it also defines the footprint.

A classic storage workwall with adjoining worksurface makes the most of the compact private office.

A contemporary private office features a height-adjustable worksurface and floating shelves.

Towers and pedestals provide ample storage while defining individual workspace in a shared application.

Sit-to-stand worksurfaces provide user adjustability, while glass and screens offer protection and privacy.

Worksurfaces supported by splay legs layer over credenzas that feature multiple storage options.
Shown with Stride® panels

Private workstations defined by gallery panels utilize versatile pull-out towers for efficient vertical storage.
