Stride®

Keep Pace with Your Environment

In today's fast-paced work environment, we're all challenged to connect, collaborate, innovate, and accomplish more—often in less time and within a more compact footprint. Designed with agility in mind, the Stride panel system seamlessly adapts to evolving business needs, delivering exceptional performance even in high-demand settings.

With fully-integrated components, Stride creates refined, highly-functional spaces for open-plan offices, administrative hubs, and collaborative zones—offering both flexibility and aesthetic cohesion.

Flexibility Redefined

Stride adapts effortlessly to diverse work styles, offering the flexibility to evolve as needs change. Whether accommodating dedicated workspaces, touchdown zones, or inviting reception areas, Stride shapes a variety of settings into elevated in-office experiences.

Workstations

Stride panels provide essential support and power distribution, while Gallery Panels offer easy-to-clean space division—forming a flexible foundation for open-plan workstations.

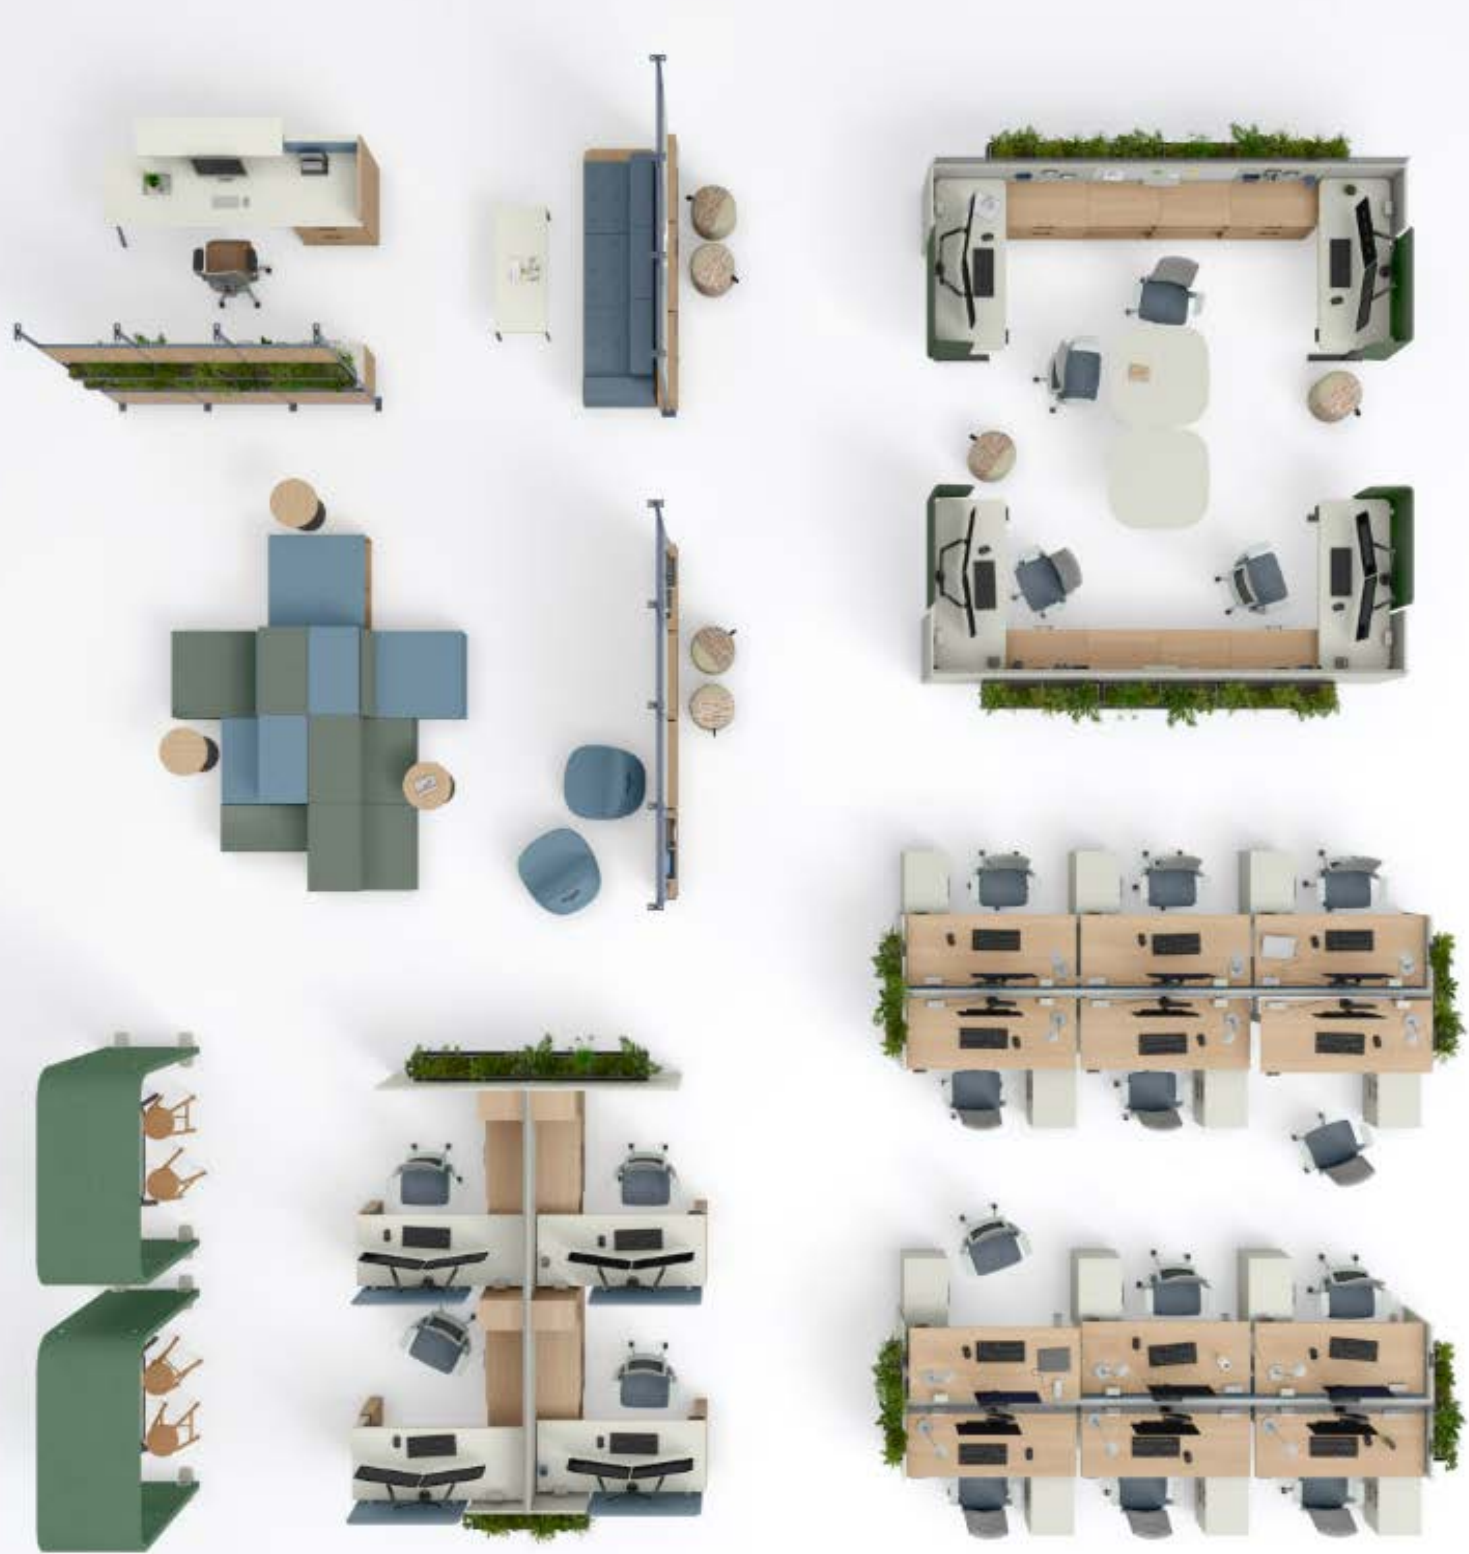

Touchdown Spaces

For businesses that require flexible collaboration and space utilization, a linear Stride application fosters connectivity—bringing ideas and teams together.

Reception Areas

Make a strong first impression by pairing Stride countertops with stylish panels, creating a reception area that is both functional and inviting.

Fueling Workplace Efficiency

Stride panels offer power access every 7½" ensuring connectivity is always within reach. Integrated metal segment bars keep both data and electrical cables separate within the frame, maintaining organization and performance. Plus, non-sequential tiles allow for efficient data and power maintenance without deconstructing the workstation.

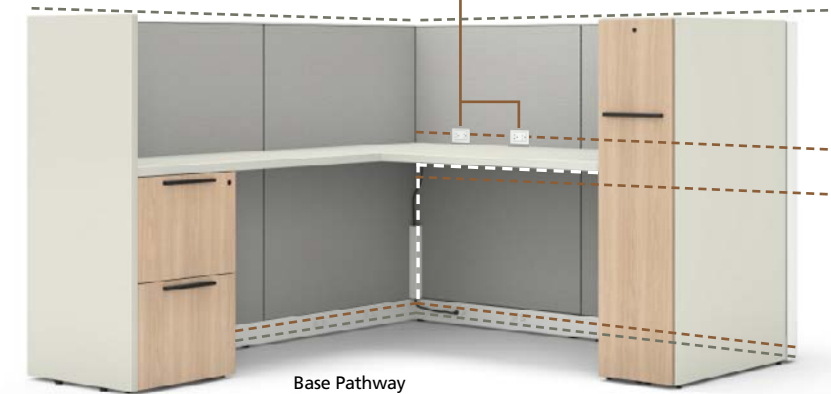

- Power
- Data
- Wire Management

Integrated Power

Each tile accommodates two electrical receptacles (one on 24" wide tile). Receptacles are available in multiple colors to coordinate with the fabric.

Top Trim
Easy access to lay-in data and phone cables.

Above Desktop
For powering everyday personal items, such as a phone, tablet, or laptop.

Below Desktop
For powering stationary workstation items, such as a task light or printer.

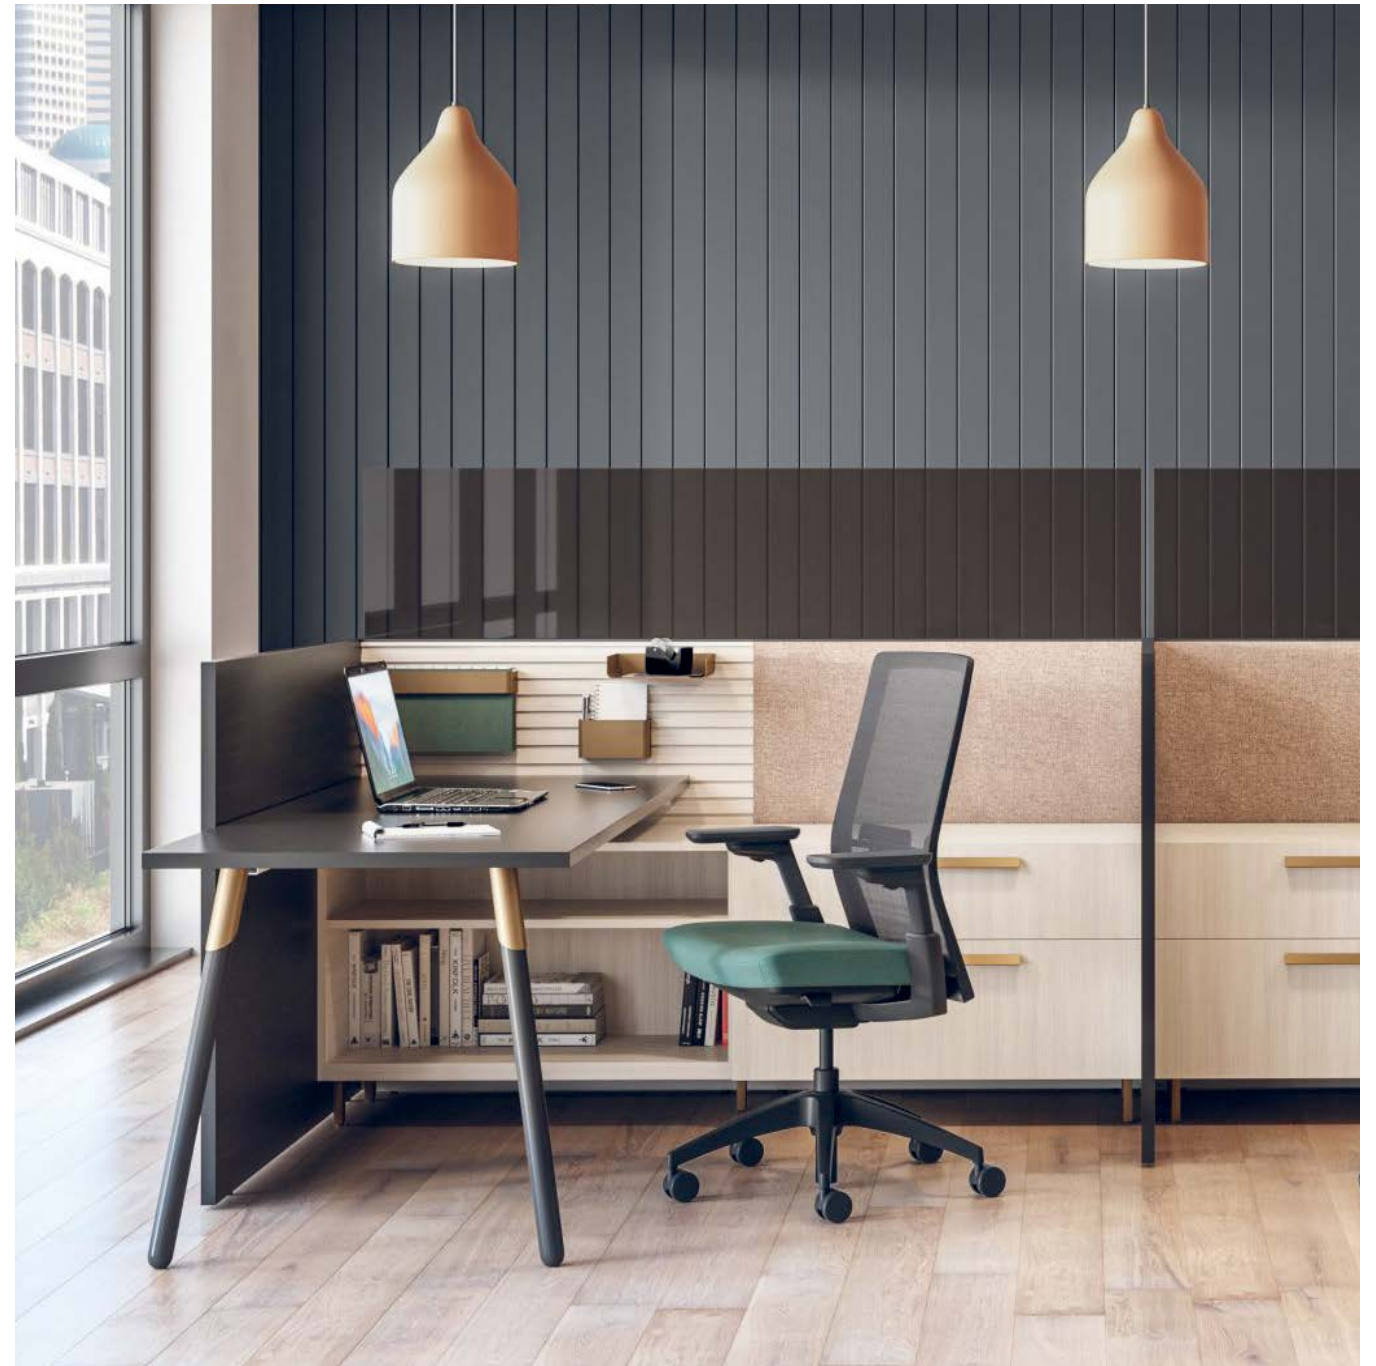

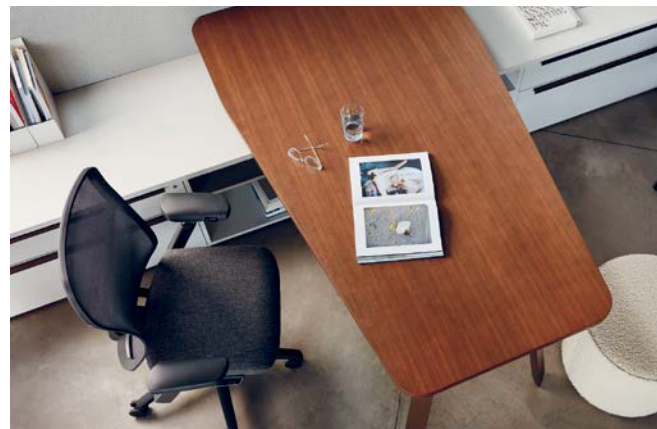

Base Pathway
Easy access to lay-in cables and additional power.

Above Desktop
Clamp-on Worksurface Power Modules mount directly to the worksurface.

Below Desktop
Undermount modules power workstation items and fit inside flip-down trough to manage extra cords.

Base Pathway
Easy access to lay-in cables and additional power.

Refined Design

Stride transforms even the simplest workspace into an inspiring, productive, and enduring environment. With its sophisticated offering of materials and finishes, Stride brings a polished and inviting aesthetic to any setting.

Optimized Space Utilization

When paired with Altitude® desks and height-adjustable storage solutions like Approach™, Stride enhances both physical comfort and ergonomic support, fostering a workplace designed for well-being and productivity.

Effortless Adaptability

Stride empowers high-performance businesses by eliminating complexity and enhancing efficiency. Renowned for adaptability and resilient performance, Stride offers a superior standard of work for even the most demanding workloads. Its statement of line—including panels, worksurfaces, and supports—seamlessly integrates with Allsteel storage products, creating refined and functional environments for open-plan offices, administrative settings, and collaborative spaces.
