

Allsteel®

Aspect™

Modern Elegance

Aspect frameless glass office fronts deliver a modern, sophisticated solution that creates beautiful, natural light-filled environments. These spaces foster visibility and transparency to promote human connection, while also offering superior acoustic performance and privacy.

Minimal Aesthetic

Aspect embodies the simplicity of a storefront solution while eliminating the inefficiencies of stick-built construction. The result is a sophisticated office environment featuring a minimal aesthetic with all-glass surfaces and subtle trim lines for a streamlined, modern look.

Strong Acoustic Performer

Designed for more than just aesthetics, Aspect walls are engineered for performance. Using 1/2" glass and specialized gasketing, they effectively block and contain sound, ensuring that privacy and focus are maintained in busy office settings.

Single-Source Supplier

This all-inclusive solution includes trim, glass, doors, and hardware—everything needed for a seamless installation. Backed by a reliable warranty and a swift production cycle thanks to Allsteel's domestic manufacturing practices, Aspect walls deliver both quality and peace of mind from a single trusted source.

Enhancing Workplace Culture

Aspect frameless glass walls remove solid barriers, creating a sense of openness, promoting accessibility, and allowing adjacent teams to maintain a line of sight to leadership, project work, and team activities.
