Picnic™

Active Spaces for Active Work

Individual and group activities that happen in shared spaces require a certain degree of flexibility, privacy, and functionality. As part of the Townhall™ collection, Picnic is a standing-height table that turns underutilized, out-of-the-way spaces into agile, sought-after touchdown areas for personal focused work or team collaboration.

The lightweight design allows Picnic tables to be located throughout the space wherever work is happening.

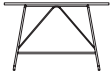

Choose from a wide selection of laminate finishes for the tabletop and paint colors for the base.

The narrow depth and modern look transform commonly unused, difficult-to-plan perimeter spaces into effective work areas.
