Accommodate™

EDUCATION APPLICATIONS

A HIGHER DEGREE OF COMFORT

Whether in a classroom, library, café or common area, students need a comfortable chair that keeps them attentive, and teachers need the ability to quickly change seating arrangements. Accommodate is a cohesive seating offering that's versatile enough to satisfy all of the above. This collection of guest and bariatric chairs, café and counter height stools features a contoured back and a waterfall seat edge designed to provide the comfort needed to maintain a healthy posture in today's active learning environments. The lightweight frame and ability to stack makes it easy to have Accommodate there when you need it, and out of the way when you don't. For students and instructors, there's no better way to support everyone than to Accommodate them.

A. STACKABLE DESIGN

Accommodate's lightweight, stackable frame is ideal for multipurpose spaces and classrooms, as the chairs stack four high when not in use to save valuable space.

B. PRIVATE OFFICE

Position Accommodate guest chairs in private office settings to facilitate conversations.

C. COMMON AREAS

The guest chair, counter and café height stools support a wide variety of multipurpose areas throughout a campus.

D-E. VERSATILE SELECTION

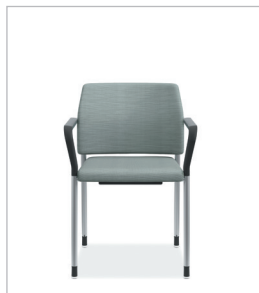

Add optional fixed arms to provide greater upper body support. Optional dual fabric enhances the aesthetic and allows for greater customization.

F. LEG OPTIONS

Each model comes with non-marring glides for easy movement on hard surfaces, and your choice of soft or hard casters for mobility on any type of surface.

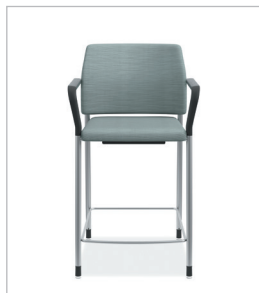

MEET THE CLASS
