

“Empower is the best system I have ever worked with – it was actually as easy as the YouTube video!”

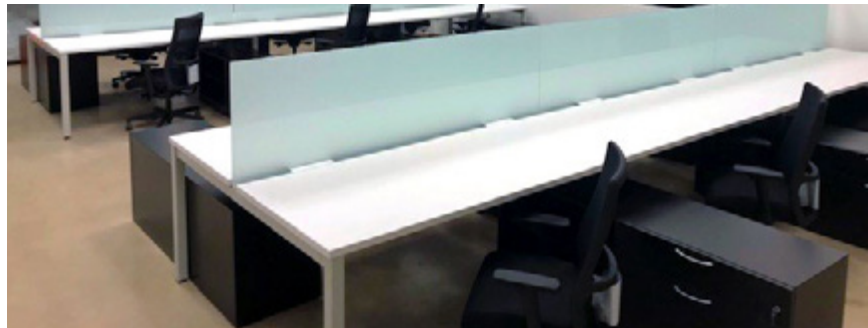

AT HOME
PLANO, TEXAS

EASY. EFFICIENT. EMPOWERED.

The home décor superstore, At Home, is on a mission to deliver affordable, stylish products with a no-frill sales approach that makes its team approachable and easy to do business with. To bring this same feeling from the front warehouse floor to the back corporate offices in Plano, TX, Absolute Office of Oregon wanted to create a cleaner, more open work environment.

Less expensive than traditional panels, Empower® was the perfect solution. Pre-attached brackets made it easy to set up, taking a 2-man installation team less than 5 hours to install 20 workstations. The addition of frosted glass screens added a stylish accent and helped establish personal workspace while encouraging interaction. A convenient center power trough made power management simple and more efficient, keeping team members connected and productive.

Together with HON, Absolute Office was able to provide At Home a complete furniture solution, from Empower benching and Voi® desks to Ignition® seating and Contain® storage, that communicates style and simplicity and facilitates collaboration.
