HON Product Selection Guidance

Most HON products can meet Health Care Without Harm's Healthy Interiors criteria, version 2.3 by using the following guidance. Customer choice plays an important role in avoiding undesired chemicals and treatments. Furniture and options specified must meet all criteria below.

1. Formaldehyde*

The HON Company furniture that is Indoor Advantage Gold certified qualifies certificates are publicly available at <https://honready.hon.com/pc/Pages/IndoorAdvantageCertificates.aspx>

The certificates clarify any exceptions, such as the use of some finishes or specific setting.

2. Per and Poly-Fluorinated Compounds (PFAS)*

PFC-free fabrics are available. Customers are responsible for their COM fabric content.

3. Polyvinyl Chloride (PVC)*

To avoid PVC, order HPL Systems Worksurfaces with Edgeband. Avoid specifying a curved worksurface, as these can require PVC. Vinyl upholstery must be avoided.

Small PVC parts and PVC edges that make up less than 1% of the weight of the product may still be accepted as meeting Health Care Without Harm's Healthy Interiors criteria. Electrical components may contain PVC, but are exempt.

4. Antimicrobials*

Antimicrobial-free fabrics are available. Customers must be responsible for the COM fabric content.

5. Flame Retardants*

HON's products are free of flame retardants, but customers must select fabrics that are also free of flame retardants. PVC-based vinyl upholstery, some polyurethanes, and some high-performance textiles must be avoided. Customers are responsible for COM fabric content.

*Please note that it is not feasible to provide laboratory testing data for every variation of product and material. The HON Company has worked with our suppliers to determine whether the chemicals and treatments listed are included in products above the guideline threshold limits. Customers are responsible for the chemical content of COM fabrics.

HON reserves the right to change materials without notice but will continue to pursue product offerings which meet Health Care Without Harm's Healthy Interiors criteria. Please confirm conformance to Healthy Interiors 2.0 goal at time of specification. For additional information, please contact HON Customer Support at: HONCustomerSupport@honcompany.com
