

The COM (Customer's Own Material) Search tool allows you to search by fabric supplier, pattern, color or even product to see if a specific fabric has already been tested. HON has diligently worked to add new patterns to our COM offering so be sure to use the search tool before you submit a new test. This document contains the definition of various terms you will find within the search tool.

TEST RESULTS	HON DEFINITION
Awaiting Fabric	Waiting for fabric to be received from customer/supplier to complete testing process.
Backer Pass	Requires special backing to be used with COM fabric for product listed. Contact Customer Support for additional information.
