**“Living in the city, pattern is all around. I look up a lot. I’m an avid cloud watcher and architectural façade enthusiast, but I’m also looking down as I’m walking around, noticing brick patterns, seemingly unglamorous utility covers, and sewer grates. Patterns, textures, and colors are constantly changing throughout the day.”**

# Upbeat

Upbeat is an understated tight grid with tonal, subtle layers of color. Upbeat speaks to the evolution of color and shadow throughout the day and the appreciation of texture up close vs. far away.
