Build™ Makerspace Table & Stool

Crafts, construction, tinkering and exploring. Let imaginations run wild while the makerspace tables and stools support all big ideas. With standing-, counter- and seated-height options, durability and reconfigurability is the makerspace table's middle name. Get messy, hammer out the details, and deliver innovation. This is your space to build. Organize. Inspire. Grow. Do.

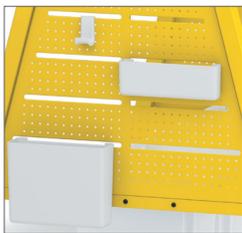

Available in all standard HON laminates, plus Butcher Block top.

Tested beyond standard requirements – weight capacity is 1,200 lbs. with a static load on a standing-height, fully accessorized table.

42"D top is designed for easy removal and reassembly for moving through doorways. Rounded corners are gentle on arms.

Lightweight, stackable stools are available in 2 heights - seated & standing. Seat has a convenient handle for quick, easy rearrangement.

Slotted pegboard end panel is compatible with HON Fuse™ accessories, as well as after-market accessories.

Utilize the solid end panel as a whiteboard or magnetic surface for group work or posting materials.

Translucent bins (3", 6", & 12") provide space to organize and store supplies or personal belongings.

Available in seated, counter and standing-heights: 42"D x 60"W or 42"D x 72"W

Add a shelf with dividers to standing-height tables for added functionality.
