

SILEA^{EH} IS SHOWN WITH GENEVA SEATING

SILEA^{EH} WELLNESS

SILEA^{EH} fulfills the key sustainability features that are the foundation for all Gunlocke furniture, including FSC certifications, recycled materials use, and commitments to renewable resources. In addition, SILEA^{EH} contributes to overall workplace wellness in other significant categories, enabling it to be the healthful choice.

SILEA^{EH}

Design by MITCH BAKKER

SUSTAINABILITY AND WELLNESS

SILEA^{EH} contributes to overall workplace wellness in significant categories, including:

POSTURAL ROTATION

SILEA^{EH} offers conventional seated-height worksurfaces as well as electrically powered height-adjustable worksurfaces, contributing to the healthfulness of changing postures throughout a work day.

HUMAN FACTORS

SILEA^{EH} includes multiple options for the placement of drawer pulls, adding ergonomic preference and convenience; and pull placement can be determined at installation time to meet specific user accessibility needs.

SETTING VARIATION

SILEA^{EH} provides the options for changing the settings where work is accomplished, a key wellness factor; these options include configurations for focused work, group collaboration, and the innovative WorkWall that enables both.

SPACE UTILIZATION

SILEA^{EH} adapts to a variety of emerging workplace design demands, including the need for smaller footprints for enclosed spaces; this adaptability enables the creation of healthful spaces with an array of options to promote worker comfort and satisfaction.

CERTIFICATION

Finally, SILEA^{EH} has earned the BIFMA LEVEL3 certification, making significant contributions to building sustainability certifications.
