

Bleach Cleanable Textiles

When cleaning with bleach, leave cleaning solution on for at least 30 seconds but no longer than 2 minutes. Thoroughly remove the solution from the surface with a clean cloth and warm water. Bleach solution may cause discoloration if left on the surface longer than the suggested time or if not removed after sanitizing.

Supplier	Pattern	Bleach Cleanability Ratio

CAUTION

Improper cleaning of any material and failing to adhere to the instructions called out in this document may result in damage of product and voiding of the product's warranty. A small, inconspicuous area should always be tested before large scale cleaning. As more cleaners and disinfectants become approved for use on HON products, this list will be updated. Please be sure to visit this document frequently for the most up to date information.
