Features For The Way You Work

With people and projects always in motion, you need a seating solution that is as adaptable as it is supportive. Customizable features such as your choice of standard swivel-tilt or an advanced synchro-tilt with seat slide put you in control. Adjustable lumbar support adds a little extra lower back comfort, while the thick seat cushion relieves stress on the lower body throughout the day. Arm choices let you decide how much upper body support you want, and the breathable mesh back flexes and responds to your movements. For comfort and quality to get you through whatever the workday brings your way, look no further than Convergence.

ADAPTABLE ARMS

Move them up, down, in or out. With three adjustable arm options, Convergence delivers a perfect fit for everyone.

*Choices include:
Height-and width-adjustable,
Height-adjustable
and Armless.

YOU'RE IN CONTROL

Synchro-Tilt and Swivel-Tilt seat control options allow you the flexibility to focus, relax and move the way you want throughout your workday.

COMFORT AND CONVENIENCE

Intuitive, adjustable lumbar support provides lasting comfort during long workdays - and a breathable mesh back offers a clean, modern finish. Plus, move from workstations to conference rooms with ease using the integrated, full-width handle across the top.

ERGONOMIC DESIGN

A thick, contoured seat cushion with an ergonomic waterfall edge offers "first-sit" comfort that never quits.
