HVL534 TASK CHAIR

# ENGINEERED FOR ANY TASK.

Achieve excellent comfort and support without the expense with the HON HVL534 mesh task chair. A single lever provides convenient access to customizable comfort, with adjustments for reclining and seat height that make it easily adaptable to a wide variety of users. The height adjustable arms enhance upper body support and accommodate any user or task. The mesh seat features a waterfall edge design with a high-density foam layer on the front of the seat for greater lower body comfort, and the mesh back enhances lower back support. The HVL534 delivers an unbeatable combination of versatility and affordability.
