

SHOWN WITH GENESEE TASK SEATING, ALTITUDE A6 DESK, CORRAL POUF, CALM LOUNGE, BEYOND WALLS

---

## SILEA™, SMARTER

Reduce mass. Reuse space. Less demand for physical storage inspired the design of a thinner-profile casegoods option, delivering more room to work and a lean aesthetic. Maximize your space with the infinitely adaptable Silea collection.

# SILEA™

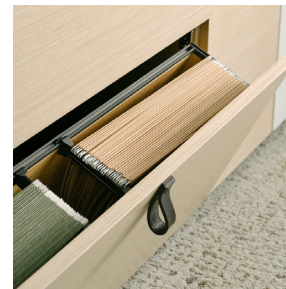

Design by IDA DESIGN | Principle MITCH BAKKER

## SMART, FIT & FINISHED

Compact storage without compromise of function or appearance. Tower and pedestal storage units are slimmed down to just 7¼ inches deep, reducing the average office footprint by 1½ linear feet, or creating more space in an existing office. The cantilever desk is height-adjustable without the need for floor mounting, resulting in a lighter aesthetic and more room for guest seating. An optional soft-leather pull delivers a distinctive finishing touch.
