

# Acrylic X-Screen with Base Instructions

Make your space work.

# HON.

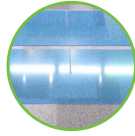

Congratulations on your new HON Screens! Designed to help create physical separation, we know great things will come from your new workspace.

## Tools Needed:

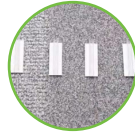

(x2) Gloves

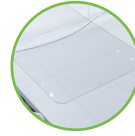

## Included in this Box:

(x2) Large Acrylic Screen

(x4) Base Clips

(x1) Base Screen

## Now that you have your Tools and Materials - Let's Get Started!

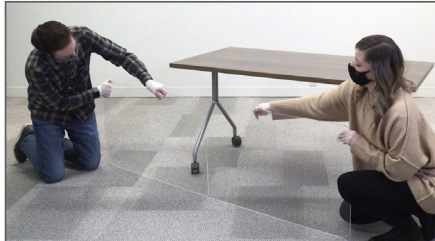

We have to tell you that it's important for you to read all the way through the instructions and carefully review all illustrations prior to installing your new screens. By not reading these instructions, this may result in property damage or serious bodily harm. Once assembled, do not move the screens with office equipment on, or in place. This may lead to damage or injuries as well.

### Pro-Tips from our Team of Experts:

- Two members recommended for install

## Steps to Assemble:

- 1 Place two base clips on one of the large screens so that it can stay in an upright position with the connector slot facing upwards.**

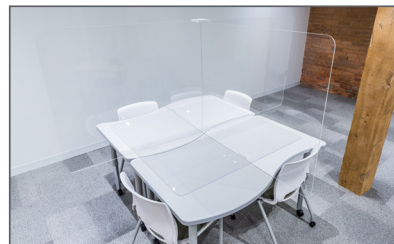

- 3 Place the remaining two base clips onto the second large screen to provide stability.**

- 2 Slide the second large screen into the first screens' connector slot. Create a 90-degree angle with the 2 large panels.**

- 4 Place the base screen across the desks or table. Removing the adhesive covering off of the base clips, place the two large screens otop of the base. X-Screens can be placed on the base in either an X or Diamond shape.**

**Congratulations!** You just set up your new screens. Now add your favorite accessories and snap a picture of your new workspace. Show us your newly created space and how you made your space work! @TheHONCompany #TheHONCompany #MakeYourSpaceWork
