

Individual Student Desk U-Screen Instructions

Make your space work.

HON.

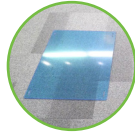

Congratulations on your new HON Screens! Designed to help create physical space separation, we know great things will come from your new workspace.

Tools Needed:

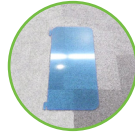

(x2) Gloves

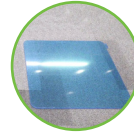

Included in this Box:

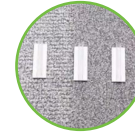

(x1) Small Screen

(x1) Medium Screen
with 4 slots

(x1) Large Screen

(x3) Base Clips

Now that you have your Tools and Materials - Let's Get Started!

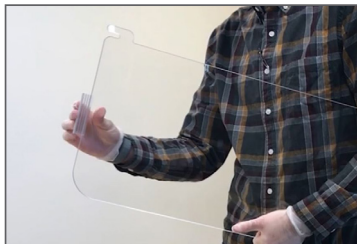

We have to tell you that it's important for you to read all the way through the instructions and carefully review all illustrations prior to installing your new screens. By not reading these instructions, this may result in property damage or serious bodily harm. Once assembled, do not move the screens with office equipment on, or in place. This may lead to damage or injuries as well.

Pro-Tips from our Team of Experts:

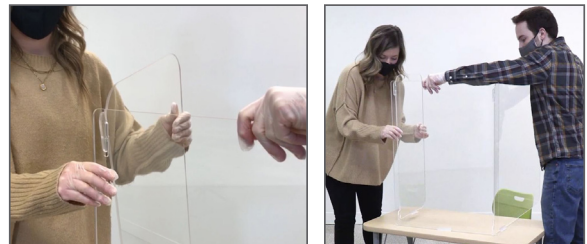

- Two members recommended for install

Steps to Assemble:

- 1** Take the small and large screens and attach the base clips brackets to the bottom so that the screens can stand up on the desk. Make sure that the screens hooks are facing down.

- 3** Repeat the same process with the smaller screen on the other side. Making a U-shaped screen barrier.

- 2** Line the hooks of the large screen up with the slots in the medium screen making a 90-degree angle. Guide the hooks into the slots allowing the screen to hook down into place.

- 4** Removing the adhesive covering off of the base clips, place the screen in the desired location.

Congratulations! You just set up your new screens. Now add your favorite accessories and snap a picture of your new workspace. Show us your newly created space and how you made your space work! @TheHONCompany #TheHONCompany #MakeYourSpaceWork
