

# Product Contributions to the WELL Building Standard, Version 2

The following WELL v2 features are supported by Allsteel products:

## **Nourishment N08: Mindful Eating**

Allsteel offers a variety of furniture products to outfit dedicated eating spaces.

## **Light L03: Circadian Lighting Design**

Allsteel offers task lights, which can be added to workstations to help meet circadian lighting requirements.

## **Light L09: Occupant Lighting Control**

Allsteel offers task lights which can be added to workstations and provide individual occupant control.

## **Movement V02: Ergonomic Workstation Design**

Allsteel offers products to design an ergonomic workstation, including monitor arms, height-adjustable worksurfaces, adjustable chairs, and guides on how to properly adjust furniture to the most comfortable settings for users.

## **Movement V07: Active Furnishings**

Allsteel offers products to design an active workstation, including monitor arms and height-adjustable worksurfaces.

## **Materials X01: Material Restrictions**

Allsteel's products meet the material restrictions for asbestos, mercury, and lead.

## **Materials X05: Enhanced Material Restrictions**

Allsteel offers a variety of products and textiles that do not contain, or contain less than 100ppm of the listed chemicals.

## **Materials X06: VOC Restrictions**

Allsteel's products are Indoor Advantage™ Gold certified for indoor air quality and meet ANSI/BIFMA e3-2014 sections 7.6.1 and 7.6.2.

## **Materials X07: Materials Transparency**

Allsteel offers products that are Cradle to Cradle Certified™ Bronze.

## **Materials X08: Materials Optimization**

Allsteel offers products that are Cradle to Cradle Certified™ Bronze.

## **Materials X11: Cleaning Products and Protocols**

Allsteel offers products that can be cleaned with low-impact cleaners and provides guidance on how to clean materials.

## **Mind M02: Nature and Place**

Textiles and finishes with natural patterns can be selected, and custom colors and designs can be specified. Additionally, Allsteel's Park Planters provide ways to incorporate plants into the indoor environment and can provide ways to incorporate plants into space division.

## **Mind M07: Restorative Spaces**

Allsteel's products can either create or be incorporated into restorative spaces, providing respite throughout the day.

## **Mind M09: Enhanced Access to Nature**

Allsteel's Park Planters provide ways to incorporate plants into the indoor environment and can provide ways to incorporate plants into space division.

## **Community C13: Accessibility and Universal Design**

Allsteel offers products and upholstery options that include similar or complementing design elements, allowing project teams to easily create visually grouped zones of furniture to support wayfinding, or to support neurodiverse individuals.

### **Information about WELL**

The WELL Building Standard™ is the first building standard to focus on the health and wellness of building occupants. Developed by Delos and managed by the International WELL Building Institute™, WELL was designed using evidence-based medical and scientific research to create a built environment that better supports human health and wellbeing.

### **WELL Versions**

The contributions listed are for concepts and features found in WELL v2.0. WELL V2 is organized into ten concepts, or areas of impact with distinct health intents, including: Air; Water, Nourishment; Light; Movement; Thermal Comfort; Sound; Materials; Mind; and Community.

For information about product contributions to other versions of WELL, please contact your local Allsteel representative.

### **Additional Information**

To become a WELL certified building or space, all applicable Preconditions must be satisfied; if a higher level of certification is desired, additional Optimizations must be pursued. WELL Silver, Gold, or Platinum certification may be achieved.

WELL was designed in harmony with other green building standards, so many of the requirements are similar to those found in LEED®, Living Building Challenge, and BREEAM.

### **Support for WELL Projects**

Allsteel's wellness team is made up of experts in ergonomics, sustainability, architecture and design, and product development. They help our customers choose the best furniture options to meet workplace wellness requirements and to satisfy WELL features. They can also provide appropriate WELL documentation for the furniture selected. Contact your local Allsteel representative for more information.
