

Beyond®

Beyond movable walls offer built-in flexibility that responds to the constant rhythm of change. With Cabana, Pavilion, and Viz™ applications, you can support teams in ways they need it most by providing separation without a door or hard threshold. With these simple solutions, a workplace can be transformed to provide collaborative spaces, create zoning and neighborhoods, and support all tasks by providing easy access to power.

Allsteel®

Beyond[®]

Creating inviting collaborative spaces throughout the floorplan allows businesses to accommodate different types of work among teams.

Cabana

This freestanding space allows multiple groups to have meetings or team discussions. Make use of the internal dividing wall to create multiple small rooms.

Pavilion

This freestanding structure provides privacy, creating a room within a room, for small teams to come together and work on projects.

Viz[™]

Define space for privacy, accommodate technology, and create neighborhoods by allowing team spaces to live throughout the floorplan in close proximity to solo spaces.

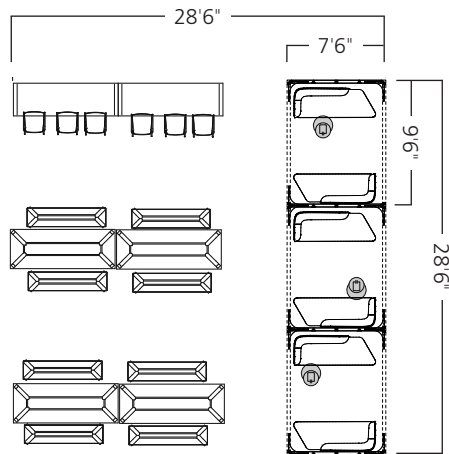

Allsteel®

Touchdown Space

Cabana

Touchdown spaces allow workers to get away from their workstation for privacy or to work comfortably for a short period of time. When integrating mobility into your office, these types of spaces are essential to accommodate traveling team members or guests.

Allsteel®

Working Café

Cabana

No longer just for lunch, the agile café is a space where you can meet, greet, work alone, or spend time with colleagues. Creating different space types adjacent to each other allows for easy access to team collaborative spaces mixed with the right amount of solo space for heads-down work.

Allsteel®

Lounge Meeting

Pavilion

Defining a space within the floorplan using Beyond movable walls creates a room within the space with no disturbance to the building structure. These freestanding structures provide just enough privacy for small teams to come together and work on projects.

Allsteel®

Allsteel®

Huddle Space

Allsteel®

Pavilion

Collaboration can't always be planned. A variety of purposefully placed huddle rooms support quick, impromptu meetings. Providing multiple spaces that accommodate different ways of working allows teams to have all the functionality they need to be productive.
