Contourett

Application	Chair
Content	100% Polyurethane
Width	54"
Weight	16.2 ounces per linear yard
Finish	Silver based ion technology
Backing	70% Polyester, 30% Cotton
Abrasion	200,000 double rubs (W)
Flame Resistance	NFPA 260 (UFAC Class 1), California TB 117-2013, Section 1 compliant.
Maintenance	<ul style="list-style-type: none">· For wet spills gently blot with dry cloth to remove spill.· For dried spills gently work the spill in a non-aggressive circular motion using a damp cloth making sure to not over saturate the fabric.· For dried stains use a mixture of Tide® or Oxiclean® and warm water (1 teaspoon of soap for every 16 ounces water) - follow instructions for dried spills above. Make sure to wipe away any excess soap left behind and remove any moisture with a dry cloth.· For non-liquid spills always remove excess contaminant from surface before cleaning. The use of a soft brush or soft abrasive can be used to remove dried contaminants before performing liquid cleaning.· For Healthcare related stains a water to bleach solution of 5:1 is recommended. Rinse cleaned area with water.· For stains requiring the use of a solvent, spray the solvent directly onto the stain and allow it to sit for 2-3 minutes, avoid over saturating the fabric - follow directions for dried stains above.· Always allow fabric to air dry.

Flame Resistance	NFPA 260 (UFAC Class 1), California TB 117-2013, Section 1 compliant. Compatible with California TB 133 (CAL 133) when ordered as an FC option.
Maintenance	Step 1: For light soiling, a solution of 10% household liquid dish soap in warm water, applied with a soft, damp cloth. Step 2: For heavy soiling, dampen a soft, white cloth with a one-to-one (1:1) solution of Fantastik spray cleaner/ water or Formula 409 all-purpose spray/water. Step 3: For more difficult stains, dampen a soft, white cloth with a solution of household bleach (10% bleach/90% water). Rub gently. Rinse with a water-dampened cloth to remove bleach concentration. Do not use alcohol-based cleaning agents!
Notes	Certain dyes (including clothing and accessory dyes such as those used on denim jeans) may migrate to lighter colors. This phenomenon is increased by humidity and temperature and is irreversible. The HON Company LLC does not assume responsibility for dye transfer caused by external contaminants.

Weight	20 ounces per inear yard
Abrasion	100,000 double rubs (W)
Flame Resistance	NFPA 260 (UFAC Class 1), California TB 117-2013 compliant
Maintenance	<ul style="list-style-type: none">• Regular cleaning and maintenance - Clean the soiled area with mild soap and water, then rinse with fresh water and whip dry with a clean cloth.• Food stains/oils - Wipe affected area with a soft cloth or bristle brush using a non-abrasive cleaner, for example Formula 409 or Fantastik. Rinse with fresh water and wipe dry.• Healthcare - Clean the soiled area with a 20% solution of household bleach and water. It is important to rinse the cleaned area with fresh water after applying the bleach solution.• Disinfection - To disinfect, apply a 20% solution of household bleach and water or a 70% solution of isopropyl alcohol and water. After the appropriate contact time, wipe surface dry and gently wipe or rinse with fresh water.• Difficult stains - Clean the soiled area with 50% solution of isopropyl alcohol (rubbing alcohol) and water. It is important to rinse the cleaned area with fresh water after applying the alcohol solution.• Ink marks/graffiti - Rub the affected area with a dry soft cloth with firm pressure. If some stain is still present, spray it with a 70% dilution of isopropyl alcohol and water and wipe. Rinse with fresh water and wipe dry. <p>Note: Removal of ink, particularly permanent market, may vary depending on the period of time that the ink sets in. While this material offers excellent protection, full removal is not guaranteed.</p>
Manufacturer	HON
Features	<ul style="list-style-type: none">• Proposition 65 Compliant• No added flame retardants - AB2998 compliant• No added antimicrobials• Healthier Hospitals Compliant• Ink and denim resistant

Maintenance	<p>Genuine leather requires the least care of all upholstery materials; dusting with a clean, dry cloth is the recommended routine cleaning method. For spots and spills, wipe excess liquid immediately and let dry. If necessary, use lukewarm water and a mild, non-detergent soap, or other water-based cleaning agent, and work into a thin lather with a soft cloth, rinse with clean water, and buff to restore luster. In addition, cleaners specifically designed for leather are suitable, but avoid tetrachloride, isopropyl alcohol, or other toxic chemicals. As with and because of the Crypton® coating, most household cleaners such as Formula 409, Clorox Wipes, and Clorox Clean-Up, please pretest in an inconspicuous area prior to proceeding.</p> <p>Only leather with Crypton® coating can be cleaned using a bleach solution (up to 10%). This allows the removal of even the most difficult stains that would ruin non-Crypton® coated leather, such as red wine, vinegar, and sunscreen. For difficult stains, use a cleaner such as Clorox Clean-Up with bleach, and then wipe with a damp cloth.</p>

**Manner (SMHMMAN)
466177**

Content: 65% Post-Industrial Recycled Polyester, 35% Post-Consumer Recycled Polyester

Finish: PFOA-Free Stain Resistant

Width: 54"

Abrasion: 300,000 double rubs

Note: Abrasion results above 100,000 have not been shown to be a reliable indicator of increased fabric lifespan.

Acoustic Rating: Upholstered Walls: .90NRC

ASTM E 84 Unadhered: Class A

**Messenger (SMHMGRM)
458640**

Content: 78% Post-Industrial Recycled Polyester, 15% Polyester, 7% Nylon

Finish: PFOA-Free Stain Resistant

Width: 54"

Abrasion: 100,000 double rubs

Acoustic Rating: Upholstered Walls: .80NRC

ASTM E 84 Unadhered: Class A

**Metric (SMHMMET)
466014**

Content: 51% Post-Industrial Recycled Polyester, 49% Polyester

Finish: PFOA-Free Stain Resistant

Width: 54"

Abrasion: 100,000 double rubs

Acoustic Rating: Upholstered Walls: .90NRC

ASTM E 84 Unadhered: Class A

**Mode (SMHMMOD)
466337**

Content: 80% Post-Consumer Recycled Polyester, 20% Polyester

Finish: PFOA-Free Stain Resistant

Width: 54"

Abrasion: 100,000 double rubs

Acoustic Rating: Upholstered Walls: .85NRC

ASTM E 84 Unadhered: Class A

**Murmur (SMHMMUR)
466446**

Content: 100% Polyester

Finish: PFOA-Free Stain Resistant

Width: 55"

Abrasion: 75,000 double rubs

Acoustic Rating: Upholstered Walls: .85NRC

ASTM E 84 Unadhered: Class A

**Muse (SMHMMUS)
466487**

Content: 100% Post-Consumer Recycled Polyester

Width: 54"

Abrasion: 100,000 double rubs

Application
Seating, Systems & Upholstered Walls

Characteristics
Content: 68% PC Recycled Polyester, 32% Polyester

Finish: PFOA-Free Stain Resistant

Width: 54" (137cm)

Maintenance: W/S - Clean with water-based cleanser or mild, water-free dry cleaning solvent.

Country of Origin: USA

Performance
Abrasion: 100,000 double rubs

Flammability: This textile meets all appropriate flammability requirements for contract use.

Environmental
This textile offers reduced environmental impact.

Performance Summary

- Enhanced soil + stain resistance
- Enhanced abrasion resistance
- Fluid barrier
- Bleach solution cleanable
- Enhanced fade resistance

Environmental Summary

- GREENGUARD certified
- REACH Compliant
- RoHS Compliant
- No added flame retardants
- No added antimicrobials
- Formulated without phthalates

***Cleaning & Care Instructions**

The cleaning process should be started as soon as the problem occurs or is noticed. Delays in starting the cleaning process can result in permanent staining or damage to the leather alternative. Care instructions are as follows:

- Wipe up spills as soon as they occur
- Clean with soap and water or alcohol based cleaners
- Sanitize using (1:5) bleach/water solution or other approved disinfectants
- For stubborn stains, wipe off with isopropyl alcohol as soon as possible
- Thoroughly rinse all solution residue with clean water
- Air dry

Ultrafabrics Performance Fabrics are ideal for all interior applications because of the environmental benefits they provide. Ultrafabrics Performance Fabrics meet the criteria established by GREENGUARD. All have rigorous requirements for products meeting low emission standards.

Blazer - Product Information

Blazer is a classic pure new wool upholstery fabric with a billiard cloth felted finish. The fabric is made from premium New Zealand lambswool and benefits from complete integrity right from individual sheep farms to the finished fabric.

Made by Camira.

Information

Grade

5

Composition

100% Pure New Wool. Non metallic dyestuffs

Environmental

Rapidly renewable and compostable

Width

54 inches minimum

Abrasion Resilance*

Wyzenbeek method; 75,000 double rubs
Covered by a full and comprehensive 10 year guarantee

Flammability

California Technical Bulletin 117 - 2013
NFPA 260 + UFAC Class 1
ASTM E84 Class 1 or A (Adhered)
ABTM F84 Class 1 or A (Un-adhered)
Note: Flammability performance is dependant on foam used.

Cleaning code

W/S

Water-based cleaning agent or solvent: Depending on the stain, you can use a dry-cleaning solvent, the foam of a mild detergent, or upholstery shampoo.

Why go round in circles with numbers? Camira recognizes that the number of Wyzenbeek double rubs do not reflect the actual wear performance of fabrics. We're so confident in the durability of our products that we provide a robust 10 year guarantee (full details available). This product is externally certified, details of which are on our website and available from our customer services team.

Batch to batch variations in shade may occur within commercial tolerances. We reserve the right to alter technical specifications without notice. The Unregistered Design Rights and the Copyright in all designs are the exclusive property of Camira Fabric Limited.

Dox

Application	For Screens
Content	100% Polyester
Width	67"
Weight	5.9 ounces per linear yard
Backing	none
Abrasion	(Martindale cycles or Wyzenbeek). Martindale is a measurement for wear resistance and it's not really appropriate for screens. It's a test made for sofas and stools and the Dox fabric is only used for screens.
Flame Resistance	Dox is not tested.
Maintenance	To preserve color and appearance the Dox fabric should be vacuumed regularly with a soft nozzle. Stain Removal: Use uncolored paper towel or cloth to soak up as much as possible of the stain. Dried stains should be vacuumed. Moisten the stain lightly with a clean white cotton cloth, lukewarm water and possibly a small amount of pH-neutral detergent. Press a dry cloth or uncolored paper towel against the fabric so that moisture and dirt are absorbed. Repeat moisten and soaking until the stain is gone. Use clean water without detergent at the last moistening. Finish with soaking.

Solid Color and Patterned Laminates

All patterned and solid laminate surfaces have been carefully engineered to provide complementary tones of HON paint finishes. These surfaces reflect user needs for strength, durability and gloss. HON desktops meet performance standards of NEMA Publication LD-2005.

All Laminates

All laminate surfaces have been engineered to provide authentic color and gloss, as well as strength and durability. HON desktops meet performance standards of NEMA Publication LD3-2005.

NOTE: HON laminate colors are not available on all products. Please refer to current HON List Pricer for availability.

NOTE: The photographic reproduction of finishes is a high speed printing process. Actual samples should be obtained before making finish selections. Please refer to current HON List Pricer for availability.

Color may vary due to screen quality. To ensure complete color accuracy, please order a memo sample.

Frame and Shell Finishes

While HON maintains strict color standards for paints and laminates from its suppliers, differing processes may result in slight color variations between materials. These variations are carefully monitored to assure color is within specifications.

Seating Finishes

Finishes, Frames and Shells

Finishes

Wood owes its inherent beauty to variations in color, grain and texture. In our finishing process, we attempt to accent the natural beauty of wood. As a result there may be minor variations from one piece of wood to the next, even though they are finished by the same process. Samples may vary from the finished product due to these natural differences, as well as exposure to light and aging.

Frames and Shells

The colors on this card reflect actual production colors as closely as possible. While HON maintains strict color standards for paints and molded plastic parts from its suppliers, differing processes may result in slight color variations between materials. These variations are carefully monitored to assure color is within specifications.

NOTE: HON laminate colors are not available on all products. Please refer to current HON List Pricer for availability.

NOTE: Lead time may vary by shell color.

*Color may vary due to screen quality.
To ensure complete color accuracy,
please order a memo sample.*
