Contain[®]

TOWERS

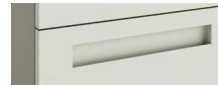

Storage

Taking Active Storage Even Higher

Everyone needs a convenient place to store personal items and commonly used work materials. Contain storage towers bring greater personalization to everyday organization. With a variety of possible configurations, users can customize their storage towers to fit their individual needs. With the ability to choose from open shelves, lockable wardrobe doors, and a combination of box and file drawers, storage space is maximized and workstations are better organized.

A. PERSONAL STORAGE TOWERS
Lockable doors and drawers keep valuable items safely stowed until ready to use.

B. PULL OPTIONS
Choose from 5 pull designs to match or achieve any desired aesthetic.

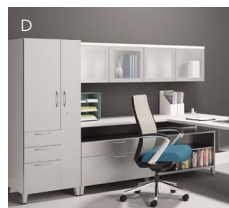

C. SIDE ACCESS TOWERS
In addition to the lockable doors and drawers, open shelves provide convenient access and visibility to personal items.

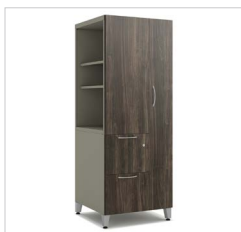

D-E. FINISH OPTIONS
Choose from metal or durable stain-resistant woodgrain laminate fronts to increase the value and create a desirable mixed material look when added to one of the attractive metal finishes.

F. BASE OPTIONS
Choose between a footed base to create a stand-alone furniture aesthetic, a recessed kickplate that matches both the drawer fronts and HON desks and workstations, or an optional flush kickplate.
