Kinzie Specifications Overview

Wood Slats	Ash | Walnut
Frame Finishes	Powder Coat | Polished Aluminum

As workplaces evolve toward more open, interactive spaces, the need for defining, yet mobile, architectural elements becomes apparent. Often, these elements should provide privacy but not isolation, definition but not restriction, and evoke simplicity, authenticity and humanistic design.

Through it's considered dimensions, harmony between opacity and transparency, and tension between machined and crafted materials, the Kinzie Screen embodies a balance between warm and industrial design; crafting a staple for any environment.

- Double screen available in four different sizing models:

    Tall/Wide or Narrow (60" high/48" wide or 34" wide)

    Short/Wide or Narrow (48" high/48" wide or 34" wide)

    Sizes are per panel

- Single screen available in four different sizing models:

    Tall/Wide or Narrow (60" high/48" wide or 34" wide)

    Short/Wide or Narrow (48" high/48" wide or 34" wide)

    Overall depth of feet is 21" with feet extending 9" on either side of the frame.

- Metal casing is available in powder coated finishes; polished aluminum is available for an upcharge.

- Wood slats come standard in ash; walnut is available for an upcharge.

- Vertical slats are diamond shaped and angularly placed.

- Horizontal wood support slat comes in the same finish as the vertical slats.

- Maximum open angle on double screen is 120 degrees.

- Double screen ships folded in half.
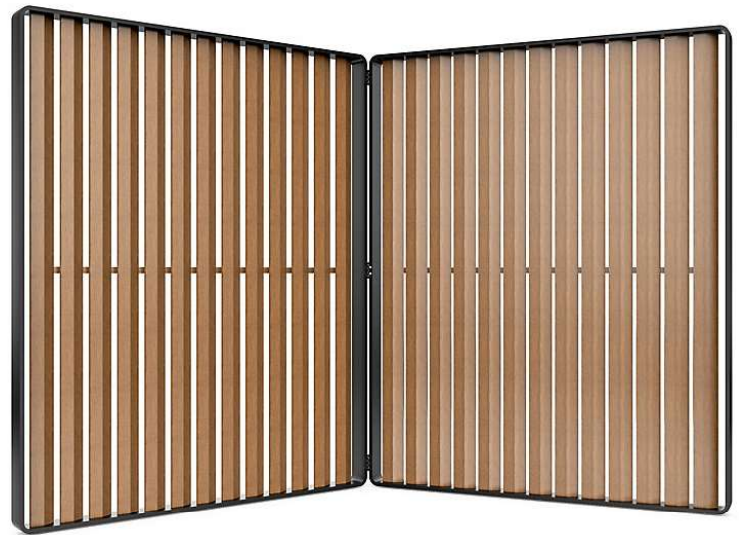

Kinzie Screens Finish Options

Veneer and Finishes

Wood owes its inherent beauty to variations in color, grain, and texture; therefore, these variations are not considered defects. Due to the natural color and grain variances of wood the final finish color, texture and grain may vary from one furniture piece to another even though they are finished at the same time. Exposure to light and the aging process will cause changes in surface color of natural wood products. Light finishes on wood products do not mask the natural characteristics of wood. HBF does not guarantee the exact matching of grain, pattern and color.
