

FAQ

Q: What gaps do these additions fill and what are the new model numbers?

A: We are adding the 3 leg 2 stage height adjustable table and the 3 leg 3 stage max table base to our Altitude product line. The max base weight is 500 lbs.

New Base Model numbers are: A6REC2S3LTF; A6REC2S3LCF; A6MREC3S3LTF; A6MREC3S3LCF

Q: What product lines are these a part of?

A: Altitude Tables

Q: Do these work with other products, such as systems and benching products? If so, which?

A: Yes, these tables work with Optimize, Terrace, Stride, Further Freestanding Beams, and Altitude Power Rails.

Q: What is the intended space for these additions?

A: These products are best suited in open office and private office workspaces.

Q: What finishes are available for the bases?

A: Standard Altitude finishes

Q: What tops pair with these?

A: Refer to the spec guide for more details.

Q: When will these be open for order?

A: June 15, 2022

Q: What control options are available?

A: Standard Altitude control options.
