# Create More, Connect More, Build More

## Learning Without Boundaries

Inspiring the next generation takes a higher degree of mobility and hands-on learning. The Build series is lightweight, durable, and reconfigurable to meet the lesson plan of the day. Build encourages creativity and adaptability, allowing students to collaborate, interact, or create personal space for focused study time. Build supports the movers and shakers, the hands-on doers, and the leaders who crave creativity. The future of education takes shape with Build.

## Desks

### The Shape of Things to Come

Brainstorming. Attentive listening. Idea sharing. Learning comes in many forms, and your classroom needs the flexibility to support them all. Build student desks are designed with unique top shapes that allow them to adapt to changing needs throughout the day. With countless combinations, you can choose the right shape, size and finish to fit any space, aesthetic, and budget.

## Tables

## Learning Through Collaboration

Projects. Hands-on activities. Cram sessions. Today's student body is learning together, working in groups, and interacting like never before. Build a better sense of community by giving everyone a seat at the table. Group them together to form clusters, serpentine rows, collaborative configurations, or all of the above. It's the ultimate multiple choice answer for today's ever-evolving active learning spaces.

# Makerspace Tables

## For Doers and Makers

Crafts, construction, tinkering, and exploring. Let imaginations run wild while the Makerspace table supports all ideas. Get messy, hammer out the details, and deliver innovation. The Makerspace table is known for its durability and flexibility. This is your space to build. Organize. Inspire. Grow. Do.

Available in butcher block or laminate tops

End panels are available in multiple paint colors  
Choose from slotted pegboard or solid end panels. Try using a markerboard for additional functionality or hang-on accessories to keep things tidy.

Storage & Organization  
Deck out your table with optional Fuse™ accessories to add to end panels, or 3", 6", and 12" SmartLink® storage bins for keeping your space clean.

Three Height Options  
Standing-, counter-, and seated-heights offer a range of usability for every learning space.

Seating Chart

Find the Right Fit

Comfort and ergonomics matter in the classroom. Picking the right chair for your table or desk should be easy and seamless. When students are positioned correctly, learning begins. Ensure students have the right amount of knee space between the seat and the bottom of the table so arms can rest comfortably on top of the table and the knees form a 90° degree angle. Pair Build desks and tables with Build stools or other HON education seating series such as SmartLink® or Motivate®.

Recommended space from chair seat to underside of table is 8"-11"							
Seat Height	6"	12"	14"	16"	18"	24"	30"
Table Height	14"	22"	24"	27"	29"	36"	42"
Pre-K							
Kindergarten - Grade 1							
Grade 2 - 4							
Grade 5 - 12
