## Terms and Conditions of Sale

### General Terms

These Terms and Conditions apply to HBF Textiles sales for shipments in the contiguous United States and Canada. These Terms and Conditions do not apply to orders from or shipments to offshore locations. All orders are subject to approval and acceptance by HBF Textiles. HBF Textiles reserves the right to refuse to sell to a customer if the customer is not in good credit standing or requires special credit arrangements. By placing an order with HBF Textiles, customer agrees that the transaction shall be governed by these Terms and Conditions. These Terms and Conditions apply to all orders and can only be modified by written authorization of an authorized representative of HBF Textiles.

### Ordering Information

To expedite order entry and ensure proper service, please email all orders direct to [orders@hbftextiles.com](mailto:orders@hbftextiles.com). Failure to provide complete and accurate information may result in delayed order entry and acknowledgment or rejection.

**All fabrics are sold in one-half (1/2) yard increments. There is a one (1) yard minimum per colorway per order.**

**All leathers are sold by the square foot with a minimum purchase of one hide per colorway per order.**

Leather hides vary in size based on the leather quality. Below are the average hide sizes for each HBF Leather. Average hide sizes are subject to change due to the availability of raw material.

HBF Leather Quality	Average Hide Size
Aviator (712)	48 Sq. Ft.
Clutch (719)*	48 Sq. Ft.
Free Way (704)	50 Sq. Ft.
Glovely (720)	50 Sq. Ft.
Modern Patina (716)	50 Sq. Ft.
Upper Crust (708)	50 Sq. Ft.
Vivace II (709)*	50 Sq. Ft.
Wild West (717)	48 Sq. Ft.
<b>*bleach cleanable</b>	

Hides are irregularly shaped, natural materials. Therefore, the entire surface of a hide is not usable even with the highest quality leathers. For upholstery purposes, the industry-wide formula for converting required yards to square feet is 18 square feet equals one (1) linear yard of 54" fabric. This conversion is based on a 50 square foot average hide and takes waste into account. The industry formula is provided as a guideline only. Depending on furniture manufacturer's COL requirements, cutting yield can vary. It is best practice to confirm the furniture manufacturer or fabricator's calculations for cutting yield.

Within the square footage of each HBF Leather, there will be visible natural markings such as neck wrinkles, fat wrinkles, healed scars, insect bites, and other signatures of nature. All of which are natural characteristics of leather.

### Pricing and Terms of Payment

All prices posted are in U.S. dollars. Prices are subject to change without notice. All orders are subject to prices in effect at the time of order entry. All such taxes and charges will be added to your merchandise total and will be itemized on your order confirmation.

### Cuttings for Approval

HBF Textiles adheres to quality control methods to ensure color variations between production lots are within commercially acceptable standards. Keep in mind that subjective and objective views of color, hue, shade, tint and tone will naturally be perceived uniquely by each individual. If exact color match is required, a cutting for approval (CFA) may be requested. While CFA requests are processed, a reserve will be held for 10 working days from date of receipt. If you do not respond within 10 working days with CFA approval or rejection, the order is subject to cancellation.

Please note that HBF Leather may have natural variances in color and shade within a hide. As a natural characteristic of leather, HBF Textiles is not responsible for shade variance within a hide based on commercially accepted standards.

### Order Changes & Cancellations

Once an order is submitted for processing, the order is considered final and all order changes are subject to approval by HBF Textiles. Please contact HBF Textiles Client Experience at **service@hbftextiles.com** for the status of your order prior to canceling. No cancellations are accepted once any fabric on your order has been cut. If fabric has not been cut, cancellations are subject to a 15% handling charge.

Authorized returns are subject to a 25% restocking fee and must be received in usable condition. No returns are accepted once you cut the fabric/leather. If HBF Textiles issues a return authorization, all returns must be made within 30 days after the return authorization is issued. You will be credited once the fabric/leather is received at HBF Textiles' premises. HBF Textiles will not cover original freight charges.

## Custom Fabrics

Custom fabrics are approved upon request. Contact [service@hbftextiles.com](mailto:service@hbftextiles.com) for inquiries. Custom fabrics are subject to separate terms and conditions as specified by HBF Textiles.

## Fabric Maintenance

For detailed care and maintenance instructions, please visit [HBFTextiles.com](https://hbftextiles.com). Cleaning methods may vary from pattern to pattern. Please review the product specific cleaning instructions for each pattern on the product pages of the HBF Textiles website.

### For General Cleaning:

HBF Textiles upholstery fabrics should be vacuumed occasionally to maintain their quality and appearance. For spot cleaning, all surfaces should be wiped clean of any solid material or soil (organic and inorganic materials) prior to the application of approved cleaning agents or disinfectants. Always defer to the guidelines and recommendations provided in the product maintenance guide prior to application of a cleaning or disinfectant and consult a professional cleaning service when available. For cleaning of draperies and wallcovering, consult a professional cleaning service to obtain proper care and maintenance information.

## Leather Maintenance

Individual care and maintenance guides are available on the product pages of [HBFTextiles.com](https://hbftextiles.com).

Leather is a natural material wherein all hides are unique with varying characteristics, textures and hues. Leather may exhibit markings including scars, scratches, spine delineation and neck and belly wrinkles. The quantity and severity of visual scarring and color variation can vary from hide to hide and should be expected for specific leathers within the HBF Textiles offering.

## Polyurethane Maintenance

See individual product maintenance provided on the product pages of each HBF Textiles' polyurethanes. HBF Textiles is not responsible for any cleaners or disinfectants unless specifically provided in HBF Textiles' care instructions. A minimum of 6 stitches per inch is recommended for coated fabrics.

## Manufacturing Recommendations

HBF Textiles recommends using a minimum of 6-8 stitches per inch for woven fabrics and a minimum ½ inch seam grab. Care should be taken to use the proper needle size relative to the type of fabric that is being sewn. For textile products that have a backing, be sure to trim both selvages so that the stitch-ing/sewing is within a minimum ½ inch grab in the backed area.

## Color Matching

Commercially acceptable color variations may occur among production lots. Due to the nature of individual computers and monitors, actual fabric and product colors may vary slightly from what is seen online. Irregularities in hue and texture are integral to the character of textiles utilizing natural fibers; as such, color matches cannot always be guaranteed. If an exact color match is required, a cutting for approval must be requested when an order is placed.

## Claims

All HBF Textiles are carefully inspected and securely packed prior to shipment. They are accepted as such by the carrier. HBF Textiles is not responsible for damages incurred in transit by third party carriers or storage. Before accepting goods from the carrier, examine the shipment carefully. Claims against HBF Textiles for defects, errors or shortages must be emailed to [service@hbftextiles.com](mailto:service@hbftextiles.com) within 15 days of delivery. Cutting of the textiles will be deemed acceptance of the material and waiver of all defects, errors or shortages.

## Disclaimer and Warranty

HBF Textiles may substitute fiber content and/or yarn at its discretion and change sources and country of origin when it deems necessary without prior notification. HBF Textiles is not responsible for reverse crocking; color fastness due to aging or extreme exposure to artificial or natural sunlight; variations in leather such as scars, wrinkles, and other marks; or discrepancies in fabric widths.
