TABLE OF CONTENTS

ZILENZIO PRO

Zilenzio Pro is part of our THE GREEN TAG manifesto, a symbol of our commitment to create high quality products with a long life cycle. All products in the series are made with stone wool for superior sound absorption, a recyclable and durable material that is both non-flammable and water-resistant. Many of the products are supplied with replaceable fabric to further extend life and provide a truly sustainable option. Zilenzio Pro adheres to the market's certification and reporting requirements, both on the Swedish and international markets. The three foundations of this standard are quality (technical requirements), environment and sustainable supply chains where social, work environment and ethical responsibility are considered.

DECIBEL FAMILY

With a simple and timeless design and the best functionality on the market, the Decibel family covers every office need. All products are made with stone wool, which is recyclable and has the highest possible fire classification. Many of the products are supplied with replaceable fabric, which makes the new Dezibel a very durable alternative.

TABLE OF CONTENTS

ZILENZIO STUDIO

Zilenzio Studio is designed to suit projects with somewhat lower sound absorption requirements. The screen is available with removable fabric, several of feet and coupling options. Zilenzio Studio adheres to the market's certification and reporting requirements, both on the Swedish and international markets. The three foundations of this standard are quality (technical requirements), environment and sustainable supply chains where social, work environment and ethical responsibility are considered.

FOCUS FAMILY

For a growing group of digital nomads and those who still operate in more traditional workspaces, it is important to find a personal place in an otherwise public space – whether an open office landscape, café, hotel lobby or school. Welcome to the Focus family: Privacy, simplicity and endless flexibility.

FUNCTION

Phones ringing, people conversing, a printer going at full speed and the constant pings of colleagues' incoming emails on their computers. Does this sound familiar?

For many, this is a fairly accurate description of their standard work day. Many are unaware that the noise level at their workplace is too high. A high noise level affects not only our ability to do our work efficiently, but also our health and quality of life, both during and after working hours.

Unwanted and unnecessary sounds, what we refer to as noise, can lead to loss of hearing, fatigue and trouble concentrating. Noise also triggers our stress hormones and increases the risk of high blood pressure. For employers, poor acoustics in the workplace often translates to long-term sick leave or dismissals.

Open office landscapes are becoming increasingly common. Open office landscapes are both practical and social because they make it easier to communicate with your employees, but there are many risks.

People conversing is one of the biggest sources of sound at the workplace. Unfortunately our ears are unable to filter out this kind of noise. When we are exposed to a conversation between two people in our vicinity, we risk becoming as much as 66% less productive than if the noise level was lower. This makes it more difficult to focus on the task, which leads to poorer results.

At Zilenzio, we create silence for both ears and eyes. We combine relevant data and in-depth knowledge of sound and design, with a responsive and sustainable process, to deliver well-thought-out quality products. We deliver products and services that help our customers reduce aural and visual noise to comfortable and productive levels.

Dezibel Table

The Dezibel table screen is designed to reduce the noise level between work surfaces with optimal dimensions and the best possible design. The desk screen creates an efficient and creative work environment by lowering the level of both acoustic and visual noise, thus improving the workplace experience. The screen has a solid wood (FSC) frame, filled with stone wool, a recyclable and plastic-free material, and covered with fabric.

This product is part of the Zilenzio Pro family.
Zilenzio Pro combines the ultimate in function, design and durability.
All products in the series use stone wool for optimal sound absorption. Stone wool is recyclable, free of plastics and has the highest possible fire classification.

NOTE! Foot chosen separately

This product is part of the Zilenzio Pro family.
*Zilenzio Pro combines the ultimate in function, design and durability.
 All products in the series use stone wool for optimal sound absorption. Stone wool is
 recyclable, free of plastics and has the highest possible fire classification.*

Optima Table

Optima is environmentally friendly in a number of ways. It is made up of recycled PET and has sound absorption class A. The screen can easily be covered with a fabric that can be changed to another fabric or color after any number of years.

The screens are light and can therefore be ergonomically mounted.

Dezibel Duo

add-on for double desk

DEZIBEL DUO is an add-on that converts the Dezibel Table for double desks. The add-on enables customer customization for the attachment.

We adapt the attachment in the screen to the desktop.

NOTE! Always send with plan on the table
Contact support@zilenzio.com for a quote or for more information

Add-on	Item no.	Price/pcs
Dezibel Duo	30-MOD-03	154

Zermatt

Zermatt – a desktop screen that divides without feeling static. The screen's welcoming design creates a special sense of space simultaneously with a better focus. When several desktop screens are placed against each other, a dynamic and undulating landscape results. Zermatt is available as a front and side screen in one piece, or a front screen only, and can be adapted to desks sizes from 47.2" to 131.5"

DESIGNER

Studio Stockholm Arkitektur

This product is part of the Zilenzio Pro family.
Zilenzio Pro combines the ultimate in function, design and durability.
All products in the series use stone wool for optimal sound absorption. Stone wool is recyclable, free of plastics and has the highest possible fire classification.

This product is part of the Zilenzio Pro family.
Zilenzio Pro combines the ultimate in function, design and durability.
All products in the series use stone wool for optimal sound absorption. Stone wool is recyclable, free of plastics and has the highest possible fire classification.

Zorla

The Zorla capitalize shelf is a mobile floor-standing room divider with sound-absorbing effect that also provides open storage. The Zorla Shelf is a valued piece of furniture for office environments! When the wooden top box is filled with our artificial plants or pot for living plants, it easily becomes a decorative element. It also fulfills an extremely important function in open room solutions through its effective sound dampening.

DESIGNER

Anca Inredningsarkitekter AB

This product is part of the Zilenzio Pro family.
Zilenzio Pro combines the ultimate in function, design and durability.
All products in the series use stone wool for optimal sound absorption. Stone wool is recyclable, free of plastics and has the highest possible fire classification.

Kyoto

Kyoto is an adaptable modular system where you can build a quiet room in the open indoor landscape that is easily adapted to different room constellations. The design was inspired by the Japanese teahouses, characterized by a clear, simple and incredibly beautiful presentation.

Tips!

If using more than 3 in a row, use a pole with a foot.
 For a standalone screen, a pole with a foot is always used, 2 pcs/screen.

This product is part of the Zilenzio Pro family.
Zilenzio Pro combines the ultimate in function, design and durability.
All products in the series use stone wool for optimal sound absorption. Stone wool is recyclable, free of plastics and has the highest possible fire classification.

Optima Floor

Optima is environmentally friendly in a number of ways. It is made up of recycled PET and has sound absorption class A. The screen can easily be covered with a fabric that can be changed to another fabric or color after any number of years. The screens are light and can therefore be ergonomically mounted. Meets all the Möbelfakta requirements for the environment, quality and social responsibility.

FABRICS

Our selected fabrics are divided into four price groups, with prices ascending from group one to four.

PRICE GROUP 1

Sawana	Davis						
Cara 170	Camira						
Carlow 170	Camira

* Fabrics with a fabric width other than 66.9" will be sewn with a joint if the screen dimensions are 56.7"x63" or larger.

Offizz

The Offizz floor screen is designed to dampen the general noise level and provide screening in office environments. Offizz is available in several standard versions with different formats and surface layers to suit many types of environments.

This product is part of the Zilenzio Pro family.
Zilenzio Pro combines the ultimate in function, design and durability.
All products in the series use stone wool for optimal sound absorption. Stone wool is recyclable, free of plastics and has the highest possible fire classification.

FABRICS

Our selected fabrics are divided into four price groups, with prices ascending from group one to four.

PRICE GROUP 1

Sawana	Davis								
Cara 170	Camira								
Carlow 170	Camira								
Event Screen+ 170	Gabriel								
Mica 170	Gabriel								
Tonal 170	Gabriel								

PRICE GROUP 2

Focus M Screen 170	Gabriel								
Event	Gabriel								
Hush 170	Gabriel								
Soul Melange 170	Gabriel								
Twist 170	Gabriel								
Twist Melange 170	Gabriel								
Floyd Screen 170	Kvadrat								
Slope 170	Nevotex								
Blazer Lite 170	Camira								
Era 170	Camira								

PRICE GROUP 3

Blazer	Camira								
Era	Camira								
Main Line Flax	Camira								
Rivet	Camira								
Synergy	Camira								
Focus	Gabriel								
Focus Melange	Gabriel								
Step	Gabriel								
Step Melange	Gabriel								
Field	Kvadrat								
Floyd	Kvadrat								
Remix	Kvadrat								
Remix Screen	Kvadrat								
Revive	Kvadrat								
Broken Twill Weave	Kvadrat								
Hint 170	Kvadrat								
Reflect	Kvadrat								
Wooly	Nevotex								
Wooly wide 170	Nevotex								
Lido	Nevotex								

PRICE GROUP 4

Yoredale	Camira								
Crisp	Gabriel								
Canvas	Kvadrat								
Divina	Kvadrat								
Fiord	Kvadrat								
Hallingdal	Kvadrat								
Hero	Kvadrat								
Melange Nap	Kvadrat								
Re-wool	Kvadrat								
Steelcut	Kvadrat								
Steelcut Trio	Kvadrat								
Lani	Vescom								
Gamut	Vescom								
Barnum	Nevotex

This product is part of the Zilenzio Pro family.
Zilenzio Pro combines the ultimate in function, design and durability.
All products in the series use stone wool for optimal sound absorption. Stone wool is recyclable, free of plastics and has the highest possible fire classification.

Fazett

The Fazett wall system actually consists of a single building block, a rhombus that can be combined in many ways. By covering them in different colored fabrics, you can create patterns that can cover both small and large surfaces. They create a decorative pattern and at the same time act as effective sound absorbers.

DESIGNER

Note Design Studio

This product is part of the Zilenzio Pro family.
 Zilenzio Pro combines the ultimate in function, design and durability.
 All products in the series use stone wool for optimal sound absorption. Stone wool is recyclable, free of plastics and has the highest possible fire classification.

This product is part of the Zilenzio Pro family.
Zilenzio Pro combines the ultimate in function, design and durability.
 All products in the series use stone wool for optimal sound absorption. Stone wool is recyclable, free of plastics and has the highest possible fire classification.

Timber

Timber can be used ex. classic wall panels, imitate wood panels or used to create various elegant patterns; eg herringbone pattern.
Designed for Zilenzio.

DESIGNER

Norm Architects

This product is part of the Zilenzio Pro family.
Zilenzio Pro combines the ultimate in function, design and durability.
All products in the series use stone wool for optimal sound absorption. Stone wool is recyclable, free of plastics and has the highest possible fire classification.

Cloudz

Cloudz are ceiling absorbents designed to hang in layers above each other and therefore have holes where a wire can be pulled through to attach to the underlying absorbent. They are available in five different types to create a varied and playful impression. A ceiling absorber is often a great complement to other types of absorption measures.

The Focus® family

For the growing county of digital nomads and those who still operate in more traditional workspaces, it is important to find a personal place in an otherwise public space – whether an open office landscape, café, hotel lobby or school. Welcome to the Focus family: Privacy, simplicity and endless flexibility.

DESIGN

The outside of the screen is made entirely of fabric, which on the inside is held up by wooden strips. Focus is sewn with a characteristic seam that makes it foldable.

DESIGNER

Note Design Studio

FOCUS® FLOOR

Focus Floor is a textile screen. The featherweight construction makes it easy to move the Focus Floor around when you need to create new room solutions for a flexible office.

FOCUS® TABLE

We have noticed that something is missing from public spaces when it comes to creating your own personal space. The Focus Table is a textile screen with a flexible construction that gives the screen the ability to take on the required shape. It can be easily folded and stored.

Focus® Pod

The Focus Pod is an easy-to-place and functional screen that also includes a seating area with a table. A designed and comfortable seat that gives a calm and cozy feeling.

DESIGN

Frame and table in white stained ash. Back and seat cushion in textile, held up on the inside by 2.5 wooden strips. The table can be used on both the left and right side Ø 250

FOCUS® DESK DIVIDER (PREVIEW - LAUNCH LATE 2023)

The Focus Desk Divider creates a calming cocoon that blocks distracting impressions and promotes concentration. A new addition to the Focus® family whose design, created by Note Design Studio, is both efficient and inviting.

The screen can be used to create an individual workplace at home or a personal space in an open office landscape or public place. Choose between rounded and straight corners.

Focus® Desk Divider

The Focus® Desk Divider creates a calming cocoon that screens out disturbing impressions and promotes concentration.

PREVIEW – LAUNCH LATE 2023

For more information, please contact Support@zilenzio.com

This product is part of the Focus® family.
For the growing county of digital nomads and those who still operate in more traditional workspaces, it is important to find a personal place in an otherwise public space – whether an open office landscape, café, hotel lobby or school.

DELTA LEAVES

Delta Leaves is a series of sound absorbing panels that can be combined in many different ways and provide unlimited possibilities to create a personally adapted quiet environment for work or rest. The panels are available in three sizes and are designed to fit any environment – from the smallest meeting room to the large office landscape. They can be used individually or together, horizontally or vertically, and combined in an infinite number of compositions.

With their soft geometric shapes, the panels can be discreetly incorporated into a sophisticated environment – or be used to create more playful installations. The collection also invites you to experiment with colors and textures.

This product is part of the Zilenzio Pro family.
Zilenzio Pro combines the ultimate in function, design and durability.
All products in the series use stone wool for optimal sound absorption. Stone wool is recyclable, free of plastics and has the highest possible fire classification.

DESIGN

MDF core, stone wool filling, polyether edges and external textile cover.
 Easily mounted using a suspension strip.

MEASUREMENT

DELTA LEAVES

Leaves One:	21.3" x 131.6"
Leaves Two:	35.4" x 35.4"
Leaves Three:	21.3 x 51.6"

The Delta Wall is part of our Delta series with its characteristic soft design. Available in three different sizes that create decorative patterns on the wall.

This product is part of the Zilenzio Pro family.
Zilenzio Pro combines the ultimate in function, design and durability.
All products in the series use stone wool for optimal sound absorption. Stone wool is recyclable, free of plastics and has the highest possible fire classification.

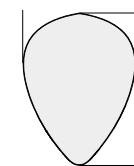

MEASUREMENT

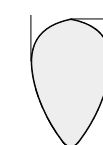

Delta One	21.3"×131,2"
Delta Two	28.7"×39"
Delta Three	20.5"×81,2"
Thickness:	2,3"

Delta One
69-0513

Delta Two
69-0709

Delta Three
69-0508

DESIGN

MDF core, stone wool filling, polyether edges and external textile cover.
 Easily mounted with a Velcro-covered MDF spacer.
 The spacer builds 0.4" deep from the wall.

SOUND

SS-EN ISO 354, ISO 11654 Class A
 SS-EN ISO 354:2003 evaluated SS 25269

ENVIRONMENT & SAFETY

Möbelfakta Certified

SUSTAINABILITY

Zilenzio thinks sustainably in all parts of its business

We constantly strive to create ambitious design solutions and smart processes with an aim to offer the best products, bold and innovative, without leaving a heavy footprint on our planet. As part of our efforts to create sustainable solutions, we have launched THE GREEN TAG, our latest initiative to review and transform our own sustainability work across our entire product range.

THE GREEN TAG MANIFESTO

At Zilenzio we strive to:

- Use our innovative approach to develop more sustainable products and ensure a positive environmental impact for our business model.
 - Follow the Möbelfakta guidelines to ensure that we deliver first-class quality combined with a strong focus on environmental awareness and social responsibility.
 - Only use FSC certified wood, sourced from responsibly managed forests.
- Offer removable fabric that is easy to clean or replace when necessary.
- Promote the use of stone wool, a unique material made from natural stone. Stone wool is free from plastic and other dangerous substances, is fireproof, and absorbs sound brilliantly.
 - Partner liability. We build long-term relationships with our partners who are serious about sustainability and promote transparency in every part of the production chain.
 - Start our program with a new collaboration with Ragn-Sells and STONE WOOL in the Nordic countries. Our goal is to lead the shift towards products that are reliable yet leave a smaller footprint.

We challenge the integrity and long-term sustainability of our brand from the inside out, And we invite our customers and partners to join us on this exciting and important journey.

We are currently exploring the possibility of using a labeling system that identifies products that meet specific green criteria, such as products made from recycled stone wool and removable upholstery.

Designing and manufacturing beautiful products of the highest quality and with the longest possible lifespan is our calling. We make sure that every step is carefully thought out – from the way we manufacture and choose materials to packaging and recommended maintenance. With replaceable parts and the ability to recycle products, an intelligent approach to repairs and reuse is a natural part of our brand.
