

Expanding the Potential for Learning

At HON, we believe every space throughout the school begins with the cohesive design of furniture and the tools students and educators use every day. From student seating for all grades, to collaborative soft-seating, desks from seated-to-standing heights, tables, and multi-purpose storage options—every solution we craft helps create flexible environments that support all levels of learning, engagement, and creativity.

We value lasting partnerships.

Educators, administrators, and faculty members manage a multitude of important responsibilities throughout the school. We've made it a priority to listen and grow our relationships with the people who work tirelessly each day to help today's learners become tomorrow's leaders.

We design smart solutions for inclusive classrooms.

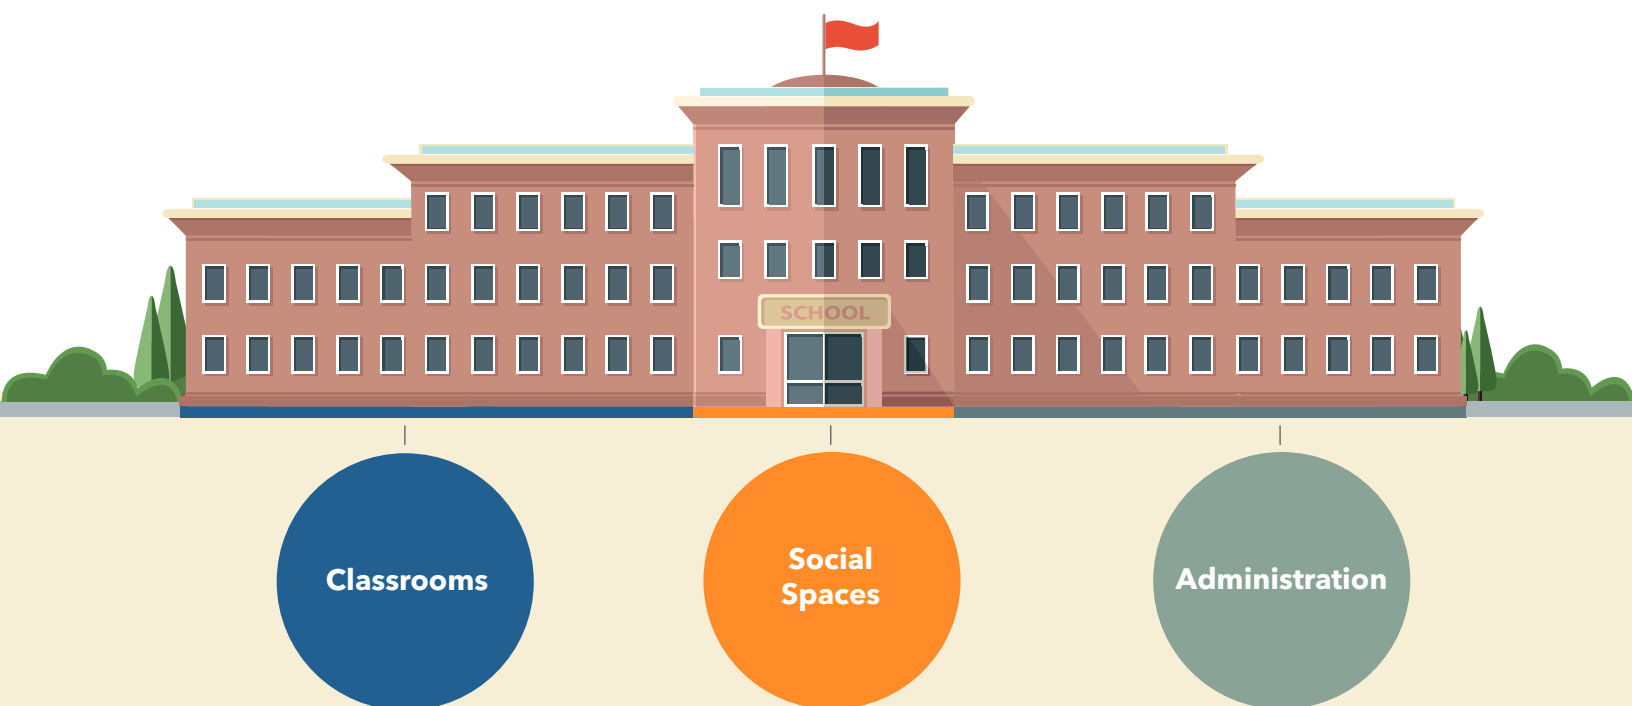

We pride ourselves in understanding that learning is happening in every space of the school. We deliver creative configurations, versatile applications, and reliable craftsmanship that performs under pressure to support all teaching styles. And that confidence applies to every space throughout the school—from classrooms to administrative offices and every area in between.

We're invested in making a difference.

Learning environments shouldn't be one-size-fits-all—every student has a different way of understanding and embracing the world around them. Our classroom furniture and tools support our mission—and promise—to ensure everyone has a seat at the table.

We are industry focused, and market leaders.

With a sharp focus on master craftsmanship, fresh and clever design, and unsurpassed customer service, HON's experience and scale have been an industry gold standard for 75 years. We believe in trusted partnerships, impeccable quality, and consistent, best-in-class reliability.
