

UNVEILING THE POWER OF CONNECTION

HBF Textiles' newest collection dives deep into nature-inspired textiles and the beauty that surrounds us.

HBF Textiles
 New York Showroom
 155 Fifth Avenue, 6th floor
 New York, NY 10010

Deep Connections embodies the textures and tones that nature uniquely offers, carefully translated into refined, high performing textiles that speak in the nuanced vocabulary of depth. The collection is about perceiving the delicate intricacies within shadows, the careful layers of organic patterns, and understanding their interplay with light. These designs capture the exquisite allure of their seamless interconnection, and explore new performance attributes and options for designers. The collection is an exciting exploration of form, a delicate dance that kindles visual fascination at every turn.

“Creating surface texture is part of our DNA and coupling that with patterning, which is at times organic or structured, gives us additional dimensional character,” explains Mary Jo Miller, Vice President, Design and Creative Direction for HBF Textiles. “We love playing light and shade against one another through color pops and dark moody hues, with waves of depth occurring simultaneously.”

Inspired by the fascinating layering of stripes found in an agate stone, **Agate Stripe** makes a strong statement in the Deep Connections collection. The pattern is woven as a cut and uncut velvet epingle construction to give the design a luxe texture. Enhanced by deep shades juxtaposed with intense thin hues help give Agate Stripe maximum definition and striking visual impact with a multi-dimensional feel. The colorations are authentic to agate stone variations as the design sparks interest in a new context, through the textile medium. Agate Stripe is available in 5 colorways.

Moody Moss is a textural fabric with a pin curled surface that portrays the density of a moss carpeted forest. Beautifully tactile with an earthy palette of 12 colorways, Moody Moss is also a visual delight when upholstered on HBF classic lounge pieces.

Tessellations are composed of intricate patterns found in nature with repeating shapes and no overlaps or gaps. Our **Tessellations** design employs a carefully selected, dynamic multi-colored effect with hues that range from dark shades to pastel to white for optimum spatial depth and contrast. A deeper look reveals a mesmerizing sheen and harmonious kaleidoscope of shapes and colors. Tessellations is available in 7 colorways.

Deep Connections is also a celebration of the profound relationships Mary Jo Miller has nurtured over the years with peers in the design industry. These bonds connect all of us—a community who continue to evolve and grow together. Years of drawing experience from one another has resulted in this new collection, refined and richly layered.

In HBF Textiles' ongoing commitment to sustainability, all patterns in the Deep Connections collection are SCS Indoor Advantage Gold, and Free of Chemicals on LBL Red List. In addition, the "BIFMA LEVEL 7.4.4 – Targeted Chemical Elimination" (previously HCWH) applies to all 3 patterns and covers Fire Retardant free, PFAS free, and Antimicrobial free. Agate Stripe and Moody Moss are both REACH Compliant and Agate Stripe and Tessellations are both Oeko-Tex Certified.

###

About HBF Textiles

HBF Textiles is a leading producer of contemporary textiles, blending art and craft to create inspiring products. North Carolina's two-hundred-year history of textile manufacturing has provided an unparalleled foundation for understanding how fabric can enrich daily life. With like-minded mills and collaborators locally and globally, HBF Textiles explores the myriad of possibilities materiality can offer—from contract performance to sustainability—and how it can further connect us with other people and our environment. To explore HBF Textiles' comprehensive portfolio of woven fabrics, coated fabrics, and leathers, visit www.hbftextiles.com.
