

Allsteel®

Aspect™

# An Elegant Solution

Aspect frameless glass office fronts provide a modern, sophisticated solution for creating beautiful, natural-light filled spaces that foster visibility and transparency to promote human connection while also providing superior acoustic performance and privacy.

# A Refined Portfolio

With uniform trim and frameless panels, Aspect can create defined spaces supporting a wide range of applications such as conference rooms, private offices, and touchdown spaces, while remaining light in aesthetic.

# Minimal Aesthetic

The Aspect frameless glass wall system offers an elegant solution, creating offices and conference rooms with lineal trim that is uniform on all sides. This design reduces scrap, simplifies installation, and ensures a consistent visual aesthetic.

# Integral to Your Workspace

The physical workplace is the embodiment of a company's culture and the people who work within it. It's where individuals and teams thrive, together or alone, to achieve business goals and build community.

Aspect frameless glass walls remove solid barriers, creating a sense of openness while promoting accessibility, allowing for adjacent teams to have a line of sight to leadership, project work, and team activities.
