

All About Supreen®

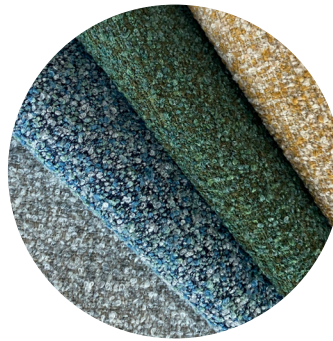

Supreen is a revolutionary composite material that incorporates the performance of a coated textile with the beauty and luxurious softness of a woven fabric. With a unique liquid barrier, this industrious upholstery fabric exceeds expectations in high-traffic areas without sacrificing elegant aesthetics.

The Power of Choice

Livi, Oxford, Constance, and Lugano - Supreen's incredibly supple hand and remarkable breathability provides comprehensive comfort and style for any space.

A Global Effort

Supreen's PFC- and PFOA- free technology is both environmentally conscious and considerate of human health standards.

Comprehensive Cleanability

Ideal for healthcare installations, Supreen withstands diluted bleach and regular, vigorous cleaning.

Moisture Has Met Its Match

With a proprietary silicone blend embedded in the fiber, Supreen performs beyond moisture barriers. Liquids won't penetrate the material, no matter how long the fluid remains.
