HON

NEW & *Enhanced* Customer's Own Material Program

June 2025

We've made several updates to the Customer's Own Material (COM) program to create a seamless and improved customer experience.

WIDER SELECTION

New textiles, including all colors from leading textile suppliers*, will be added to the COM offering as they are introduced. This provides designers and dealers with more choices upfront.

STREAMLINED PROCESS

Since all colors for new textiles will be pre-coded, graded, and approved for COM use, there is no need to submit a separate request for each individual pattern color, simplifying the process.

EASY SEARCH

The COM website and **hon.com** will be updated to include COM textile information, with continuous updates as new textiles are introduced and approved.

ENHANCED VISUALIZATION

All approved COM textiles will be syndicated within CET, allowing designers to render HON furniture with their selected textiles for more accurate and realistic visualization. HON is among the few contract furniture companies offering this feature in CET, ensuring a better design experience.

*Participating Textile Suppliers

Anzea
Arc-Com
Architex
Camira
Carnegie
CF Stinson

Designtex
HBF Textiles
Knoll Textiles
Kvadrat
Luna Textiles

Luum
Maharam
Mayer Fabrics
Momentum Textiles & Wallcovering
Ultrafabrics

These enhancements will
make the HON COM program
**one of the most
comprehensive
and user-friendly**
in the contract
furniture industry.
