Price & Specification Guide 2026

Prices effective May 1, 2026

PDF updated September 17, 2026

All content marked in red signifies an update to the previous version of this price guide published on May 1, 2026.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Limited Lifetime Warranty

Our unwavering commitment to our customers compels us to care, and our dedication to quality is just one of the ways we show our customers how much they mean to us.

We recognize that keeping up with the pace of change requires having products that work as hard as the people who use them. That's why each of our products is rigorously tested and certified to meet the highest industry standards.

In the unlikely event that any Allsteel product or component covered by the Allsteel Warranty should fail under normal workplace use because of defective material or workmanship, Allsteel promises to fix it. Because taking care of *people* is how Allsteel takes care of business.

For information on Allsteel's warranty coverage, visit AllsteelOffice.com.

ITEMS ON GSA CONTRACT

Please note, in order to verify if an item is on GSA Contract or is "Open Market," please use Compass quoting which is updated in real time with all GSA contract changes. If you need additional assistance, please contact your local sales representative. For more information visit: https://www.allsteeloffice.com/insights/sustainability/product-certifications.

GSA/FEDERAL CONTRACT INFORMATION:

Model numbers identified with the following verbiage "When purchased separately without a configurable TAA compliant end product, not on GSA contract" is to mean that these configurable parts or components:

- Have no functionality or capability without being integrated into an end product; and
- Are considered Open Market if purchased without a configurable TAA compliant end product.

COM Program

Allsteel understands that customers may at times want to specify fabrics outside of Allsteel's standard fabric offering. Our COM program was designed to make specifying COMs on Allsteel products a simpler, friendlier, and hassle-free process. This process is simple and easy to use, and is described below under "Allsteel to Supply (ATS)." If a Dealer wishes to manage the COM process themselves, they can do so by following guidelines under "Dealer to Supply (DTS)". **ATS is the preferred method for all COM fabrics.** With ATS, Company will provide acknowledgment based upon planned date of receipt of COM fabric and manage the entire process. DTS is allowed if Company does not have access to the supplier. **DTS may cause order delays and is strongly discouraged.** Find out more about Allsteel's COM process by emailing our COM Department at **allsteelcomteam@allsteeloffice.com**.

Allsteel to Supply (ATS):

1. Select the fabric you wish to use and check the COM Search on our Website at: AllsteelOffice.com/Design Resources/ Textiles & Finishes/COM Search or COM Search quick link. You will need to have the COM supplier's name, fabric pattern name, and color name to search for approved fabrics.
2. If your fabric is listed as an approved fabric, you may place your order directly with Allsteel Customer Support. Please use the fabric code (e.g., S216426XP) from the COM Test Request on your order in the place of the standard fabric code.

   If your fabric is not listed as approved, you will need to select the "Request COM Test" link on the COM Search website. If your fabric is not listed as approved you may request a "Dealer to Supply" code. Select the "Request COM Test" link on the COM Search website. Your name, company name and email will be prepopulated fields. The secondary email, project name, and bid/contract number are optional information. The supplier, pattern, and color will show a list by clicking in the box and entering the first letter of the name and these are free form text boxes. Once that information is entered click add. (Multiple series can be added to the same request if they are the same supplier, pattern, and color.) Then click submit.
3. An email will be sent to the to the requestor stating the COM Request was successfully submitted. Up to four emails could be received: Testing materials requested, in testing, and final approval/denial with price grade and fabric code. It's rare actual test yardage is required. Testing is mainly done by reviewing the attributes of the fabric. The testing process takes approximately 48 hours. Written COM price quotes hold pricing for 90 days after issue date.
4. Once the fabric has been approved by Allsteel, enter your order directly with Allsteel Customer Support. Allsteel will purchase all COM fabric directly from the COM suppliers and schedule for production.

   In the event that the Dealer decides to cancel a COM fabric order, the Dealer is responsible for the cost of the fabric plus a handling charge that is equal to 10% of the fabric cost.

Dealer to Supply (DTS):

1. Select the fabric you wish to use and check the COM Search on our Website at: AllsteelOffice.com/Design Resources/ Textiles & Finishes/COM Search or COM Search quick link. Or call Allsteel Customer Support to see if the fabric you have chosen has already been tested and approved on the product you are interested in.

   You will need to have the COM supplier's name, fabric pattern name, and color name for this inquiry.
2. If your fabric is not listed as approved you may request a "Dealer to Supply" code. Select the "Request COM Test" link on the COM Search website. Your name, company name and email will be prepopulated fields. The secondary email, project name, and bid/contract number are optional information. The supplier, pattern, and color will show a list by clicking in the box and entering the first letter of the name and these are free form text boxes. Once that information is entered click add. (Multiple series can be added to the same request if they are the same supplier, pattern, and color.) Then click submit.
3. An email will be sent to the to the requestor stating the COM Request was successfully submitted. Up to four emails could be received: Testing materials requested, in testing, and final approval/denial with price grade and fabric code. It's rare actual test yardage is required. Testing is mainly done by reviewing the attributes of the fabric. The testing process takes approximately 48 hours.
4. Make sure to use a "Dealer to Supply" COM code (e.g., S216426ZP) and place your order directly with Allsteel Customer Support.
5. All "Dealer to Supply" orders will be charged Grade 4 pricing for seating, Grade 4 for Social Collaborative, and Grade D pricing for panels. Dealers will pay for the COM fabric separately.
6. All "Dealer to Supply" fabric must be sent on a fabric roll. Estimate the yardage required by using the yardage requirements listed in the price list by model. For questions please contact Allsteel Customer Support.
7. Place your fabric order directly with the COM Supplier with instructions for the fabric to be sent on a fabric roll to:

   HNI Textile Distribution Center
   COM Production Yardage — PO Number
   Docks 20-22
   301 Mulberry Avenue
   Muscatine, IA 52761

Information that MUST be included in the packing slip attached to the DTS fabric:

1. Dealer's Purchase Order number to Allsteel
2. Allsteel's Tracking number for the COM fabric
3. Dealer Name
4. Yards of Fabric

If the fabric shipment does not match the correct fabric and yardage, Allsteel will notify the Dealer for resolution.

If Allsteel receives fabric with incorrect labeling or fabric yardage that cannot be linked to an Allsteel furniture order, Allsteel will hold the fabric for up to 4 weeks. After 4 weeks Allsteel will dispose of the fabric. There are no exceptions to this policy.

Specific to DTS orders - The customer should send only the amount needed for the order. Excess yardage, or yardage not attached to an order will be disposed of at Allsteel's discretion.

Any canceled orders are subject to cancellation charges up to the full value of the Allsteel product canceled. Allsteel will determine the actual cancellation charge at the time the cancellation is requested.

8. For additional details on "Dealer to Supply" fabric refer to your Allsteel terms and conditions.

Additional Policy Information:

The company assumes no responsibility for the overall appearance, flammability, normal durability, colorfastness, or any other quality standards. The company reserves the right to reject a COM if the quality of the COM is not satisfactory for the product. Should this occur, the customer will be notified with an explanation when the issue is found.

The company is not responsible for fabric that has become obsolete at the COM supplier, that is of poor quality, or that is delivered late to the manufacturer from the COM supplier.

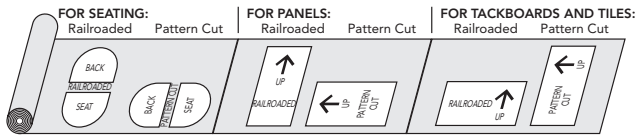

All cancellations or changes to COM orders are subject to Company approval. Because of the nature of COM, special fabrics, finishes, and structural modifications, products ordered as specials and then canceled prior to shipment are subject to cancellation costs up to the full value of the product canceled. The company determines the actual cancellation charge at the time the cancellation is requested. Upon approval, a cancellation number is issued to the Customer.

Purchase orders will not be accepted or entered unless the testing process is complete with positive results.

If all testing has been previously completed, re-testing is only necessary if fabric is to be used on a different product, or pattern direction has changed from that previously approved.

Previous test results can be obtained by a customer on the COM Search on our Website or by calling Allsteel Customer Support.

All COM fabric will be applied to seating and panel systems Pattern Cut unless Railroad Cut is requested and approved on the COM Test Request. Any fabrics approved as a width pass, the dealer is responsible for clarifying Railroad Cut on orders containing items that are too large to support the Pattern Cut of a fabric application (any items larger than 48" high or wide).

Fire Retardant

The Dealer is responsible for ensuring that the COM fabric is certified to meet all flame retardant requirements.

For more information, please contact Allsteel Customer Support.

YARDAGE REQUIREMENTS FOR FABRIC WITH REPEATS — FOR USE ON SOCIAL COLLABORATIVE PRODUCTS

Fabric Width	Plain Fabric	2"– 14" Repeat	15"– 19" Repeat	20"– 27" Repeat	28"– 36" Repeat
54"	0	+15%	+20%	+25%	+30%
53"	+6%	+19%	+24%	+28%	+36%
52"	+13%	+23%	+28%	+33%	+38%
51"	+19%	+26%	+31%	+36%	+41%
50"	+25%	+30%	+35%	+40%	+45%
49"	+30%	+35%	+40%	+45%	+50%
48"	+35%	+40%	+45%	+50%	+55%
47"	+45%	+50%	+55%	+58%	+65%

Depending upon the pattern repeat, it may be necessary to pattern cut the fabric. This will require 10% additional fabric.

To calculate multiple repeats (vertical and horizontal), add each repeat for total yardage required. For example for a fabric width of 54": 7" vertical requires 15%, 15" horizontal requires 20% total additional yardage required equals 35% (15% + 20%). Therefore, if your chair requires 2 yards of fabric, multiply 2 by 35%. Then 2.7 yards will be yardage required.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Special Paint & Stain Policy

Allsteel at its own discretion may modify its standard products with non-standard paint and stain colors to meet specific needs. Dealer is required to submit a special paint or stain request via the COM Search on our Website. A sample of the non-standard paint or stain color desired will be required for matching. Pricing, lead time, and order information will be provided at the time of approval.

- For each new requested stain or paint, there will be a $500 net fee to cover supplier costs to match the special item.
- For existing, previously-approved stains or paints, there is no $500 matching fee, however, there is a sample chip fee of $175 net for stains and $100 net for paints.
- Samples, preferably at least 3" x 5" chips, of the exact color desired should be sent to the Allsteel Tailored Products Group. Paint matches require (3) sample chips and stain matches require (3) sample chips. Please mail these sample chips to the address below and reference the Special Item Request Number from Tailored Solutions.

  Allsteel Inc.
  Attn: COM Team
  505 Ford Ave.
  Muscatine, IA 52761

- Allsteel will color match the sample and send control samples to the address provided in the request. Dealer will review Allsteel's color match and approve by signing the back of the sample chip. Send the signed sample back to the Allsteel Tailored Products Group.
- Special paints will be assigned a paint price grade.
- Orders will not be accepted until Allsteel receives the Dealer's written approval on the color match.
- Extended lead times will apply on orders containing special paints or stains.
- Due to manufacturing techniques, materials, and quality issues, some exclusions will apply and some matches may be declined.

Important Notes

- Natural veneer is subject to nature's quality control. Differences in grain and color are naturally occurring variations and cannot be controlled by the manufacturer and cannot be considered as product defects. Natural veneer has the characteristics and beauty of a living organism; with its own variations of grain, growth, and color patterns. For these reasons, Natural veneer is preferred by many for its warmth and personal characteristics.
- Color changes will occur over time when wood is exposed to light. For this reason, when new product is ordered as an addition to existing product, there will be color variances between the old and new product. Please remember when specifying new product that although the species of veneer will be the same, additional product is being manufactured from a different tree. It may take several months for the new furniture to mature to the color level of existing product. Even with this maturation process the additional product will not be an exact match.

Special Laminate Policy

The Company at its own discretion may modify its standard products with non-standard laminates to meet specific needs. Contact the Allsteel Tailored Products Group for pre-approved Wilsonart, Formica, Nevamar and Pionite laminates and pricing for special laminates. When requesting a special laminate please supply manufacturer, along with name and pattern number of laminate.

- Extended lead times will apply on orders containing special laminates.
- Due to manufacturing techniques, materials, and quality issues, some product exclusions will apply and some requests may be declined.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Everyday Advantage®

New terms and conditions for EDA:

1. Orders must clearly state "Everyday Advantage Order" and include the appropriate Everyday Advantage contract number:
   - Everyday Advantage Std-0125, Everyday Advantage Canada-0127
2. Everyday Advantage orders are not eligible for bid pricing.
3. Program discounting includes the complete Optimize, Further, and Terrace systems lines, private office solution, Approach and Involve storage. This program also includes Acuity, Evo, Inspire, Lyric, Mimeo, Relate, Seek, and Svelte, seating. Altitude, Aware, and Structure tables are also available, along with Align pedestals, lockers and metal storage and Essentials pedestals, and Radii storage lines. In addition, Extensions ergonomic accessories and lighting are part of the standard offering. All other product not called out is available for order on the contract but will receive standard discounting of 55%–65%.
4. All textiles and finishes except for veneer and some wood finishes are available, depending on quantity and selection, and may have extended lead times.
5. Everyday Advantage orders are not limited to a minimum or maximum.
6. All orders ship based on standard lead times. Large-quantity orders of like products may be subject to longer lead times.
7. Standard freight terms apply.
8. If driver assistance is needed, standard driver assist charges will be added at time of order entry.

Allsteel Inc. reserves the right to amend or terminate this program at anytime with 30 days written notice. Allsteel is not liable for service delays caused by force majeure (circumstances beyond Allsteel's control).

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Notes

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

ALLSTEEL SEATING COLLECTION

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Measurements based on BIFMA G1-2013 guidelines. Many of the measurements are taken from the compressed seat (dotted horizontal line) and the tangent lumbar apex (dotted vertical line).

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

ANSI — (American National Standards Institute) ANSI is a private, non-profit organization (501(c)3) that administers and coordinates the U.S. voluntary standardization and conformity assessment system.

Asynchronous — High-performance seating control system with three levers to modify adjustments on the chair for a more customized fit:
- Angle of back relative to seat
- Tilt (free float or infinite locking)
- Forward tilt of seat

ASTM Standards — (American Society for Testing and Materials) is an international standards group that develops and publishes technical standards for many products, materials, and services.

BIFMA — (Business and Institutional Furniture Manufacturer's Association) Produces voluntary standards for manufacturers of office furnishings. These standards are intended to provide a common basis for the evaluation of safety, durability, dimensions, ergonomics, and the structural adequacy of the specified furniture.

CAL TB117-2013 — Method used to test open flame resistance of components of upholstered furniture. This test is done with a lighted cigarette placed in crevices of mock-up components.

CFC — (Chlorofluorocarbons) CFCs are broken down by strong ultraviolet light in the stratosphere and release chlorine atoms that then deplete the ozone layer. CFCs are commonly used as refrigerants, solvents, and foam blowing agents.

COL — (Customer's Own Leather)

COM — (Customers Own Material) See pages 6-7.

Ergonomic — The coordination of the design of a product with the capacities and requirements of the user.

HFES — (Human Factors and Ergonomics Society) A membership-based organization whose mission is to promote the discovery and exchange of knowledge concerning the characteristics of human beings that are applicable to the design of systems and devices of all kinds.

Knee Tilt — A seating control that pivots about a point underneath the knee (towards the front of the seat) to reduce pressure on the back of the legs when reclining.

Memory Foam — Viscoelastic foam developed by NASA that retains the shape impressed upon it to reduce pressure points and distribute the load on the seat more evenly.

NFPA261 — Method of test for determining resistance of mock-up upholstered furniture material assemblies to ignition by a smoldering cigarette. This test is done with a lighted cigarette placed in crevices of mock-up components.

NFPA266 — Method of test for fire characteristics of upholstered furniture exposed to flaming ignition source. This is a full-scale test of mock up. Equivalent to CAL133

Pneumatic — Operated by compressed air in a tool or machine

Powder Coat — Dry paint electrostatically charged for better adhesion to parts and baked on for a durable finish.

Recyclable — Able to be reclaimed and re-used into another value-added product.

Recycled — Made from post-industrial or post-consumer waste products.

Synchro-Tilt — A seating control where the chair back reclines at a prescribed ratio in relation to seat angle. Allows user to recline while keeping seat cushion relatively level to the floor.

Urethane — Synthetic plastic; any of a group of thermoplastic polymers that are used in resins, coatings, insulation, adhesives, foams, and fibers.

Weight-Activated — A seating control that has the recline tension engineered into the chair so that the chair recline tension will automatically vary depending on the weight of the user reclining the chair.

Wyzenbeck Testing — Method of testing the abrasion resistance of a fabric utilizing a cotton duck or wire mesh that is rubbed, back and forth (a double rub), over the fabric.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Acuity is a chair that enhances any environment, any body. Designed in collaboration with Bruce Fifield of Milan-based Design Continuum Italia, Acuity is designed with Italian sensibility and Allsteel ingenuity. Its design and ergonomics work seamlessly while the controls are intuitive. Acuity is elegant and pleasing to the eye, as anything inessential has been stripped away, leaving behind only a purity of form.

Acuity is level®2 certified and has achieved SCS Indoor Advantage™ Gold Certification. Acuity is designed and manufactured to have minimal impact on both the physical and social environment, made with no PVC components and has a recycled content of 28%-37%, depending on chair base selected.

KEY FEATURES

AcuFit®

Acuity provides ideal ergonomics, instantly. We used the latest anthropometric databases, high-tech modeling, and intense observation to understand just what a body needs. You'll feel it the minute you sit – snug support and contoured cushioning that conforms to your body and stays with you throughout the day. No matter what size you are or how you work, Acuity adapts, automatically.

Weight-activated mechanism

A ground-breaking, weight-activated mechanism built into the chair's structure does two things critical to effective ergonomics: automatically adjusts recline tension in response to the user's weight; and, keeps the seat and back moving smoothly together during recline, thereby maintaining perfect balance, body angle, and focus.

Hybrid seat cushion

A unique combination of materials provides properties critical to comfort. A molded foam base with additional memory foam offers softness when you first sit along with greater support over time. This translates into instant comfort, the elimination of pressure points, and a healthy sitting experience over every hour of the day.

Conforming mesh back

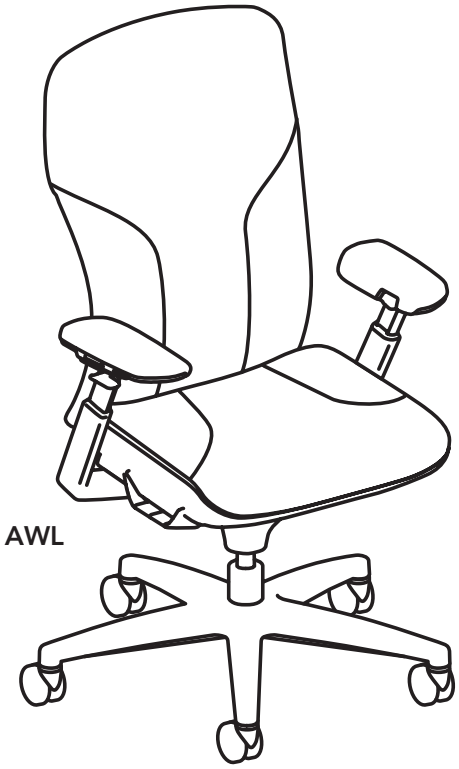

Form creates function with a back designed to provide ideal ergonomics for bodies of every shape and size. The mesh carrier mirrors the shape of the human spine, offering snug support to the shoulders, lumbar area, and everywhere in between, simultaneously and continuously. In addition, the structure and materials of the yoke have inherent dynamic properties that promote healthy posture by allowing just the right amount of flex and body movement.

Intuitive Controls

Fine-tuning the fit is critical to optimizing ergonomics and improving personal comfort. Acuity's controls are well-marked, easy-to-find tabs, located along the sides of the seat so they're simple to see, use, and understand. Now you'll never have to get out of your seat or fuss with paddles and knobs to adjust your chair.

AWM

AWL

Materials and Finishes

Acuity has been designed to complement any interior design, any organizational aesthetic. Purity of form, sensual lines, and a slender profile let it make a supportive statement to every environment, every body. Choose from several classic colors for chassis, base, caster, mesh carrier, and mesh and a wide variety of standard upholstery options.

Optional Upholstered Jacket

Dress for success with a slip on jacket that offers premium appeal in conference areas, private offices, or the boardroom. Elegantly tailored with a simple snap closure and seven stitches per inch, architects and interior designers can choose from jackets in leather options. Remove the jacket and you're back to mesh for everyday flexibility, anywhere in the office.

Casters

Black dual-wheel hard tread casters for carpet are standard.

Optional multi-surface casters provide smooth functioning on any surface, from a carpeted conference room to polished concrete. Finishes that match bases in standard black, graphite, or polished aluminum give Acuity head-to-toe elegance.

Fully Adjustable Arms

Intuitive controls let you find any of the eight arm positions. A single lever releases the arms to slide up or down; a button right where the thumb naturally lands lets you move the arm pad inward or outward, forward or backward. You can also pivot the front of the arm pads inward to move in closer to your desk and offer support while working.

Fixed Arms

Provide basic support for people who face a varied work day. Fixed arms limit adjustability and maintain aesthetics in conference room settings. Acuity's Fixed T Arms are 100% cast aluminum.

Materials

- All upholstery foams are CFC-free.
- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering information.
- Flammability code compliance of Allsteel textiles and seating is listed on pages 15-17. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013. Allsteel must test a complete chair to supply a certificate with CTB 133.

Acuity meets the requirements set forth in ANSI/BIFMA X5.1-2011 and BIFMA G1-2013. Acuity is warranted for multiple shifts and users up to 300 lbs.

OPTIONS — ACUITY:

Armrests:

- **W** Fully Adjustable Arms
- **A** Armless
- **F** Fixed Arms

Jacket:

- **M** (None)

Chassis:

- **G** Graphite Chassis
- **S** Silver Chassis
- **W** Brilliant White (limited to Titanium frames)
- **P** Polished Aluminum Chassis

Back Frame/Mesh:

- **GC** Graphite Carrier/Clay Mesh
- **GD** Graphite Carrier/Dusk Mesh
- **TL** Titanium Carrier/Lustre Mesh
- **TM** Titanium Carrier/Mist Mesh

Fire Code:

- **NO** Standard Upholstery, No Fire Code

Base:

- **P71** Black Polymer Base
- **P85** Graphite Painted Aluminum Base ($174 extra)
- **PR6** Silver Painted Aluminum Base ($174 extra)
- **PQ8** Brilliant White Painted Aluminum Base ($174 extra)
- **PAL** Polished Aluminum Base ($258 extra)

Pneumatic Cylinder:

- **2** Standard; allows 5" of travel
- **3** Short; non-standard 3½" of travel to meet BIFMA G1-2002

Casters:

- **H** Black Dual-Wheel Hard Tread for carpet
- **B** Black Multi-Surface ($118 extra)
- **T** Titanium Multi-Surface ($118 extra)
- **P** Polished Aluminum Multi-Surface ($158 extra)

Upholstery:

See pages 24-25 for Centurion model.
See page 12 for other upholstery selections.
See pages 15-17 for colors and codes

▲ Indicates upholstery available for Acuity jacket

Jacket — Acuity jacket models are subject to creases and gathers. Selection includes a subset of the Standard Options to optimize customer satisfaction.

NOTE: Not all options listed above are available on all models. See pages 24-25 for options by model.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Seating — Work

- Features and adjustments on all Acuity models: Conforming Mesh Back, AcuFit® Tilt Lock with Recline Tension, Seat Depth, and Pneumatic Adjustment

(See page 126 for COM pricing on Grades 9-22)

How to specify —

Select the Model Number from above.

1st Option:

Select the Frame/Mesh Color:

GC Graphite/Clay Mesh
GD Graphite/Dusk Mesh
TL Titanium/Lustre Mesh
TM Titanium/Mist Mesh

(Brilliant White models limited to Titanium frame finish. **VATWMG** model limited to Graphite/Dusk.)

2nd Option:

Select the Fire Code:

NO

3rd Option:

Select the Base Color:

P71 Black Polymer
P85 Graphite Painted Aluminum ($174 extra)
PR6 Silver Painted Aluminum ($174 extra)
PQ8 Brilliant White Painted Aluminum ($174 extra)
PAL Polished Aluminum ($258 extra)

(**VATWMG** model limited to **P71** Black Polymer)

Examples: **VATWMGGDNO.P71.2.H.CU10**

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Acuity side chairs provide an ideal solution for busy work areas such as training rooms, gathering areas, informal conferencing, cafés, and more. With a stackable design and pivoting back, Acuity side chairs provide the perfect combination of versatility and unexpected comfort.

MODELS AND OPTIONS

Acuity offers side chair models with mesh backs in two frame colors.

Side chairs feature **arm and armless models** with casters or glides.

Glides are available in nylon, nickel-plated, or felt options. Nylon glides are recommended for hard surfaces, commercial carpet, and damp environments. Nickel-plated glides are recommended for carpet. Felt glides are recommended for wood, tile, or high-sheen floor surfaces.

Multi-surface casters are also available.

Chairs ship up to four per carton to minimize waste.

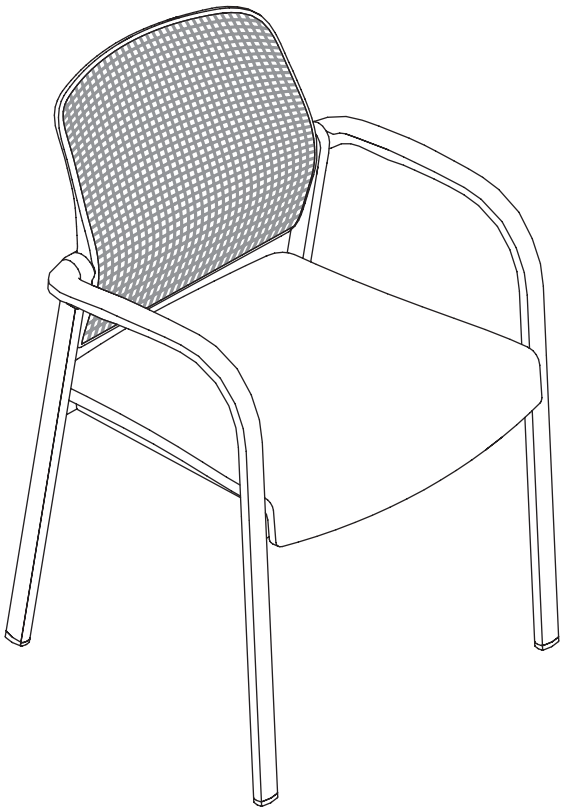

CONSTRUCTION

Steel frames and structural moldings create a durable design that performs in a variety of environments.

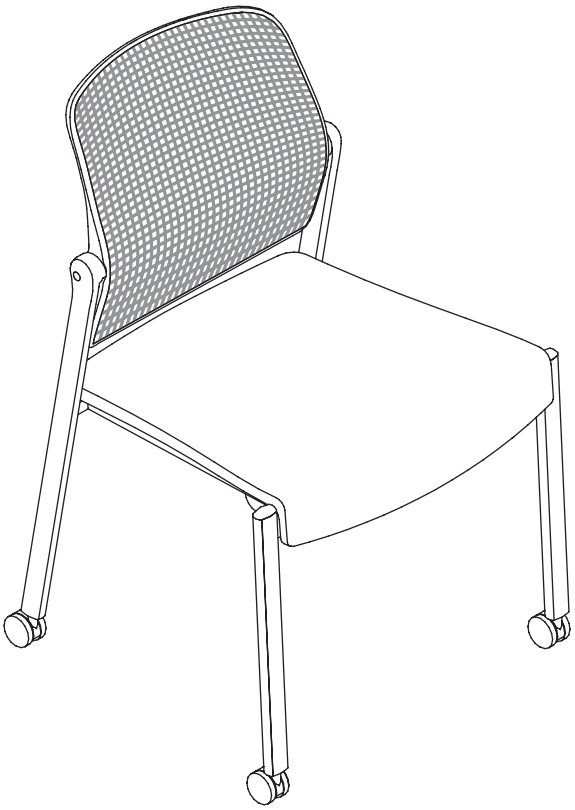

Seat upholstery is easily field replaceable allowing users to extend the lifecycle of the chairs.

Multi-purpose side chairs **stack up to 4-high** on the floor.

Acuity mesh chairs feature Acuity Mesh. This construction provides responsive, conforming back support and an open, airy aesthetic.

ACM-MUGO — Mesh Back and Upholstered Seat

ACM-MUCA — Mesh Back and Upholstered Seat

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

UPHOLSTERY AND CONTOURING

Acuity side chairs feature a pivoting back that provides unexpected comfort in any application. The **pivoting back** provides support while encouraging movement that makes for healthy sitting. The **backrest** features a contoured lumbar support to help relieve stress on the back. Added movement and support allow the Acuity multi-purpose side chair to go from project conference rooms to teaming areas to training rooms with ease.

The upholstered seat features a generous 2" of high-resiliency molded foam padding for comfort and long-term support.

All upholstery foams are **CFC-free**.

All **COMs/COLs** must be approved for upholsterability or applicable fire code compliance prior to order entry. See COM ordering instructions on pages 6-7.

Flammability code compliance of Allsteel textiles and seating is listed on page 12. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013.

Acuity meets the requirements set forth in ANSI/BIFMA X5.1-2011. Acuity side chairs are warranted for users up to 300 lbs.

Clarity offers a clean, simple design that preserves only the essential elements of form and function. Designed in collaboration with BMW Group DesignworksUSA, Clarity combines a pure, honest aesthetic that transcends the floor plan with an unexpected comfort that anticipates your every posture.

Form

The streamlined design creates a unique visual interest that inspires your imagination without distracting your focus. Clarity's frame and base are constructed of aluminum, offering superior quality and durability. Wherever you work, it goes.

Function

The continuous mesh seat and back offer instant comfort and support with minimal adjustment. You can sit upright. Side sit. Turn around. Or lean over the back. With no fussing and less fine-tuning. Anywhere you go, and any way you sit, it works.

Versatility

Because form and function are simplified, Clarity adapts to any space you're in, as well as any type of work you're doing. From focused heads-down work to engaged collaboration to active lounging. It's always a reflection of the space it's in and the people who use it.

C5OMFC

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

DESIGN FEATURES

Clarity seating is engineered to support a variety of work, conference, and lounge applications that share a simple, intuitive, and active design.

Fixed Arms

Provide basic support for users engaging in a variety of tasks throughout the day. Arms come with protective urethane arm pads. Fixed arms limit adjustability but provide consistent aesthetics in conference room settings.

Arm Covers

Sleeves are made of ⅛" thick santoprene and are available in G Graphite or T Titanium.

Pneumatic Seat Height Adjustment

Regulates height of work chair relative to the floor. Standard 5" of travel accommodates average to tall users.

Base/Casters/Glides

Work chair bases are a five-star design, C5 models are aluminum and polymer base work models are composite. Dual-wheel casters are available in hard tread for carpet.

Materials

- All models meet CAL133.
- All COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics meet requirements for CAL TB117-2013. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013.
- Clarity is warranted for multiple shifts and users up to 300 lbs.

WORK/CONFERENCE/STOOL KEY FEATURES

Evo chairs feature weight-activated recline so there's no additional tension adjustment. Intuitive controls, along with specially sculpted and formulated seat foam, create a comfortable sitting experience for wherever and however people work.

Mesh backs

Premium mesh, available on work chairs and stools, designed and woven with monofilament and multifilament yarns to provide superior comfort and an enhanced aesthetic. Mesh back chairs are available in five mesh colors.

3D technical knit

3D Technical Knit material aligns the practical sophistication of mesh with the refined visual and softness of an upholstered back. Evo's precision-crafted knit, available on work chairs and stools, is produced with zero waste manufacturing, and constructed of SEAQUAL® ocean waste yarns. Knit back chairs are available in three colors.

Arms

Evo's open arm design allows for multiple sitting postures and remain lateral when reclining for maximum support. Options for work and conference models: 4D adjustable arms, height-adjustable arms, fixed aluminum arms (in polished or painted finishes), or armless.

4D adjustable arms

Evo's 4D arms are fully adjustable in height, width, depth, and can pivot to provide optimal support. Pivot the front of the arm pads inward to move in closer to your desk and offer support while working.

Height-adjustable arms

Provides height adjustments for optimal support of elbows and shoulders while keyboarding or conferencing while providing ease of entry/exit.

Fixed aluminum arms

Provide basic support for users engaging in a variety of tasks throughout the day. Arms come with protective black, flint, titanium or salt urethane arm pads to match the specified frame finish. Fixed arms limit adjustability but provide consistent aesthetics in conference room settings.

Fixed arm finish will coordinate with the finish selected for the 5-star base. Base finishes for fixed arm models include polished aluminum and multiple painted aluminum options. Painted component upcharge will vary based on paint selected.

Evo chairs with fixed arms must be specified with an aluminum base.

See page 37 for paint colors, codes, and pricing for painted aluminum.

Accent stitching

Accent stitching, available in nine colors, offers a way to make a design statement on work and conference models.

Back support

Contoured frame provides integrated lumbar support for upright back support. Optional adjustable lumbar can be added at any time and offers a 4" range of adjustment.

Up-front controls

Integrated, up-front controls are easy to access, use, and contribute to an overall clean aesthetic.

Height-adjustable footring

Evo work stools feature an adjustable footring that travels 8" to ensure users have comfortable support of their feet and legs. The footring has a 20" diameter.

Base and casters

Work chair bases are a five-star design. Dual-wheel casters are available in hard tread for carpet, or multi-surface for any floor surface.

Elevated style options available with 40 painted aluminum base finishes for fixed arm and armless models.

See page 37 for paint colors, codes, and pricing for painted aluminum.

CARBON NEUTRAL MODELS

As part of Allsteel's commitment to sustainability, select Evo models are carbon neutral - utilizing offsets from forestation projects counterbalancing the product's carbon footprint. These task seating models will include "CN" at the end of the base model. For more information, please visit the Evo spotlight page on AllsteelOffice.com.

SIDE CHAIR KEY FEATURES

Evo offers side chair models in four frame colors with mesh backs in five colors. Side chairs feature arms with casters or glides. Glides are available in nylon, nickel-plated, or felt options. Nylon glides are recommended for hard surfaces, commercial carpet, and damp environments. Nickel-plated glides are recommended for carpet. Felt glides are recommended for wood, tile, or high-sheen floor surfaces. Multi-surface casters are also available. Chairs ship up to three per carton to minimize waste. Evo Side chair can be stacked up to four high.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

MATERIALS

All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.

Allsteel fabrics meet requirements for CTB117. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CTB117.

Evo meets the requirements set forth in ANSI/BIFMA X5.1-2011 and BIFMA G1-2013. Evo is warranted for multiple shifts and users up to 350 lbs.

Evo Side Chair is warranted for users up to 300 lbs.

How to specify —

Select the Model Number from above.

For Carbon Neutral Models, ensure that CN is included at the end of the base model selected.

DWW – ____ . ____ . ____ . ____ . ____ . ____ . ____ . ____ .

1st Option:

Select the Frame Color:

- **BLK** Black
- **E9** Flint (add $98)
- **ST** Salt (add $98)
- **TI** Titanium (add $50)

2nd Option:

Select the Mesh Color for Work Chairs *(if applicable)*:

- **C** Clay
- **D** Dusk
- **L** Lustre
- **M** Mist
- **N** Navy

2nd Option:

Select the Knit Color for Work Chairs *(if applicable)*:

- **EKT01** Aluminum
- **EKT02** Algae
- **EKT03** Blue Ocean

3rd Option:

Lumbar for Work Chairs *(if applicable)*:

- **L** Yes ($62 extra)
- **N** No

4th Option:

Select the Cylinder *(if applicable)*:

- **2** Standard, 5" of Travel
- **3** Short, 2½" of Travel

5th Option:

Select the Base Color *(if applicable)*:

- **BLK** Black
- **E9** Flint
- **ST** Salt
- **TI** Titanium
- **PAL** Polished Aluminum ($177 extra)

See page 37 for painted aluminum colors, codes, and upcharges.

Examples: **DWW-MHWNO.BLK.D.L.2.BLK.B.CU10.TC01** **DW-LUK.BLK.TGR**

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

How to specify —

Select the Model Number from above.

For Carbon Neutral Models, ensure that CN is included at the end of the base model selected.

1st Option:
Select the Frame Color:
- **BLK** Black
- **E9** Flint (add $98)
- **ST** Salt (add $98)
- **TI** Titanium (add $50)

2nd Option:
Select the Mesh Color for Work Stools *(if applicable)*:
- **C** Clay
- **D** Dusk
- **L** Lustre
- **M** Mist
- **N** Navy

2nd Option:
Select the Knit Color for Work Stools *(if applicable)*:
- **EKT01** Aluminum
- **EKT02** Algae
- **EKT03** Blue Ocean

3rd Option:
Select the Lumbar:
- **Y** Yes ($62 extra)
- **N** No

4th Option:
Select the Cylinder:
- **4** Stool, allows 10" of travel

5th Option:
Select the Base Color:
- **BLK** Black
- **E9** Flint
- **ST** Salt
- **TI** Titanium
- **PAL** Polished Aluminum ($177 extra)

See page 37 for painted aluminum colors, codes, and upcharges.

Seating — Multi-Purpose

Inspire is designed to support a multitude of higher education environments. In Allsteel's second collaboration with Bruce Fifield of Milan-based Design Continuum Italia, Inspire responds to the specific needs of today's dynamic learning environments. Incorporating automatic comfort technologies, students can now stay comfortable longer promoting active, engaged learning.

Inspire has achieved SCS Indoor Advantage Gold Certification and level® 2 certification. Inspire is designed and manufactured to have minimal impact on both the physical and social environment, made with no PVC components, and ranges in percent recyclable from 59% to 98%.

KEY FEATURES

TriFit™ Comfort Technologies

Inspire encourages interaction and involvement through unrestricted freedom of movement. The TriFit technology incorporates seat suspension, back recline, and seat flexure in a non-mechanical system that allows users to move freely and learn comfortably.

Breadth of Line

Today's learning environments are extending beyond the classroom. Spaces are needed that invite interaction and support collaboration. With Inspire's broad statement of line, versatile spaces are created not only in classrooms, but also in active learning environments – cafés, libraries, labs, and team project rooms – throughout campus.

Lasting Performance

Higher education environments mandate lasting performance. With Inspire's 4-sided welded steel frame construction, it creates a durable design that withstands active environments. The back recline and seat movement technologies are robust and non-mechanical to provide long-lasting, quiet use.

MODELS AND OPTIONS

Inspire models are available with arms or armless. Arm models feature a non-flexible arm cap for durability in high-use environments.

Seat and back upholstery options are available on all models. Upholstery can be field-installed and is field-replaceable.

MATERIALS AND FINISHES

Polymer shells are offered in eight energizing colors and are made from recyclable material.

Trisect seating upholstery provides a high performance, sustainable fabric option to complement the eight polymer shell colors. This EIP antimony-free fabric incorporates Greenshield finish. Additional upholstery options also available.

- All upholstery foams are CFC-free.
- All COMs/COLs must be approved for upholsterability and applicable fire code compliance prior to order entry. See COM ordering instructions on pages 6-7.
- Allsteel fabrics and foam meet requirements for CAL TB117-2013. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013.
- Flammability code compliance of Allsteel textiles and seating is listed on page 12. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013.

Inspire meets the requirements set forth in ANSI/BIFMA X5.1-2017. Inspire is warranted for multiple shifts and users up to 300 pounds. Inspire four-leg stack and sled base chairs ship two per carton. All other models ship one per carton. Work chairs and work stools ship fully assembled. Model numbers and pricing are per chair.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

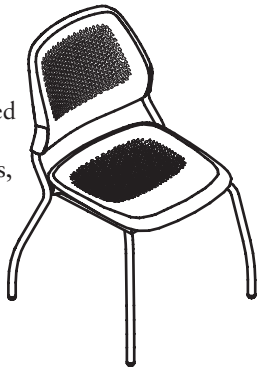

Seating — Multi-Purpose

4-Leg Multi-Purpose

4-Leg Multi-Purpose chairs can stack five high.

Glides are available in nylon, nickel-plated steel, or nylon with felt options. Nylon glides are recommended for hard surfaces, commercial carpet, and damp environments. Nickel-plated steel glides are recommended for carpet. Nylon with felt glides are recommended for wood, tile, or high-sheen floor surfaces.

Multi-surface casters are also available.

4-Leg Tablet Arm

4-Leg Tablet Arm chairs can stack three high.

Tablets are field-installed to the chairs.

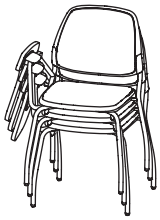

Tablet material consists of ¾" thick 11-ply laminated Baltic Birch plywood.

Flip-and-fold tablet option provides 6 degrees of lateral rotation in the use position to accommodate a wider range of user types. It also flips up 90 degrees and rotates back 180 degrees to store when a tablet is not needed.

Glides are available in nylon, nickel-plated steel, or nylon with felt options. Nylon glides are recommended for hard surfaces, commercial carpet, and damp environments.

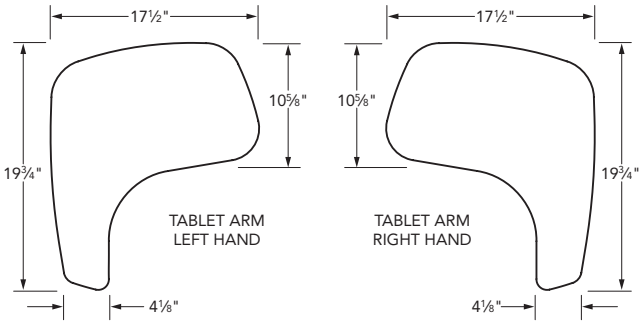

Nickel-plated glides are recommended for carpet. Felt glides are recommended for wood, tile, or high-sheen floor surfaces.

Multi-surface casters are also available.

- **BLK** Black (formerly **CB** Onyx)
- **BW** Brownstone
- **CI** Citrine
- **CY** Cyprus
- **GE** Sage
- **HR** Harbor
- **HZ** Haze
- **QR** Quarry
- **RE** Regatta
- **S** Flint
- **SN** Sienna
- **ST** Salt
- **TI** Titanium
- **UM** Orchid Umber
- **WT** White (formerly Frost)

Upholstery
See page 12 for selections and pages 15-17 for color codes.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Seating — Multi-Purpose

4-LEG STOOL

4-Leg stools do not stack.

Glides are available in nylon, nickel-plated steel, or nylon with felt options. Nylon glides are recommended for hard surfaces, commercial carpet, and damp environments. Nickel-plated steel glides are recommended for carpet. Nylon with felt glides are recommended for wood, tile, or high-sheen floor surfaces.

Notes

Levra is Allsteel's newest task chair, designed to support the way people work today. Built at the intersection of innovative engineering and thoughtful design, Levra adapts naturally to movement throughout the day — delivering personalized comfort, intuitive adjustments, and a refined aesthetic suited for modern workspaces.

KEY FEATURES

LevTech™

Introducing LevTech – the intelligent support system behind Levra's signature comfort. Engineered to move as naturally as you do, LevTech synchronizes the chair's frameless back support, inner Y-Lumbar structure, 4D⁺ arms, and control into one seamless motion – creating an experience that feels intuitive, never mechanical.

Frameless Back

Inspired by the effortless balance of a hammock, Levra's frameless back supports the user through tensile flexibility rather than rigid mechanics – actively providing multi-posture support and understanding of the user's workflow.

Y-Lumbar

Levra's Y-Lumbar system is engineered for lasting alignment and centered comfort. As the responsive backbone of Levra's design, its dynamic structure flexes with every posture, adapting to movement.

4D⁺ Arms

Levra's arm technology extends beyond traditional, fully-adjustable arm movement. Designed for a workforce as diverse as its work styles, 4D⁺ arms move fluidly in every direction – up, down, forward, back, in, out, and even away from the user – delivering complete dexterity without compromise.

Integrated Control

Blending seamlessly into the design, Levra's control is thoughtful and intuitive – a weight-activated tension lets the chair respond effortlessly to your body, and easy-to-reach adjustments let you quickly fine-tune your experience without breaking focus.

The iconography is clear and succinct – eliminating any guesswork that comes with finding your optimal comfort settings.

Weight Rating

Levra™ task chairs are warranted up to 350 lbs.

Carbon Neutral

As part of Allsteel's commitment to sustainability, all full unit Levra chair models are carbon neutral — utilizing offsets from forestation projects counterbalancing the product's carbon footprint. These task seating models will include "CN" at the end of the base model. Replacement part models are not included.

Standard Seat

Leather Seat

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

MATERIALS AND FINISHES

Levra's Design Spec is a curated, character-driven palette that elevates the chair's design, simplifies the specification process, and creates a refined, timeless presence in any environment. It's built for a design-mindset, optimized to be clean, cohesive, and specification-ready.

OPTIONS

Precision Knit:
Precision Knit material aligns the practical sophistication of mesh with the refined visual and softness of an upholstered back. Providing structure integrity, adaptive flexibility, seamless coverage, and a sculpted aesthetic. Levra's precision knit is produced with zero waste manufacturing, and constructed of SEAQUAL® ocean waste yarns. Levra's knit is available in seven colors.

Arms:
Designed for a workforce as diverse as its work styles, 4D+ arms move fluidly in every direction – up, down, forward, back, in, out, and 180 degrees backwards out of the way – delivering complete dexterity without compromise.

The inner arm sleeve and upper arm assembly will match your trim color selection (Flint, Salt, or Quarry), while the metal arm upright will match your chassis selection. Arm pad colors coordinate with your trim color and are available in Black (with Flint), Titanium (with Salt), or Flint (with Quarry).

Back Upright/Base:
The aluminum back upright and base are painted to coordinate with the Precision Knit and are available in the following: Black, Flint, Dune, Designer White, Sage, Harbor, Orchid Umber, or Polished Aluminum.

Casters:
Offered in a multi-surface (for any floor surface) material, Levra's Hollow Casters are intentional – providing a premium movement and emulating the overall design through the inclusion of negative space to create a visually light aesthetic, celebrating that even the smallest details give the chair its distinctive quality.

Available in 3 color pairings to complement Levra's trim styles: Flint, Quarry, and Salt.

Seat Textiles:
Additional color customization is available through the seat upholstery. A family of colors across Dapper fabric, Whisper Vinyl, and Davenport Leather have been selected, or created, to perfectly pair with Levra's character palette.

Due to the intentional selection of Levra's colors and character palette, COMs are not available on Levra at this time.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

DESIGN FEATURES

Choose the options specific to your needs.

Basic synchro control adjustment
Manual crank tension with knob and an upright lock.

Enhanced synchro-tilt control
Manual crank tension adjustment with easily reached lever and three locking positions for the back.

Weight activated control
Automatic tension control with an upright lock and tilt limiter.

Mesh Backs
Mesh back chairs are available in six mesh colors.

Optional adjustable lumbar support
Lyric provides automatic lumbar support. To accommodate personal preference, an optional external lumbar support can be added at any time with 4" range of adjustment.

4D fully adjustable arms
Lyric's 4D arms are fully adjustable in height, width, depth, and can pivot to provide optimal support. Pivot the front of the arm pads inward to move in closer to your desk and offer support while working.

2D adjustable arms
Provides height and width adjustments for optimal support of elbows and shoulders while keyboarding or conferencing while providing ease of entry/exit.

Fixed arms
Provide basic support for users engaging in a variety of tasks throughout the day. Fixed arms limit adjustability but provide consistent aesthetics in conference room settings.

Pneumatic seat height adjustment
Regulates height of work chair relative to the floor. Standard 5" of travel accommodates average to tall users. Stools offer 10" of travel.

Seat depth adjustment
Allows seat cushion to manually adjust front to back.

Base and casters
Work chair and stool bases are a five-star design. Dual-wheel casters are available in hard tread for carpet, or multi-surface for any floor surface.

Materials
- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions. Allsteel fabrics meet requirements for CTB117. COM/COL manufacturers supply certificates of compliance for fabric only tests such as CTB117.
- Lyric meets the requirements set forth in ANSI/BIFMA X5.1-2011 and BIFMA G1-2013. Lyric is warranted for multiple shifts and users up to 300 lbs.

Height-Adjustable Footring
Travels 8" to ensure users have comfortable support of their feet and legs. The footring has a 20" diameter.

Seating — Large & Tall

DESIGN FEATURES

An economical solution, suited for larger and taller people who perform a variety of tasks. Lyric Large & Tall is warranted for multiple shifts and users up to 400 lbs.

Enhanced synchro-tilt control

Manual crank tension adjustment with easily reached lever and three locking positions for the back.

Mesh Backs

Mesh back Large & Tall chairs are available in Black mesh.

2D adjustable arms

Provides height and width adjustments for optimal support of elbows and shoulders while keyboarding or conferencing while providing ease of entry/exit.

Fixed arms

Provide basic support for users engaging in a variety of tasks throughout the day. Fixed arms limit adjustability but provide consistent aesthetics in conference room settings.

Pneumatic seat height adjustment

Regulates height of work chair relative to the floor. Standard 5" of travel accommodates average to tall users.

Base and casters

Bases are a five-star design. Dual-wheel casters in multi-surface for any floor surface.

Materials

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics meet requirements for CTB117. COM/COL manufacturers supply certificates of compliance for fabric only tests such as CTB117.
- Lyric LT meets the requirements set forth in ANSI/BIFMA X5.1-2011 and BIFMA G1-2013. Lyric LT is warranted for multiple shifts and users up to 400 lbs.

Seating — Side

Wherever they are, invite visitors to sit in style with options like an upholstered or mesh back, adding comfort and style to any location.

KEY FEATURES

The waterfall seat front reduces pressure points and the intuitive back design offers built-in lumbar support. Lyric side chairs can be stacked up to four high.

MODELS AND OPTIONS

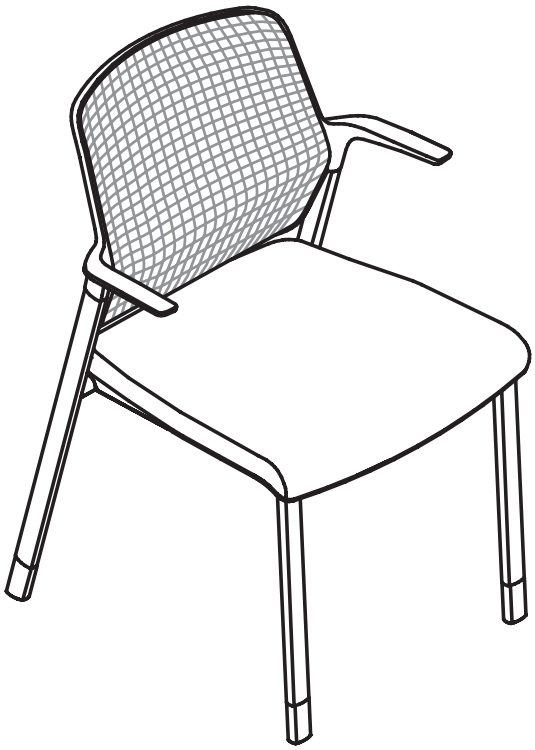

Lyric side chair models with back types in mesh or upholstered mesh, and in two frame colors. Side chairs feature arm models with casters or glides.

Glides are available in nylon, nickel-plated, or felt options. Nylon glides are recommended for hard surfaces, commercial carpet, and damp environments. Nickel-plated glides are recommended for carpet. Felt glides are recommended for wood, tile, or high-sheen floor surfaces. The versatile multi-surface casters are designed for use on hard or soft surfaces.

Chairs ship up to three per carton to minimize waste.

MATERIALS

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics meet requirements for CTB117. COM/COL manufacturers supply certificates of compliance for fabric only tests such as CTB117.
- Lyric side chairs are warranted for users up to 300 lbs.

Seating — Multi-Purpose Work

Lyric multi-purpose chairs go with the flow of your business. They're light, yet durable, so you can easily shift from one meeting to the next. Choose a bright shell color to create a bold look, or play it safe with a neutral color that blends seamlessly with your space. For whatever awaits, write the next line with Lyric, the family of chairs that fit everywhere.

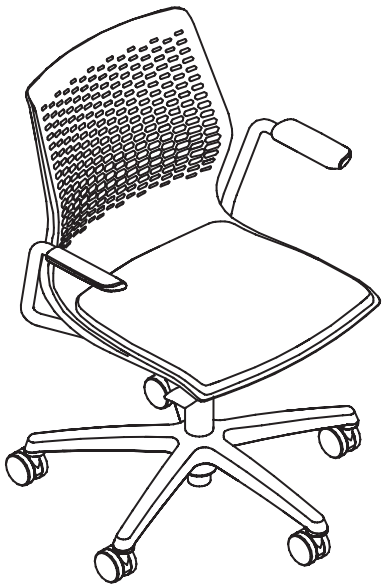

MODELS AND OPTIONS

Lyric multi-purpose work chairs are constructed of a poly back and seat. Upholstered seat pad models available. Choose either arm or armless models.

The versatile multi-surface casters are designed for use on hard or soft surfaces.

MATERIALS

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics meet requirements for CTB117. COM/COL manufacturers supply certificates of compliance for fabric only tests such as CTB117.
- Lyric multi-purpose work chairs are warranted for users up to 300 lbs.

Seating — Multi-Purpose

Lyric multi-purpose chairs go with the flow of your business. They're light, yet durable, so you can easily shift from one meeting to the next. Stow some away for the department lunch and learn. Then pull more off a stack to set up for the all-company awards celebration. Choose a bright shell color to create a bold look, or play it safe with a neutral color that blends seamlessly with your space. For whatever awaits, write the next line with Lyric, the family of chairs that fit everywhere.

KEY FEATURES

The perforated back on Lyric multi-purpose chair provides ventilation and distributed support. The waterfall seat front reduces pressure points and the intuitive back design offers built-in lumbar support.

MODELS AND OPTIONS

Arm and armless models available. Shell color options from sophisticated to playful and leg options from sled-base to four-legged with casters or glides.

Glide options include nylon, polycarbonate, nickel-plated, or felt. Nylon glides are recommended for hard surfaces, commercial carpet, and damp environments. Nickel-plated glides are recommended for carpet. Felt glides are recommended for wood, tile, or high-sheen floor surfaces.

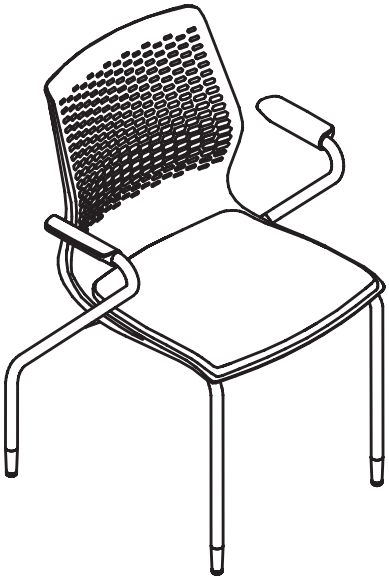

Multi-surface casters are also available on four leg models and are designed for use on hard or soft surfaces.

Lyric 4-Leg Multi-Purpose chairs offer the ability to stack up to four chairs high on the floor.

Lyric Wire Stacker Multi-Purpose chairs offer the ability to stack up to ten high on the floor.

Chairs ship up to four per carton to minimize waste. Model numbers and prices are per chair.

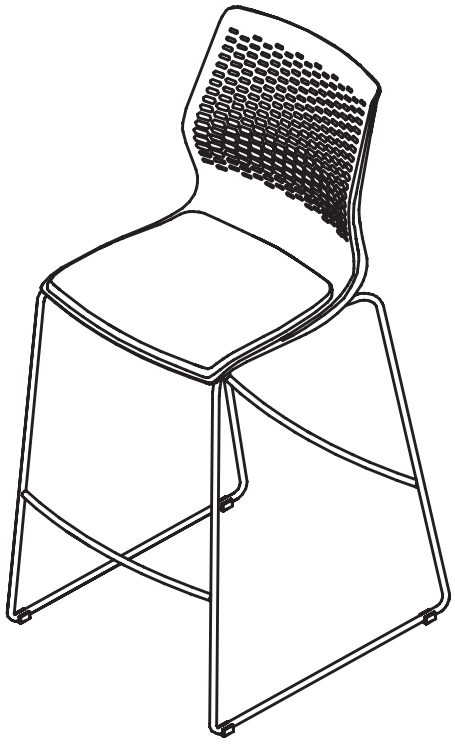

Lyric multi-purpose chairs are warranted for users up to 300 lbs.

Mimeo seating from Allsteel is designed to move with you. Created for today's active workplace, active workstyles, and active sitting, Mimeo is responsive and supportive of your every move. It hugs you. Embraces you. Envelops you. No matter your task. No matter your size or shape. Mimeo becomes one with you.

Designed in partnership with Bruce Fifield of Studio Fifield, Milan, Italy

Visually moving.
Mimeo's distinctive design and smart use of materials make a strong visual impact. It's appropriately scaled to impress and inspire across an open floorplan without overwhelming the environment. Comfortably moving from one space to the next, it brings style and character wherever it's used.

Always the right fit.
Mimeo's lightweight and intuitive design adapts to any type of work you're doing. Experience immediate and lasting comfort for focused work, as well as in project rooms and open desking areas where activities change day to day or hour to hour. Mimeo is ideal for highly active and collaborative workstyles and enhances every space.

Uncompromised comfort and support.
Mimeo's enveloping shape and dynamic back maintain constant contact with you, reducing and evenly distributing pressure points across the entire frame. No matter how you sit or move, the weight-activated motion adjusts automatically. Your whole body is supported. And each user, regardless of size, shape, or posture, has the same supportive experience.

A new standard in weight activation
Mimeo's recline tension has been engineered to automatically adjust to the specific needs and body weight of each user without the need for manual adjustment.

The innovative weight-activated chair motion delivers the appropriate amount of tension for full recline, upright sitting, and every posture in between. As you effortlessly recline, the seat lifts your bodyweight, which modifies the amount of tension accordingly. The result is a personalized, balanced recline that allows for comfortable and healthy movement for any body, in any posture.

MIW-KWNO

MIS-KWNO

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

DESIGN FEATURES

Mimeo's innovative back-pattern design provides integrated lumbar support while accommodating every movement. The generous seat width and slightly curved arms invite unrestricted movement and comfort for all postures and body types. Mimeo is lightweight and easy to transport with an integrated back handle, bringing function to any space, effortlessly.

IntelliForm™ back technology

Exclusive technology combines the benefits of the compliant, polymer back with flex wings, supportive uprights, and the soft, breathable Mimeo mesh material. The innovative back design and carefully selected materials have been engineered to deliver personalized comfort for each user, even as they move and change postures. The polymer back is highly pliable, allowing the material to flex and move along with the user.

Optional adjustable lumbar support

Mimeo provides automatic lumbar support. To accommodate personal preference, an optional external lumbar support can be added at any time with 4" range of adjustment.

4D adjustable arms

Mimeo's open arm design moves with you as you recline to support your arms in a variety of postures. Adjustments in four directions allow support during work tasks, and the ability to position arms close to the body.

Pneumatic seat height adjustment

Regulates height of work chair relative to the floor. Standard 5" of travel accommodates average to tall users. Stools offer 10" of travel.

Base and casters

Work chair bases are a five-star design. Dual-wheel casters are available in hard tread for carpet, or multi-surface for any floor surface.

Materials

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics meet requirements for CTB117. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CTB117.
- Mimeo meets the requirements set forth in ANSI/BIFMA X5.1-2011 and BIFMA G1-2013. Mimeo is warranted for multiple shifts and users up to 300 lbs.

Height-Adjustable Footring

Travels 8" to ensure users have comfortable support of their feet and legs. The footring has a 20" diameter.

O6 is a task chair that answers the ergonomic demands and needs put forth by the user while addressing the mental well-being that is usually left behind in today's seating world. The workplace is about people and the furniture should be an extension of those individuals, not the other way around. O6 is the culmination of research that has deemed comfort, ergonomics, and fresh design language as keys to win.

KEY FEATURES

O6 chairs feature weight-activated recline so there's no additional tension adjustment. Intuitive controls, along with specially sculpted and formulated seat foam, create a comfortable sitting experience for wherever and however people work.

Customization

O6 allows for a wide range of color optionality. The O6 family is offered in two different meshes, totaling 29 distinct mesh colors. Coupled with 4 frame colors to choose from, O6 offers users the chance to make a design statement throughout their workspace.

4D Fully Adjustable Arms

O6's 4D arms are fully adjustable in height, width, depth, and can pivot to provide optimal support. Pivot the front of the arm pads inward to move in closer to your desk and offer support while working.

2D Adjustable Arms

Provides height and width adjustments for optimal support of elbows and shoulders while keyboarding or conferencing while providing ease of entry/exit.

Pneumatic Seat Height Adjustment

Regulates height of work chair relative to the floor. Standard 5" of travel accommodates average to tall users. Stools offer 10" of travel.

Seat Depth Adjustment

Allows seat cushion to manually adjust front to back.

Height-Adjustable Footring

Travels 8" to ensure users have comfortable support of their feet and legs. The footring has a 20" diameter.

Optional Adjustable Lumbar Support

To accommodate personal preference, an optional external lumbar support can be added at any time with 4" range of adjustment.

Base and Casters

Work chair bases are a five-star design. Dual-wheel casters are available in hard tread for carpet, or multi-surface for any floor surface.

Materials

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics meet requirements for CTB117. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CTB117.
- O6 meets the requirements set forth on ANSI/BIFMA X5.1-2017 and BIFMA G1-2013. O6 is warranted for multiple shifts and users up to 300 lbs.

Notes

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

The Pli task seating portfolio provides distinctive performance and exceptional simplicity of movement. The innovative auto-fitting design enables each user to experience maximum ergonomic support for extended use without performing a series of multiple, complex adjustments. Sit, move, reach, work, and Pli adjusts to the movements and contours of each user.

KEY FEATURES

The crucial criterion for wellness is a seating portfolio that combines the ergonomic support you need with the comfort you should never be without. Every one of the Pli chair models adapts to dynamic user movements with simplicity and responsiveness, ensuring a seated posture that is both healthful and comfortable.

Minimal Adjustments

The distinctive 4-point seat suspension system ensures that Pli creates multi-position support without painstaking manual adjustments. Sit, and Pli conforms to you. The intuitive and easy height-adjustment control enables Pli to accommodate nearly every user stature. One adjustment is all you need to make.

Back Support

Each Pli seating model offers flexible and responsive edgeless back support that transcends rigid perimeters, moving with the movements of the user. The conforming mesh back offers support to the lumbar area throughout the sit.

2D Adjustable Arms

Provides height and width adjustments for optimal support of elbows and shoulders while keyboarding or conferencing while providing ease of entry/exit.

Fixed Arms

Provide basic support for users engaging in a variety of tasks throughout the day. Arms come with protective black, flint, titanium or salt urethane arm pads to match the specified frame finish. Fixed arms limit adjustability but provide consistent aesthetics in conference room settings.

Pneumatic Seat Height Adjustment

Regulates height of work chair relative to the floor. Standard 5" of travel accommodates average to tall users. Stools offer 10" of travel.

Height-Adjustable Footring

Travels 8" to ensure users have comfortable support of their feet and legs. The footring has a 20" diameter.

Base and Casters

Work chair bases are a five-star design. Dual-wheel casters are available in hard tread for carpet, or multi-surface for any floor surface.

Materials

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics meet requirements for CTB117. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CTB117.
- Pli is warranted for multiple shifts and users up to 300 lbs.
- Pli meets the requirements set forth in ANSI/BIFMA X5.1-2011.

Relate combines everything you want into a single collection of seating. A synchronous mechanism and a unique pivoting back provide exceptional ergonomics for more people at more tasks. Active adjustments allow you to control and customize your seating tension and support relative to any task. Replaceable high-wear parts encourage you to repair rather than replace your chairs. And, the full line of models makes coordinating office seating simple.

KEY FEATURES

Relate's Body Adaptive Control™ combines a weight-sensing synchronized tilt mechanism with a pivoting back, resulting in improved pressure distribution, superior back support, and movement for healthy sitting.

Synchronized Tilt

The synchronized tilt motion keeps the user's head level when reclining to improve mental focus and productivity, while reducing neck and eyestrain.

Pivoting Back

The position of the pivoting back aligns with the natural position of the spine. This alignment keeps the spine supported in its proper curvature, which increases comfort. The adaptive, pivoting motion provides continuous back support while encouraging movement. Movement while sitting replenishes the spinal discs with nutrients, which reduces fatigue and keeps discs healthy.

Quick Tension™ Lever

Features 5 settings to quickly adjust from low to high tension. Allows for frequent adjustment throughout the workday to provide custom support for different tasks.

Height-Adjustable Lumbar Support

Allows users to adjust lumbar support anywhere within a 4" range on upholstered and mesh work/conference chairs. Lumbar support on mesh chairs can be adjusted asynchronously.

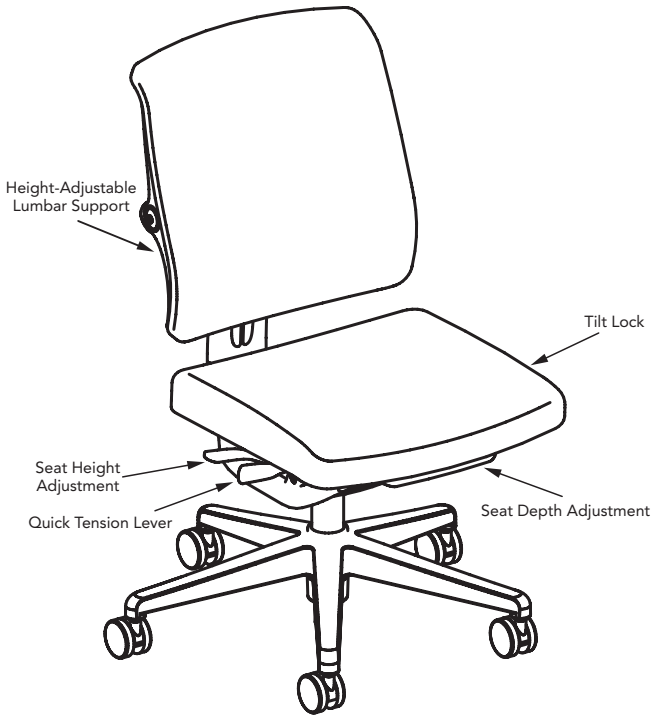

Pneumatic Seat Height Adjustment

Regulates height of chair relative to the floor.

- Standard cylinder with 5" of travel accommodates average or tall users.
- Optional short cylinder with 3½" of travel keeps chair closer to the floor for shorter users, allowing all models to meet BIFMA G1-2002 solutions for VDT users.

Seat Depth Adjustment

Adjusts from front-to-back, within a 3" range, to accommodate different leg lengths.

RL-UHA — Upholstered High-Back

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Fully Adjustable Arms

Arms are fully adjustable in height, width, depth, and can pivot to provide optimal support. Pivot the front of the arm pads inward to move in closer to your desk and offer support while working.

DESIGN FEATURES

Relate seating is engineered to last a lifetime, simplify maintenance, and reduce costs.

Base/Casters

Base is composite five-star structure. Specific models are available in polished aluminum. Dual-wheel casters feature hard tread for carpeted floors or soft tread for smooth floors.

Link Mesh

Relate's Link Mesh is a leno weave with a polyester elastomeric and a polyester fill yarn. This construction provides responsive, conforming back support and an open, airy aesthetic. Link Mesh is 100% recyclable.

Materials

- All upholstery foams are **CFC-free**.
- All **COMs/COLs** must be approved for upholsterability or applicable fire code compliance prior to order entry. See COM ordering instructions on pages 6-7.
- **Flammability** code compliance of Allsteel textiles and seating is listed on page 12. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013.

Relate meets the requirements set forth in ANSI/ BIFMA X5.1-2011 and BIFMA G1-2013. Relate is warranted for multiple shifts and users up to 300 lbs.

Relate work chairs with adjustable arms ship knocked down.

Relate offers a full line of seating in complementary finishes making it simple to coordinate seating for the entire office. The Relate work stool is the perfect solution for anyplace where work happens at a standing height position. Relate work stools feature all of the same intuitive, ergonomic adjustments as the Relate work/conference chair.

KEY FEATURES

Relate's Body Adaptive Control™ combines a weight-sensing synchronized tilt mechanism with a pivoting back, resulting in improved pressure distribution, superior back support, and movement for healthy sitting.

Synchronized Tilt

The synchronized tilt motion keeps the user's head level when reclining to improve mental focus and productivity, while reducing neck and eyestrain.

Pivoting Back

The position of the pivoting back aligns with the natural position of the spine. This alignment keeps the spine supported in its proper curvature, which increases comfort. The adaptive, pivoting motion provides continuous back support while encouraging movement. Movement while sitting replenishes the spinal discs with nutrients, which reduces fatigue and keeps discs healthy.

Quick Tension™ Lever

Features 5 settings to quickly adjust from low to high tension. Allows for frequent adjustment throughout the workday to provide custom support for different tasks.

Height-Adjustable Lumbar Support

Allows users to adjust lumbar support anywhere within a 4" range on upholstered and mesh work stools. Lumbar support on mesh work stools can be adjusted asynchronously.

Pneumatic Seat Height Adjustment

Regulates height of stool relative to the floor. Includes extended range height pneumatic cylinder with 10" of vertical travel.

Seat Depth Adjustment

Adjusts from front-to-back, within a 3" range, to accommodate different leg lengths.

Height-Adjustable Footring

Travels 8" to ensure users have comfortable support of their feet and legs. The footring has a 20" diameter.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Fully Adjustable Arms
Arms are fully adjustable in height, width, depth, and can pivot to provide optimal support. Pivot the front of the arm pads inward to move in closer to your desk and offer support while working.

DESIGN FEATURES
Relate seating is engineered to last a lifetime, simplify maintenance, and reduce costs.

Base/Casters
Base is composite five-star structure. Dual-wheel casters feature hard tread for carpeted floors or soft tread for smooth floors.

Link Mesh
Relate's Link Mesh is a leno weave with a polyester elastomeric and a polyester fill yarn. This construction provides responsive, conforming back support and an open, airy aesthetic. Link Mesh is 100% recyclable.

Materials
- All upholstery foams are **CFC-free**.
- All **COMs/COLs** must be approved for upholsterability or applicable fire code compliance prior to order entry. See COM ordering instructions on pages 6-7.
- **Flammability** code compliance of Allsteel textiles and seating is listed on page 12. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013.

Relate meets the requirements set forth in ANSI/BIFMA X5.1-2011 and BIFMA G1-2013. Relate Work Stools are warranted for multiple shifts and users up to 300 lbs.

Relate multi-purpose side chairs provide an ideal solution for busy work areas such as training rooms, gathering areas, informal conferencing, cafés, and more. With a stackable design and pivoting back, Relate side chairs provide the perfect combination of versatility and unexpected comfort.

MODELS AND OPTIONS

Relate offers side chair models with **back types** in mesh, upholstery, and wood in three frame colors.

Side chairs feature **arm and armless models** with casters or glides.

Glides are available in nylon, nickel-plated, or felt options. Nylon glides are recommended for hard surfaces, commercial carpet, and damp environments. Nickel-plated glides are recommended for carpet. Felt glides are recommended for wood, tile, or high-sheen floor surfaces.

Multi-surface casters are also available.

Chairs ship up to four per carton to minimize waste.

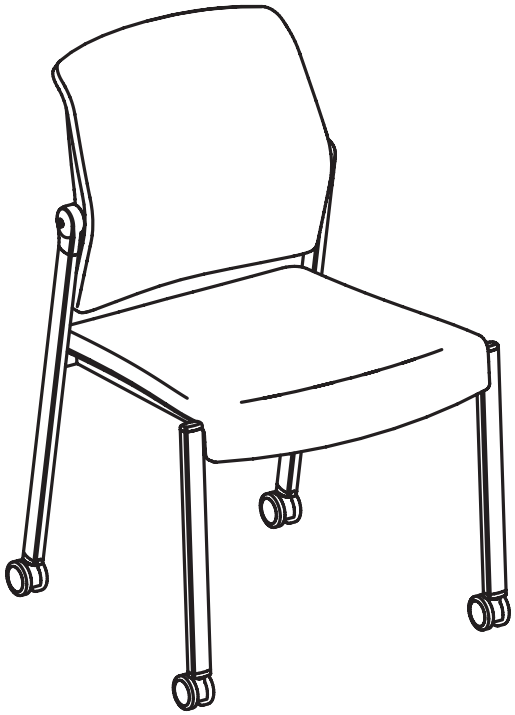

CONSTRUCTION

Steel frames and structural moldings create a durable design that performs in a variety of environments.

Seat and back upholstery are easily field replaceable allowing users to extend the lifecycle of the chairs.

Multi-purpose side chairs **stack up to 4-high** on the floor.

Mesh chairs feature Link™ Mesh. **Link Mesh** is a leno weave with a polyester elastomeric and a polyester fill yarn. This construction provides responsive, conforming back support and an open, airy aesthetic. Link Mesh is 100% recyclable.

RLM-UUCA — Upholstered Back and Upholstered Seat

UPHOLSTERY AND CONTOURING

Relate multi-purpose side chairs feature a pivoting back that provides unexpected comfort in any application. The **pivoting back** provides support while encouraging movement that makes for healthy sitting. The **backrest** features a contoured lumbar support to help relieve stress on the back. Added movement and support allow the Relate multi-purpose side chair to go from project conference rooms to teaming areas to training rooms with ease.

The upholstered seat features a generous 2" of high-resiliency molded foam padding for comfort and long-term support.

All upholstery foams are **CFC-free**.

All **COMs/COLs** must be approved for upholsterability or applicable fire code compliance prior to order entry. See COM ordering instructions on pages 6-7.

Flammability code compliance of Allsteel textiles and seating is listed on page 12. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013.

Relate meets the requirements set forth in ANSI/BIFMA X5.1-2011. Relate side chairs are warranted for users up to 300 lbs.

Relate 4-Leg Stools are the perfect solution for any application where people prefer a standing height position such as cafés, standing height workstations, touchdown areas, and coffee bars. Similar to the side chair, Relate 4-Leg Stools feature a pivoting back for exceptional comfort and support.

RLC-WUGA —
Wood Back

MODELS AND OPTIONS

Relate 4-Leg Stools are available with mesh, upholstered or wood backs. Four-legged stools feature arm and armless models with glides.

Glides are available in nylon, nickel-plated, or felt options. Nylon glides are recommended for hard surfaces, commercial carpet, and damp environments. Nickel-plated glides are recommended for carpet. Felt glides are recommended for wood, tile, or high-sheen floor surfaces.

CONSTRUCTION

Steel frames and structural moldings create a durable design that performs in a variety of environments.

Seat upholstery is easily field replaceable allowing users to extend the lifecycle of the chairs.

UPHOLSTERY AND CONTOURING

Relate 4-Leg Stools feature a pivoting back that provides unexpected comfort in any application. The **pivoting back** provides support while encouraging movement that makes for healthy sitting. The **backrest** features a contoured lumbar support to help relieve stress on the back.

The upholstered seat features a generous 2" of high-resiliency molded foam padding for comfort and long-term support.

All upholstery foams are **CFC-free**.

All **COMs/COLs** must be approved for upholsterability or applicable fire code compliance prior to order entry. See COM ordering instructions on pages 6-7.

Flammability code compliance of Allsteel textiles and seating is listed on page 12. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013.

Relate meets the requirements set forth in ANSI/BIFMA X5.1-2011. Relate four-legged stools are warranted for users up to 300 lbs.

Seating — Multi-Purpose

Seek is a multi-purpose chair designed for today's ever-changing corporate environments that require durability, versatility, and beauty. Its light-weight mobile design is ideal for multi-purpose settings such as adjunct teaming areas, conference rooms, classrooms, training rooms, and cafés.

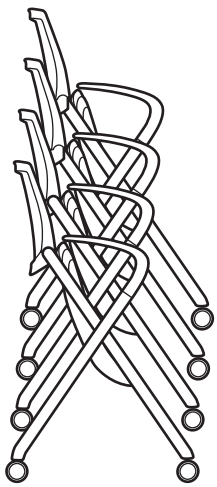

The idea has always been to provide seating that one can sit in...not on. Seek achieves this with a deceptively simple design that conforms to the shape and movement of each user's body. Its pivoting back allows for natural shifts in posture while intuitively distributing lumbar support. The contoured seat reduces pressure points and evenly distributes weight for long-term comfort. So sit back, relax, and let Seek do all the work.

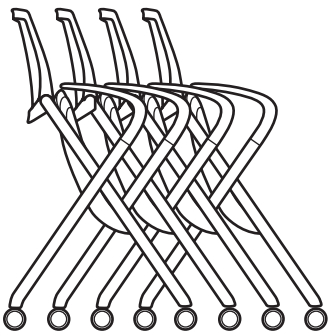

K-MUCO

K-PPCA

MODELS AND OPTIONS

With Seek, extended periods of sitting are refreshingly comfortable. Designed to move with the body and minimize pressure points, Seek conforms to each user's body movement, so no matter how they sit — or how long they stay — they stay comfortable.

Weight-assisted pivot back technology intuitively provides balance and lumbar support for ergonomic recline.

Contoured seat design distributes weight evenly, stabilizing the sitting bones during forward and reclined comfort. Universal fitting, Seek comfortably accommodates 95% of users.

Arm and armless models available. The curved shape of the arms accommodates differences in elbow height. The downward curve helps when approaching worksurfaces.

Casters or glides are available. Glide options include nylon, nickel-plated, or felt. The versatile multi-surface casters are designed for use on hard or soft surfaces.

Seek offers the ability to stack, to nest, and to nest the stacks for optimum space efficiency. The seat folds up so multiple chairs nest together like grocery carts. Four nested chairs can move or store together in a discrete 37-inches of space. Each additional nested chair adds 5⅛" of depth. Multiple chairs can stack up to four high in a space of 53"H x 28"W x 22"D. Each additional stack of nested chairs adds 15" of depth.

A Seek stack height of 4 chairs is recommended for storage density that allows the stacks to nest together. A maximum stack height of 6 chairs should not be exceeded when transporting the stacks of chairs.

Chairs ship two per carton to minimize waste. Model numbers and prices are per chair.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

CONSTRUCTION

The solid construction meets or exceeds industry standards for performance. Seek's flexible molded-polymer backrest facilitates heat-reducing airflow. Optional mesh back lets light and air through for added comfort.

Seek's polymer shells are made from recyclable color-matched polymers with UV resistance to preserve colorfastness and ensure long-term durability. Allsteel paint finishes (for frames) are formulated for optimum hardness and chip resistance.

Seek meets the requirements set forth in ANSI/BIFMA X5.1-2011. Seek is level®2 certified. Seek is warranted for multiple shifts and users up to 300 lbs. Its lightweight construction makes it easy to move.

Allsteel fabrics and foam meet requirements for CAL TB117-2013. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013.

Svelte Overview and Options

Svelte is a modern, multi-functional office chair that brings refined, yet affordable, sophistication across a variety of applications. Sophistication shouldn't have to be expensive, and quality can be affordable. Svelte gracefully alleviates the disparity between low-cost and luxury with an elegant design that possesses an aesthetic as slender as the stack of cash to afford it. Combine that with its ability to consistently perform across almost any office setting, and it only adds to its value. Svelte meets the requirements set forth in ANSI/BIFMA X5.1-2013. Svelte is warranted for multiple shifts and users up to 300 lbs.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Introducing Vicinity, the newest addition to Allsteel's Social Collaborative collection of furniture.

Your next great idea happens here.

The cafeteria has evolved from a small, back-of-office nook to a vibrant, front-and-center space for planned and impromptu meetings, or for giving guests a taste of your company's culture. Vicinity meets these needs with the flexibility to fit more spaces around your office and a style that's distinctively yours. It's perfect for creative breaks, standing meetings, relaxed eating, or heads-down work.

The best ideas are born from connection. Vicinity gives you the space you need to discover what's possible.

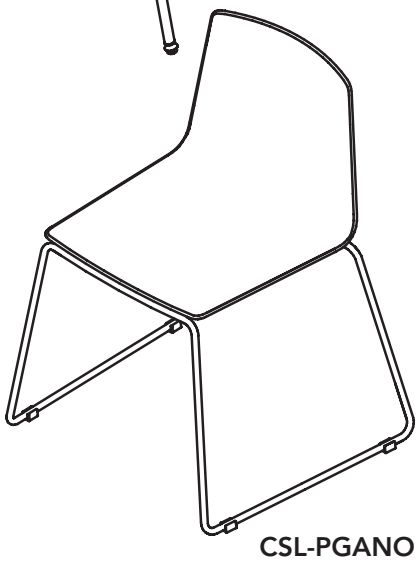

Choose from multiple color and finish combinations to fit the style of your office.

Simple, clean lines serve as the calling card for your company's personality.

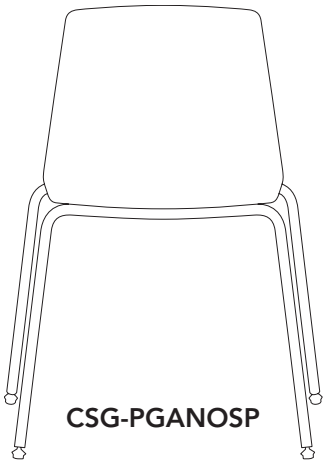

Lightweight pieces are easy to move and utilize for whatever your office needs.

MODELS AND OPTIONS

Vicinity seating is available as seated, counter, or standing heights, with formed wire-frame or tube legs. Vicinity seating is produced using material-efficient processes; little waste is generated during the manufacture of these chairs and what is generated can be recycled into new components. The seating bases all contain at least 25% post-consumer recycled content.

Glides are available in nylon or polycarbonate, nickel-plated or steel, and felt or rubber. Nylon glides or polycarbonate are recommended for hard surfaces, commercial carpet, and damp environments. Nickel-plated and steel glides are recommended for carpet. Felt glides are recommended for wood, tile, or high-sheen floor surfaces.

Vicinity offers 8 different polymer shell colors and nine frame finish colors. 4-Leg and sled base chairs stack up to 10 chairs high in 44"H. Chairs ship up to four per carton to minimize waste. Model number and prices are per chair.

Vicinity meets the requirements set forth in ANSI/BIFMA X5.1-2017. Vicinity is warranted for multiple shifts and users up to 300 lbs.

OPTIONS — CHAIRS / STOOLS

- **SG** 4-Leg Chair
- **SL** Sled Base Chair
- **CS** Counter Stool
- **BS** Bar Stool
- **UCS** Stacking Counter Stool
- **UBS** Stacking Bar Stool

Glides 4-Leg / Stool:

- **0** Nylon for hard surfaces
- **1** Nickel for carpets (add $21)
- **2** Felt (add $21)
- **5** Rubber (add $21)

Glides Sled Base:

- **0** Polycarbonate (only option for Lounge)
- **1** Steel (add $21)
- **2** Felt (add $21)

Frame Finish:

- **P71** Black
- **P7D** Brownstone
- **PJF** Bullseye
- **PJW** Designer White
- **POL** Chrome
- **P096** Cove
- **P094** Dune
- **P02** Flint
- **P097** Harbor
- **P8G** Matte Gold
- **P8B** Night Bronze
- **P093** Ochre
- **PJE** Pyrite
- **P8M** Regatta
- **P095** Sage
- **P8C** Salt
- **P092** Sienna
- **PR6** Silver
- **P8X** Solar Black
- **P8T** Titanium

Poly Shell Colors:

- **BW** Brownstone
- **CI** Citrine
- **CY** Cyprus
- **GE** Sage
- **HR** Harbor
- **HZ** Haze
- **QR** Quarry
- **RE** Regatta
- **S** Flint
- **SN** Sienna
- **ST** Salt
- **TI** Titanium
- **UM** Orchid Umber
- **WT** White

Two Thirds pages 266-277

Allsteel soft seating does not offer pattern match across seams within a unit and from unit-to-unit as a standard.

Pattern matching provides alignment of patterns across individual unit surfaces. Unit-to-unit pattern match provides identical pattern alignment from unit to unit.

Both options are available for an upcharge as a special. Additional yardage may be required depending on pattern repeat. To request pattern match or unit-to-unit pattern match, please contact the Allsteel Tailored Product Group.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Upholstery Expectations

Due to the inherent characteristics of some upholstery materials, such as coated textiles, some wrinkles may show along the curvature of the seat, back, and arms of Flourish. Additionally, some wrinkles may appear once material has become more relaxed over time.

- Allsteel fabrics and foam meet requirements for CTB117.
- Blank spaces indicate that a product has not yet been tested or that it failed.
- Contact Allsteel Customer Support for other flammability code approvals.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

DESIGN FEATURES

Flourish is a guest chair collection that blends comfort, customization, and quiet confidence. From its sculptural form to its thoughtful details, Flourish engages users in a personal, crafted, and intentionally designed sit while providing a fluid and flexible chair full of personality.

Bases and Casters/Glides:

Flourish features 4 distinctive base types: 5-Star Metal, 4-Star Metal, 4-Leg Wood, and 4-Star Wood.

The 5-Star Metal base features a standard cylinder height, a height adjustable control, and versatile multi-surface casters for use on hard or soft surfaces.

The 4-Star Metal base comes standard with a nylon hard floor glide.

The 4-Leg Wood and 4-Star Wood bases come standard with a nylon nail-in glide.

Return to Center:

The return to center feature on 4-Star Metal and Wood bases automatically guides a chair back to a neutral position and allows users the ability to rotate 90 degrees left or right from neutral, keeping shared spaces looking neat and organized.

Arms:

Fixed arms provide basic support for users engaging in a variety of tasks throughout the day and provide consistent aesthetics in shared spaces.

Welt Cord:

The welt cord featured on the seat and back creates an opportunity for customization while also providing a clean, tailored look that elevates the chair's overall design and finish.

Multi Upholstery:

Dual upholstery adds both visual appeal and functional performance to Flourish. By combining two complementary materials, it enhances design flexibility while allowing each surface to serve a purpose.

Materials:

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics meet requirements for CTB117. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CTB117.

Other:

- Flourish meets the requirements set forth in ANSI/BIFMA X5.4-2020.
- Flourish is warranted for users up to 275 lbs.

Jetty:Mod supports individual and group activities in cafes, atriums, and walkways while also influencing and directing circulation patterns. Its modern, modular, and can be modified to fit whatever the installation requires.

Jetty:Mod was designed to focus on work geometry and how to properly support you. Making sure to have proper sit depth and posture. There are two different versions or dimensions. The lounge version is 30" wide by 30" deep and you sit 18" off of the floor. This allows for more trust conversations to happen or to relax for the day. The work version is 24" wide by 24" deep and you sit 19.5" off of the floor. This will allow for a more upright position to do active work.

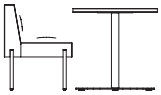

Lounge
18"H x 30"D x 30"W

Work
19.5"H x 24"D x 24"W

WORK GEOMETRY

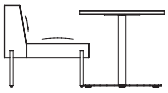

It is important to determine whether the clearances between work mode/lounge mode and table are large enough to allow for an individual's legs to be positioned under the table and yet not too large as to result in awkward upper body positions when using the worksurface.

WORK POSTURE & STANDARD HEIGHT TABLE

When specifying the work posture Jetty:Mod it is recommended to pair with standard height tables that provide 9"-10" of leg clearance.

Standard Table Height: 28"-29.75"

LOUNGE POSTURE & CONTINENTAL HEIGHT TABLE

When specifying the lounge posture Jetty:Mod it is recommended to pair with continental height tables that provide 8.5"-10" of leg clearance.

Continental Table Height: 25"-27.75"

MODELS AND OPTIONS

Jetty:Mod is comprised of seating, arms, tables, screens, legs and connectors that allow you to create an array of configurations.

The seating includes Ottomans, Single Seats and Backs, Half-Backs, Serpentine Ottoman and Serpentine Seat and Back units.

Arms include Tailored Arms, Box Arms and Bolster Arm.

Tables are connected or an accessory to the overall configuration. These include Connecting Tables, both full and half, Serpentine Tables, End Caps, Shared Arm, Tablet Table and Coffee Table.

Screens provide privacy in any space. There are 4 different lengths of screens that can be attached to seating and tables.

Legs and connectors coincide with the work or lounge version.

APPLICATIONS

This sofa system supports applications for private offices, work islands, booths, individual workspaces and banquettes.

MATERIALS

All COMs/COLs must be approved for upholsterability. See pages 6-7 for COM ordering instructions.

Serpentine

*Rule: Serpentine units need to have a leg at each connection point wherever there is the biggest radius. At the smallest radius, you will need a leg every 2 units. Where there isn't a leg, you can use a serpentine in-line connector.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

General Guidelines When Working With Jetty:Mod

SEATING

Corner Units - BPLCS, BPLCM, BPLWCS, BPWCM

- Corner unit is used to make an L-application and should not be used to end a run
- Corner unit needs to be specified with 1-Corner connecting leg and 1-Post leg. (BPLCRPL and BPWCRPL)

Calf Rest - BPLCR

- Calf Rest can only be used with the lounge version of Jetty:Mod
- It is recommended to placed at the front of the sofa unit it is being attached to, and should be placed either to the right or the left of the unit. This will depend on what the application is.
- Calf Rest is attached with 2 brackets to the bottom of the sofa unit, and then comes with 2 post legs that will go at the end to support

Serpentine Units - BPLSWS, BPLSWM, BPLSNS, BPLSNM, BPLSO, BPWSWS, BPWSWM, BPWSNS, BPWSNM, BPWSO

- Serpentine units need to have a leg at each connection point wherever there is the biggest radius. At the smallest radius, you will need a leg every 2 units. Where there isn't a leg, you can use a serpentine in-line connector.

See specifying examples below

What to Specify:
4 Serpentine Wide at Back (BPLSWS)
4 End Leg with Metal Cover (BPLELC)
4 Serpentine In-Line Leg 30 (BPLSIL30)
2 Serpentine In-Line Connector 30 (BPSIC30)

What to Specify:
4 Serpentine Wide at Back (BPLSNS)
4 End Leg with Metal Cover (BPLELC)
4 Serpentine In-Line Leg 30 (BPLSIL30)
2 Serpentine In-Line Connector 30 (BPSIC30)

What to Specify:
2 Serpentine Wide at Back (BPLSWS)
2 Single Seat and Back (BPLSS)
4 End Leg with Metal Cover (BPLELC)
2 Serpentine In-Line Leg 30 (BPLSIL30)
2 Serpentine In-Line Leg 15 (BPLSIL15)
2 Serpentine In-Line Connector 15 (BPSIC15)

What to Specify:
2 Serpentine Wide at Back (BPLSNS)
2 Single Seat and Back (BPLSS)
4 End Leg with Metal Cover (BPLELC)
2 Serpentine In-Line Leg 30 (BPLSIL30)
2 Serpentine In-Line Leg 15 (BPLSIL15)
2 Serpentine In-Line Connector 15 (BPSIC15)
Note: This can also be done using the work version

What to Specify:
4 Serpentine Wide at Back (BPLSWS)
1 Serpentine Connecting Table (BPCTO30)
4 End Leg with Metal Cover (BPLELC)
6 Serpentine In-Line Leg 30 (BPLSIL30)
2 Serpentine In-Line Connector 30 (BPSIC30)

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

What to Specify:
4 Serpentine Wide at Back (BPLSNS)
1 Serpentine Connecting Table (BPCTO30)
4 End Leg with Metal Cover (BPLELC)
6 Serpentine In-Line Leg 30 (BPLSIL30)
2 Serpentine In-Line Connector 30 (BPSIC30)

What to Specify:
2 Serpentine Wide at Back (BPLSWS)
2 Single Seat and Back (BPLSS)
1 Serpentine Connecting Table (BPCTO30)
4 End Leg with Metal Cover (BPLELC)
4 Serpentine In-Line Leg 30 (BPLSIL30)
2 Serpentine In-Line Connector 15 (BPSIC15)

What to Specify:
2 Serpentine Wide at Back (BPLSNS)
2 Single Seat and Back (BPLSS)
1 Serpentine Connecting Table (BPCTO30)
4 End Leg with Metal Cover (BPLELC)
4 Serpentine In-Line Leg 30 (BPLSIL30)
2 Serpentine In-Line Connector 15 (BPSIC15)

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

HOW TO SPECIFY JETTY:MOD

EXAMPLE #1
- (3) BPLSS - Lounge Single Seat and Back
- (1) BPLB - Lounge Bolster Arm
- (1) BPLBL - Lounge Box Arm Left
- (1) BPLBR - Lounge Box Arm Right
- (4) BPLEL - Lounge End Leg for Attaching
- (4) BPLSIC - Lounge Straight In-Line Connector

EXAMPLE #2
- (1) BPLSS - Lounge Single Seat and Back
- (1) BPLCR - Lounge Calf Rest
- (1) BPBSCR30 - Lounge Screen 30"
- (1) BPBSCR45 - Lounge Screen 45"
- (1) BPCT15 - Half Connecting Table 15" x 30"
- (1) BPTT - Swivel Tablet
- (4) BPLELC - Lounge End Leg with Metal Cover
- (2) BSSICC - Short In-Line Connector

Note: One pod is specified, multiply by 3 for total

EXAMPLE #3
- (10) BPLSWS - Lounge Serpentine Wide at Back
- (5) BPLCTO30 - Lounge Serpentine Connecting Table
- (4) BPLELC - Lounge End Leg with Metal Cover
- (23) BPLSIL30 - Lounge Serpentine In-Line Leg 30
- (5) BPSIC30 - Serpentine In-line Connector 30

EXAMPLE #4
- (2) BPLSS - Lounge Single Seat and Back
- (1) BPCT30 - Connecting Table 30" x 30"
- (4) BPLELC - Lounge End Leg with Metal Cover
- (4) BPLSIL - Lounge Straight In-Line Leg

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

EXAMPLE #5

- (6) BPLSS - Lounge Single Seat and Back
- (2) BPLB - Lounge Bolster Arm
- (1) BPLTL - Lounge Tailored Arm Left
- (1) BPLTR - Lounge Tailored Arm Right
- (2) BPTT - Swivel Tablet
- (1) BPTE60 - Lounge End Cap 60"
- (8) BPLEL - Lounge End Leg for Attaching
- (8) BPLSIC - Lounge Straight In-Line Connector

EXAMPLE #6

- (6) BPLSS - Lounge Single Seat and Back
- (1) BPLSWS - Lounge Serpentine Wide at Back
- (1) BPLSNS - Lounge Serpentine Wide at Back
- (1) BPLCTO30 - Lounge Serpentine Connecting Table
- (2) BPTE30 - Lounge End Cap 30"
- (2) BPTS30 - Lounge Shared Arm
- (4) BPLEL - Lounge End Leg for Attaching
- (4) BPLSIC - Lounge Straight In-Line Connector
- (10) BPLSIL30 - Lounge Serpentine In-Line Leg 15
- (2) BPSIC15 - Serpentine In-line Connector 15

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

ARMS

Tailored Arms - BPLTL, BPLTR, BPWTL, BPWTR
- Tailored Arms can only be used at the end of the run, not in between units

Box Arms - BPLBL, BPLBR, BPWBL, BPWBR
- Box Arms can only be used at the end of the run, not in between units

Bolster Arms - BPLB, BPWB
- Bolster Arms can only be used in between units that have a seat and back. It is recommended to not be used with an ottoman

TABLES

Connecting Tables - BPCT30, BPCT24
- Connecting tables can go in between seating units and at the end of a run
- If a connecting table is in between 2 seat units, it will need 4 in-line legs (BPLSIL or BPWSIL) at each connection point between the units
- If a connecting table is placed at the end of a run, it will need 2 in-line legs (BPLSIL or BPWSIL) and then 2 end legs with a metal cover. You need a point of connection for the connecting tables

Half Connecting Tables - BPCT15, BPCT12
- Half connecting tables can go in between seating units and at the end of a run
- If a half connecting table is in between 2 seat units, it will need 2 in-line legs (BPLSIL or BPWSIL) at 2 of the connection points and the 2 short in-line (BSSICC) connectors at the other 2 connection points
- If a half connecting table is placed at the end of a run, it will need 2 short in-line connectors (BSSICC) and then 2 end legs with a metal cover. You need a point of connection for the half connecting tables

Serpentine Connecting Tables - BPCTO30, BPCTO24
- Serpentine connecting tables can go in between seating units and at the end of a run
- If a serpentine connecting table is in between 2 linear seat units, it will need 4 serpentine in-line legs (BPLSIL15 or BPWSIL15) at each of the connection points
- If a serpentine connecting table is in between 2 serpentine units, it will need 4 serpentine in-line legs (BPLSIL30 or BPWSIL30) at each of the connection points
- If a serpentine connecting table is in between 1 serpentine unit and 1 linear unit, the linear to serpentine will have a different leg compared to the serpentine to serpentine connection. You will need to specify 2 serpentine in-line legs (BPLSIL30 or BPWSIL30) and 2 serpentine in-line legs (BPLSIL15 or BPWSIL15)

Corner Connecting Tables - BPCCT30, BPCCT24
- Corner table is used to make an L-application and should not be used to end a run
- Corner unit needs to be specified with 1-Corner connecting leg and 1-Post leg. (BPLCRPL and BPWCRPL)

Notched Tables - BPNT30, BPNT15, BPNT24, BPNT12
- When pairing legs with notched tables, follow same guidelines that are used for connecting and half connecting tables
- It is recommended that you put a tablet arm within the notches. Items that we do not recommend are bolster arm, arms and the shared arm

End Caps - BPTE30, BPTE60, BPTE24, BPTE48
- End caps should be used at the end of a run, connecting into the end legs for attaching (BPLEL or BPWEL)
- The longer end caps are used to span across two units that are back-to-back

Shared Arms - BPTS30, BPTS24
- Shared arms are recommended to be used in between 2 seat and back units (serpentine or linear)

Swivel Tablet - BPTT
- Swivel tablet can go at the end of the run or in between units (serpentine or linear)

Coffee Table - BPCT2445
- Coffee table should be used on its own as a stand alone coffee table

LEGS, CONNECTORS AND METAL PIECES

You will need to specify two legs or connectors at each connection point. For example, if you have a two-seat sofa, you would need to specify two in-line connectors where the sofa units meet and then four end legs (two at one end and two at the other end of the sofa).

Straight In-Line Connectors - BPLSIC, BPWSIC
- Straight in-line connectors are used to connect 2 linear units together, both seating and tables
- Swivel tablet, bolster arm and shared arm can be inserted into the in-line connectors

End Legs for Attaching - BPLEL, BPWEL
- End legs for attaching are used at the end of a run
- Tailored arms, box arms and tablet arm can be inserted into the end legs at the end of a run

End Legs with Metal Cover - BPLELC, BPWELC
- End legs with the metal cover are used at the end of a run where nothing will be inserted or attached to them

Corner Post Legs - BPLCRPL, BPWCRPL
- Corner post legs are to be used with corner seating and tables
- When corner units are used, 2 corner post legs will need to be specified

Serpentine In-Line Connector - BPSIC15, BPSIC30
- BPSIC15 should be used when connecting a linear unit to a serpentine unit
- BPSIC30 should be used when connecting a serpentine unit to a serpentine unit

NOTE: Leg required every 3 seats in a straight-line configuration

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Serpentine In-Line Leg - BPLSIL15, BPLSIL30, BPWSIL15, BPWSIL30

- BPLSIL15 and BPWSIL15 should be used when connecting a linear unit to a serpentine unit
- BPLSIL30 and BPWSIL30 should be used when connecting a serpentine unit to a serpentine unit

4 Unit Beam Connector - BP4UC

- The 4 unit beam connector can be used to connect 4 linear units together without having to put a leg in between
- This cannot be used with serpentine units

Short In-Line Connector - BSSICC

- Short in-line connector should be used when connecting a single seat and back unit to a half connecting table, and should be placed in between those units

Coat Hanger - BPCH

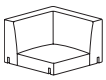

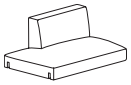

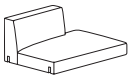

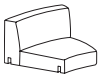

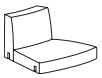

- The coat hanger can be placed on the back of seat and back, half back and serpentine units

SCREENS

Screens - BPBSCR30, BPBSCR45, BPBSCR24, BPBSCR36

- The 30" and 45" screens should be paired with the lounge version, and the 24" and 36" should coincide with the work version
- Screens are attached to the bottom of the seat and tables
- Screens can go on the back and sides of seating units. Screens can be attached to the back of the tables, but cannot attach to the sides of them.
- They cannot be used in between units

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Jetty:Mod electrical will be attached to the underside of the sofa. Electrical includes the Triplex system that has jumper kits, corded infeed, hardwire infeed and H-Connectors. Jumper kits, corded infeed and hardwire infeed are available at various lengths to support an array of configurations. Miki undermount units plugged into the Triplex system and placed at the front of the sofa. The Miki undermount power module has 1 simplex and 2 USB outlets.

It's the customer's responsibility to ensure that installation and use of the electrical system, the number of receptacles used on a given circuit, and connections to the building power supply meets all local and national electrical codes.

GUIDELINES WHEN WORKING WITH ELECTRICAL FOR JETTY:MOD

Miki Undermount - APWRMOD1UWM *(De-emphasized)*

- The Miki undermount consists of 1 simplex and 2 USB outlets
- Miki undermount power modules can be placed at the front of seat and table units. It cannot be placed where there is a support leg.
- 72" corded Miki undermount power modules can be specified on their own if the Jetty:Mod layout is placed along a wall with building power close enough to reach or within proximity of floor outlets.
- Miki can also be paired with the Triplex system to route a series of electrical components for larger Jetty:Mod configurations and/or if a hardwired in-feed is required/ desired.

Triplex Circuit 1 Jumper Kit - ATPKIT48, ATPKIT60, ATPKIT72

- Triplex Jumper Kits include 4-Trac Triplex Raceway available in lengths of 48", 60" and 72", conduit clamps and Triplex receptacle mounting bracket
- It is recommended to position the jumpers in the middle of the seat or table units that the electrical is going under

Triplex Circuit 2 Jumper Kit - ATPKIT482, ATPKIT602, ATPKIT722

- Triplex Jumper Kits include 4-Trac Triplex Raceway available in lengths of 48", 60" and 72", conduit clamps and Triplex receptacle mounting bracket
- It is recommended to position the jumpers in the middle of the seat or table units that the electrical is going under

Triplex Corded Infeed - ATPCIF48, ATPCIF72

- Triplex Corded Infeed includes a straight corded infeed with a straight 15 amp plug that is available in 48" and 72". Also available is an H-Connector with a mounting bracket.

Triplex Hardwire Infeed - ATPHWIF72

- Triplex Hardwire Infeed includes a straight hardwire infeed that is available in 72" and an H-Connector

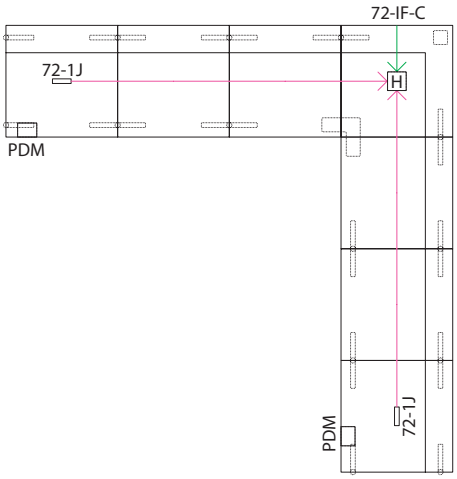

Triplex H-Connector - ATPSPLIT

- H-Connectors are used to connector jumpers that will go in different directions whether that's a 90 degree turn or serpentine configurations

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

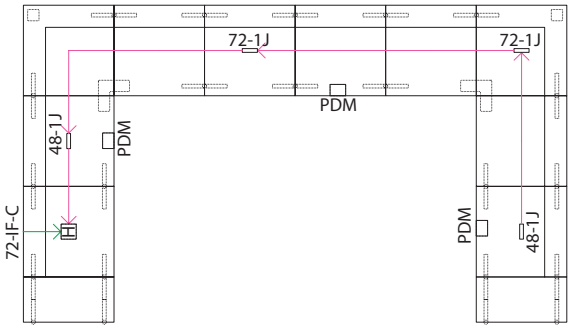

ELECTRICAL EXAMPLE 1 — L-SHAPE

- ATPCIF48 – 48" Triplex Corded Infeed (1)
- ATPKIT48 – 48" Triplex Circuit 1 Jumper Kit (2)
- APWRMOD1UWM – Miki Undermount (2) *(De-emphasized)*

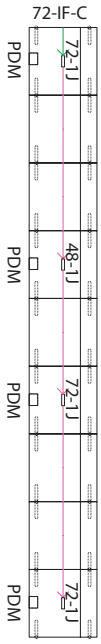

ELECTRICAL EXAMPLE 2 — U-SHAPE

- ATPCIF72 – 72" Triplex Corded Infeed (1)
- ATPKIT72 – 72" Triplex Circuit 1 Jumper Kit (2)
- APWRMOD1UWM – Miki Undermount (3) *(De-emphasized)*

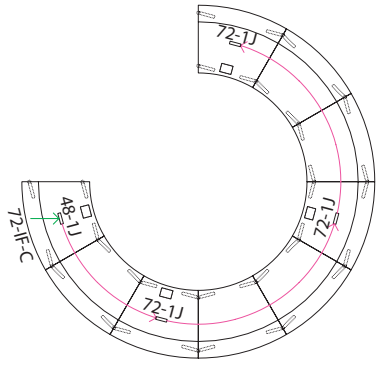

ELECTRICAL EXAMPLE 3 — LINEAR

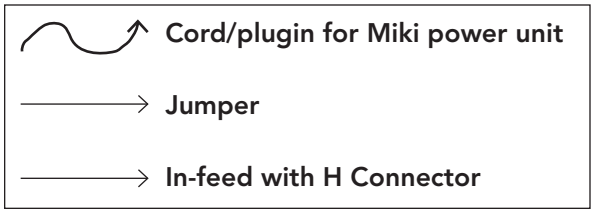

- ATPCIF48 – 48" Triplex Corded Infeed (1)
- ATPKIT60 – 60" Triplex Circuit 1 Jumper Kit (1)
- ATPKIT72 – 72" Triplex Circuit 1 Jumper Kit (1)
- APWRMOD1UWM – Miki Undermount (3) *(De-emphasized)*

ELECTRICAL EXAMPLE 4 — SERPENTINE

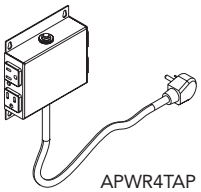

- ATPCIF72 – 72" Triplex Corded Infeed (1)
- ATPKIT72 – 72" Triplex Circuit 1 Jumper Kit (2)
- APWRMOD1UWM – Miki Undermount (3) *(De-emphasized)*

Introducing Parallel, a collection of soft seating and coordinating tables that adapts to a variety of spaces. Parallel is at home in reception areas and collaborative workspaces, accommodating different functions while maintaining a consistent aesthetic. With HBF Textiles, Allsteel fabrics, or a designer's own material, Parallel provides a canvas to make a strong first impression anywhere it's used.

Designed in partnership with Chris Adamick.

Club Plus Lounge

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

DESIGN FEATURES

Functional Versatility

Flexible and functional, Parallel soft seating can be considered a workhorse in helping meet a company's workplace needs, whether it be casual conference areas, lobby and reception settings, or collaborative hubs.

The variety of sizing and features allows Parallel to adapt from reception to collaborative areas throughout a workspace. The clean lines work well with current and future furniture settings. Generous sizing and thoughtful comfort considerations make the sit comfortable for five minutes or two hours.

Design Versatility

Cutting a sleek profile with tapered ellipse legs and a slim, stylistic reveal, Parallel is intended to work with your favorite Allsteel platforms without overpowering the space. The sharp tailoring of the upholstery paired with the dual-density foam means comfort without sacrificing aesthetics.

The Parallel club chair, club plus lounge, and modular sofa options, as well as the coordinating side and coffee tables, enable a diverse array of setups, from structured stylized formal, to a warmer domesticated corporate vibe, to flexible collaborative in combination with other Allsteel products. A variety of upholstery materials and frame colors celebrates beautiful form while telling a strong design story.

Wide Arms

6" wide arms with high-density foam allow for a comfortable surface for device usage, and the optional removable sleeve accessory, available in three finishes, makes a stable worksurface on the arm. Designed for comfort but also with the intent that all surfaces are sitting surfaces, Parallel is built to handle perching on the arms and back.

Design Nuances

- Legs – Ellipse, tapered shape set to the very edge of the frame
- Reveal – Slim reveal around the entire perimeter
- Tailored upholstery – Available with a channeled design detail for a more refined aesthetic

Materials

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics meet requirements for CTB117. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CTB117.

Tables (page 194)

- Available with laminate, veneer or solid surface tops.
- Leg finish option includes painted (color specified) or polished chrome.

WEIGHT RATING

Parallel™ club chairs and sofas are warranted up to 275 lbs per seat.

Club chairs and Club Plus chairs equal one seat.

Sofas and sectionals equal two seats.

RECHARGE

• **Available upholstery option**

- Allsteel fabrics and foam meet requirements for CTB117.
- Blank spaces indicate that a product has not yet been tested or that it failed.
- Contact Allsteel Customer Support for other flammability code approvals.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Designed in partnership with Chris Adamick, Recharge includes soft seating pieces and tables that can be integrated for private, public, or collaborative settings.

MODELS AND OPTIONS

Recharge seating is available in four different options: Pouf, Bench, Bench with Bolster, and Bench with Bolster and Screen. Bolsters are available as full width, half-width, and as corner units providing a large array of configurations.

Recharge Tables can stand alone or allow connection of seating components to create straight or 120-degree configurations. Power options are also available.

APPLICATIONS

Use Recharge as booths, micro-environments or bench seating in café areas, lobbies, open plan, atrium spaces, or reception areas.

KEY FEATURES

Recharge modular lounge seating is constructed of fabric covered foam with upholstery-grade FSC plywood core and box joints.

Each bench has glides that can be adjusted up to 2".

MATERIALS

- All COMs/COLs must be approved for upholsterability. See pages 6-7 for COM ordering instructions.

WEIGHT RATING

Recharge™ Lounge units are warranted up to 275 lbs per seat.

Poufs and single units equal one seat.

Double units equal two seats.

OPTIONS — MODULAR LOUNGE SEATING

Description:

Bench — Single or Double width seats (no back bolster)

Bench with Bolsters — Single or Double width seats with full, half, or corner bolsters

Bench with Bolsters and Screens — Single or Double width seats with full, half, or corner bolsters and full width or full width and 3/4 side screens.

Poufs (mini ottomans) — Round or Square seat

OPTIONS — ELECTRICAL

Description:

Electrical ports are available on seat benches and connector tables with corded, 4-Wire Kits, or hard wire options. See pages 208-209 for specifications and examples. See page 219 for electrical components.

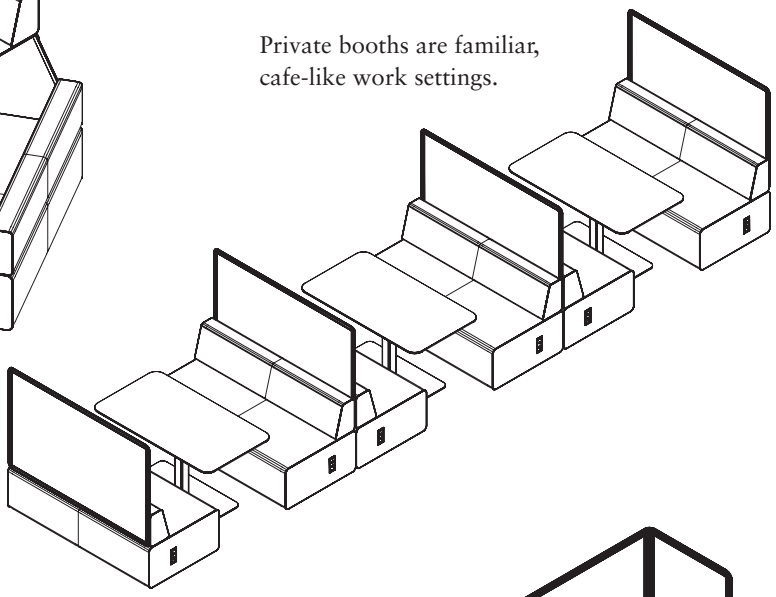

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

A full gallery of typicals can be found on our website: **https://www.allsteeloffice.com/design-resources/idea-starters**. *Each typical includes a complete BOM with current pricing, downloadable CAD files, and PDFs of each drawing.*

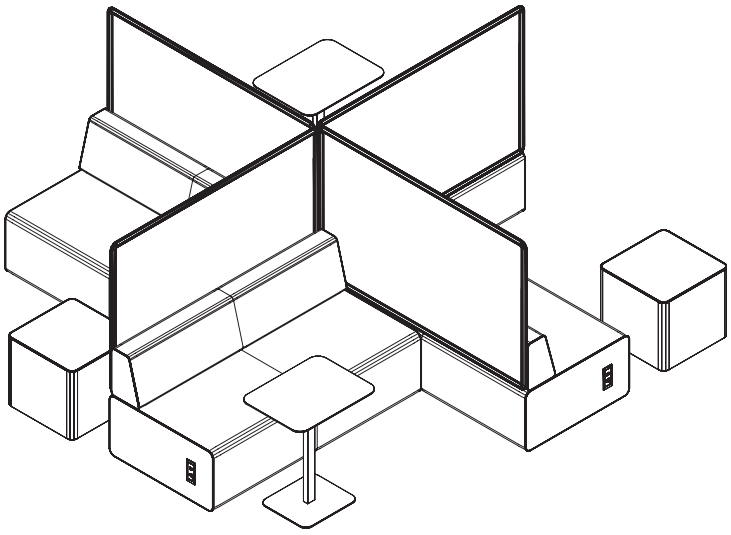

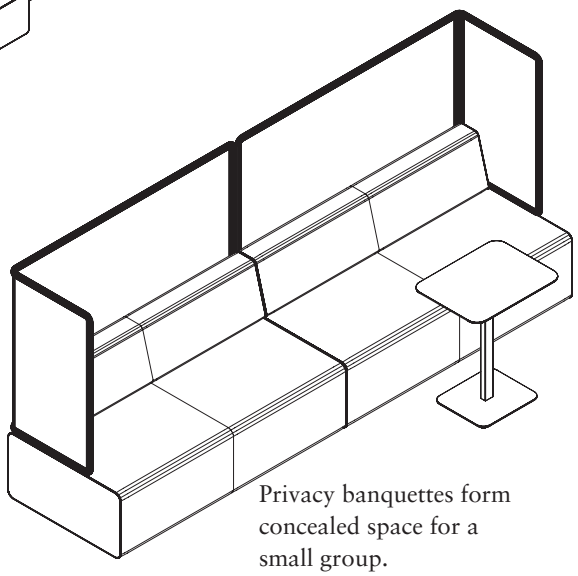

Crescent lounges create alternative meeting spaces.

Private booths are familiar, cafe-like work settings.

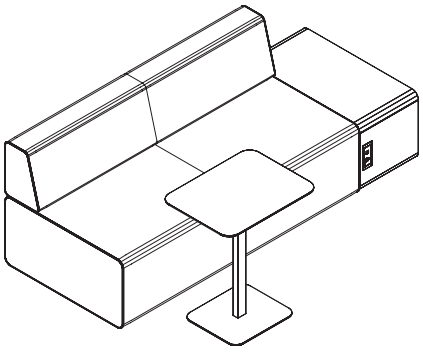

Clusters provide seating options and power for common spaces.

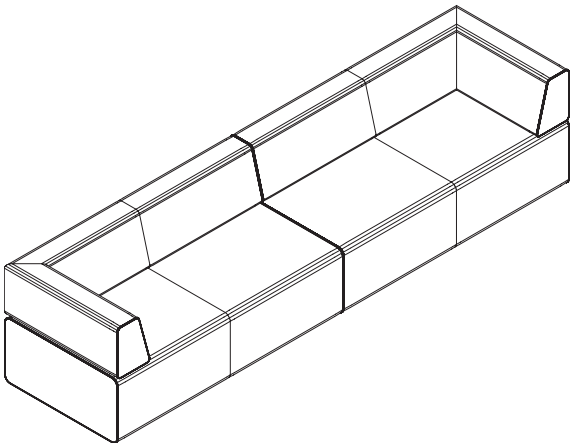

Privacy banquettes form concealed space for a small group.

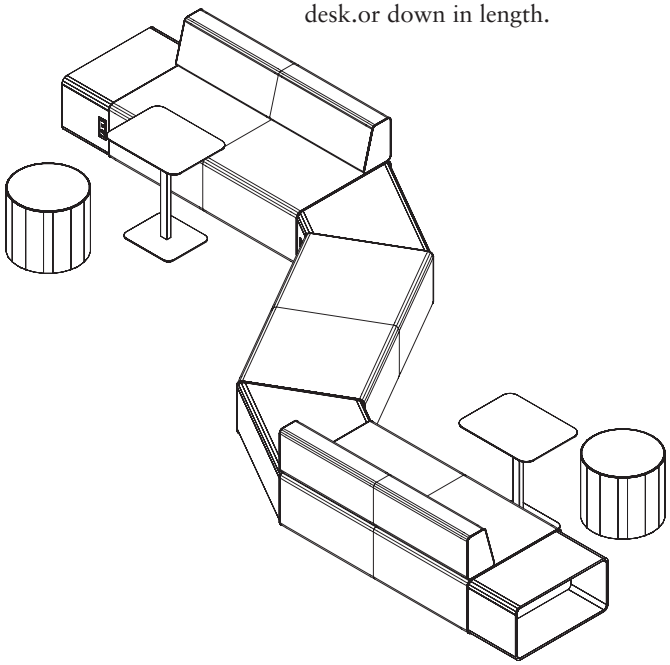

Sofas offer space to think away from the desk.

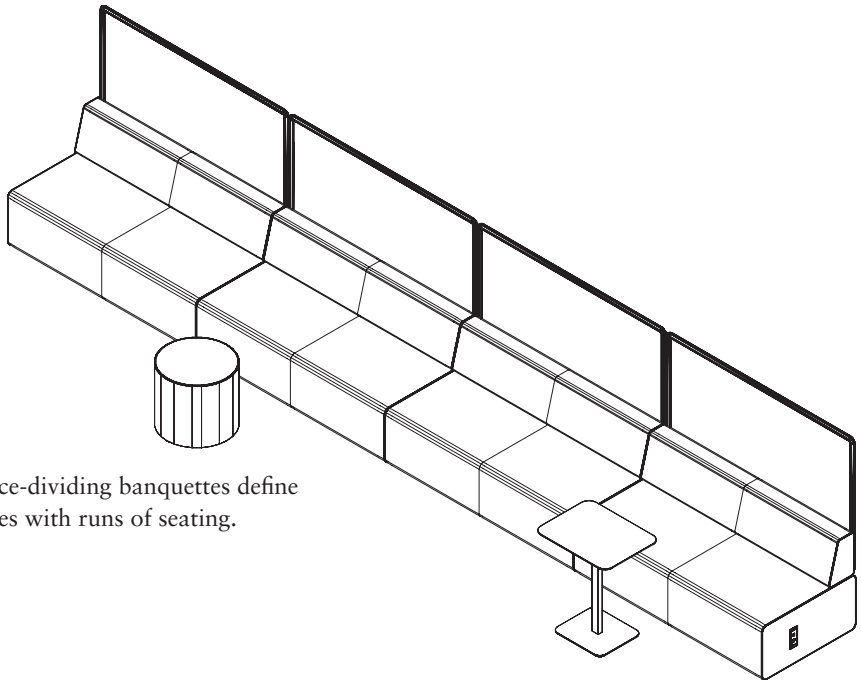

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Sectional sofas easily scale up spontaneous work beyond the desk.or down in length.

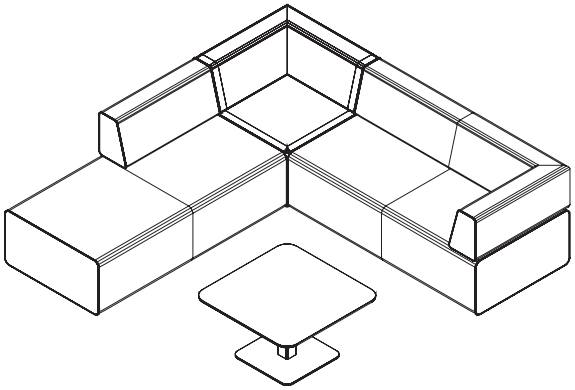

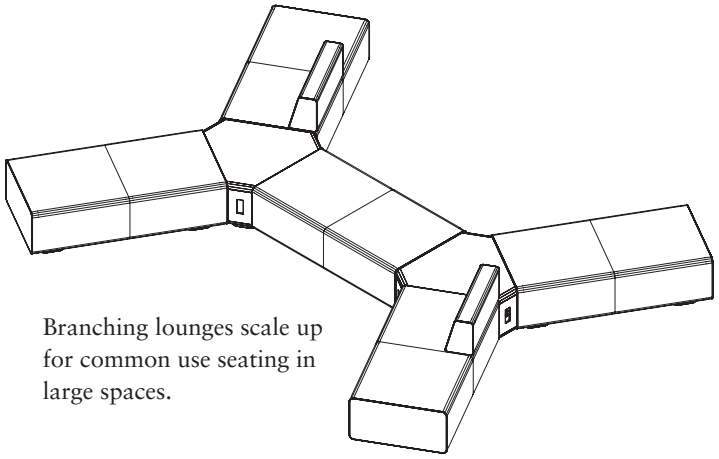

Sectional sofas easily scale up or down in length.

Space-dividing banquettes define zones with runs of seating.

Sectional return sofas turn 90 degree corners.

Branching lounges scale up for common use seating in large spaces.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

POWER-READY MODELS

Power-ready Recharge models have a cut-out on the front right side of the lower tier (see to the right) that will accept a Rise Power Port (ordered separately). The opening is 6.25"W x 1.94"H.

All connector tables come with or without an electrical cutout in them. The 120° x 3 Connector Table has three electrical cutouts, while the 120° x 2 and Straight Connector Tables have one electrical cutout. Electrical components need to be ordered separately from the units.

Four power options are available:

- Straight Cord – plugs a single unit into a standard outlet
- Braided Cord – plugs a single unit into a standard outlet with a visually aesthetic cord
- Hardwire – connects a single unit to power source by a licensed electrician
- Interlink IQ – connects multiple units to a power source

It's the customers responsibility to ensure that installation and use of the electrical system, the number of receptacles used on a given circuit, and connections to the building power supply meets all local and national electrical codes.

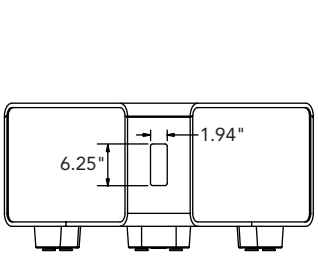

INTERLINK IQ

Interlink IQ provides the ability to use on 15-amp infeed starter and power up to 8 power modules and/or jumpers. Up to 8 connections are possible on one Interlink infeed. A 40' maximum run, or no more than 8 units, whichever comes first, are possible to daisy chain through Interlink IQ. Interlink IQ provides a visual indicator of system status. LED illuminates green when you are connected and ready to plug in. A red light indicates you have linked too many units.

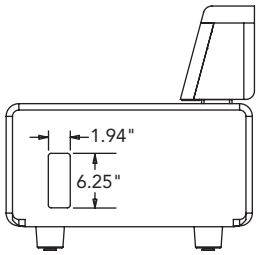

Electrical components listed on page 219.

STEPS FOR ORDERING RECHARGE 4-WIRE POWER KITS:

1. Determine the number and location of powered ports in configuration. A maximum of thirteen Recharge ports can be connected on one Infeed.
2. Order one 4-Wire Power Port for each powered Recharge Unit.
3. Order one Infeed Kit. Each Infeed Kit includes H-Connector which can power either:
   - 3 Recharge units
   - 2 Recharge units and 1 Jumper
   - 1 Recharge unit and 2 Jumpers
   - 3 Jumpers
4. Determine if Jumper with H-Connector Kits are needed for connecting multiple powered Recharge units.
   - A Jumper Kit is required if the distance between the H-Connector on the end of Infeed or Jumper is greater than 72” to the Power Port cutout on the Recharge unit.
   - Jumper Kits are available in 42" and 72" lengths.
   - Infeeds and Jumpers can’t plug directly into Power Port.

Upholstery Expectations

Due to the inherent characteristics of some upholstery materials, such as coated textiles, some wrinkles may show on the wingback headrest for Retreat. Additionally, some wrinkles may appear once material has become more relaxed over time.

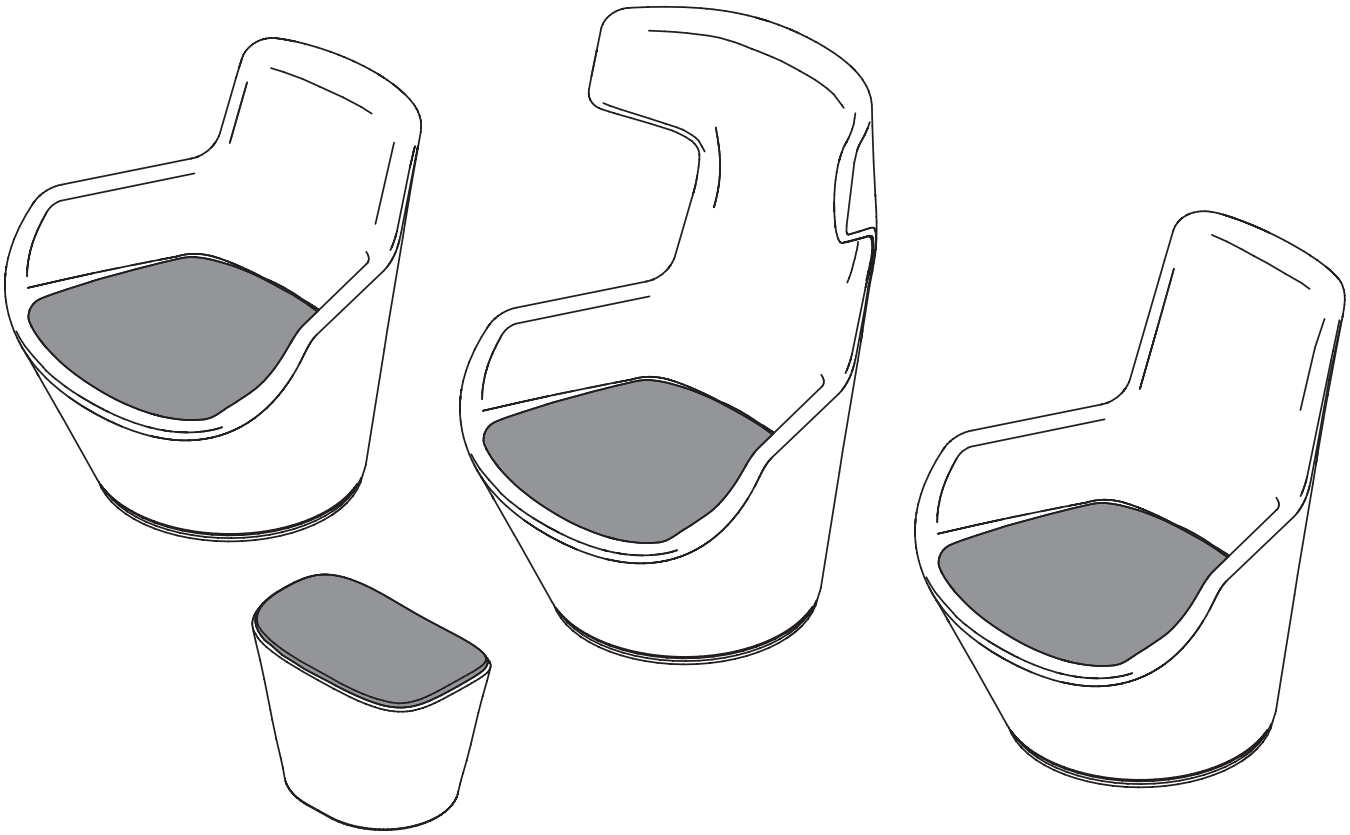

- Allsteel fabrics and foam meet requirements for CTB117.
- Blank spaces indicate that a product has not yet been tested or that it failed.
- Contact Allsteel Customer Support for other flammability code approvals.

• **Available upholstery option**

RETREAT

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Retreat Lounge is a space-defining collection that supports real work in often underutilized spaces. It defines areas for small groups, provides privacy for individuals, and offers visual consistency in space planning. The lounge collection includes wing-back, high-back, and low-back chairs, and a matching ottoman.

Retreat Executive, Conference and Side seating extends premium comfort throughout meeting and private office spaces with its iconic design know from the Retreat lounge collection. The soft, organic shape of Retreat speaks to multiple generations of leaders, while creating a timeless and cohesive aesthetic that does not overwhelm the space or user.

DESIGN FEATURES

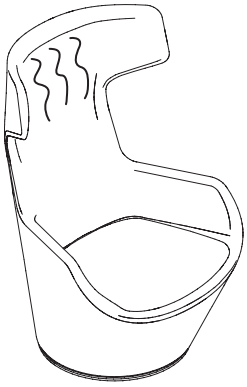

Retreat is a space defining lounge collection that supports real work in often underutilized spaces. It defines space for small groups, provides privacy for individuals, and visual consistency in planning and varied elevations.

Arms

Arm height is specific for comfort or laptop placement.

High-Back and Wing-Back

High-back protects back of head and wing-back provides added visual privacy. Relaxed tailoring is normal and expected in the upper headrest of the wing back (see illustration below).

Base Options for Chairs

Select between fixed, swivel, or return-to-center base.

Materials

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- Allsteel fabrics meet requirements for CTB117. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CTB117.

WEIGHT RATING

Retreat™ Lounge is warranted up to 300 lbs.

Retreat™ Exec/Conf is warranted up to 300 lbs.

Retreat™ Wood Side is warranted up to 275 lbs.

OPTIONS

Chair Type:

RISE LOUNGE

Rise transforms any space into a meeting space. It is tiered and modular upholstered seating that allows a number of people to gather without taking over an entire room.

Single-sided application:
3-tier, 2-tier, 3-tier, 2-tier

MODELS AND OPTIONS

Rise is designed as building blocks that can be combined into a variety of configurations. Rise is available as non-powered or power-ready. Rise is not intended for use as stairs.

APPLICATION

Use Rise back-to-back or side-by-side against a wall in atriums, open plan areas, brainstorming/huddle rooms, conference room, cafés, waiting areas, or lounges.

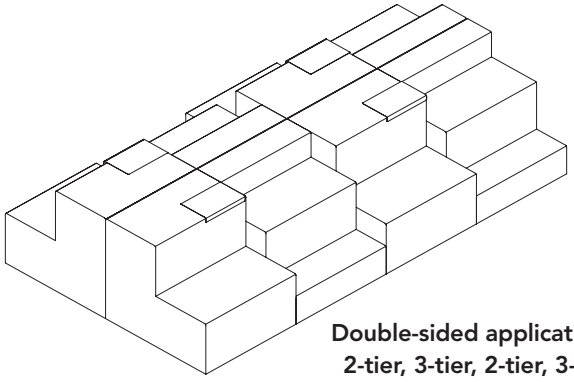

KEY FEATURES

Rise is constructed of fabric covered foam with upholstery-grade FSC plywood core, box joint, and corner block construction.

Rise has glides that are adjustable up to 2".

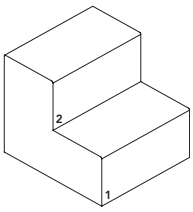

Ganging brackets with screws are included for connecting multiple units. Two brackets are required to connect two Rise units together. Soft Wall requires a special ganging bracket S922GB if it is not put between two units.

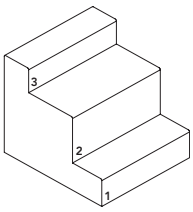

Double-sided application:
2-tier, 3-tier, 2-tier, 3-tier

DIMENSIONS

RISE 2-TIER

2-Tier — 34"H x 36"W x 40"D
2-Tier Corner* — 34"H x 40"W x 40"D
Tiers 1 and 2 — 17"H x 20"D

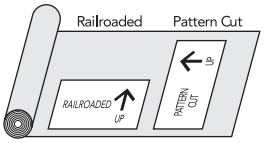

RISE 3-TIER

3-Tier — 34"H x 36"W x 40"D
Tier 1 — 9½"H x 12"D
Tier 2 — 16"H x 18"D
Tier 3 — 8½"H x 10"D

***NOTE:** Dimension of unit may not fit through standard door, check installation site prior to ordering.

MATERIALS

The outside cover on Rise is fully upholstered. Rise can be specified in a solid color or two-tone on selected models.

- Due to the dimension of the seat Rise fabric will be pattern cut.
- All upholstery foams are CFC-free.
- All COMs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-7 for COM ordering instructions.
- **Flammability** code compliance of Allsteel textiles and seating is listed on page 14. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013.

See page 14 for upholstery selections.
See pages 15-17 for colors and codes.

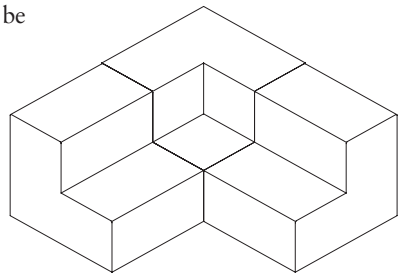

WEIGHT RATING

Rise™ Lounge is warranted up to 275 lbs.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

CORNER MODELS

Corner Rise models are available in two-tier models and are 40"W x 40"D. Units can be specified in a solid color or two-tone.

Corner Application:
2-Tier, 2-Tier Inside Corner, 2-Tier

POWER-READY MODELS

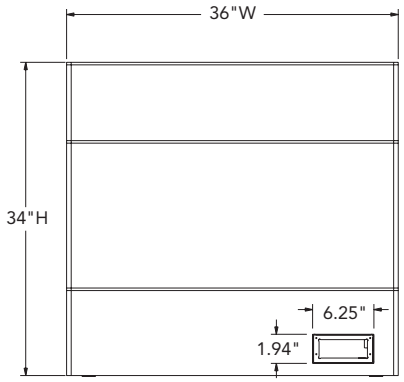

Power-ready Rise models have a cut-out on the front right side of the lower tier (see below) that will accept a Rise Power Port (ordered separately). The opening is 6.25"W x 1.94"H.

Rise Power Ports are UL listed and 2 power simplexes and a combo USB-A + USB-C. 1 power simplex is rotated 90 degrees to accommodate various plug styles. Four power options are available:

- Straight Cord — plugs a single unit into standard outlet
- Braided Cord — plugs a single unit into a standard outlet with a visually aesthetic cord
- Hardwire — connects a single unit to power source by a licensed electrician
- Interlink IQ — connects multiple units to a power source

It's the customer's responsibility to ensure that installation and use of the electrical system, the number of receptacles used on a given circuit, and connections to the building power supply meets all local and national electrical codes.

Front View of 3-Tier Rise Unit

INTERLINK IQ

Interlink IQ provides the ability to use one 15-amp infeed starter and power up to 8 power modules and/or jumpers. Up to 8 connections are possible on one Interlink infeed. A 40' maximum run, or no more than 8 units, whichever comes first—are possible to daisy chain through Interlink IQ. Interlink IQ provides a visual indicator of system status. LED illuminates green when you are connected and ready to plug in. A red light indicates you have linked too many units.

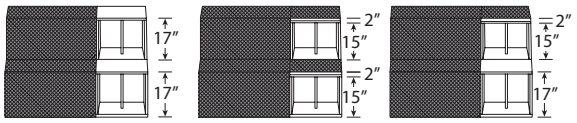

Electrical components listed on page 255.

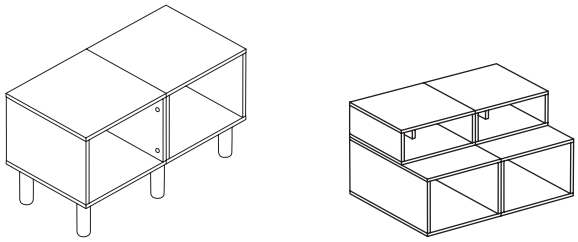

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

BOXES

Boxes can be utilized with Rise Lounge, Rise Platform Lounge, or as freestanding units with glides or platform legs. 4 glides used per box. When specified with Rise Lounge, follow the below guide for dimensional alignment.

To minimize scratches, it is recommended to use the laminate box instead of veneer in Rise Lounge applications when pads are not specified on top of a box.

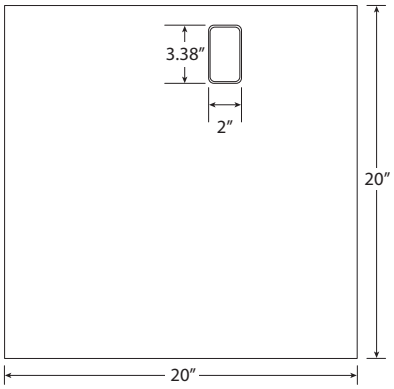

BOX STACKING

- Boxes can be stacked up to 68" high.
- Boxes can either be stacked directly on top of one another or stacked in an offset tier. When stacked, boxes should only be placed on top of boxes that are the same size or bigger.

POWER READY BOXES

Boxes that accept power have an optional power cutout that can be specified. Power module is purchased separately with model AUPWRMOD or AURNDPWRMOD.

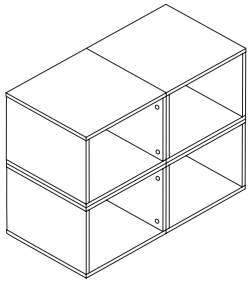

Bottom View of 20"W x 20"D Box

PLANTERS

Planters can be utilized with Rise Lounge, Rise Platform Lounge, or as freestanding units with glides to act as a space divider. 4 glides used per box.
*Plant liners purchased separately. Recommended size is 8"W x 28"D x 9"H.

BOX/PLANTER GANGING

- Required: Boxes stacked on top of one another. 2 ganging bolts (CDBBGB) per connection.
- Required: Boxes/Planters stacked on top of the Platform Lounge. 4 mounting bolts (CDBPMB) per connection.
- Optional: Boxes positioned side to side. 2 ganging bolts (CDBBGB) per connection. Ganging and mounting hardware is purchased separately.

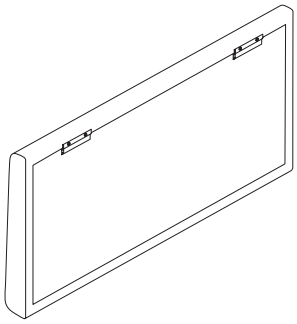

BOX PADS

Box pads can be placed on top of boxes to provide an additional seat. Box pads come standard with an anti-skid bottom to prevent the cushion from sliding when in use. Box pads can be optionally secured to boxes with wood screws. Wood screws ship standard with the pad.

BACKRESTS

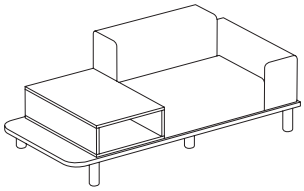

Backrests maximize spaces when square footage is limited. The backrests are mounted to walls with a z-bracket attachment. Z-bracket ships standard with the back rest.
It is recommended to hang a backrest with the bottom of the backrest near the top of the seated surface.

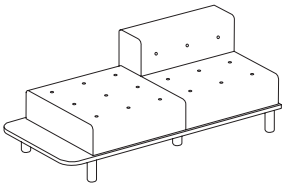

Back View of Backrest with Z-Bracket Installed

RISE PLATFORM LOUNGE

Rise Platform Lounge provides elegant solutions for touchdown work areas and reception spaces. Featuring a wide selection of laminate platforms sizes, the Platform Lounge cushions, boxes, and planters can be arranged to create tailored work environments.

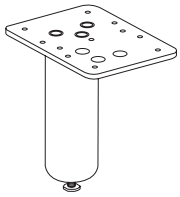

PLATFORM

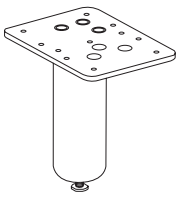

The platform is available in laminate only with the choice of a rectangular or soft corner end. The soft corner end creates an 8" offset hang that provides a place for personal belongings. The platform depth is 1½" deeper than the cushions and boxes, which provides a ¾" offset at the front and the back of the lounge, highlighting the texture and material of each component.

PLATFORM LEGS

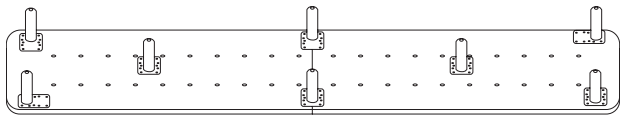

- 40"W or less – platforms require 4 legs (CDLWK4).
- 48"W or greater – platforms require 5 legs (CDLWK5).
- Platforms positioned in sequence can use shared legs (see below).
- Legs can be positioned in either a center or corner mount depending on the location of the legs under the platform predetermined by set pilot holes. Center or corner mount type is not specifiable and will be configured during installation.

Center Mount

Corner Mount

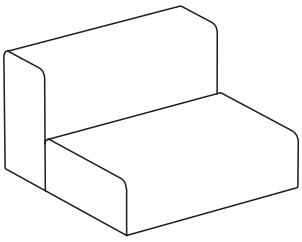

Underside View of Platform Showing Leg Positioning and Mounting Hole Location for Cushions/Planters/Boxes

PLATFORM LOUNGE CUSHIONS

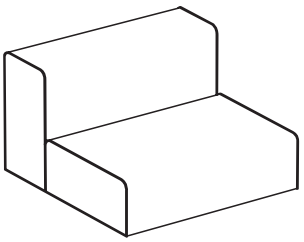

The Platform Lounge cushions consist of four base models that can be utilized on top of the rectangular or soft corner end platform. The Platform Lounge cushions can span across two platforms when shared platform legs are utilized. Platform Lounge cushions must be mounted to the platform. Mount hardware ships standard with the cushions.

CUSHION STITCH DETAILS

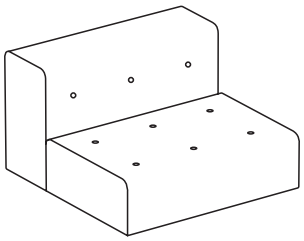

The box pads, backrests, and Platform Lounge cushions are available in 3 stitch details. These stitch details include plain, contrast welt, and button tufted*.
*Button Tufted is not available on the low armrest.

Admix™ is an innovative table system designed to be easily adaptable and flexible to meet the needs of collaborative teams and hybrid settings. Inspired by light-scale tables, this user-friendly table system provides the functionality and application range of a training table that is effortlessly reconfigurable. With teamwork being at the forefront of today's office environment, Admix™ offers ancillary components with thoughtfully executed technology support for collaborative work in the office and equitable hybrid meetings.

APPLICATION

Full collection that offers countless configuration options to support the various types of collaborative meetings.

- Collaborative Spaces
  - Conference
  - Project rooms
  - Makers space
  - Open Collaborative
- Learning Spaces
  - Reconfigurable tables
  - Training rooms
- Digital Meetings
  - Equitable for in person and view from camera
  - Proper viewing angles and viewing distance

SPECIFICATION CHOICE

Range of shapes, sizes, and configurations to meet the needs of any space available in an array of materials.

1. **Choose your top**
   - Shapes, sizes
2. **Choose your base**
   - 4 heights available: continental, standard, counter, bar
   - Footrests
   - Shelving options
   - Caster/glide/wheelbarrow
3. **Choose your style**
   - Veneer, laminate, metal finishes
4. **Choose your technology**
   - Power integrated into tables
   - Mobile powered satellite tables
   - Wire management under surface and vertically down leg
   - Braided cord wrapped around wire hook

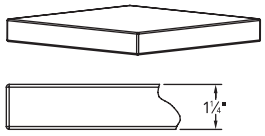

KEY FEATURES

Feature rich product that supports user choice to adapt to the needs of highly collaborative teams and video conference settings.

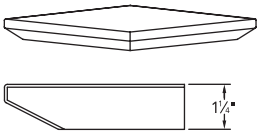

- Interchangeable caster/glide
- Telescoping base
- In surface and under mount power
- Braided cord power units
- Footrest standard on counter and bar height
- Media tops and media walls
- Homebase accessories - bag hook, desk mat, tray
- PET wire manager
- Tables with shelving
- Organic top shapes

OPTIONS

All tops are available in veneer or laminate with a flat or knife edge.

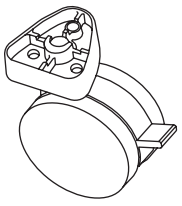

Flat Edge

Knife Edge

Tables can be specified with 4 casters, 4 glides, or a wheelbarrow setup (2 casters, 2 glides). Casters are available in silver or black. The caster and glide are integrated into a casting at bottom of leg to provide interchangeability over the life of the product.

Casters

Glides

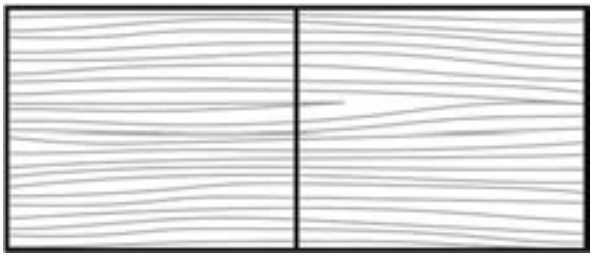

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

LAMINATE TOPS

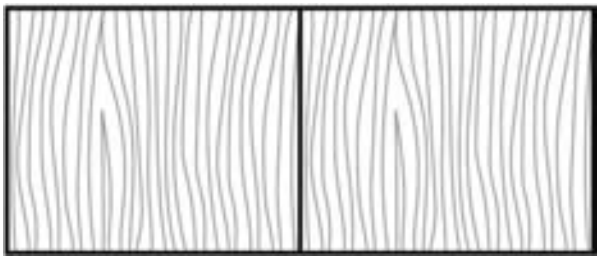

SINGLE-PIECE TOPS – Woodgrain laminates as standard product are always oriented with the grain direction running parallel to the length of the table top.

TWO & THREE PIECE TOPS – Tops longer than 96". Woodgrain laminates as standard product are always oriented with the grain direction running parallel to the length of the tabletop. Please note that 2-piece tops, in woodgrain colors, will not have exact grain alignment in the center where the two halves meet, a reasonable match can be expected. Allsteel cannot guarantee a grain match on tables that are 60"W. Woodgrain laminates will be aligned within ⅜" across seams unless otherwise noted in the price guide pages.

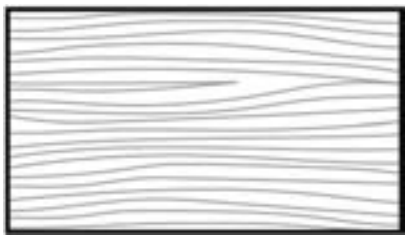

SPECIAL TOPS – Specials for wide tables. Woodgrain laminates as specials wider than 60" are always oriented with the grain direction running parallel to the seam of the tabletop. Allsteel will create best match grain alignment but cannot guarantee a perfect match along the seam between the pieces of laminate on two and three piece tops.

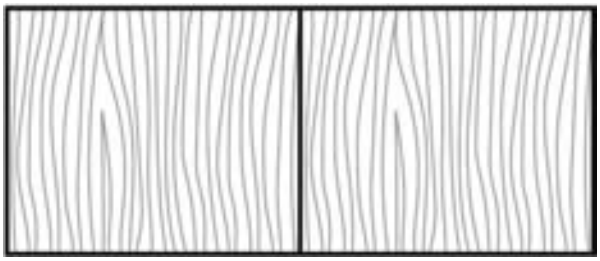

VENEER TOPS

SINGLE-PIECE TOPS – All veneer single piece tops are oriented with the grain direction running parallel to the length of the table top.

MULTI-PIECE TOPS – All veneer multi-piece piece tops are oriented with the grain direction running parallel to the seam of the table top.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

UNDER MOUNT POWER & IN SURFACE BEZEL MOUNT POWER

Power unit available in an under mount or in surface bezel mount installation. In surface requires cutout to be specified in worksurface. Cut out size is 1.938" x 6.313".

Units come standard with 2 power simplexes and a combo USB-A + USB-C. 1 power simplex is rotated 90 degrees to
accommodate various plug styles.

Standard plug is 10ft cord length, Hardwire conduit is 6ft, and Braided cord is 10ft length. Interlink IQ option also available for daisy chain applications.

IN SURFACE TECH MODULE

Power unit requires cutout to be specified in worksurface. Units available with Extron plates or data plates to accommodate various Audio/Video requirements. Cut out size is 5.025" x 11.094".

Corded

Corded models plug directly into an outlet and cannot plug into other corded power modules. In order to plug into other units the units need to be hard-wired.

Hardwire

Hardwire models are provided with 10 feet of sealtight cable. Customers must furnish junction boxes, conduit, and additional wire to be in compliance with local and national codes.

Qi charging is available on Corded and Hardwire versions.

- Includes 3 Qi charging coils (5 watts each) for wireless charging.
- Units have LED indicator lights below the lid's surface.
- Units house power and charging USB inside. All units are Qi certified.

PET UNDERSURFACE WIRE MANAGER

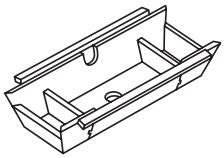

Made from 100% PET and provides a warmer, softer feel for a wire manager solution. 12mm thickness in dark grey color. Ends open for easy wire management and to allow the wire manager to sit directly under an external stiffener bar.

Attaches to bottom of worksurface with screws through flanges. Access door opens for easy access to inside of unit. Interior height approx 4" and trapezoid shape allows for interior width from 4" at bottom to 6" at top of unit. Interior dimensions also allow for it to mount under an insurface bezel mount power unit.

Available in 18", 36", and 48" widths. Multiple units may be used in combination on larger tables — recommend 3-12" between units when placed end to end. Unit is optional and must be ordered separately.

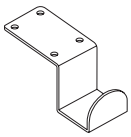

Designed for the Environment

- Low VOC
- HPD
- Cal 01350 Emissions Compliant
- Rapidly renewable content
- Prop 65 Compliant
- Declare Compliant
- Red List Compliant
- No FR Additives
- No Conflict Minerals

DUAL PURPOSE WIRE HOOK / BAG HOOK

The dual purpose wire hook / bag hook is ideal for reconfigurable environments with mobile tables. Intended to be used with a braided cord where the cord can be easily wrapped up. Max load capacity is 20lbs. Unit is optional and must be ordered separately.

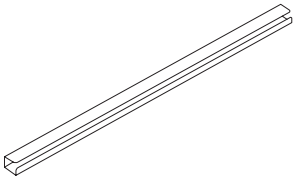

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

METAL VERTICAL WIRE MANAGER

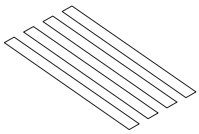

The vertical wire manager is bent sheet metal and attaches to inside of leg with double stick tape. Unit is powder coated in all Admix™ metal colors to allow it to match the chosen leg color. Interior dimensions are approximately 1" x 1" with 1 side partially open for wires to be easily routed to inside of unit.

Unit is optional and must be ordered separately.

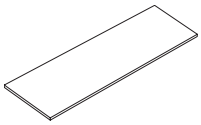

VELCRO STRAP VERTICAL WIRE MANAGER

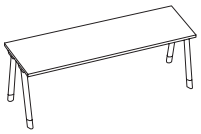

Model ships with quantity 4 velcro straps. Ideal for light duty braided cord applications or standard plug units where cord is visible. Not recommended for hardwire conduit. Made from 11" long x 0.75" wide two-side hook and loop velcro. Unit is optional and must be ordered separately.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

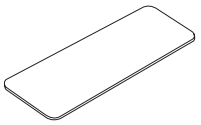

- Top and Base ordered separately. Telescoping tops intended to be used with telescoping bases.
- Option for cutout only, order power units separately.
- Reference page 292 for cutout locations.
- Available in veneer or laminate tops, flat edge only.
- Edgeband color option specified separately for laminate.
- Tops ship with pilot holes for locating base.
- Telescoping inset range per side: 60"W = 8.75", 66"W= 10.0", 72"W = 11.0", 78"W = 12.0", 84"W = 12.0"
- Base includes external stiffeners for tops, telescoping rail system and threaded knob to lock down by hand.
- Base ships knocked down.
- Telescoping tables not for use with accessory tray ATLADM-ACCTRAY due to rail system.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

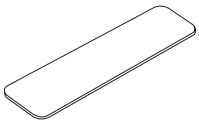

- Order base separately.
- Option for cutout only, order power units separately.
- Reference page 292 for cutout locations.
- Available in veneer or laminate tops, flat or knife edge.
- Edgeband color option specified separately for laminate.
- Tops ship with pilot holes for locating base.
- For use with bases on pages 307-308.
- Tops 120" or greater are 2 piece. Adjoining seams are not edgebanded.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

- Must be attached to the wall. Not for freestanding applications. Z brackets included for wall mounting.
- Top and bottom are 2 piece and require field assembly. Fabric panel also ships unassembled.
- Center panel on lower cabinet is a hinged door for access to wires and outlets.
- A vertical cavity exists from the hinged door to the fabric panel cutout to manage wires. Wire cavity is 4.25"D x 15.0"W with a grommet pass through from top to bottom halves.
- Table attached models include an angle bracket to support end of table and a grommet cutout to manage cords from bottom of table top to inside of media wall.
- Floating media walls can be mounted at desired height in field.
- Fabric panel attaches to media wall with Z brackets. TV mount GATVMB can be attached directly to face of the fabric panel. A low profile non-articulating TV mount should be used.
- Fabric panel is 60"W x 40"H and intended for use with flat screen TV's 55" and smaller.
- Center cutout in fabric panel is 10"W x 10"H to manage wires into media wall.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

- Top and Base ordered separately.
- Available in veneer or laminate tops, flat or knife edge.
- Edgeband color option specified separately for laminate.
- Tops ship with pilot holes for locating base.
- Base includes:
  Qty 3 — undermount power units daisy chained together with 20ft braided standard plug cord.
  Qty 1 — wire hook for braided cord.
  Qty 1 — low metal shelf 11" off the floor.
- Specified paint color on base applies to table legs, metal shelf, and wire hook.

FSC Certified Wood at Allsteel

See page 328 for more information.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

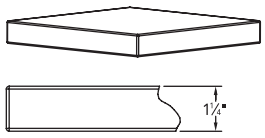

Aware Collection

Allsteel designed a flexible and comprehensive collection of active learning furniture. The Aware Collection consists of buffet and recycle credenzas, mobile and wall-hung marker boards, and unique shaped table tops that offer a timeless design. Look to the Aware Collection brochure for full details.

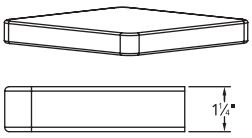

Materials and Edge Treatments

Aware tables offer functional flexibility and aesthetic versatility to provide one, simple solution for the entire office. The broad selection of materials and finishes ensure that the tables look beautiful in any application.

Laminate Edges

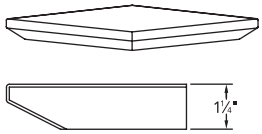

Flat Edge

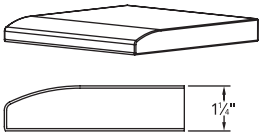

T-Mold*

Fluid Form Edge

Knife Edge — All 4 Sides

Eased Edge — Front Side Only

T-mold tops will have a ¾" radius on all corners.

24"D or 30"D Knife edge rectangle tops feature a shaped edge on all four sides. Eased edge tops feature a shaped edge on one side.

Allsteel Fluid Form is an advanced surface material that offers a seamless solid base layer with protective coating. Its seamless 3-dimensional edge profile eliminates the need for edge banding or T-mold making it ideal for horizontal surfaces.

FSC Certified Wood at Allsteel

Forest Stewardship Council® (FSC) certification promotes the sustainable harvesting of forests worldwide. The FSC program sets requirements for the management of the forest and for everyone that handles the wood from forest to product. Allsteel has an FSC Chain of Custody and can provide FSC certified products to customers who choose to order them. FSC products can contribute to LEED projects. To order FSC products, the "FSC" option must be selected in the model code at time of order. For more information, please contact Customer Support at 888-255-7833.

FSC Trademark License code FSC-C014704.

Space Requirement Guidelines

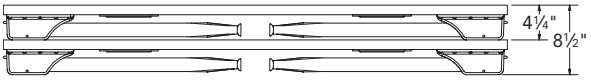

Tables:

- 24"–30"W per person depending on materials
- 4' between tables
- Breakout Rooms 10–12 sq. ft. per person
- Computer Training 20 sq. ft. per person

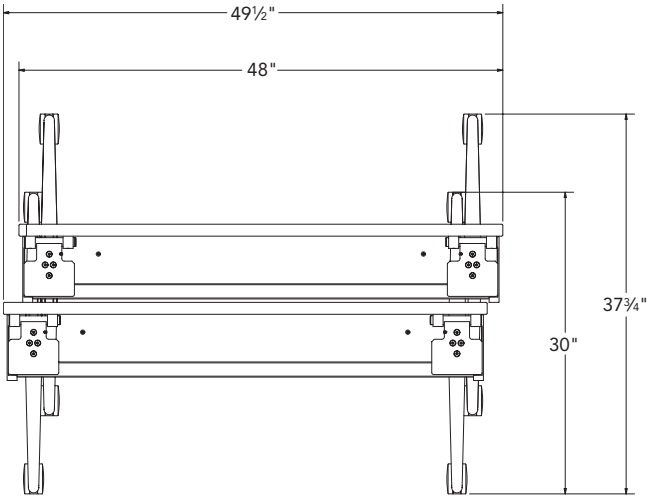

Space Savings With Nesting Tables

1. Start with table size in nested position:
   18"D table = 18"D
   24"D table = 24"D
   30"D table = 30"D
   36"D table = 36"D
2. Add 7¾"D for each additional nested table (no additional required if modesty panel is attached).
   Example: A 24"D table in nested position is 24"D.
   Add 9 additional nested tables
   (9 x = 69¾"D).
   Depth requirement for ten nested tables is 93¾"D.
3. Add 1½"W for each additional nested T-Leg table to the width of the widest table. Maximum 6" additional width. (3"W for V-Leg; maximum 12" additional width)
   Example: Ten 72"W tables are nested.
   72" + 6" = 78"W
4. Total space for 10 nested tables above is 93¾"D x 78"W.
5. Space saved by nesting is over __ square feet.
6. Table height of Aware nested tables:
   18"D table = 37⅞"H nested
   24"D table = 41⅞"H nested
   30"D table = 44⅞"H nested
   36"D table = 47⅞"H nested

T-Leg Nested — Top View

V-Leg Nested — Top View

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

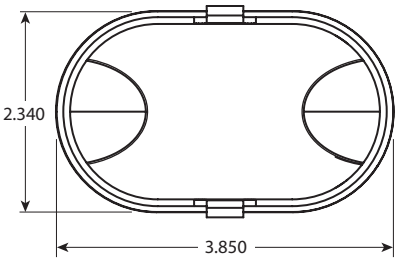

POWER/DATA PORT CUTOUTS FOR AWARE TABLES

When specifying Aware tables, grommets or power/data port cutouts may be specified for power/data. Grommets are available in plastic or oval (shown at right). If cutouts are specified, a pop-up power/data port must be specified for use in the cutout. Cutouts are unfinished and cannot be used as grommet openings. The chart below indicates which grommet or cutout options are available on Aware tables.

Code	Position
AGO	No grommets or cutouts.
AG1	Single grommet, centered left to right, 2"from back of surface.
AG2	Pair of grommets, approximately 3" in from each side, 2" from back of surface.
ATC	One cutout for Pop-up Power, centered left-to-right and front-to-back. Only on 30"D and 36"D tables. Do not specify on folding or nesting tables.
ATE	One cutout for Pop-up Power, centered left-to-right, 2" in from back of surface.

WIRE MANAGER CABLE CAPACITY

21 voice/data cables (.25" dia.) at 60% fill ratio

2 electrical infeed at 60% fill ratio

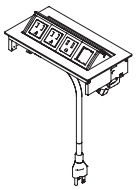

13 voice/data cables (.25" dia.) at 60% fill ratio

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

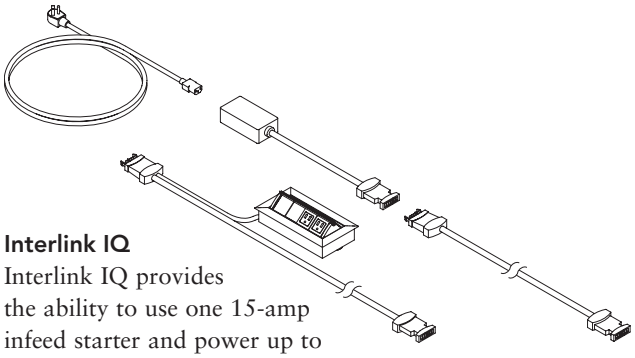

ELECTRICAL OPTIONS

Aware Tables offer three power options: Corded, Interlink IQ, or Hardwire. Installation and use of electrical systems, the number of receptacles used on a given circuit, and connections to the building power supply should be in compliance with all local and national electrical codes. Verify code requirements before ordering. Chicago requires hard wiring. Chicago and New York do not permit use of Interlink IQ components.

Corded

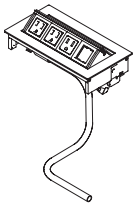

Corded models plug directly into an outlet. Corded modules cannot plug into other corded power modules. In order to plug into other units the unit would need to be hardwired. When routing corded models to a wall outlet, the maximum amount of cord that can be exposed outside of the furniture is 6 feet. (New York, check local code.)

Interlink IQ

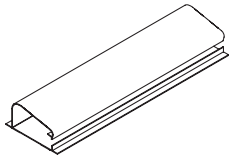

Interlink IQ provides the ability to use one 15-amp infeed starter and power up to 8 power modules (including jumpers) off of one infeed starter. Interlink IQ provides a visual indicator of system status. LED illuminates green when you are connected and ready to plug in. A red light indicates you have linked too many units. See page 331 for examples of multiple tables using Interlink IQ components.

Hardwire

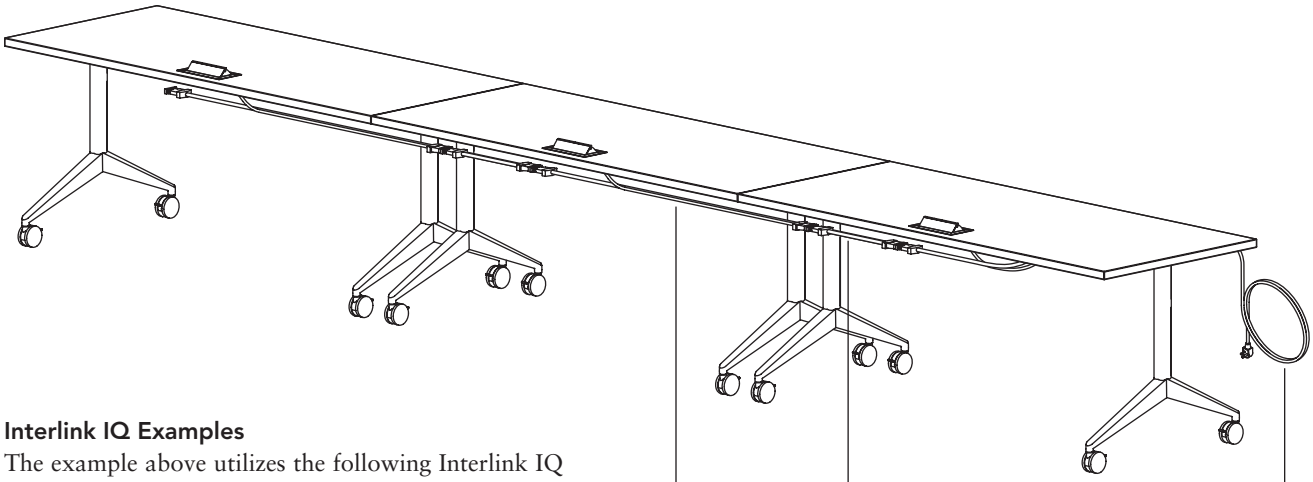

Hardwire models are provided with 10' of sealtight cable. Customer must furnish junction boxes, conduit, and additional wire to be in compliance with local and national electrical codes.

Wire Trough

Attach wire trough as needed to the underside of tables to support cords.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Interlink IQ Examples

The example above utilizes the following Interlink IQ components to power three 72"W Aware tables:

3 – Interlink IQ 60" Power Harnesses model number: AW4QH60P (provides two AC power receptacles per unit)

2 – Interlink IQ 36" Jumpers model number: AW4QJ36

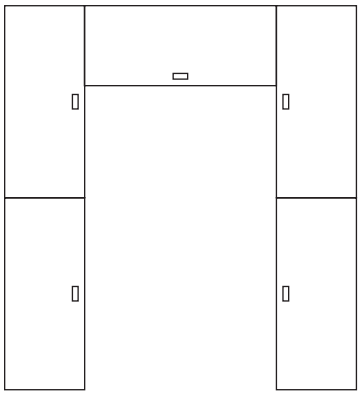

1 – Interlink IQ Starter model number: AW4QBI

The example below utilizes the following Interlink IQ components to power five 72"W Aware tables:

5 – Interlink IQ 60" Power Harnesses model number: AW4QH60P (provides two AC power receptacles per unit)

2 – Interlink IQ 36" Jumpers model number: AW4QJ36

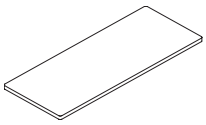

1 – Interlink IQ Starter model number: AW4QBI

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Aware® Folding Table Tops (For use with Folding Legs)

- Order folding legs separately — see options on page 335.
- Specify grommet location, type, and color — see page 331.
- Eased edge tops feature shaped edge on front side.
- Optional electrical components, wire trough, modesty panel, and ganging hardware ordered separately — see pages 352-354.

Aware® Leg Options for Trapezoid and Half-Round Table Tops

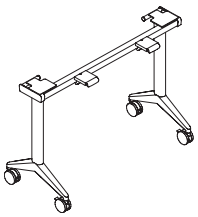

- Order Top separately — see options on page 348. "T" suffix top for T-legs and "V" suffix top for V-legs.
- Leg finish options include painted (color specified) or polished. Legs require some assembly.
- All casters are urethane tread locking casters. Choice of Black or Silver.
- Legs are sold in pairs. Nesting models include beam.
- Legs below with top from previous page creates seated height 29"H table. Glides provide ½" of adjustment.

Modesty Panels:

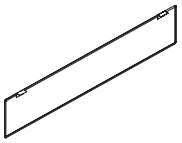

- 9¾"H x ⅛"D.
- Modesty panel must be removed from tables prior to folding.
- Tables may be nested with modesty panel attached to table. Nesting depth of additional tables does not increase.
- Modesty panel is undersized by 9⅜" from width of table top.
- Nesting V-leg models require one size smaller modesty panel than T-leg. Example: 42"W Nesting V-leg table requires AW4HM36. See below.

Universal Hook

Mounts to underside of worksurface and provides storage for bags, coats and purses. Hooks can be used as a horizontal wire manager under worksurface.

Ganging Bracket

- One-step tool-free operation.
- Tables have pre-drilled holes for proper installation and alignment of ganging mechanism.
- Includes two ganging links and two screws. Recommend one package of 2 brackets per table.
- Ganging brackets will not work with knife edge surfaces.

Wire Trough

- Accepts cords for routing
- Wire trough adheres and screws to underside of table surface

Wire Manager Covers

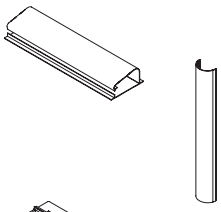

- Attaches to leg and conceals power, voice, and data cables.
- Will not work on large T folding legs.
- Cable capacity shown on page 331.

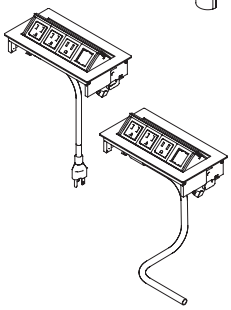

Power/Data Ports

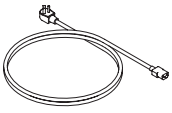

- Corded has 10' cord and plug.
- Hardwire has 10' cord.

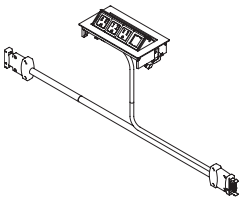

Interlink IQ Electrical Modules

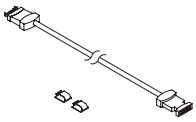

- Pluggable, single circuit electrical system
- UL recognized as a powered table system and meets the requirements of UL 962
- Interlink IQ modules require a minimum of one Interlink IQ starter.
- A maximum of 8 Interlink IQ power modules (including jumpers) can be "daisy chained" together in any combination off of one 15-amp infeed starter.
- System status indicator:
  - Red light indicates too many units connected
  - Green light indicates appropriate use
- All models include wire management clips and hardware
- Power harness includes 60" cord and 11" tail. Daisy chained tables in line over 60"W require 36" jumper between modules.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

- 2- and 3-Bay credenzas ship fully assembled.
- Available in solid and woodgrain laminate colors. You can select one laminate for the case and a second laminate for the front doors and back panels. Credenza top including front edge is the same color as the case.
- Painted mesh in Designer White, Flint, or Silver at top and bottom of the front and back sides of unit provides passive ventilation.
- Edge guards on mesh and wire manager protects cords and fingers.
- Grommet models feature square Silver metal grommet.
- Six leveling glides on 72"W, four glides on 48"W. Leveling range is 1".
- Credenzas are constructed from ¾" thick high-pressure laminated particleboard with 1 mm edge banding and European cam-and-pin construction.
- Units are shipped with either lock cores removed or as non-locking. Core removable lock option allows key numbers to be easily changed in the field. Cores available in the Systems, Casegoods, & Space Division price list on page 947. Note: Middle cabinet on 3-Bay units do not lock.
- Shelves are painted metal. Base shelves are secured, except center shelf in 72"W credenza.
- Interior bay dimensions are 22"W x 28⅛"H x 22⅜"D. Secured bottom shelves are 19"D to account for ventilation and wire management. Rated for 50 lbs.
- Removable back(s) snap on for easy component installation.
- Bottom wire management channel runs entire width of credenza.
- Optional top hung drawers (8½"H) use full extension slides; limit of one drawer per bay. Drawers cannot be used in same bay with AV rack, waste pullout, and will limit size of refrigerator.
- Slide out A/V storage rack features EIA spacing with twelve usable rack spaces.
- Units ship with one adjustable shelf per bay. Shelves are adjustable in 6" increments.
- Additional metal shelves are field-installed using supplied template, maximum of three per bay.

Aware® Mobile Marker Boards and Tack Boards

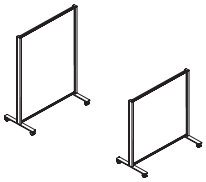

- Mobile marker boards are available in porcelain or laminated glass.
- Mobile tack boards are two-sided with platinum fabric and silver frames.
- Feet are 24"D x 3"H on 50"H and 30"D x 3"H on 72"H units. The low profile foot fits under most footed panels and storage.
- Foot design allows multiple boards to be nested.
- Mobile boards have two locking casters.
- Boards are shipped with feet unattached in same package.
- Porcelain boards are two-sided white, magnetic, and can be used for projection. Smooth, dry-erase porcelain surface for easy writing and clean erasing. Low odor markers are not recommended.
- Laminated glass boards are two-sided white, non-magnetic. For best results use bold marker colors. Low odor markers are not recommended.
- Marker and eraser holder comes with suction cups for attachment.
- Optional hooks are designed to hold large easel pads with slots.

- Wall-hung marker boards are available in porcelain or back painted glass.
- Porcelain boards are white, magnetic, and can be used for projection. Smooth, dry-erase porcelain surface for easy writing and clean erasing. Low odor markers are not recommended. Slim frame design, front of frame is 5/32". Frame is anodized aluminum with mitered corners and extends ¾" from the wall.
- Porcelain boards can hang either vertical or horizontal. Galvanized steel Z-brackets are included. Wall fasteners not included.
- Glass boards are white, back painted glass that are easy to clean and erase. Constructed with ¼" tempered safety glass with beveled corners, polished edges, and a steel back. Boards are magnetic. Frameless, floating mounted board extends ½" from wall. For best results use bold marker colors. Low odor markers are not recommended.
- Wall-hung boards are designed to easily attach to a solid wall without exposed hardware for an integrated appearance.
- Hanging instructions provided. See glass note below.
- Marker and eraser holder comes with suction cups for attachment.

Description	Model	Ship Weight	Cubes	List Price

Wall-Hung Marker Boards — Back Painted Glass				
48"H x 96"W	**AW4WB4896G**	250	9	**$ 8423**
48"H x 72"W	**AW4WB4872G**	190	6.9	**$ 6993**
48"H x 60"W	**AW4WB4860G**	157	5.8	**$ 6111**
48"H x 48"W	**AW4WB4848G**	126	4.7	**$ 5046**
36"H x 48"W	**AW4WB3648G**	95	3.4	**$ 4070**

Note: If multiple boards are being installed on the same wall, use caution when positioning glass panels next to each other. Due to the weakest point of tempered glass being along the edges, the edges should be protected as much as possible. To insure a successful installation, leave a gap of one quarter inch between boards to prevent damage to the glass. Allsteel will not be held responsible for damage caused by improper installation.

Setting the table for change.

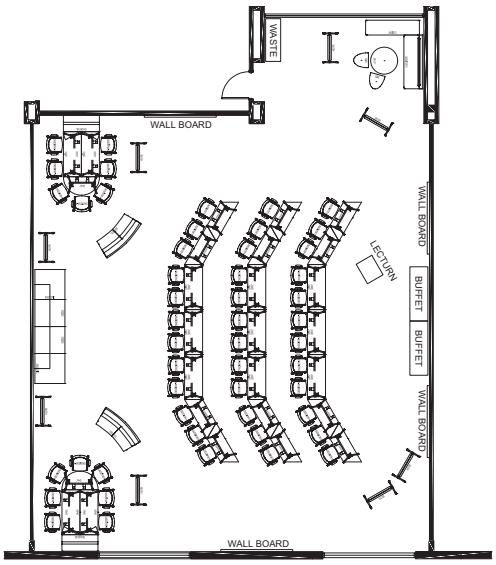

Today's corporate training room can take many forms, including lectures, brainstorms, and breakouts – sometimes requiring multiple transformations in a single day. Whether you're planning for an hour-long meeting or an aggressive all-day agenda with various room changes, the Aware collection can easily create the space you need right now and adapt to create the space you'll need in a few hours.

These colors are intended to be an inspirational option for the trending market. Product application is limited and color availability is approximately two years to coincide with evolving workplace trends.

Metallic paints, due to varying reflectance, may appear to have less visual color consistency than other paint finishes, even when L/A/B values are exactly the same. (L/A/B — measurable aspects of color — values are maintained within a specified range, to ensure consistent appearance of paint colors.)

Horizontal surfaces to be full-fill, ClearTech finish.

The beauty of wood is the natural variation of grain patterns and colors that make each piece unique. This variation is also influenced by lighting conditions, orientation of mated parts, and varying acceptance of the finishing process. The varying colors and physical characteristics naturally occur in all wood species but are most pronounced in lighter colored woods, and are especially evident in natural finishes.

NOTE: Refer to individual product pages for upcharges.

FSC Certified Wood at Allsteel

See page 328 for more information.

Harvest Classic Table
120"W x 48"D Full Top with 29"H Non-Powered Base

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Harvest brings all the collaborative potential of a multi-purpose table to the corporate environment. It's welcoming. Useful. It invites conversation and interaction whenever people meet up. So it's easy to Harvest the best ideas.

MODELS AND OPTIONS

Select the seated table height models for meeting and conference rooms or touchdown areas. Or specify a standing-height version for project spaces or cafés. Harvest Classic includes an optional split top that facilitates cord management and power/data hubs that allow for easy access to technology. The sliding doors in the technology trough not only provide easy access to cords from below, but are painted to add an accent color to the space. A solid top can be specified when technology access isn't as critical. Harvest tables are available in laminate or veneer.

APPLICATIONS

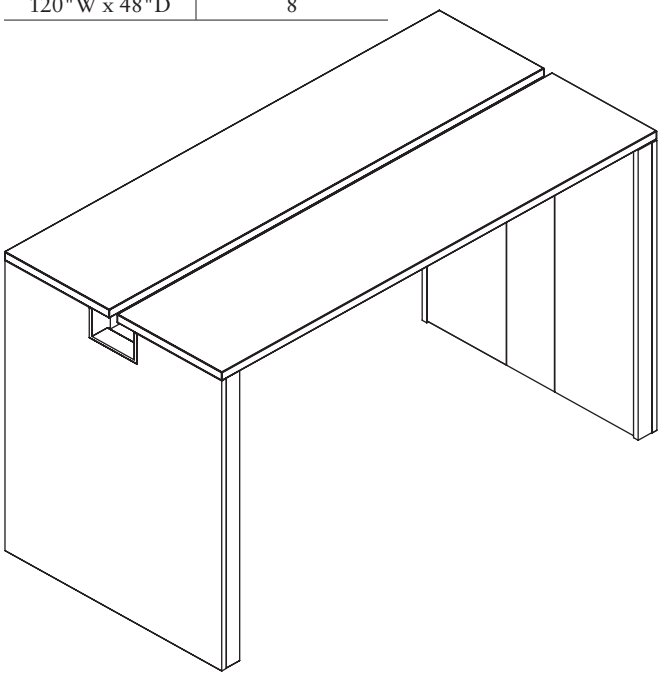

Place Harvest tables in cafés, atrium spaces, libraries, open-plan areas, and conference rooms.

KEY FEATURES

Harvest Classic tables are offered in a variety of sizes with power and data capability. Inspired by gathering spaces where people like to talk and share, like the dining room table or coffee area in the office, it invites conversation and interaction whenever people meet up.

TABLE CAPACITIES

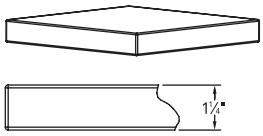

Table Top	Seating Capacity
72"W x 36"D	4
72"W x 42"D	4
72"W x 48"D	4
96"W x 36"D	6
96"W x 42"D	6
96"W x 48"D	6
120"W x 36"D	8
120"W x 42"D	8
120"W x 48"D	8

72"W x 36"D Split Top with 42"H Powered End Panel Base

MATERIALS AND FINISHES

Laminate Edge

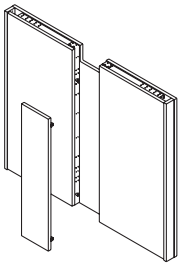

Flat Edge

CLEARANCE DIMENSIONS

Between Bases

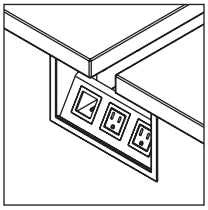

End panel bases are 3"D making clearance between bases 6" less than the width of top:

- 72"W top has 66" clearance
- 96"W top has 90" clearance
- 120"W top has 114" clearance

End Panel Bases

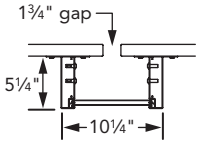

All end panel bases have a hidden center channel 7"W x 1½" D for routing cables from floor to trough. The end panel access door can be mounted flush to bottom for a clean aesthetic or rotated to provide a one-half inch offset to allow for additional cord and cable clearance.

Powered end panel models feature cutouts for mounting a power/data hub and align with end panel center channel and the technology trough of top. Full tops (without split) can be used with powered end panels. Cutout is finished with a PR6 Silver bezel.

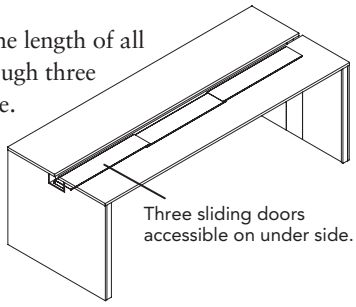

Split Tops

Split tops provide a 1¾" gap for routing cords and power adapters. Inside technology trough dimensions are 7"W x 3¾"D.

Wire Trough and Beam

A recessed wire trough runs the length of all table tops. It is accessible through three sliding doors on the under side. Sliding doors can be easily removed for cleaning.

Center trough with beam is 10¼" wide and extends 5¼" below top. Clearance under top and under trough:

29"H End Panels provide 28¼"H / 23"H
42"H End Panels provide 40¾"H / 35½"H

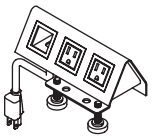

Distance from front edge of surface to trough:

36"D Top is 12⅞"D
42"D Top is 15⅞"D
48"D Top is 18⅞"D

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

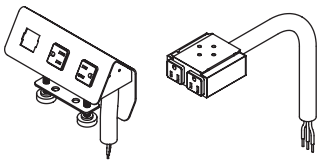

ELECTRICAL OPTIONS

Harvest Classic Tables offer three power options: Corded, Interlink IQ, or Hardwire. Installation and use of electrical systems, the number of receptacles used on a given circuit and connections to the building power supply should be in compliance with all local and national electrical codes. See matrix on page 365 for suggested cord length requirements. Verify code requirements before ordering. Chicago requires hard wiring. Chicago and New York do not permit use of Interlink IQ components.

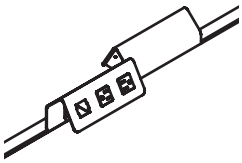

Corded

Corded models plug directly into an outlet and can be mounted back-to-back. Corded modules cannot plug into other corded power modules. In order to plug into other units the unit would need to be hardwired. When routing corded models to a wall outlet, the maximum amount of cord that can be exposed outside of the furniture is 6 feet. (New York, check local code.)

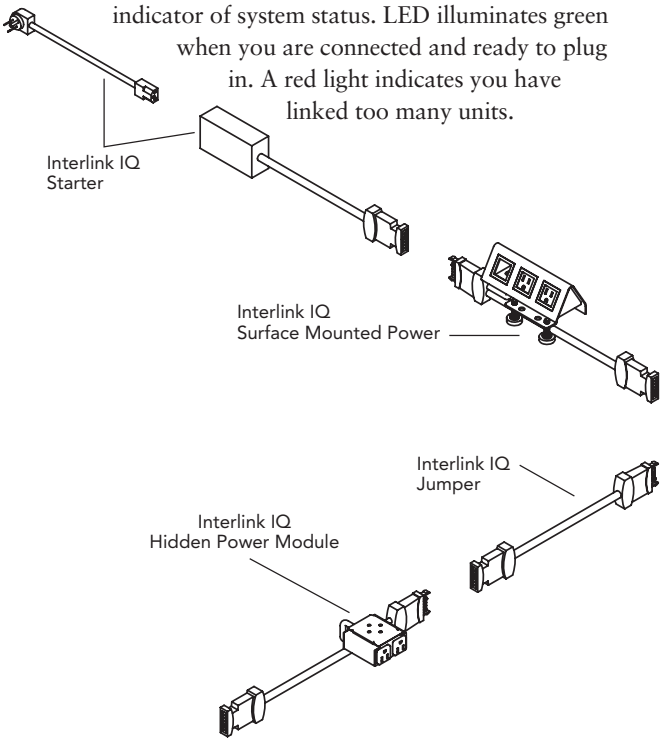

Hardwire

Hardwire models are provided with 20' of sealtight cable. Customer must furnish junction boxes, conduit, and additional wire to be in compliance with local and national electrical codes. Hardwire surface mounted modules cannot mount back-to-back and require units to be mounted side-by-side (see below).

Interlink IQ

Interlink IQ provides the ability to use one 12-amp infeed starter and power up to 8 power modules (including jumpers) off of one infeed starter. Interlink IQ provides a visual indicator of system status. LED illuminates green when you are connected and ready to plug in. A red light indicates you have linked too many units.

Interlink IQ Examples:

Example #1 – 120" Harvest Classic table with full top, power needed in end panels

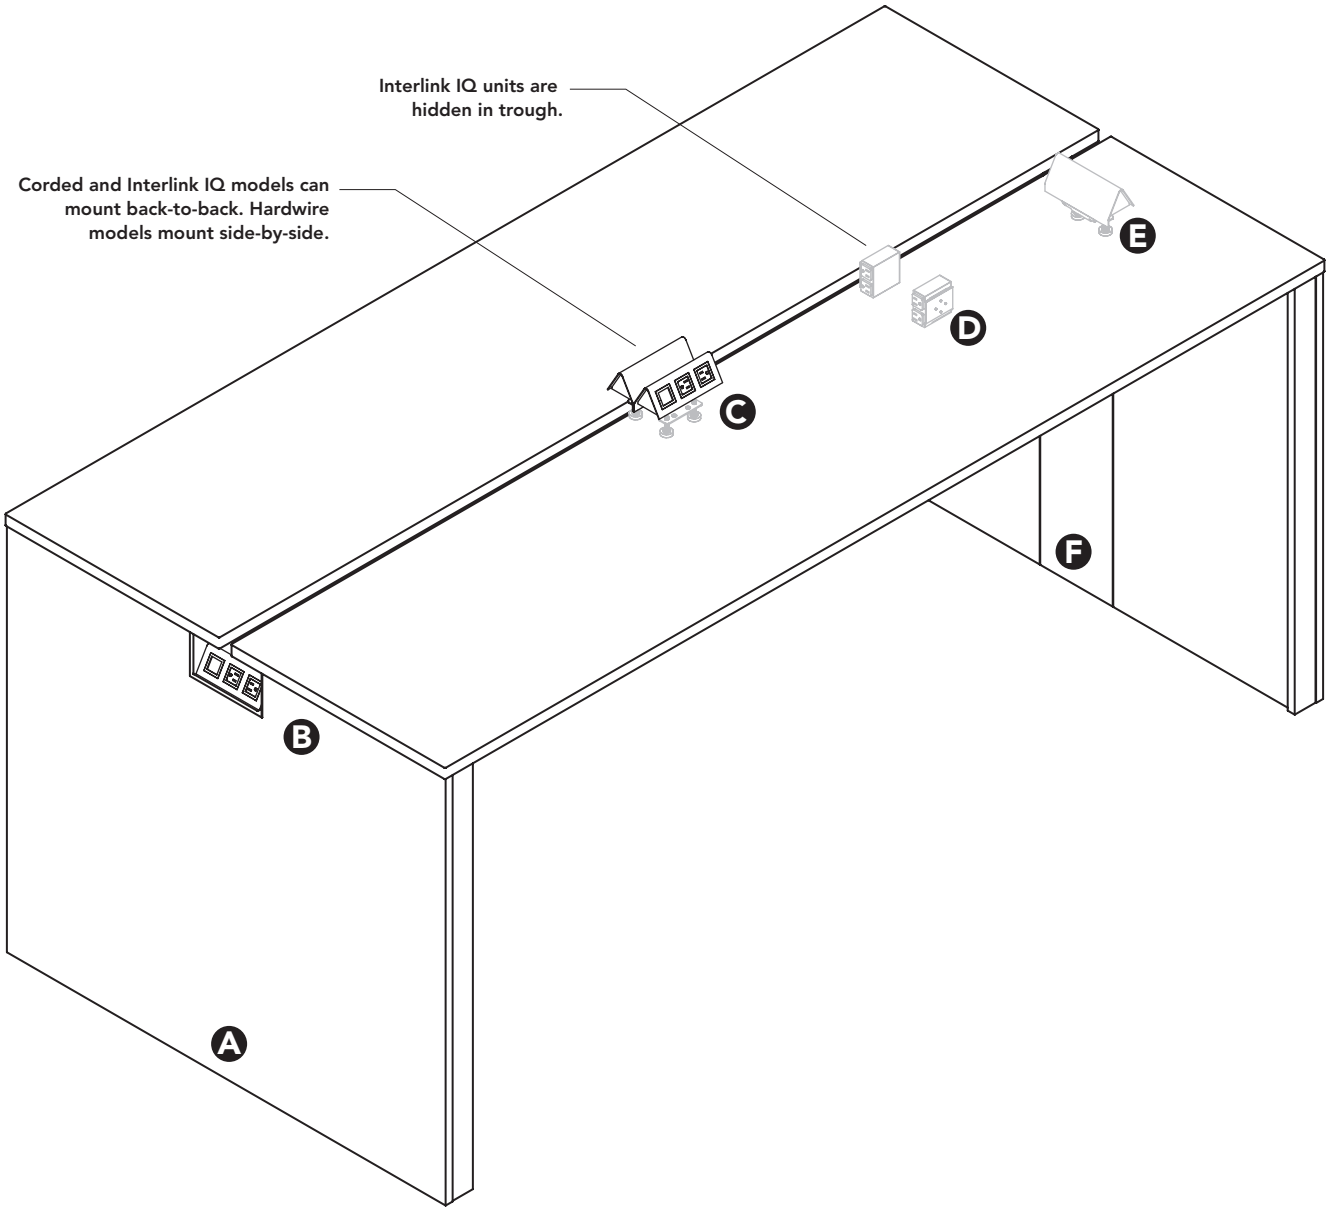

- (1) **S913P06LS** – 6' Interlink IQ starter
- (2) **S913PLE** – Interlink IQ end panel power module
- (1) **S913P05LJ** – Interlink IQ Jumper

Example #2 – Two 120" Harvest Classic tables with split tops, power needed in end panels and throughout table

- (1) **S913P06LS** – 6' Interlink IQ starter
- (2) **S913PLE** – Interlink IQ end panel power module
- (4) **S913PLM** – Interlink IQ surface mounted power module
- (2) **S913HPLE** – Interlink IQ Hidden power module

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Harvest Classic Electrical Routing

Harvest Electrical Cable Length Routing Matrix *Add length from "A" or "F" to power source to dimension below.*

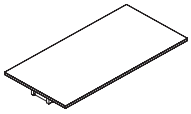

Table Width:	Any	72" Wide Top				96" Wide Top				120" Wide Top			
Routing Paths: *(Reference illustration above)*	A to B F to E	A to C F to C	A to D	A to E F to B	F to D	A to C F to C	A to D	A to E F to B	F to D	A to C F to C	A to D	A to E F to B	F to D
Table Height:	29½"H	66"	84"	102"	48"	78"	102"	126"	54"	90"	120"	150"	60"
	42"H	78"	96"	114"	60"	90"	114"	138"	66"	102"	132"	162"	72"

General Rules

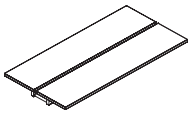

- Corded power modules cannot plug into other corded power modules. Corded modules can plug into hardwired modules.
- Corded power running to a wall outlet is limited to 6' of cord exposed outside of the furniture. (New York, check local code)
- An Interlink IQ Starter is required for Interlink IQ components and can support a maximum of 8 power modules (including jumpers) in any combination.
- Chicago requires hardwire. Interlink IQ can not be used in Chicago or New York.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

- All models below include rectangle top and beams with bottom access sliding doors to create a technology trough. Order the same depth end panel bases separately on page 367.
- Laminate tops have a flat edge that is color coordinated.
- Beams with sliding doors are painted metal and available in P1, P2, or P3 paint colors.

- Models below include two end panel bases and connecting hardware. Order matching depth tops that include beams and doors separately on page 366.
- Laminate end panel bases have a flat edge that is color coordinated.
- All end panel bases have a 7"W x 1½" D hidden center channel for routing cables from floor to trough.
- Powered end panel bases are power and data ready. Order electrical and data modules and cables separately. See page 368.
- Powered end panel base has cut-out for mounting end panel power/data module and space in the trough for routing cables.
- Non-Powered end panel bases do not have cut-outs.

- Harvest Classic tables offer three power options: Corded, Interlink IQ, or Hardwire.
- Corded models plug directly into an outlet. Corded modules cannot plug into other corded power modules.
- When routing corded models to a wall outlet, the maximum amount of cord that can be exposed outside of the furniture is 6'. (New York, check local code)
- In order to plug corded models into other units the unit would need to be hardwired.
- Interlink IQ modules require a minimum of one Interlink IQ Starter.
- A maximum of 8 Interlink IQ Power Modules (including jumpers) can be "daisy chained" together in any combination off of one 12-amp infeed starter.
- Interlink IQ provides a visual indicator of system status. LED illuminates green when you're connected and ready to plug in.
- Hardwire models are provided with 20' of sealtight cable.
- In hardwire applications customer must furnish junction boxes, conduit, and additional wire to be in compliance with local and national electrical codes.

The Harvest Rustic table is designed to help you feel at ease hosting gatherings of all kinds. Seated- and standing-height tables are perfect for everything from the brainstorm to the weekly donut club. All the necessities of the office mixed with an appealing, familiar aesthetic. Bring your team together around the Harvest Rustic table.

MODELS AND OPTIONS

Harvest Rustic offers three wood finish options for the legs to mix and match a wide selection of laminate top finishes or select a rustic plank top in matching finish. Perfect for cafés, atriums, open-plan areas, and collaboration spaces.

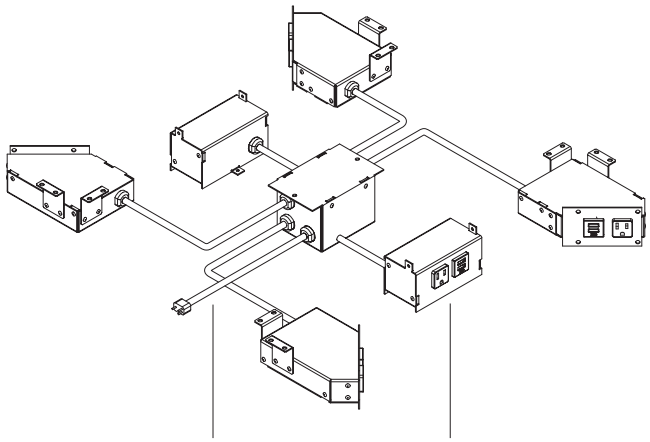

Choose between seated- and standing-height tables, square and rectangular shapes. Standing-height tables have a footrest for added comfort.

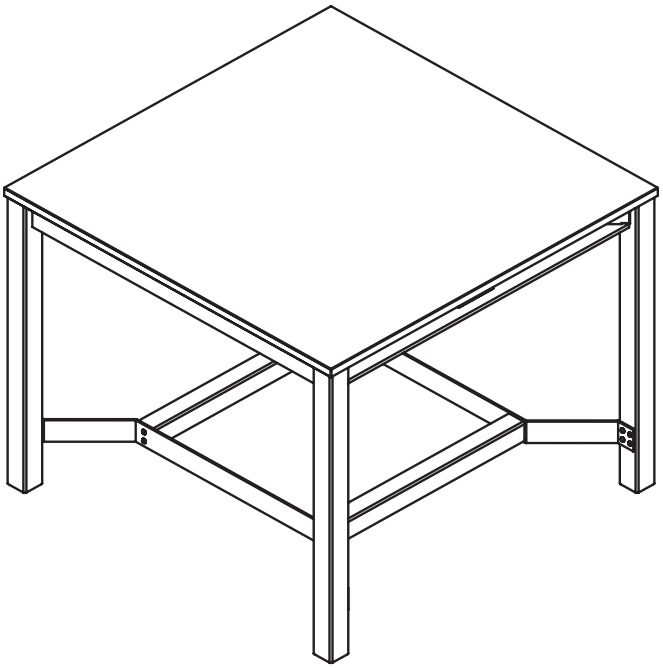

Harvest Rustic powered tables include built-in power and USB capabilities to power equipment.

POWERED TABLES

Each table includes six simplex electrical outlets and six double USB ports (illustrated below) that are recessed at 6 locations within the 12"D x 3"H cubbies located just below table top on the two longest sides. Cubby area provides ample room for power supplies, excess cord, phone, and other paper, binders, or supplies — keeping the table top clear for the work at hand.

NON-POWERED TABLES

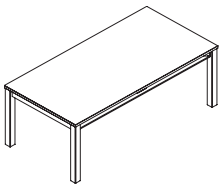

Non-powered models feature a wooden apron on all four sides of the table (no cubbies). Without cubbies, non-powered tables cannot be easily converted to powered tables.

The beauty of wood is the natural variation of grain patterns and colors that make each piece unique. This variation is also influenced by lighting conditions, orientation of mated parts, and varying acceptance of the finishing process. The varying colors and physical characteristics naturally occur in all wood species but are most pronounced in lighter colored woods, and are especially evident in natural finishes.

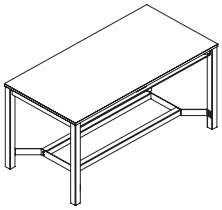

Note: *Harvest Rustic Plank worksurfaces will have natural markings and imperfections. Please contact Customer Support for additional information.*

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

- Table comes complete with laminate or plank top with flat edges, solid wood legs — 29"H seated or 42"H standing height, painted metal support structure, and electrical — assembly required.
- Each powered table includes 6 simplex electrical outlets and 6 double USB ports recessed within the 12"D x 3"H cubbies located just below table top on the two longest sides. See page 369.
- See page 371 for non-powered tables.
- Cubby shelf color is not specified and comes in Flint.
- Electrical is corded with plug; for hardwired add "HW" suffix and $200 upcharge. Cord to power is 10' long from center of table top.
- Rustic powered tables come with wire clips and painted metal wire management cover for routing cable down table leg. Cover attaches with double faced tape.

HARVEST

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

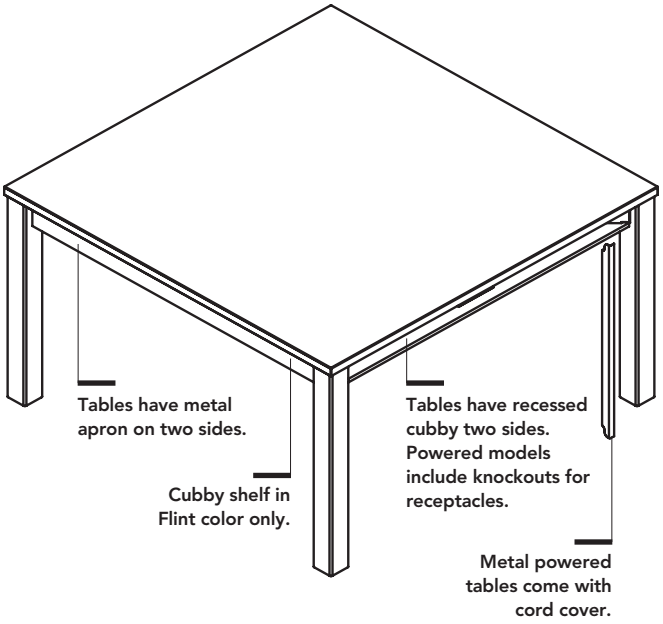

The Harvest Metal table is designed to help you feel at ease hosting gatherings of all kinds. Seated- and standing-height tables are perfect for everything from the brainstorm to the weekly robotics club. All the necessities of the office mixed with an appealing, familiar aesthetic. Bring your team together around the Harvest Metal table.

MODELS AND OPTIONS

Harvest Metal offers numerous painted options for the metal legs to mix and match a wide selection of laminate and veneer top finishes. Perfect for cafés, atriums, open-plan areas, and collaboration spaces.

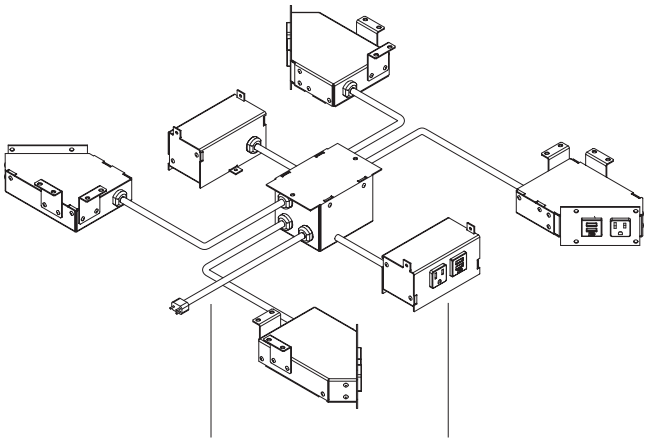

Choose between seated- and standing-height tables, square and rectangular shapes. Standing-height table has a footrest for added comfort.

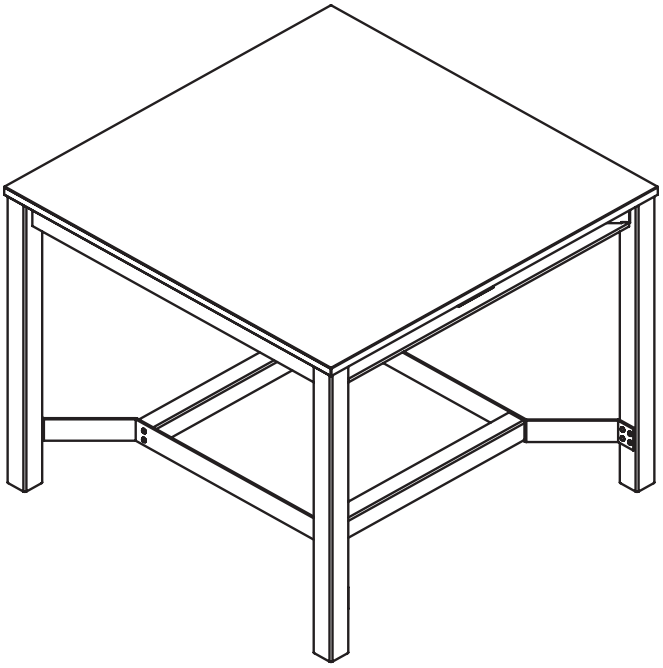

Harvest Metal powered tables include built-in power and USB capabilities to power equipment.

POWERED TABLES

Each table includes six simplex electrical outlets and six double USB ports (illustrated below) that are recessed at 6 locations within the 12"D x 3"H cubbies located just below table top on the two longest sides. Cubby area provides ample room for power supplies, excess cord, phone, and other paper, binders, or supplies — keeping the table top clear for the work at hand.

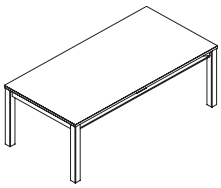

NON-POWERED TABLES

Non-powered metal models feature cubbies, but without any knock-outs for receptacles. Non-powered tables cannot be easily converted to powered tables.

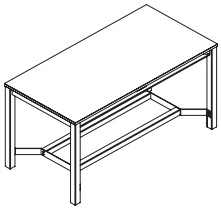

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Harvest™

- Table comes complete with laminate or veneer top, painted metal legs — 29"H seated or 42"H standing height, support structure, and electrical — assembly required.
- Each powered table includes 6 simplex electrical outlets and 6 double USB ports recessed within the 12"D x 3"H cubbies located just below table top on the two longest sides. See page 372.
- See page 374 for non-powered tables.
- Cubby shelf color is not specified and comes in Flint.
- Electrical is corded with plug; for hardwired add "HW" suffix and $200 upcharge. Cord to power is 10' long from center of table top.
- Tables come with painted metal wire management cover for routing cable down table leg. Cover attaches with double faced tape.

Notes

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Structure rounds out the Allsteel table offering and supports a wide array of applications, from conference rooms to café settings and everything in between.

The tables are adaptable and interchangeable for use in multiple spaces. The combination of rich details and durable design creates an experience out of any activity at the office while elevating culture and brand. A variety of tabletop shapes, edges, bases, and finishes ensures a consistent aesthetic throughout the entire floorplan.

MODELS AND OPTIONS

Structure is available in five heights and 14 top shapes.

APPLICATION

Use in open meeting areas, dedicated collaboration rooms, neighborhood spaces, cafés, large and smaller conference rooms, libraries, and lounge areas.

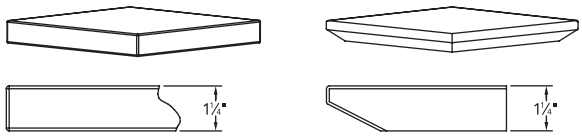

KEY FEATURES

Range of shapes, sizes, and configurations to meet the needs of any space available in an array of materials.

MATERIALS AND EDGE TREATMENTS

Woodgrain laminates will be aligned within ⅜" across seams unless otherwise noted in the price guide pages.

Laminate Edges

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

GRAIN DIRECTION AND ALIGNMENT

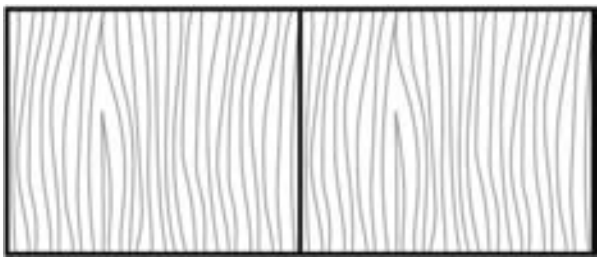

SINGLE-PIECE TOPS – Woodgrain laminates as standard product are always oriented with the grain direction running parallel to the length of the tabletop.

TWO- & THREE-PIECE TOPS – Tops longer than 96". Woodgrain laminates as standard product are always oriented with the grain direction running parallel to the length of the tabletop. Please note that two-piece tops, in woodgrain colors, will not have exact grain alignment in the center where the two halves meet, a reasonable match can be expected. Allsteel cannot guarantee a grain match on tables that are 60"W.

SPECIAL TOPS – Specials for wide tables. Woodgrain laminates as specials wider than 60" are always oriented with the grain direction running parallel to the seam of the tabletop. Allsteel will create best match grain alignment but cannot guarantee a perfect match along the seam between the pieces of laminate on two- and three-piece tops.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

RECOMMENDED COORDINATE COLORS

For Plastic Grommets on Laminate specify the same color used for the edge color; or the following plastic grommet color based on edge selected:

Natural Maple, Fawn Cypress, Natural Recon ..... Muslin EU
Phantom Charcoal ..... Flint E9
Phantom Ecru ..... Loft EV
Portico Teak ..... Fossil EH
Shaker Cherry ..... Black E4
Skyline Walnut ..... Flint E9

For Plastic Grommets on Fluid Form specify either same color as painted legs/base; or the following plastic grommet color based on Fluid Form selected:

Auburn Cherry ..... Black E4
Natural Maple ..... Muslin EU

For Plastic Grommets on Veneer the color is predetermined based on finish selection.

All Maple veneers ..... Muslin EU
All Cherry, Walnut and Dark Rift Cut Oak veneers ..... Black E4

Forest Stewardship Council (FSC) is a non-profit organization devoted to encouraging the responsible management of the world's forests. FSC sets high standards that ensure forestry is practiced in an environmentally responsible, socially beneficial, and economically viable way. Allsteel received its FSC Chain of Custody certification in 2010 and can offer FSC Certified products. Select wood-based products can be ordered as FSC certified, either by choosing the FSC option or selecting an FSC laminate or veneer finish at the time of order. For more information, please contact Customer Support at 888-255-7833. (FSC Trademark license code: FSC-CO14704.)

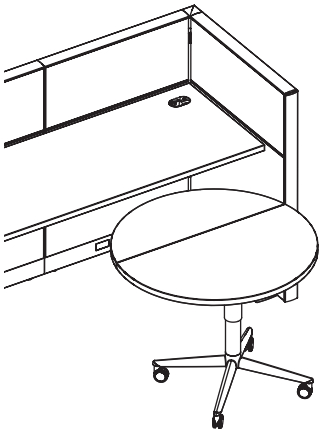

All of Allsteel's tables are level® 2 certified to the ANSI/BIFMA e3 Furniture Sustainability Standard. See www.levelcertified.org for more information.

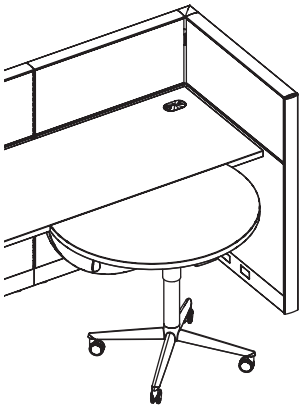

NOTE: Refer to individual product pages for upcharges.

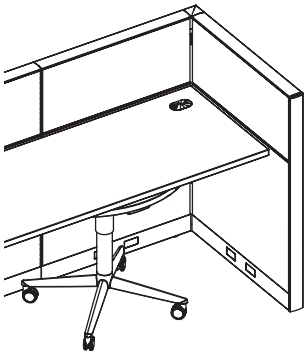

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Structure Adaptive Tables convert any space into a meeting space.

Adaptive Tables feature a self-centering drop leaf and height-adjustable tabletop to provide a solution that quickly lifts, lowers, and docks to adapt to spontaneous changes in work and space requirements.

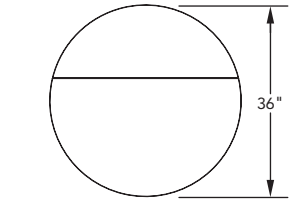

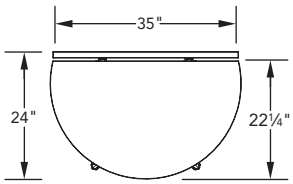

Add Workspace to Existing Worksurfaces

Adaptive Tables feature a self-centering drop leaf and height-adjustable tabletop allowing the tables to effortlessly dock next to existing worksurfaces. Simply drop the leaf, adjust the height, and dock. The drop leaf is designed to tuck under the worksurface while docking to provide a seamless transition from worksurface to table.

Adaptive tabletops are 36"W with the drop leaf up and 22¼"W with the drop leaf down. The bases are 28" in diameter.

Round
w/Drop Leaf Up

Round
w/Drop Leaf Down

Store Tables Beneath Existing Worksurfaces

Adaptive Tables tuck beneath existing worksurfaces by adjusting the height. Adaptive Tables feature a gas cylinder to provide quiet, smooth movement. Simply pull the height-adjustment lever and push down on the center of the tabletop to lower the height of the table.

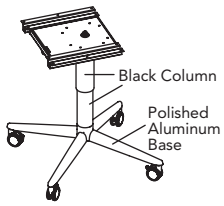

To raise the height of the table, simply pull the height-adjusting lever beneath the edge of the tabletop and the table will automatically rise. Release the height-adjustment lever to set the table height. Adaptive Tables adjust from 26"H to 33"H.

Convert Table Position from Docked to Freestanding

Adaptive tables quickly convert from a docked position to freestanding by simply pulling the drop leaf up. The self-centering mechanism ensures that the base remains in the center of the tabletop whether the drop leaf is up or down.

Combine Table Surfaces and Base Finishes

The wide variety of material options and base finishes allow Adaptive Tables to integrate seamlessly into any space. Tabletops are available in laminate, with Flat Edge or Knife Edge treatments. Cast aluminum table bases are available with painted or polished aluminum finishes. Polished Aluminum models feature black vertical columns.

Structure tables exceed BIFMA Standards and are backed by the Allsteel lifetime warranty. Die-cast and extruded aluminum components are lightweight, yet highly durable. The self-centering drop leaf has a maximum load capacity of 125 pounds.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

IN-SURFACE POWER

Corded

Corded models plug directly into an outlet and cannot plug into other corded power modules. In order to plug into other units the units need to be hard-wired. When routing corded models to a wall outlet, the maximum amount of cord that can be exposed outside of the furniture is 6 feet.

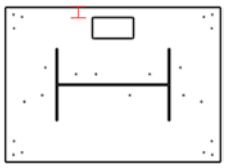

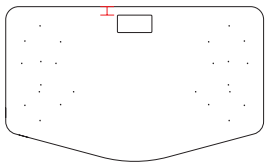

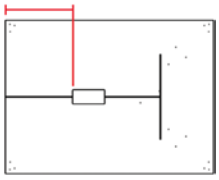

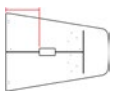

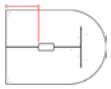

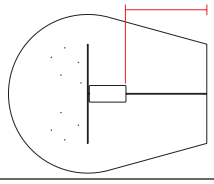

Hardwire

Hardwire models are provided with 10 feet of sealtight cable. Customers must furnish junction boxes, conduit, and additional wire to be in compliance with local and national codes.

Qi charging is available on Corded and Hardwire versions.

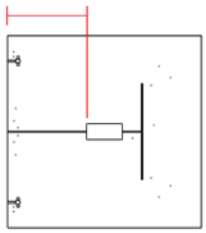

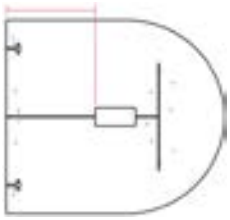

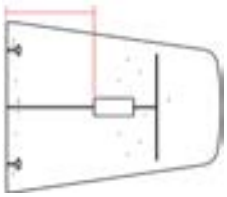

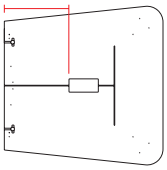

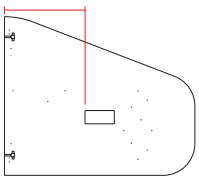

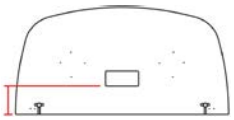

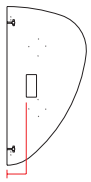

- Includes 3 Qi charging coils (5 watts each) for wireless charging.
- Units have LED indicator lights below the lid's surface.
- Units house power and charging USB inside. All units are Qi certified.
- Cut-outs are centered on single-piece tops.
- Cut-outs are available for round, square, and soft square tops 54" or greater.
- Cut-outs are aligned with the shape of the table.

.C0 - No Cut Out
.ATE - Small Edge Cut Out, 4" x 8"
.C1 - 1 Large Center Cut Out, 5" x 11"
.C2 - 2 Large Center Cut Outs, 5" x 11"
.C3 - 3 Large Center Cut Outs, 5" x 11"
.G1 - 1 Small Center Cutout, 4" x 8"

STRUCTURE

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

- Order Base Separately.
- Order power units separately.
- Tops ship with pilot holes for locating supports.
- Reference page 382 for cutout locations.
- Middle seams on multi-piece tops are not edgebanded.
- External stiffeners are included with top models when required.
- Available in laminate (flat or knife edges).
- For 72" to 84" tops, the woodgrain direction runs parallel with the seam and will have greater alignment variations.

STRUCTURE

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

- Order Base Separately.
- Order power units separately.
- Tops ship with pilot holes for locating supports.
- Reference page 382 for cutout locations.
- Middle seams on multi-piece tops are not edgebanded.
- External stiffeners are included with top models when required.
- Available in laminate (flat or knife edges).
- For 72" to 84" tops, the woodgrain direction runs parallel with the seam and will have greater alignment variations.

Structure

Structure T-Leg / Post-Leg / Community Bases

- T-leg table bases are available in painted or polished aluminum.
- T-leg available with glides or casters.
- T-leg casters are locking with urethane tread.
- T-leg glides provide ½" adjustment.
- T-leg bases require some assembly.
- AMPTGST support gussets are needed when ordering 60"W or greater tops with T-Legs.
- Height-adjustable post-legs adjust from 26½"H to 32½".
- Post-leg models contain four legs and ship two per carton.
- Post-legs require some assembly.
- Post-leg glides provide 1¼" adjustment.
- Community table legs come in kits of 2, 4, 6, or 8.
- Community legs provide a recessed channel with cover to route cords from floor to undersurface.
- Community leg glides provide 3" adjustment.

- Tables feature a self-centering drop leaf and height-adjustable tabletop. See page 381.
- Tabletops are 36"W with drop leaf up and 22¼"W with drop leaf down.
- Tables adjust from 26"H to 33"H.
- Tables feature urethane tread locking casters.
- Round tables have a 35" interface when the drop leaf is down.
- Tables will allow slight rotational movement of the worksurface relative to the base because of the functionality of the height-adjustable cylinder.

STRUCTURE

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

- Table Media Mount is used to mount a television to a tabletop when not against a wall. Mounting hardware is provided for television sizes 32 to 50 with VESA Mounts of 100x100 to 200x200; for some televisions, additional hardware is required.
- The Wire Management Covers snap on to legs. See wire capacity on page 384.
- Wire basket models include basket and two vertical hanging supports made of .148" dia. steel wire.
- Verticals must be placed 18" or more apart from one another and must be within 15" from each end of the basket. Can hold a maximum load of 25 lbs.
- Table media mount, AMPTTMM, can only be used with the Structure Media Round/ Square Pedestal Base Kit found on page 425.

FSC Certified Wood at Allsteel

See page 328 for more information.

Tables — Occasional

The spun aluminum Belong occasional tables offer needed horizontal surfaces for small group meeting areas while providing a pleasing aesthetic.

MODELS AND OPTIONS

The sculptural curved shape and lightweight design are available in two sizes — Coffee (16"H x 32" diameter) or Side (21"H x 16 diameter). The Belong tops are available in laminate, veneer, or glass with painted pan.

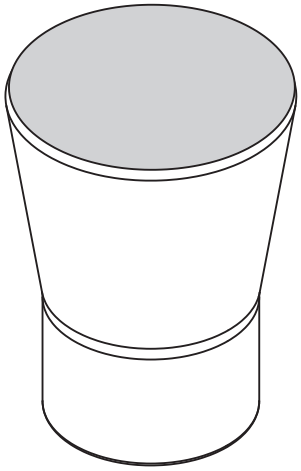

APPLICATION

Place in lounge and reception areas, small conference and huddle rooms, media and library areas, and cafés.

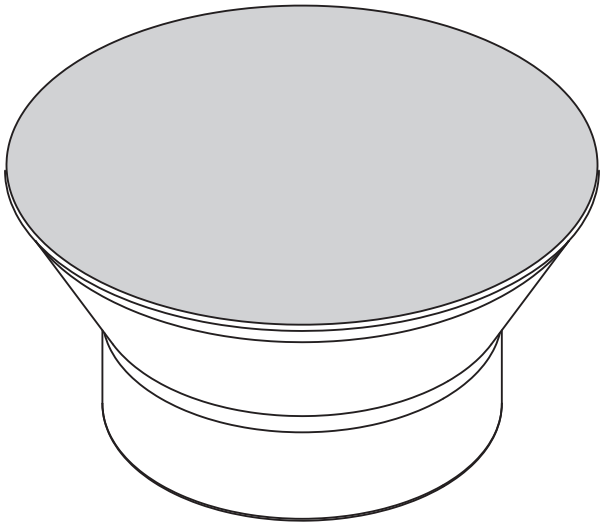

KEY FEATURES

Belong offers ample horizontal writing surface as a side table next to a chair or bench, or as a small coffee table surrounded by seating. Its organic hourglass shape provides legroom for users to sit up close when using laptops or tablets.

Belong Side Table

Belong Coffee Table

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Tables — Occasional

Belong Side Tables

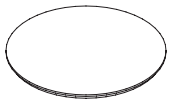

- Feature a 16" diameter top.
- Available in with four top finishes: laminate, glass, and veneer.
- Belong Side Table Base is 21"H.
- Specify top and base separately.

Belong Coffee Tables

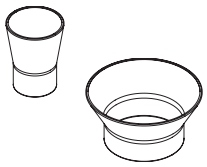

- Feature a 32" diameter top.
- Available in three top finishes: laminate, glass with painted pan, and veneer.
- Belong Coffee Table Base is 16"H.
- Specify top and base separately.

Extensions™

Extensions — Introduction

Extensions accessory line by Allsteel is designed to help you create your own space.

- **Create a personalized space**

  Each person works differently, different work styles require different tools. As our workplace needs shift from paper filing to personal storage, the tools that support us day-to-day need to adapt to the changing ways we are expected to work. Whether it's the need for paper filing, a place to plug a charger in, or a small shelf for trinkets, Extensions help you bear it all.

- **Create a comfortable space**

  Encourage wellness and peace of mind while you work with Extensions. Whether by clearing valuable desk space, routing cords out of the way, powering your technology, or illuminating tasks with a gentle glow, this full line of work tools help you stay calm and in control of your workspace.

- **Create an empowered space**

  Without all the right tools you need to succeed, having a productive workday can feel like an impossible task. With a full line of ergonomic, organization, illumination, power, and wire management tools, Extensions put the right tools within reach, allowing you to get your work done seamlessly and efficiently.

- **Organization tools**

  Embracing organization work tools can help add efficiency and excitement to your daily workflow. Durably made but thoughtfully designed to help you organize and store the tools you need throughout your day, Extensions organizational tools help you find that perfect place for anything.

- **Ergonomic tools**

  Ergonomics is more than just comfort, it's flexibility and safety. The adjustable keyboard options allow users to maintain and vary comfortable wrist and arm positions throughout the day, whether typing or mousing. Monitor Arms offer versatile adjustability while providing optimum comfort for the eyes, neck, and shoulders.

- **Illumination tools**

  Sleek and flexible, our lighting components offer you several choices. Recessed task lights conserve space and feature electronic ballast for longer bulb life and cooler operating temperature. LED tasklights' slim design blends in with its surrounding while utilizing energy-efficient LED technology.

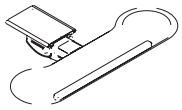

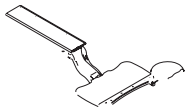

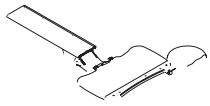

- **Power/Data tools**

  At the heart of every workspace is a power module that keeps you plugged-in and running throughout the day. These indispensable accessories provide wired or wireless connectivity anywhere and everywhere you could possibly need it, transforming your workplace into a hub of activity.

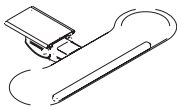

- **Wire Management tools**

  Eliminate the cord clutter under your desk with our extensive wire management offering. Allsteel wire management accessories effortlessly weave wires out of the way and clear your workspace with ease. Both free-standing and height adjustable, table-integrated solutions ensure that your space stays as clear as your workflow.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

AKTSHORT Keyboard Support (page 456)

- Lift and lock intuitive height adjustment.
- Compatible with Altitude Height Adjustable Tables
- Positive and negative tilt for best ergonomic positioning.
- +10°/-20° tile adjustment and 360° rotation provides support of neutral position of shoulders, arms and wrists while accommodating multiple working postures.
- Surpasses ANSI/BIFMA standards.
- Black powder coat finish.
- Patented secondary slide and unique arm design provide minimal footprint.

AKTMID and AKTLONG Keyboard Support (page 456)

- Lift and lock intuitive height adjustment.
- Positive and negative tilt for the best ergonomic positioning.
- +10°/-20° tilt adjustment and 360° rotation provides support of neutral position of shoulders, arms, and wrists while accommodating multiple working postures.
- Non-handed mouse tray can be moved from right hand to left hand side.
- Surpasses ANSI/BIFMA standards.
- Black powder-coat finish.

Keyboard Spacer Kit (page 456)

- Keyboard Spacer Kit required for mounting under Altitude worksurfaces.
- Kit provides ten spacers and hardware for mounting keyboard supports beneath an external worksurface support channel.
- Spacers are 2⅛"H providing more room beneath surface for mounting.

CPU Hammock (page 456)

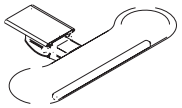

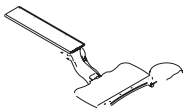

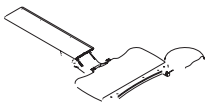

- Features 360-degree swivel with an 11" track.
- Load capacity is 75 lbs.
- CPU must be minimum of 3¼"W with maximum dimension of 64" in perimeter.
- Handy adjustment tool stores within unit.
- Safety feature prevents accidental release of straps and straps can be adjusted while CPU is installed.
- Can be used on Height Adjustable Tables as long as it is attached with spacer model AKMH. Take into account required leg room for users.

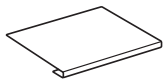

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

S *Shippable by small-package carrier.*

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

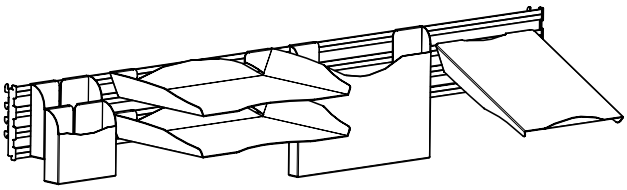

Allsteel's tool rail works in conjunction with a variety of accessories. Modular accessories free up worksurface space and provide orderly storage that is well within reach. Units can be arranged and rearranged to respond to changing workflow. The work tools that attach to the tool rail are:

- Mail Box
- Folder Holder
- Phone Caddy
- Binder Bin
- Tool Box
- Clip Caddy™
- Sidebar™ Personal Shelf
- Paper Wave™
- Cup Holder
- Hook
- Hanging File Holder
- Magnetic Picture Holder
- Small Bin
- Small Shelf
- Small Tray

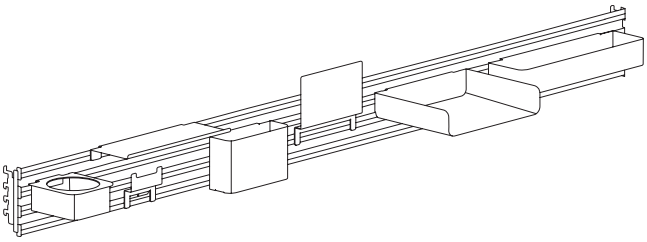

Additional accessories that work with the **tool rail work tools** aesthetically are:

- Bookends
- Freestanding Mail Box

Coat hooks, marker boards and center drawers round out the organization offering.

Tool rail, shown above, is height-adjustable in 1" increments using slots in panels or metal hutch. Tool rail shown with two tool boxes, two mail boxes, folder holder, and phone caddy. Folder holders and binder bins extend below a tool rail. Paper Wave and contents extend above a tool rail.

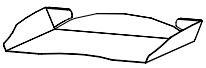

Tool rail, shown with cup holder, small shelf, hook, small bin, magnetic picture holder, small tray, and hanging file holder.

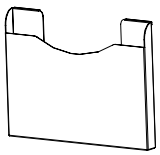

Tool Rails and Work Tools (page 465)
- Sturdy aluminum extrusion with steel support construction.
- Powder coated for durable finish.
- Use to hang Extensions tools. Cannot be used to support monitor arms.
- Suggested weight capacity not to exceed 80 lbs.
- Consideration needs to be given to height of tools and location of worksurfaces.
- For use with Terrace® and Optimize™ systems.
- 5" high rail (widths coordinate with panels).
- Attachment via vertical reveals.
- Can be hung from wall track. Good solution for above copiers.
- Systems tool rail is off-modular — can be used on a panel of equal width or one size smaller.
- May span two panels of appropriate size, i.e., 60"W Tool Rail on two 30"W panels.

NOTE: The Work Tools are NOT compatible with the Gallery Panel Accessory Rail; they are only compatible with the Tool Rail and the Stride & Terrace Tool Tiles.

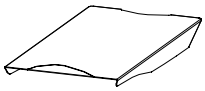

Tool Rail for Hutches (page 465)
- Will work on Universal, Terrace, and Optimize system hutches produced after July 2, 2000 and Align™ metal hutches.
- Sturdy aluminum extrusion with steel support construction.
- Powder coated for durable finish.
- Use to hang Extensions tools. Cannot be used to support monitor arms.
- Suggested weight capacity not to exceed 80 lbs.
- Consideration needs to be given to height of tools and location of worksurfaces.

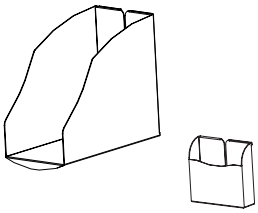

Mail Box (page 466)
- Holds standard letter-size paper and inter-office envelopes.
- Minimal horizontal intrusion.

Folder Holder (page 466)
- Holds manila envelopes.
- Is capable of hanging on other folder holders to maximize space.
- Stores vertically for easy access to files.

Phone Caddy (page 466)
- Holds telephone at optimum ergonomic angle.
- Wire management cut-outs.
- Accommodates standard phone sizes.

Binder Bin (page 466)
- Holds folders, binders, and manuals.

Tool Box (page 466)
- Holds pencils and other writing utensils, large post-it notes, and other desk top accessories.

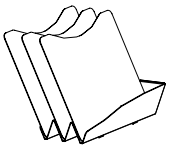

Clip Caddy™ (page 466)
- Holds paper clips and other small objects.

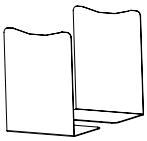

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

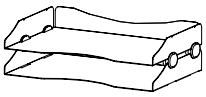

Sidebar™ Personal Shelf (page 466)
- Holds office supplies and personal effects.

Paper Wave™ (page 466)
- Provides 3 fully divided slots for organizing files.
- Keeps papers from "bowing" at bottom.

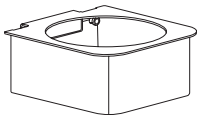

Bookends (page 466)
- Can be used on shelves or in cabinets.
- Used to hold books, binders, and catalogs upright.

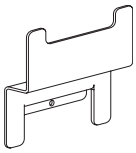

Freestanding Mail Box (page 466)
- Incorporates similar aesthetic to mounted Mail Box.
- Mounting brackets allow for free access from front and back.
- Sold in pairs of two; will stack up to eight high.
- Individual mail box dimension = 1¾"H.
- Stacking brackets are black.

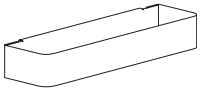

Coat Hook APMC6 (page 466)
- Hangs directly into slotted Terrace® or Optimize™ panel frame.
- Use for coat or bag.
- Package of six.
- Available in black only.

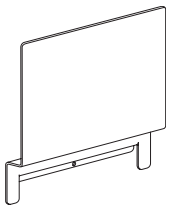

Cup Holder (page 467)
- Holds most cups and thermoses. Weight capacity is 5 lbs.

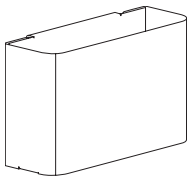

Hook (page 467)
- Hangs small personal effects such as headphones, keys, or hand wallets. Weight capacity is 10 lbs.

Hanging File Holder (page 467)
- Hangs files and folders from hanging file clips. Hanging file clips not included. Weight capacity is 5 lbs.

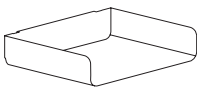

Magnetic Picture Holder (page 467)
- Allows for pictures to be hung via magnets. Magnets not included. Weight capacity is 5 lbs.

Small Bin (page 467)
- Houses office supplies or other personal effects such as pencils, pens, sticky notes, journals, etc. Weight capacity is 5 lbs.

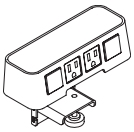

Small Shelf (page 467)
- Provides additional shelf storage in workstation and displays office supplies or personal effects. Weight capacity is 5 lbs.

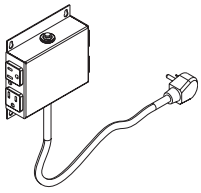

Small Tray (page 467)
- Holds office supplies and other personal effects. Weight capacity is 5 lbs.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

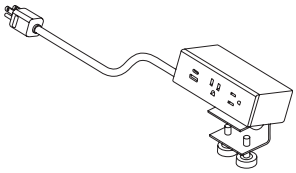

ACPWRMOD

Power/Data Module — Clamp On Worksurface (page 473)
- On-surface mounting option, fits on any worksurface with a 4" overhang.
- 10' straight power cord only. UL Listed.
- Includes adapters to allow use of commercially available data terminals or blanks to fill unused openings. Many of the AMP, AT&T, Krone, Leviton, and most commercial data terminals can be used.
- Available in Fog only.

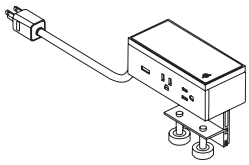

APWR4TAP

Power Module — Under Worksurface, Quad Tap (page 473)
- Under surface mounting can be used under any surface with a 5" x 5" x 1.5" clearance.
- 10' straight power cord only, no specification needed.
- 4 receptacles, unit is black finish only, no specification needed.

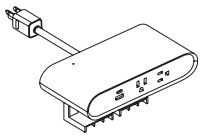

APWRMOD.AC.S

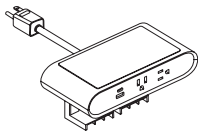

APWRMOD.QA.S

Power Modules — Clamp On Worksurface, Rectangular (page 473)
- Worksurface clamp can be used on any surface with a 2½" overhang.
- Must be installed at time of initial worksurface installation if installing between a worksurface and panel.
- 10' straight power cord only. UL Listed.
- The USB hub allows simultaneous powering of 2 receptacles, 1 USB-A device, and 1 USB-C device. The USB hub is a charger only, no ability to connect to a PC. The charging capacity is limited and may not charge all devices.
- Four wire management "P-Clips" included with mounting hardware.
- Specify "QA" for Qi compatible wireless charging on AWPRMOD. USB-C port no longer included when wireless charging specified.
- Available in Snow and Storm finishes.

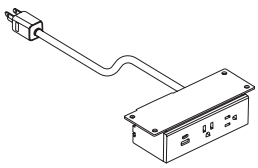

ARNDPWRMOD.QA.S

ARNDPWRMOD.AC.S

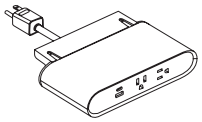

Power Modules — Clamp On Worksurface, Round (page 473)
- Worksurface clamp can be used on any surface with a 2½" overhang.
- Must be installed at time of initial worksurface installation if installing between a worksurface and panel.
- 9' straight power cord only. UL Listed.
- The USB hub allows simultaneous powering of 1 USB-A device and 1 USB-C device. The USB hub is a charger only, no ability to connect to a PC. The charging capacity is limited and may not charge all devices.
- Specify "QA" for Qi compatible wireless charging on ARNDPWRMOD.
- Available in Snow and Storm finishes.

AUPWRMOD.AC.S

Power Module — Under Worksurface, Rectangular (page 473)
- Under surface mounting can be used on any surface with a 5" clearance.
- Power cord choices include 10' Straight, 5' Interlink, 10' Hardwire, and 10' Chevron Fog & Storm Braided cords. All are UL listed.
- Four wire management "P-Clips" included with mounting hardware.
- Available in Snow, Storm, and Black finishes.

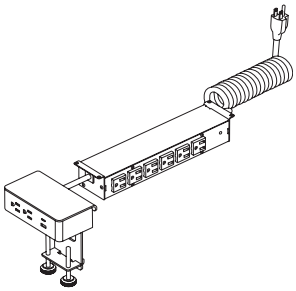

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

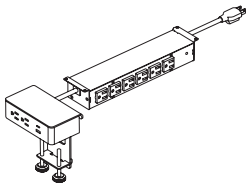

AURNDPWRMOD.AC.S

Power Module — Under Worksurface, Round (page 473)

- Under surface mounting can be used on any surface with a 5" clearance.
- 9' straight power cord only. UL Listed.
- Available in Snow, Storm, and Black finishes.

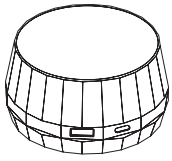

AABPWRMOD.AC.Q

AABPWRMOD.AC.S

Power Module — Above/Below Worksurface (page 473)

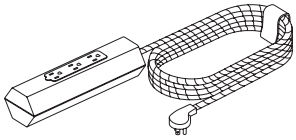

- Above/Below power module provides access to power on the desktop and below the worksurface.
- Desktop mount can be used on any surface with a 6"W x 3"D clearance along the worksurface edge.
- Under surface mounting can be used with a 12"W x 3"D x 2"H clearance under the surface.
- Plugs will take additional depth (approx. 3").
- Two wire management “P-Clips” included with mounting hardware.
- Below worksurface power strip supplies six grounded A/C receptacles, desktop unit supplies two receptacles, 1 USB-A port, and 1 USB-C port.
- Desktop and under worksurface units are connected by a 2' long straight cord and cannot be disconnected.
- Power cord choices include a 6' straight cord or a coiled cord that is 6' long uncoiled, approximately 8" long coiled (compressed).
- Desktop unit available in White and Gray finishes.
- Under worksurface unit available in black only, no specification needed.
- UL 962A and UL 111 Listed. UL 1310 Recognized.

APWRPCK

Power Module — Sit-On Worksurface, Puck (page 474)

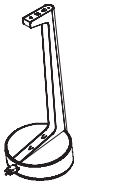

- Unit sits on top of a worksurface.
- Includes 5' DC Connector cord, transformer block, and 6' AC straight cord for 11' of total cord length. UL 1310 Listed.
- Unit allows for simultaneous powering of 1 USB-A and 1 USB-C device.
- Unit is a charger only, no ability to connect to a PC other than to charge.
- Available in White and Silver finish only, no specification needed.

APWRSTRP

Power Strip — Sit-on-Surface, Wood (page 474)

- Unit sits on top of a worksurface.
- 10' Braided cord in White nylon, leather cord management strap included. UL Listed.
- Ultra-low profile 45 degree flat plug.
- 3 grounded power outlets.
- Solid Ash Wooden housing, no specification needed.

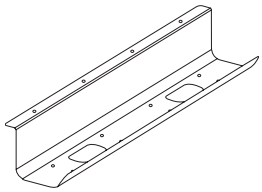

AVSTA3PWR

Vesta Mobile Power (page 474)

- 3 AC power simplex, 1 dual USB-A, 1 USB-C configuration.
- 10' Retractable power cord, UL Listed.
- Unit weighs 13 lbs.
- For cordless, battery-powered unit, please contact the Tailored Product Group (TPG).
- Available in Snow, Storm, Black, and Fog. Separate finish options available for outside and inside of unit.

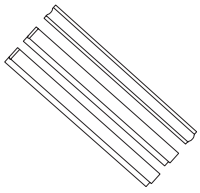

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Cable & Wire Management

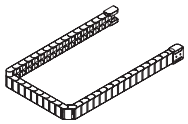

AJTRGH24 or AJTRGH36

Cable Management Tray (page 475)
- Attaches under the worksurface to contain cables.
- Metal tray shelf is 4" deep. Can hold electrical power strip and/or surge protector.
- 24" and 36" lengths, use multiple units for larger worksurfaces.
- Attachment hardware included, paint option is black only.
- Zip tie attachment points located in base of tray. Zip ties not included.
- Limited paint offering. Available in all Grade P1 and Grade P2 paint finishes for Altitude Bases with the exception of Night Bronze (P8B).

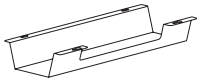

AWRSTRIP

Wire Management Strips/Channels (page 475)
- Self adhesive backing to attach to panels and underside of worksurfaces.
- Flexible strips allow cabling to enter/exit and can be contained inside the strips' cavities.
- Includes two wire management profiles. Smaller profile allows for qty. 3, .3" diameter cords, has area of .32 in^2. Larger "J" shaped profile allows for qty. 10, .3" diameter cords, has area of 1.14 in^2.

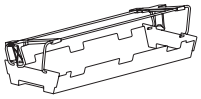

A9CLWMC or WKSWMC

Cord Management Chains (page 475)
- Works with Approach and Altitude A6-units.
- Used to route and conceal power/data cables from control box and other devices. Includes all mounting hardware and a plate to secure to a leveling glide.
- Houses 6 cables at 0.300" diameter.
- Made of plastic chain with plastic attachment brackets at each end.
- Specify WKSWMC for 58" chain. Only comes in Black finish.
- Specify A9CLWMC for 36" chain. Comes in Black, White, and Silver.
- Has two connecting points: Top section connects underneath a worksurface and bottom section can connect underneath power rails or to panel raceways using double-sided tape. Hardware included.

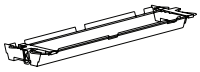

APWRTRGH17 or APWRTRGH36

Under Worksurface Trough (page 475)
- Used to conceal wires and control box below worksurfaces. Trough can be configured at various height/width combinations to meet capacity needs. Ships flat and is bent to desired shape.
- On 48"W and 54"W worksurfaces use one 17"W trough. 54"W has space to use 2 – 17"W, if necessary.
- On 60"W, 66"W, and 72"W worksurfaces use the 36" trough.
- On 84"W worksurface use 2 – 17"W troughs.

AFDTRGH20

AFDTRGH32

Flip-Down Wire Trough (page 475)
- Mounts beneath a worksurface. Used to conceal extra cord slack and power strips.
- May be used in conjunction with quad tap unit APWR4TAP to reduce the number of cords routed from a worksurface to a beam.
- For any worksurface less than 58"W, a 20"W Flip-Down Trough is recommended.
- For worksurfaces 58"W and wider, a 20"W or 32"W Flip-Down Trough may be used.
- Flush-mount Radii Storages are not recommended to use in conjunction with Flip-Down Trough.
- Only AKTSHORT keyboard tray is recommended for use in conjunction with the Flip-Down Trough.

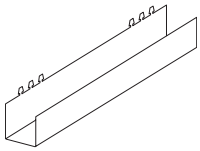

ALEGCHASE26

O-Leg Chase (page 476)
- Works with O-Legs from Allsteel Approach.
- Matches leg profile on models WKTBTL2824 and WKTBTL2830.
- Magnetically aligns and adheres itself to the inside of the leg and allows for user to reposition and adjust wires as needed without the use of tools.
- Metal chase measures 26"H, can fit qty. 12, .3" diameter cords. Has cross section area of 1.56 in^2.
- Available in standard metal paint finishes.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Cable & Wire Management

AMPCHASE

Panel Mounted Wire Chase (page 476)

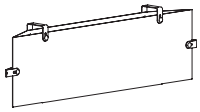

- Attaches between panels on Stride, Terrace, and Optimize via a slotted standard.
- Designed to sit below a worksurface and provide additional cord management from the base rail to beltline/under-worksurface height.
- Available in standard metal paint finishes.

AWIRECLT

Metal Wire Cleat (page 475)

- Supplied with screws and VHB tape for attachment to various surface types.
- For wood/particle board/MDF surfaces, use screw attachment.
- For painted metal/glass/non-porous surfaces, use VHB tape.
- Example use cases:
  1) Used alongside telescoping/fabric HAT wire chases to secure excess length of cord at plug-end.
  2) Secured to wall next to TV monitor in meeting room to manage HDMI cable when not in use.
  3) Screwed underneath worksurface to provide quick and easy management of excess length of cords and cabling.

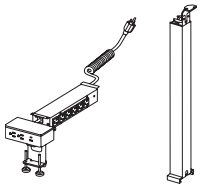

APWRMODEST36 or
APWRMODEST48

Fabric Power Modesty (page 477)

- Fabric Power Modesty presents as modesty panel hanging by leather straps under a worksurface; inner compartment conceals cords and power strips as a wire management application.
- Recommended worksurface width pairings:
  1) 48-60"W Desk — Use APWRMODEST36 Centered.
  2) 66-72"W Desk — Use APWRMODEST48 Centered or APWRMODEST36 offset.
  3) 84"W Desk — Use APWRMODEST48 offset.
- Modesty fills 11.5 inches below the bottom of the worksurface with space for cords to enter/exit between the worksurface and the top of the Power Modesty.
- Two entry/exit points for cords are located at the bottom of the Power Modesty unit.
- Modesty panel is designed to present as a thin modesty panel from the front, but provides 3" depth cavity for wires, power strips, etc.
- Maximum weight capacity for Power Modesty is 25 lbs.
- Modesty panel not to be used to store electronics that require airflow for thermal management (computers).
- Users can access interior of panel (to modify wire placement) via “wings” on either side of product, secured via user-operable Velcro connection.
- Users may also dismount Power Modesty from leather straps by unlooping leather straps from button attachments.
- Leather straps on Power Modesty always come in medium brown color.
- Power Modesty available in Appoint, Binary, Centurion, Noble, Reflections, Disperse, and Spin fabric series.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

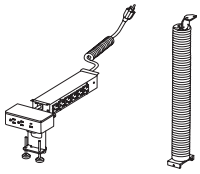

Cable & Wire Management

AHATPWRMOD2S or
AHATPWRMOD3S

Metal Telescoping HAT Wire Management (page 477)

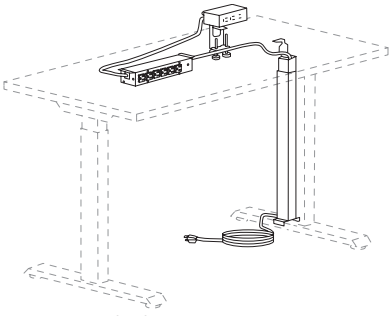

- Separate models available for use on either 2-Stage or 3-Stage Altitude A6 Tables. Not compatible with Altitude A3, A5, or A8.
- Equipped with 2-Stage or 3-Stage Telescoping Wire Chase and custom Above/Below Power Module intended for cord management on 2- and 3-Stage height adjustable tables.
- Telescoping chase includes a unique Above/Below Power Module and is NOT compatible with any other power module.
- Above/Below Power Module supplies 6 grounded A/C receptacles below the worksurface and 2 receptacles, 1 USB-A, and 1 USB-C port above the worksurface on the desktop unit. Desktop power module available in White and Gray finishes, below-worksurface power strip only available in black only.
- Telescoping Chase available in the same paint finishes as the Altitude height adjustable bases except for "Nickel."
- To match Metal Telescoping Chase to HAT base, specify matching paint color as HAT base. To match Telescoping Chase to a "Nickel" HAT base, specify "Platinum Metallic," or "PR2."
- Two "P-Clips" included for wire management between desktop power module and under worksurface power strip.

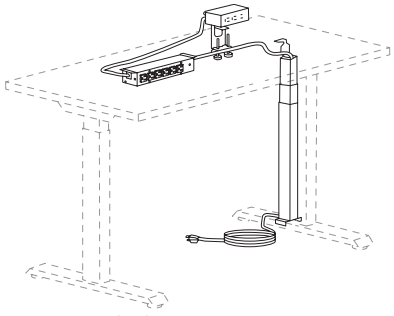

AHATPWRMODF

Fabric Elastic HAT Wire Management (page 477)

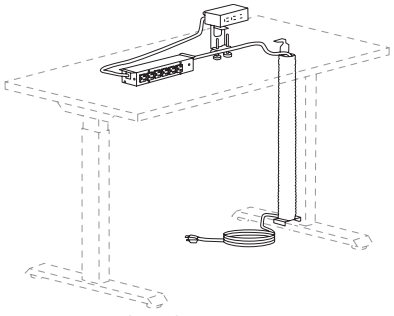

- Model compatible for use on either 2-Stage or 3-Stage Altitude A6 Tables. Not compatible with Altitude A3, A5, or A8.
- Equipped with Fabric Elastic Wire Chase and custom Above/Below Power Module intended for cord management on 2- and 3-Stage height adjustable tables.
- Fabric Elastic Chase includes a unique Above/Below Power Module and is NOT compatible with any other power module.
- Above/Below Power Module supplies 6 grounded A/C receptacles below the worksurface and 2 receptacles, 1 USB-A, and 1 USB-C port above the worksurface on the desktop unit.
- Desktop power module available in White and Gray finishes, below-worksurface power strip only available in black only.
- Fabric Elastic Chase available in Light, Medium, and Dark fabric finishes.
- Includes a metal foot and an under worksurface mounting bracket to attach Fabric Elastic Chase along the side of a HAT leg.
- To match metal brackets to HAT base, specify matching paint color as HAT base. To match brackets to a "Nickel" HAT base, specify "Platinum Metallic," or "PR2."
- Two "P-Clips" included for wire management between desktop power module and under worksurface power strip.

2-Stage Metal Telescoping HAT Wire Management

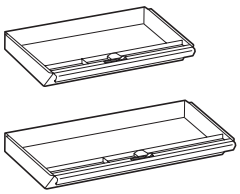

3-Stage Metal Telescoping HAT Wire Management

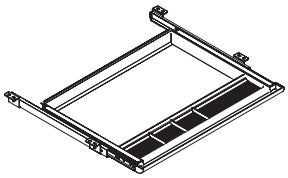

2 or 3-stage Fabric Elastic HAT Wire Management

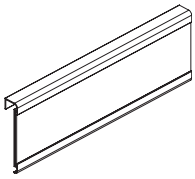

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Metal Center Drawers (page 468)
- All metal center drawers feature pencil trays with three compartments for storage.
- Center drawers will not fit in center of 24"D worksurfaces which are wider than 60" due to location of center support bracket.
- For locking specifications, see pages 1045-1046 in the Systems, Casegoods, & Space Division price list.
- Ball-bearing slide suspension.

Polymer Center Drawer - ACD1 (page 468)
- 20½"W x 17"D x 2"H
- Available in black only
- Made from ABS.
- Minimum clearance for mounting: 23"W x 16¼"D x 2"H.
- Retracts on 16" ball-bearing slides.
- Can be used on worksurfaces with Height Adjustable Bases as long as it is attached with spacer model AKMH.
- Can store up to 25 lbs.

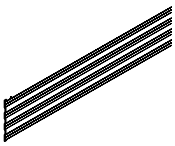

Name Plate (page 466)
- Comes in a 10-pack.
- Metal backer installs under a Terrace or Optimize top cap, can be used with frameless glass.
- Cover is a transparent polycarbonate insert.
- Full plate is 8½"W x 2⅝"H.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Allsteel Extensions offers Illumination in three styles — Undercabinet LED Light, Wand Light, and Splitty Light.

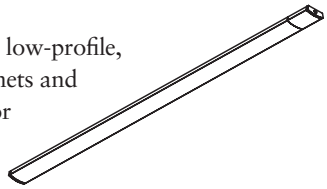

Recessed Undercabinet LED Light

Recessed task lights conserve space and provide an efficient solution for illuminating the workplace. All models are equipped with LED strips.

Recessed task light models mount under storage cabinets or shelves to provide optimal space utilization. Models are available in two styles and three sizes to correspond with the width of the cabinet or shelf. Task lights with a fused plug are available to meet Chicago electrical code.

Undercabinet LED Light

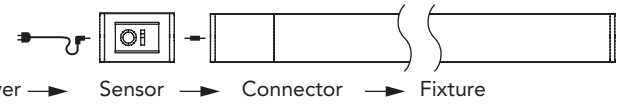

The Undercabinet LED Light is a low-profile, linear solution for overhead cabinets and shelves and is an ideal solution for painted wood storage. It utilizes energy-efficient LED technology which provides a long life. The Undercabinet LED Light provides the opportunity to mount the fixture where light is needed most.

The Undercabinet LED Light features a metal trough reflector with diffuser lens. The light has a sleek ½" thick profile and provides two options for mounting, either magnetically or with hardware. Undercabinet LED Lights can be daisy-chained.

Optional undercabinet occupancy sensor is available which will automatically turn off the fixture after 30 minutes of no detection and back on immediately as the user re-enters the detection range using Passive Infrared (PR) sensor technology. Unit features 360° lens with 90° outward detection angle, providing a 36" coverage diameter at 18". Occupancy sensor comes with connector and is required to be connected in the sequence shown below. Connect occupancy sensor to a light, or first light in daisy chain to control all linked lights.

CONNECTION SEQUENCE*

*Cannot deviate from this sequence

Recessed Task Lights (page 471)

- Black Metal Construction with 9' long black cord attached to right rear corner of the fixture.
- LED strip comes installed within light.
  –50,000 hour life span
  –120V-277V
  –CCT 4000K
  –CRI 80+
- Includes 4 cord retainer clips.
- Shorter width models can be used on wider overheads, shelves and hutches.
- On/Off switch provides individual control of tasklight within the workstation.
- Daisy chain models require a master control model — 10 fixtures maximum.
- RECOMMENDATION: Provide a separate circuit for task lights to ensure proper, long-term operation.

Undercabinet LED Lights (page 471)

- Low profile energy-efficient LED task light for use with overhead storage cabinets and shelves.
- 20W power supply for 10W 17" unit (.166 amps).
- 20W power supply for 20W 31" unit (.166 amps).
- 60W power supply for daisy-chain starter units (.5 amps). Must order one starter unit for each daisy-chain application.

LED Light Combinations Must Not Exceed 60W in Combination	Power Usage
6X 17"	60W
3X 31"	60W
1X 31" + 4X 17"	60W
2X 31" + 2X 17"	60W

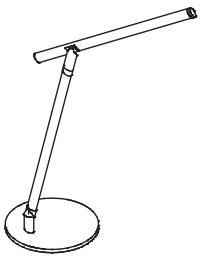

- The combinations that could max out 60W are featured above. *Daisy chained units have a power limit of 60W from one power entry. 17W units use 10W and 31W units use 20W.*
- Specify up to 5 additional 17" interconnect units (ALED17UJMP30) to daisy-chain together with 17" daisy-chain starter fixture (ALED17U60).
  Example: Daisy-chain 4 – 17" undercabinet LED lights:
  Specify: 1 ALED17U60
  Specify: 3 ALED17UJMP30 with 10" jumper cord
- Specify up to 2 additional 31" interconnect units (ALED31UJMP30) with 10" jumper cords to daisy-chain together with 31" tasklight (ALED31U60); or 17" daisy-chain starter fixture (ALED17U60).
- 3500K color temperature.
- 131 footcandles at 18" on ALED31U; 76 footcandles at 18" on ALED17U.
- Magnetic or screw-mount option — attachment hardware included.
- On 20 watt models, power drive is attached to plug: allow 1⅞"D space at outlet.
- On 60 watt models, power drive brick is in center of cord.
- Includes 3 cord retainer clips.
- Meets California Title 24 Energy Efficiency Standards.
- "Instant On" switch with infinite dimming cycle from 100% to 15% with the last state memory, allowing the user to set their desired level of lighting.
- Fixture automatically turns off after 10 hours of use to reduce unwanted energy use.
- Optional occupancy sensor automatically turns off all interlinked fixtures after 30 minutes of no detection and back on immediately when detection is found.

Overhead Length	Suggested LED Sizes
24	17
30	17
36	17
42	31
48	17 + 17
60	31 + 17
72	31 + 31
Note: LED lights may need to be positioned along length properly to allow jumping to additional overheads. Suggested sizes above are recommendations for single overheads to provide as much light along length of overhead as possible.	

The suggested sizes factor in 4 inches of room for the power inlet and occupancy sensor (optional).

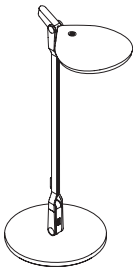

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Wand™ Task Light

Wand freestanding task light offers a clean, simple design along with powerful LED technology to illuminate the workspace. The swivel base and arm tilt allow users to position the light just where they need it. The 7.7 watt LED light offers efficiency and long life, providing up to 25 years of daily use. The slim, sleek design makes it easy to integrate into any workspace. Wand task light is 97% recyclable. Occupancy sensor and/or charging models available.

Splitty Task Light

Splitty's organic and modern design compliments the workstation while also bringing rich features to the user. In addition to illuminating the space, Splitty can also be a teleconferencing tool through Splitty's 360-degree light head adjustment and soft touch, continuous dimming. Integrated charging allows for small personal device charging crucial to the modern worker's workplace toolkit while minimizing clutter within the station. Optional clamp or tool tile mounts available as accessories.

Wand LED Freestanding Task Light (page 472)

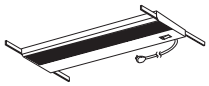

- Available in Silver or White. 9'4" cord is Silver.
- Full range dimming from 100% – 10% with last state memory.
- Uses 5W at highest setting and as low as 1 watt at its lowest setting, providing 75 to 12.7 footcandles of light, respectively (16" above worksurface).
- 7½" round swivel base and 16½"H tilt arm allow versatile positioning of the 13" lampshade.
- Designed for 50,000 hours of life.
- Color Temperature: 3500K. Color Rendering Index (CRI): 80.
- Materials: aluminum arm and lampshade, steel base.
- Weight: 4.4 lbs. 97% recyclable, 76% post-consumer.
- Certifications: UL and CUL. TAA compliant.
- Occupancy sensor available with automatic shut-off after 15 minutes if no motion is detected.
- USB model features USB-A (1), USB-C (1) charging within base of unit.
- USB model also features occupancy sensor. 7.5W (A) & 18W (C) power consumption.

Splitty Task Light (page 472)

- Available in Silver, White, or Black (accessories available in silver only).
- Cord is 12' long.
- Cord is silver when black or silver finish specified, white when white light is specified.
- Soft touch on/off, dimming.
- Continuous dimming (100% – 3%) with last state memory.
- 5.8W of energy consumption. 7W at highest setting, 0.6W at lowest.
- 5" 360-degree swivel light head, 6.54" round swivel base and 17"H arm. Arm has full 180 degree rotation and 360 degree swivel.
- Designed for 60,000 hours of life.
- Color Temperature: 3500K, Color Rendering Index: 90.
- Materials: aluminum, plastic.
- USB-A has 5W of power consumption.
- USB-A (1) charging at bottom of light arm stem. Charging feature compatible for any mounting method.
- Clamp mount compatible with surfaces ¼" – 2¼" thick.
- Tool tile mount has 1⅛" adjustment range, minimum slot height of 5/16".

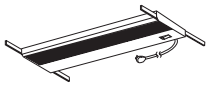

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

For specification information see pages 469-470.

*Use of APACSM Slider Model will allow for wider monitor capabilities

Pivot Standard Weight Monitor Arms

- Adaptable and adjustable to user preference the Pivot monitor arm offers a slim and refined design coupled with easy fingertip adjustment.
- Multiple points of adjustment including 360 degree swivel with optional 180 degree lockout, 18.75" extension, and 10" of height adjustment.
- Monitor tilts +25/-25 degrees.
- Standard weight arms utilize a tension spring that allows for effortless adjustment of monitors to proper ergonomic positions.
- Tension adjustment at multiple points allows for proper adjustment for monitors weight between 6-17 lbs.
- Model includes grommet and worksurface mounting options.
- Desk clamp mounts require ⅞" –2" thick surfaces; grommet mount requires hole diameter of 3/16" to 2" wide and accommodates up to 2" thick surfaces.
- Integrated cable management included with each model. Black models ship with all black cable management pieces, Silver models ship with grey wire management but optional white pieces ship in the box and can be installed on site.
- Dual monitor arm supports up to 25" wide monitors. Wider monitors may require use of optional slider mount model.
- Pivot arms are VESA 75mm and 100mm compatible.
- Quick release feature simplifies monitor installation and changes.

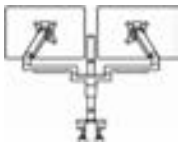

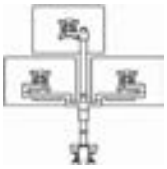

Pivot Slider Mount

- Provides 11.8" of horizontal movement.
- Allows for wider monitors to be used on dual monitor arms and sit flush side by side.
- Not compatible with Pivot Heavy Duty Series.

Pivot Heavy Duty Series

- Adaptable and adjustable to user preference the Pivot monitor arm offers a slim and refined design coupled with easy fingertip adjustment.
- Multiple points of adjustment including 360 degree swivel with optional 180 degree lockout, 20.75" extension, and 12" of height adjustment.
- Monitor tilts +25/-25 degrees.
- Tension adjustment at multiple points allows for proper adjustment for monitors weight between 8-35 lbs.
- Model includes grommet and worksurface mounting options.
- Desk clamp mounts require ⅞" –2" thick surfaces; grommet mount requires hole diameter of 3/16" to 2" wide and accommodates up to 2" thick surfaces.
- Integrated cable management included with each model. Black models ship with all black cable management pieces, Silver models ship with grey wire management but optional white pieces ship in the box and can be installed on site.
- Dual monitor arm supports up to 2 monitors weight 4-17.5 lbs each.
- Pivot arms are VESA 75mm and 100mm compatible.
- Quick release feature simplifies monitor installation and changes.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Pivot Post Series

- Adaptable and adjustable to user preference the Pivot monitor arm offers a slim and refined design coupled with easy fingertip adjustment.
- Multiple points of adjustment including 360 degree swivel with 21" extension and 10.6" of height adjustment.
- Monitor tilts +25/-25 degrees.
- Tension adjustment at multiple points allows for proper adjustment for monitors weight between 6.5-17 lbs per arm.
- Model includes grommet and worksurface mounting options.
- Desk clamp mounts require ⅞" –2" thick surfaces; grommet mount requires hole diameter of 3/16" to 2" wide and accommodates up to 2" thick surfaces.
- Integrated cable management included with each model. Silver color option with grey wire management only.
- Dual monitor arm supports up to 25" wide monitors. Wider monitors may require use of optional slider mount model.
- Single and dual models have a post height of 17.7"; Triple monitor model has a post height of 27.5".
- Pivot arms are VESA 75mm and 100mm compatible.
- Quick release feature simplifies monitor installation and changes.

Pivot Counterweight Kit

- Counterweight Kit to be used with monitors weighing less than 6 lbs.
- Gray color only.
- Counterweight weighs 1 lb. 6 oz.

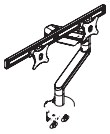

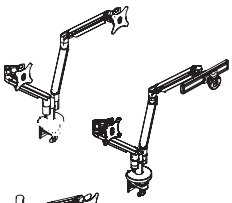

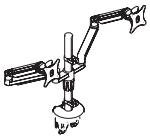

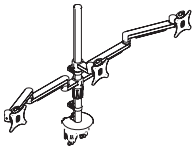

Pivot Conversion Kits

- Kit allows user to transform single monitor arm (Standard, Heavy Duty, or Post) into Dual Arm configuration
- Available in black and silver, Post arm only available in silver
- Required wire management included
- Once assembled, will aesthetically emulate dual configuration of chosen arm

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Cleaning instructions are listed on the back of our fabric cards and are available in written form upon request.

CLEANING CODES

D Dry clean only.

L Clean with warm water and mild soap, using clean cloth, as soon as possible.

P Clean with detergent and water or perchlorethylene.

R Detailed recommended cleaning and/or disinfecting procedures are available upon request.

S Only pure, water-free solvents may be used. CAUTION: Use of water-based or detergent-based solvents may cause shrinking and/or permanent water stains.

SM Same as S. Do not brush.

SW Clean with water-based cleaning agents, foam or pure water-free solvents (Energine, Carbona, Renuzit, or other similar products). Vacuuming or light brushing is recommended to prevent dust and soil buildup.

W Water-based cleaning agents or foam may be used.

WS See SW.

X Brush or vacuum only.

XS Brush and vacuum only, NO liquid cleaners.

CLEANING VINYL

Vinyl-coated fabrics are perhaps the most maintenance-free fabrics ever produced and certainly will provide exceptional service life if given proper care. Almost all vinyl manufacturers now provide information concerning the necessary cleaning procedures for their products. In reality, all care and maintenance instructions are the same for all coated fabrics regardless of their manufacturing origin.

Everyday soil — A gentle mixture of any mild soap and warm water will generally dissipate most common soil from the surface. Using a soft cloth, wash the area to be cleaned and rinse. If stubborn dirt remains, such as a stain embedded in the grain of the vinyl, use a soft brush, and if necessary, a touch of cleaning powder. In both situations, rinse and dry with a soft cloth.

Gum — Remove as much chewing gum as possible prior to the application of Naptha or Kerosene, worked in with a soft cloth. If gum cannot be removed, ice may be used to harden the gum so that it separates itself from the vinyl surface. (This same method is also useful in removing wax.)

Ink Spots — You must work quickly! Magic Marker, India ink, and ballpoint pen immediately will affect pigments, and, for the most part, are difficult to remove. It is recommended that a solution of water and rubbing alcohol be applied and gently rubbed on the spot as soon as possible. Hair sprays containing alcohol are sometimes effective in emergencies for removing ink.

Nail Polish and Polish Remover — These products will immediately damage vinyl surfaces and, to retard further damage, should be carefully wiped clean.

Paint — Try to remove as soon as possible. It is not recommended that any paint removers or brush cleaners be used. Clean oil-based paints with a soft clean cloth and Naptha. To clean latex-based paints, use the same method as recommended for everyday soil.

Tar, Asphalt, Etc. — Petroleum-based products will stain all vinyl if allowed to stand too long. Clean as soon as possible with a cloth followed by the immediate application of Kerosene or Naptha.

Products are now on the market that are manufactured to enhance the beauty and service life of all vinyl. However, by using the methods described above with sensible care and attention, the consumer should enjoy years of satisfaction and pride with any vinyl-coated fabrics.

CLEANING LEATHER

Because leather is a natural product, it needs very little or no care during normal usage.

Spots and Spills — Wipe excess liquid up immediately with a clean, absorbent cloth or sponge. If necessary, use clean lukewarm water only and let dry naturally. If water is used, clean the entire area where the spot occurred. An example would be the entire seat cushion or the entire arm. Do not dry wet areas with hair dryers, etc.

Stubborn Spots and Stains — Use a mild, non-detergent cleaner such as bar or Ivory soap. Apply the soap to a clean, wet sponge and wash, then rinse well. Allow to dry naturally.

Butter, Oil, or Grease — Wipe excess butter, oil or grease off of the leather with a clean dry cloth, then leave it alone as the spot should dissipate into the leather in a short period of time. Do not apply water or try to wash a butter, oil, or grease spot.

DO NOT USE saddle soap, cleaning solvent, furniture polish, oils, varnish, abrasive cleaners, soaps, window cleaner, or ammonia water.

Effective October 13, 2026, Allsteel will apply a 6.5% surcharge to all orders.

Allsteel, as an HNI company, adheres to the HNI Enterprise Sustainability Policy of 2008 and its related procedures. The Design for the Environment Procedure directs the product design process to consider potential environmental impacts of the product; including materials selection, packaging and transport, product use, and design for disassembly at the end of the product's useful life. The Manufacture for the Environment Procedure sets goals related to energy efficiency, waste recycling, air emissions reductions, worker safety, water efficiency, increased renewable energy, and chemical reductions.

The Enterprise Sustainability Policy sets goals and measures results, driven by the ANSI/BIFMA e3 Furniture Sustainability Standard and evaluated in the 3rd party certification called level®. Rigorous quantitative evaluation criteria cover four categories: materials, energy and atmosphere, human and ecosystem health, and social responsibility. The audit process evaluates the individual products, the manufacturing site(s), and the corporation. Allsteel's furniture is level 2 and level 3 certified to the standard. (ANSI is the American National Standards Institute, an organization that directs the transparent development process of national standards.)

In addition, Allsteel's products support requirements of LEED (Leadership in Energy and Environmental Design), the green building rating system. Whether a customer seeks to achieve LEED certification or just obtain the benefits without certification, Allsteel's products meet the standards set forth in LEED. Allsteel is proud to support sustainability initiatives in the building industry as a member of the U.S. Green Building Council (USGBC).

Allsteel complies with the Federal Trade Commission Part 260 Guide for the Use of Environmental Marketing Claims. Our third-party certifications support our environmental statements and our credibility. Third-party certification involves an independent assessment declaring that specified requirements pertaining to a product, process or management system have been met. Allsteel's third party certifications include BIFMA level® 2, SCS Indoor Advantage™ Gold, and FSC®. Select products are Cradle to Cradle Certified™ Bronze and/or have third party certified Environmental Product Declarations.

Nearly all of Allsteel's products are level 2 or level 3 and Indoor Advantage Gold certified. FSC® certified products are available; check price lists for details.
