

HON[®]

MAKE YOUR SPACE WORK[®]

MOSAIC[™]

PIECED WITH PURPOSE

Meet Mosaic, the modular seating system designed for composition. Quality woodworking, metal, and textile come together in pieces shaped with purpose and placed with intention—a light scale lounge collection as intuitive to specify as it is inviting to inhabit. Whether blending in or standing out, every piece works together to shape a space that's all part of the bigger picture.

MASTERFULLY
MIXED

MAKE AN ENTRANCE

SHAPES THAT SET THE SCENE

Reception is where a space speaks first—so say it with intention. Mosaic's clean lines and mixed materials communicate quality from the first hello, while high-backs frame a room within the room. Add the complementary bucket lounge to punctuate the arrangement with personality, and every visitor gets a warm, well-composed place to land.

**STAY
AWHILE**

COMFORTABLY
COMPOSED

SETTLE.
SHARE.
STAY.

LAYERS THAT BUILD DIMENSION

The best café spaces give people a reason to stay. Mosaic composes them in layers: high-back pieces carve out cozy booths for quiet focus, while mid-backs keep conversation open and flowing around them. Mix both for a café with a spot for every kind of break—where quick coffees have a way of turning into connections.

TEXTURES THAT ENRICH THE DETAILS

Comfort you sink into, details you notice twice. Two-tone upholstery, wraparound armrests, and carefully sculpted lines give Mosaic the inviting feel of a favorite living room—grounded by solid wood or metal bases that bring genuine craft to every corner of the workday.

GET COMFORTABLE

LOOK.
LOUNGE.
LINGER.

SEAMLESSLY
SOCIAL

COME
TOGETHER

DREAM.
DISCUSS.
DO.

SPACES THAT ENCOURAGE CONNECTION

Great ideas rarely wait for the conference room. Mosaic's curves draw people in naturally—close enough to share a screen, relaxed enough to actually talk. When collaboration has a comfortable place to happen, it happens more.
