### Unified Cloud Connection

Sign in just once on the MFD to connect to multiple cloud services, such as Microsoft Teams. Downloading apps from the cloud is easy. And updates are displayed clearly, so you're always using the latest version of services.

### Solid Security

The BP-B547WD has multiple levels of security to protect itself—and your data. When booting up, the MFD checks for anomalies in the BIOS firmware. And optional software prevents attacks on connected devices.

### Link Mobile Devices

Mobile devices installed with the Sharpdesk Mobile app can connect directly to the MFD for printing or downloading scanned data. The MFD is also equipped with AirPrint and the Sharp Print Service Plugin.

### Wireless LAN Connection

The BP-B547WD works with the 5 GHz band to ensure minimal radio interference and stable high-speed communications. The MFD also supports Wi-Fi Protected Setup™, so it can connect to a wireless LAN without the need for an SSID and security key.

### 7.0-inch Full-flat Touchscreen

With a variety of functions accessible via simple, intuitive icons, MFD operation is smooth and easy.

### High-performance DSPF

The DSPF (duplex single pass feeder) scans both pages of two-sided documents in one pass—in batches of up to 100 sheets. With scanning speeds of up to 130 opm\* (two-sided), the MFD is quick to finish even large jobs. A dedicated business card feeder on the DSPF scans batches of up to 25 cards.

### Smart Scanning

Simply tap the Auto Set button and the MFD will automatically determine the optimal resolution, gradation, and compression rate for your scan jobs. It also automatically reorients pages right side up and corrects any skewed sheets.

### On-screen System Information

The LCD shows the state of your MFD, displaying current operation and notifications for things like paper, toner, and maintenance.
