Hi Michiel!

Here's our first newsletter of 2018. It contains our most popular blog stories from the past weeks, just in case you missed them!

Listening without knowing
"Am I crazy to admit that I really miss the good old times when I didn't believe I understood everything completely?"
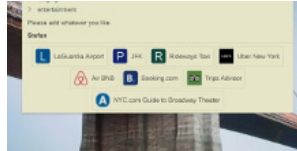

The Pinboard story
Delicious used to be a promising bookmarking site. Last year a small company called Pinboard acquired this former giant. Who are they?

What makes a start page great
A start page is like a microwave oven or Netflix: once you have it, you wonder how you ever got along without it.

New: bookmark cloud view
Revamp your trusty bookmarks. With our new cloud display, you get to rearrange your links in the form of a tag cloud.

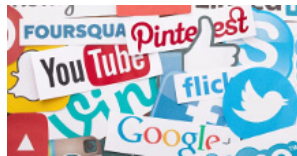

Detect broken links: upgrade to start.me PRO
A great feature of our PRO subscription is the Broken Links Checker. It helps you to quickly see which of your links no longer work and fix them. So get PRO now and find out! **Upgrade for only $20 a year.**

New: custom theme colors
The new 2018 theme can be switched from light to dark and it offers complete control over the theme's primary color.

Rise of personal bookmarking
Social bookmarking is not dead, it is very much alive. But it evolved. Social Bookmarking turned into Personal Bookmarking.

Five terrific widgets
To help you improve upon your start.me experience, we've selected the most useful building blocks we'd like you to try out.
The new start.me design
A modern-day bookmark manager should look modern. So, we decided to update the looks of your favorite bookmarking app.

We hope you enjoyed our second newsletter. Please let us know if you have any remarks.

Best regards,

The start.me team

P.S. Follow us on Facebook and Twitter.
