FUNDAMENTALS COURSE
EMERGENCY CARE NURSING

Course Description
The curriculum is outcomes-based and follows a student-centred approach. This fundamentals course will give the emergency care nurse an understanding of the basics of nursing in this specialised unit. It covers anatomy, physiology, pathophysiology and the applicable skills to safely care for a patient in the emergency centre. This course consists of a theoretical and clinical component to ensure integration of knowledge. The student must pass both components to successfully complete this course.

Course content:
- Professional and Legal Considerations
- Aspects of the Emergency Centre
- Body Systems
- Medical Emergencies

Admission Requirements
- Proof of current enrolment / registration as a Enrolled Nurse / General Nurse / Registered/Professional Nurse with the SANC or Namibian Nursing Board
- Application / motivation report from the Unit Manager and signed by the Nursing Manager
- 3 months nursing experience in the Emergency Centres
- Competency in Basic Life Support

Applications to be sent to:
- Internal: Electronic application via the training and development consultant of the clinical facility
- External: Apply online via the Mediclinic website

Course Outcomes
This course is an introduction to specialised nursing in the emergency centres. It enables the nurse to provide safe fundamental care to the patient admitted to the emergency centre.

Course Duration
4 Months

Target Group
Registered/Professional Nurses / General Nurses / Enrolled Nurses

Format of Tuition
Outcome based self-study with limited contact sessions. The teaching approach is problem-based and demands self-study with limited contact, thus adult education methodology is applied.

Language of instruction
English

Rules

- Two formal tests will be written. The student must pass the two tests with a combined average of 50% to pass the fundamentals course. Only one supplementary test will be granted for all modules. Students must pass the supplementary test with a mark of 50%. If the student fails the supplementary test he/she will not be able to complete the course and will need to redo the entire course.
- The allocation of the student for clinical competencies is done by Mediclinic.
- The student must work at least a 36 hour work week.
- The student may not work permanent night duty during the course.
- No leave will be granted during the course.
- If all the practical requirements cannot be met in the student's work setting the student will be placed in an alternative facility in collaboration with the Nursing Manager.
- Clinical accompaniment is provided by the educator/facilitator, trained mentors, and registered/professional nurses.
- The student must work in the emergency centre for a period of four months.
- Time worked in the operating room or critical care unit may also be required.

The student must:

- Achieve a practical mark of 70% for all the required clinical assessments
- Provide evidence of clinical competence
- Hand in the completed workbook

The successful completion of this course does not qualify the student to register an additional qualification with the South African Nursing Council. This course is not credit bearing.

Mission

Our mission is:

- To deliver measurable quality training outcomes, governed by sound educational principles, evidence based practice and adherence to legislation.
- To contribute to the development of skills relevant to health care service delivery nationally.

Institution

Mediclinic (Pty) Ltd Private Higher Education Institution

Corporate Office: Mediclinic (Pty) Ltd Offices, PO Box 456, Stellenbosch, 7599 Strand Road, Stellenbosch, 7600. T +27 21 809 6500. F +27 21 809 6756

Mediclinic (Pty) Ltd is a registered company operating in the private healthcare industry. Company registration number 1969/009218/07.

Mediclinic (Pty) Ltd is registered with the Department of Education until 31 December 2023 as a private higher education institution under the Higher Education Act, 1997. Registration certificate no. 2008/HE07/006.

Fees and Funding

Mediclinic funds the course for its employees. The student is responsible for the cost of any prescribed and recommended books, as well as costs incurred for travel and accommodation.

External students (non-Mediclinic employees): Mediclinic Higher Education determines the fees annually. The fees are subject to change and are published on the Mediclinic website. Fees do not include any prescribed and/or recommended books. Other institutions requesting Mediclinic to provide training for their employees will be invoiced prior to commencement of the course.

All required fees must be paid a month before commencement of training.

Contract

Mediclinic employees: The hospital may contract the student. If the student does not complete the course successfully he/she will be liable for the costs of the study material.

Student information will be shared with legislative bodies and be used for BBBEE purposes.

Code of Conduct

All students are subject to the Mediclinic disciplinary code that governs workplace conduct and the grievance procedure. Policies and procedures are available to deal with student appeals and complaints.

Student Support Services

Facilities

Library and Computer Room

Support Services

We have an academic support system in place. The support system includes assisting with study methods as well as assisting students that require professional counselling. We have INCON clinics in the hospitals where students are referred if professional counselling is required as well as for health and wellness needs. Policies and procedures are in place to deal with student disabilities.
The course is offered at the following Mediclinic Learning Centres:
