Fun parks	Giant slalom run
St. Anton: STANTON PARK at the Rendl Lech; Snowpark/Easypark at the Schlegelkopfbahn; Sonnenkopf; at the Sattelkopfbahn	Lech: at the Hinterwieser parallel slalom slope with photo point; Zürs: at the Babyfisch; St. Anton: RENDL RACE at the Rendl; Stuben: at the Walchthal; Schröcken: at the Saloberjatz; Sonnenkreuzer parallel slalom slope; Warth: at the Wartherhornbahn; at the Wannenkopfbahn with video recording (Skimovie)
Fun slopes	Sledging run
Lech: at the Schlegelkopfbahn; St. Anton: at the Osthangbahn; Warth: at the Karhornbahn	St. Anton: Gampsen: 4.2 km long illuminated nature sledging run to Nasserein, open daily from 12:00 noon - 04:15 pm; Lech: 1.2 km long illuminated sledging run with snow cannons from Oberlech to Lech. Open all day from 09:00 am - 09:00 pm. Sledges can be hired at Berghaus Oberlech; Warth: Sledging run at the Dorfbahn. Sledge hire at the base station. Operative when the Dorfbahn Warth is open. For weekly evening sledging events see noticeboard and website
Speed Check	
St. Anton: STANTON SPEED at the Rendl Lech; at the Weibermahdbahn, with photo point and time of Olympic champion Patrick Orlitzsch; at the Kuchlbühl	

Ski runs are marked and prepared if possible; they are checked and secured against atypical alpine dangers, especially avalanches. Ski routes are marked and only secured against the risk of avalanches; they are generally not prepared or checked, or only in some cases. For information on the current slope conditions refer to the panoramic boards at the cable car stations. Flashing green or orange: Warning - queues! (Ski Arlberg app and www.arlberg.at -> always orange) Order tickets online and pick them up at one of the marked locations. Pickup box Ticket machine with pickup function Golden Moments pickup box Chip card return	Warning lights: Yellow: Outside the safeguarded ski runs there is the risk of avalanches: Level 4 (= HIGH) or Level 5 (= VERY HIGH) Orange: Slope maintenance equipment in use Ski run and ski route signs: closed open Slope closures and avalanche blasting: It is forbidden and a chargeable offence to enter closed ski runs and ski routes. It is not permitted, without exception, to enter forested areas and walk or sledge on ski runs. From the last checking run, immediately after the last ascent, ski runs and ski routes are closed due to the danger from slope maintenance vehicles and cable winches. Caution! No safety cordons! When there is a risk of avalanches, never use closed runs. In order to safeguard their own safety, people on tours outside the safeguarded and open ski runs are responsible for obtaining information about blasting from slope management. Please note: During and after fresh snow falls there will be avalanche blasting in the area - risk of avalanches! Avoid areas with avalanche risk at these times! Information at the base stations. Skiing accidents: In the case of an accident, please report the accident with exact details using the emergency call point, nearest lift station or designated call point. For the telephone numbers for the ski run rescue service for the respective area, refer to the information block. The ski run rescue service is chargeable. Ski run preparation: The use of slope maintenance machines, also while the ski runs are in operation, cannot be avoided. Please be sure to keep a safe distance from these machines. Do not cross below slope maintenance vehicles on steep slopes as these may accidentally slip down. Where the view is restricted, in narrow passages or on cat tracks, take extra care as slope maintenance vehicles may come the other way. Fresh snow: The Arlberg lifts and cable cars are well known for their efforts to offer perfect ski run conditions every day. However, when fresh snow falls it is unfortunately not always possible to prepare all runs at the same time, even with maximum deployment of slope maintenance equipment. Furthermore, in certain weather conditions fresh snow will not attach itself to the older snow covering below and will slip, forming heaps and bungs, in spite of the preparation work. This cannot be prevented, even with the best ski run management. For safe enjoyment in our ski area please follow the valid FIS regulations for skiers and snowboarders and above all to be careful and considerate. The complete FIS regulations are available at many lift access points and at www.skiarlberg.at FIS Access prohibited Alpine dangers Forest/wildlife protection area Slope maintenance vehicles with cables in use
