Coalition

*We are a society of people dedicated to improving the quality of life of all Yukoners. We do this by building the foundational skills required for lifelong learning; acknowledging that we are all adapting to an everchanging world.*

## Make your own Snow Cones

### **Things to collect:**

you can make a *dairy version* or a *dairy-free* version:

- clean snow
- a large bowl (*stainless-steel would be best – but you can use any!*)
- a can of evaporated milk
- any fruit you want to include
- powdered drink mix (*like Kool-Aid, for the dairy-free version*)

The first thing you need is a large bowl to collect your snow supply.

*A stainless-steel bowl will slow the melting of the snow before you use it. It may also be best to leave the bowl somewhere cold while you collect your supplies to transform it into a tasty treat.*

### **For the dairy version:**

Take the evaporated milk and the fruit of choice and blend them together.

Once blended, you are simply going to fold it into the snow.

### **Non-dairy version:**

Simply add your powdered drink mix to your bowl of freshly collected snow.

**Enjoy!**
