## A Spooky Snack for the Whole Family!

Halloween is just around the corner, and we all know what that means. Costumed kids, scary movies, and junk food galore! Not all Halloween treats need to be sweet. This healthy, spooky snack is versatile, silly and fun, and won't hurt your teeth.

### Delicious Devilled Eggs Three Ways:

These scrumptious devilled eggs look great on the plate, and are packed with omegas, vitamins, and protein! Use this simple recipe to make eggs that look like pumpkins, spiders, or eyeballs.

#### Basic Egg Recipe:

You will need:

- 6 hardboiled eggs
- 2 tsp mustard
- ¼ cup mayonnaise
- Salt and pepper to taste

1. Peel eggs and pat dry
2. Slice each egg in half on the long side and set on a plate
3. Gently scoop out the yolks and place in a bowl with the mayonnaise, mustard, salt, and pepper. Mash with a fork until everything is mixed together
4. Add "extra" ingredients and follow directions below to make pumpkin, spider, devil, or eyeball eggs

#### "Spider" Eggs:

You will need: 12 black olives

1. Using a soup spoon, place a spoonful of yolk mixture into each halved boiled egg white. Smooth the yoke to make a round dome
2. Cut 6 black olives in half. These 12 halves will be the spider "bodies"
3. Cut the other 6 olives in half and slice each half into strips. These strips will make the spider legs
4. Place a spider "body" in the center of each egg yolk. Place olive slices around the body to make the legs.

#### "Pumpkin" Eggs:

You will need: paprika + green onion or parsley

1. Using a soup spoon, place a spoonful of yolk mixture into each halved boiled egg white. Smooth the yoke to make a round dome
2. With a fork, score a few vertical lines in the yoke to make it look like a pumpkin
3. Sprinkle a pinch of paprika on the top to make your pumpkins orange
4. Place a piece of green onion or small sprig of parsley at the top of your pumpkin for a stem.

#### "Eyeball" Eggs:

You will need: toothpicks, red food colouring, blue food colouring, sliced black olives

1. Mix a few drops of blue food colouring into the yolk mixture until it turns green
2. Using a soup spoon, place a spoonful of yolk mixture into each halved boiled egg white. Smooth the yoke to make a round dome, and place an olive slice in the center to make your eyeball
3. Dip the tip of a toothpick into the red food colouring. Trace red "veins" onto the whites of your egg "eyes"

#### We'd love to see your work!
