## BP-55C26

Digital Full Colour Multifunctional System

## Future-proof the way you work

smart business partner

### Unified Cloud Connection (option)

You only need to sign in once to connect to multiple cloud services, such as Microsoft Teams, from the MFD. Applications can also be easily downloaded from the cloud. Updates are clearly displayed, so you're always using the latest version of services.

### Solid Security

The BP-55C26 has multiple levels of security to keep the device—and your precious data—secure. When booting up, the MFD checks for any anomalies in the BIOS firmware. If it finds a problem, it aborts the startup. If there are other firmware-related issues, the MFD will attempt recovery to protect the system.

### Link Mobile Devices

Mobile devices installed with the Sharpsdesk Mobile application can connect directly to the MFD for printing or downloading scanned data. The MFD can also be equipped with AirPrint\*<sup>1</sup> and the Sharp Print Service Plugin\*<sup>1</sup>. It's a smoother way to get the job done.

### Wireless LAN Connection (option)

The BP-55C26 works with the 5 GHz band. This ensures minimal radio interference and stable high-speed communications. The MFD also supports Wi-Fi Protected Setup™. This makes it easy to connect the MFD to a secure wireless LAN without having to enter an SSID and security key.

### All the Needed Finishing Options

The BP-55C26 meets all common office needs with a variety of finishing options. Its folding unit handles various types of folds without taking up much space—it attaches to the MFD's paper output section. You get seamless output from printing to finishing.

### 10.1-Inch Full-Flat Touchscreen

With a variety of functions accessible via simple, intuitive icons, MFD operation is smooth and easy.

### On-Screen System Information

The control panel shows the state of your MFD, displaying current operation and notifications for things like paper, toner, and maintenance.

### High-Performance DSPF

The DSPF (duplex single pass feeder) scans both pages of two-sided documents in one pass—in batches of up to 300 sheets. With scanning speeds of up to 240 opm\*<sup>2</sup> (two-sided), the MFD is quick to finish even large jobs. A dedicated business card feeder on the DSPF scans batches of up to 150 cards.

### Smart Scanning

Simply tap the Auto Set button and the MFD will automatically determine the optimal resolution, gradation, and compression rate for your scan jobs. It also automatically reorients pages right side up (option) and corrects any skewed sheets.

### Eco-Friendly Design

Despite its many functions, this MFD achieves superb energy efficiency. For example, the use of low-temperature-fusing toner results in vastly reduced energy consumption for the MFD.

### Remote Firmware Updates

The BP-55C26's firmware can be remotely updated—without the need for service operation—via a firmware update service. That way you're always using the latest system for your MFD.

\*1: Requires optional MX-PK13/PK13L. \*2: Originals per minute; when feeding A4 sheets.

## PROFESSIONAL-QUALITY IN-LINE FINISHING OPTIONS

A range of finishing options work to automate time-consuming finishing tasks. Options are available to suit a variety of workplaces and applications.

<sup>\*1</sup>: Long-edge feeding.  
<sup>\*2</sup>: Only short-edge feeding can be used with A6 paper.  
<sup>\*3</sup>: In a standard measurement environment. May vary depending on operating conditions and environment.  
<sup>\*4</sup>: When starting the MFD via the power button. 29 seconds when starting via the main power switch.  
<sup>\*5</sup>: Storage capacity depends on procurement and sourcing status.  
<sup>\*6</sup>: Replacing the standard-equipped SSD with the optional BP-SD10 increases storage capacity to 512 GB.  
<sup>\*7</sup>: Including protuberances.  
<sup>\*8</sup>: Long-edge feeding of A4 sheets from 1st paper tray, using document glass, without Auto Colour Selection and Auto Colour mode, MFD in fully ready condition. May vary depending on operating conditions and environment.  
<sup>\*9</sup>: Not available when using document glass.  
<sup>\*10</sup>: Based on Sharp's A4 standard chart, using document feeder, long-edge feeding, and one-sided scanning. Using factory default settings with Auto Colour Selection off. Scan speed will vary depending on the type of document and the scan settings.  
<sup>\*11</sup>: Resolution will vary depending on the size of the scanned area.  
<sup>\*12</sup>: Requires optional MX-EB20/EB20L.  
<sup>\*13</sup>: Colour/greyscale only.  
<sup>\*14</sup>: Requires optional MX-EB19/EB19L.  
<sup>\*15</sup>: Requires Network Scanner Tool Lite.  
<sup>\*16</sup>: Storage capacity will vary depending on the type of document and the scan settings.  
<sup>\*17</sup>: Some features require optional equipment.  
<sup>\*18</sup>: Requires optional BP-EB10.  
<sup>\*19</sup>: Mac OS requires optional MX-PK13/PK13L.  
<sup>\*20</sup>: Based on Sharp's standard chart with approx. 700 characters (A4 long-edge feeding) at standard resolution in Super G3 mode, 33,600 bps, JBIG compression.
