

## Great progress rebuilding Bacho School in Tanzania

Dear Bacho School Donor,

We are excited to let you know that we are making significant progress on the reconstruction of the Bacho Primary School in Tanzania. The local community has completed the foundation work for the 1st set of classrooms, as reflected on photo 1, and have started to raise the walls, as shown in pictures 2 and 3. You can also see a detail of the walls in pictures 4 and 5 as well as the locals working hard on pictures 6 and 7. It is really great to see the commitment and high level of engagement of the community !

We still haven't received the official report from Google or donations collected during Google Giving Week. For this reason, we haven't fully stopped our fundraising. However, as we are optimistic that we will achieve our goal of \$90K with these donations (potentially even slightly overachieve it), we decided to "take a risk" and tell the Bacho community that we will rebuild the whole school and, now, also the bathrooms (something that wasn't in the original plan).

For this reason, the community has, in parallel, started to lay the foundations for the remaining set of classrooms as you can see in picture 8.

Thank you, once again, for your support.

Nelson & Claudia Mattos (with a lot of support by Karimu's founders: Don and Marianne)
