# KARIMU

INTERNATIONAL HELP FOUNDATION

Dear Karimu supporter,

In case you don't receive our [Annual Founders' Newsletter](#) in the mail, we want to make sure you know that the owners of Quantaphy, a Santa Cruz, California, company, are offering a \$30,000 matching grant to help build new bathrooms for Endasago Primary School. The need is urgent because Tanzania's central government is threatening to close the school because its unsanitary toilets pose a health hazard.

Karimu helps students learn in a safe and healthy environment

Quantaphy's grant, if matched, will also help to supply Dareda Kati Health Center with a radiology lab, a pharmacy, and isolation for patients suffering from contagious diseases.

The Tanzanian government has recognized Dareda Kati Health Center as the best Health Center in the entire Manyara Region

Please see our [newsletter](#) for more, including an explanation of how Karimu can send 97.6% of all donated funds directly to Tanzania. Thank you for supporting Karimu and the communities we serve. Any contribution made between now and December 31, 2024, will count double.

If you'd like to see with your own eyes the impact of your donation, please consider joining one of our volunteer trips to Tanzania and email me at [kentstoll.marianne@gmail.com](mailto:kentstoll.marianne@gmail.com) for information.

Sincerely,

Marianne Kent-Stoll and Don Stoll  
Karimu co-founders
