

Fall prevention

Aladin®

The magic smart lamp

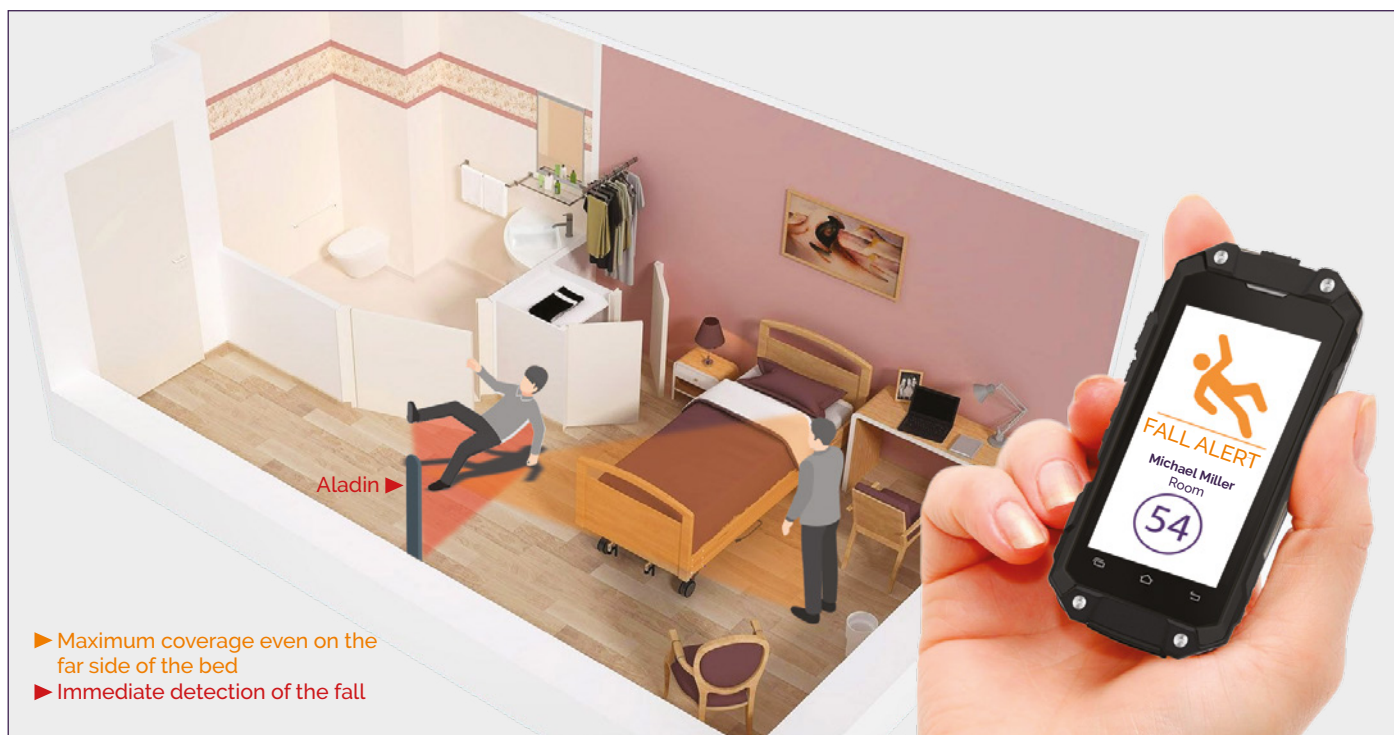

Smart lighting • Detects falls • Alerts caregivers

Aladin[®], the magic smart lamp

Move with complete security

Aladin detects movement and gradually lights up once your room luminosity is too low. Its lighting is indirect, reducing the loss of balance due to glare, while highlighting potential hazards.

Aladin[®] detects falls and alerts caregivers immediately on their electronic badges

- ▶ Maximum coverage even on the far side of the bed
- ▶ Immediate detection of the fall

*Reduction observed in residential institutions using this technology.

In the event of a fall, caregivers are immediately alerted on the electronic badge provided, for a rapid intervention.

A smart lighting function which reduces falls by up to 76%*.

A temperature sensor also allows Aladin to send alerts in the event of a heatwave. Aladin also

Aladin also analyses unusual patterns in the night-time activity which are often a sign of emerging disorders. Being proactive with residents will help prevent a loss of autonomy.

Aladin is connected to Domalys Online

- Monitor each resident and their progress with our software
- Optimize the management of teams accordingly
- Improve communication between teams
- Better anticipate residents with a diminishing autonomy
- Protect vulnerable people: as soon as a person falls, a caregiver is alerted
- Reassure new residents, in particular during the period of adaptation to new accommodation. The risks of a fall are notably increased during the first couple of weeks after a resident moves into a care facility.

Available colors

Cappuccino Anthracite Clay Snow Horizon Liquorice

Available packs

PACK 5 Aladin®

- Features: Automatic lighting, fall detection, alerts via caregivers' electronic badges.
- Ability to connect the badge to the monitoring tool Domalys Online (subscription required)

PACK 20 Aladin®

- Features: Automatic lighting, fall detection, alerts via caregivers' electronic badges.
- Ability to connect the badge to the monitoring tool Domalys Online (subscription required)

or STARTER KIT (2 units)

Trial offer: Access all of Aladin's functionalities for 1 year
(Ask your district manager for further information)

Technical features

Aladin®

Dimensions: 38.02 x 2.92 x 1.17 in
 Net weight excluding accessories: 2.64 lbs
 Energy consumption/year : 1,3 kWh
 Integrated technology: infrared sensors
 Frequency: 2,4 GHz
 Temperature range: 32 - 104 °F
 Sensors : 120° detection, range, 16.40 ft
 High-output LED: 1300 lumens
 LED life: > 10 000h

Bridge

Dimensions: 2,95 x 2,56 x 0,9 in
 Weight: 51 grammes
 Energy consumption/year: 0,85 kWh
 Integrated technology: wifi
 Frequency: 2,4 GHz
 Wireless security: Compatible 64/128 bit WEP, WPA-PSK/WPA2-PSK, wireless MAC filtering
 Power: less than 100mW
 Detection range: up to 98.42 ft
 Temperature range: 14 - 140 °F
