

MSDs reduction

Glys®

The clever ergonomic table

Easily moved • Innovative base • Adjustable height to suit everyone

Making life easier for both the elderly and caregivers.

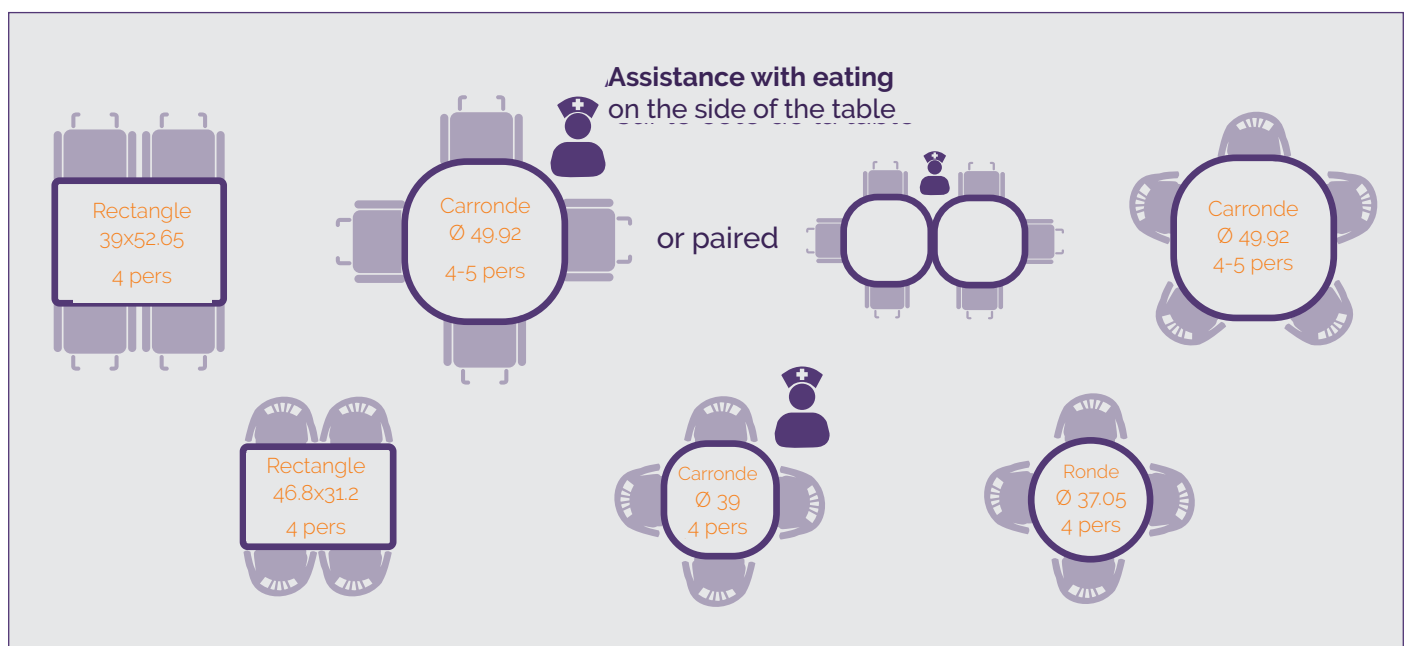

The **stability and quality** of a table are often measured by its weight. At Domalys, this weight won't be a problem. Thanks to its **innovative base** that guarantees stability and ease of movement, you can take Glys® anywhere you want.

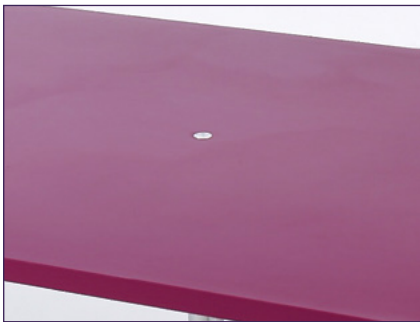

A clever, stable, secure table that helps build relationships

Glys is a clever solution, both safe and secure:

- Easily and **effortlessly moved**
- Innovative base, "moving" mode (unlock) and "mealtime" mode (lock) can be easily activated by foot
- **Height adjustable** to suit everyone
- Wheels designed for day-to-day use and for daily **cleaning**
- 5 different top shapes and dimensions according to your needs

Central button to adjust the height

Foot-operated lock release

Easily moved by pushing

Ergonomic – MSDs reduction

Save time and easily reorganize areas (e.g. for mealtimes, adaptive treatment and activity centers, cleaning times), reducing the physical effort involved for caregivers and drastically reducing MSDs.
