## Asado Parilla Grill

Explore the culinary tradition from the rugged landscapes of Southern Brazil and Argentina, where the Gauchos pioneered a unique style of cooking. The Asado Parilla grill range follows on from the heart of this tradition, where meats are slow cooked over a live blend of wood and charcoal. Resulting in irresistible flavoured and succulent tender cuts of meat, that embody the essence of a culinary heritage.

Designed and manufactured in Australia from 304 grade stainless steel, the Asado grill lineup is available in 800 and 900 series, complete with electronic height adjustment and built-in storage.

Note to Designers and Installers: Live fuel grills have specific ventilation requirements. It is the responsibility of designers and installers to ensure that ventilation of live fuels is in accordance with Building Code of Australia (BCA) as it is referenced to AS1668.2
