

Turn your strategy into reality

Our strategy execution solutions help large organizations achieve more of their goals, faster, and with less effort

Translate strategy in action and results

Successful strategy execution separates market leaders from the also-rans. Yet companies still turn to spreadsheets to manage strategy execution, compromising their chances of success from the start.

Introducing i-nexus for Strategy Execution, industry's leading strategy execution solution. With the enterprise-readiness demanded by large organizations and best-practice support for Hoshin Kanri and other methodologies, i-nexus is the trusted platform of choice for the world's largest organizations.

Achieve tighter alignment

Alignment of initiatives around clear goals increases the number of goals that are successfully met

Increase delivery efficiency

Improved planning and management of initiatives reduces the effort involved to complete tasks and projects

Realize results faster

Faster completion of initiatives accelerates time-to-value

Improve continuously

Measuring results keeps goals and initiatives on-track, creating a feedback loop for continuous improvement

Achieve peak performance with i-nexus solutions

Whether your organization is seeking a better way of running the business or changing the business (or both), i-nexus solutions transform how organizations approach strategy execution, combining software with optional services from our trusted partners. Our cloud-based solutions address two fundamental and complex business challenges facing enterprise-scale organisations - the ongoing performance management of the business; and managing change through the transformation, development and deployment of forward-looking strategic objectives.

i-nexus Hoshin Kanri solution

Harness the power of Hoshin Kanri

Hoshin Kanri is at the heart of the strategy execution systems of the world's best-performing organizations. Organizations that adopt Hoshin Kanri consistently outperform their peers. Also known as Hoshin Planning, Policy Deployment, Goal Deployment and Priority Deployment, Hoshin Kanri helps organizations to consistently achieve their strategic goals and measure results.

i-nexus is the industry's leading Hoshin Kanri solution, taking the "heavy lifting" out of Hoshin Kanri and helping global leaders to implement, scale and sustain their Hoshin Kanri process. Whatever the stage of your Hoshin journey, i-nexus has a tailor-made solution for you.

With i-nexus Hoshin Kanri solutions, organizations realize their business benefits of successfully executing to strategic goals and accelerating time-to-value.

50% increase in execution outcomes achieved

30% reduction in non-value added activities

Increased confidence in the plan

Greater ownership and faster course correction

i-nexus Continuous Improvement solution

Coordinate your organization-wide improvement initiatives

High-performing organizations are continuously evolving and improving, taking every available opportunity to better themselves. The result is scores - sometimes hundreds - of simultaneous improvement initiatives in different departments, across business units, often every part of the organization. Now imagine if all of these initiatives are fully aligned around clearly-communicated goals, tracked real-time through their execution, and their results measured using published KPIs.

Introducing i-nexus for Continuous Improvement where your teams can capture improvement goals and explore which initiatives best match your goals, before managing and coordinating these initiatives, from concept and charter through execution to results and reporting realized value to stakeholders.

With i-nexus, you will achieve more of your goals, faster and with less effort. All in one system that's accessible securely from anywhere.

30% increase in return on investment

25% reduction in project cycle time

20% increase in project success

30% increase in project reuse

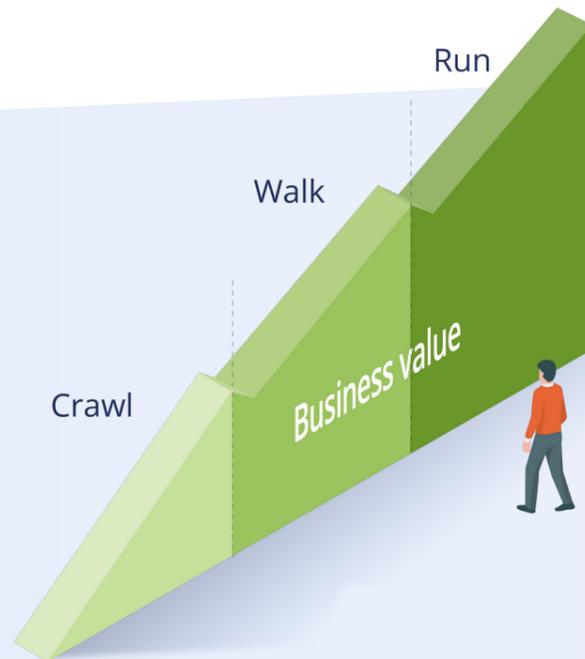

Your journey to strategy excellence

Whether you are evaluating strategy execution best-practices or have been implementing such a methodology for a number of years and want to take it to the next level, i-nexus - with the support of our trusted partners - can help you reach peak performance at every stage of your journey.

Enabling strategy execution

i-nexus enables large organizations to successfully deploy strategy. Starting with capturing strategic goals and cascading them through the organization, i-nexus then helps prioritize, align and manage the projects and actions needed to meet these goals. Plus it provides real-time performance measurement to gauge results and drive continuous improvement. All in one tightly integrated platform that's fully-featured and enterprise-ready.

With i-nexus, organizations realize the business value of successfully executing to strategic goals faster and with less investment, while remaining agile as priorities or market conditions change.

Goal Management

Set, cascade, communicate and negotiate strategic goals through the organization, aligning your teams around strategic success.

Tailor-made solutions from i-nexus and our partners

Our solutions bring together the very best of i-nexus' software and services with additional educational materials, consulting services and training workshops from trusted partners. Solutions deliver the ease-of-deployment you'd expect from standardization but without compromising the solution's fit with your objectives and requirements.

What's more, i-nexus strategy execution solutions are tailored both to your organization's objectives and also where you are on your journey to strategy excellence; carefully matching software and services with your strategy execution maturity at every step.

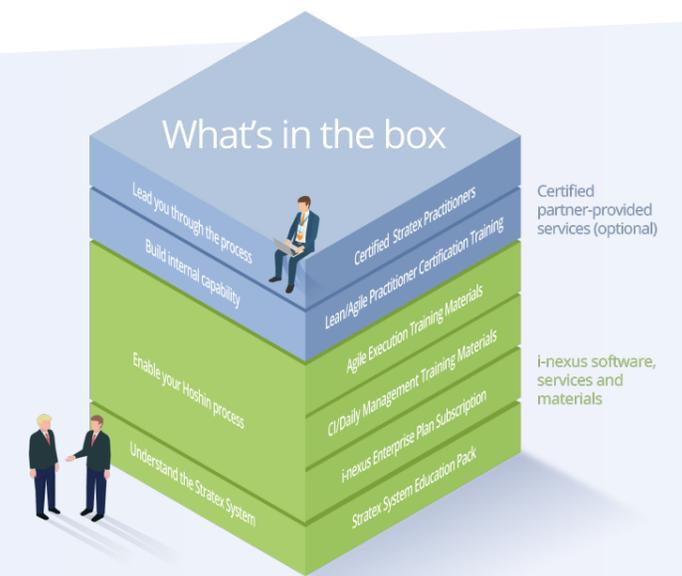

Initiative Management

Manage, coordinate and track programs, projects and other initiatives ensuring resources, dependencies, schedules and risks are managed and communicated.

Performance Management

Measure results from your initiative investments, using feedback to make adjustments that drive improved business performance.

Your success is our success

i-nexus delivers strategic outcomes for our customers through a combination of best-in-class software and services. Our customer solutions are uniquely designed to reflect your organization, culture, strategic goals, processes and frameworks, and other factors; ensuring a hand-in-glove fit between our solution and your desired outcome.

And that's just the start of our journey together. As your deployment progresses and practices for strategy execution mature, the i-nexus team will be there to help you reach the next level of excellence.

Delivering strategy execution as-a-service

i-nexus is a subscription-based software-as-a-service (SaaS) hosted on i-nexus' secure private cloud. With industry-leading security and knowing that i-nexus holds ISO 27001 accreditation for information security, you can be assured that your data is secure and that your software is always-on.

About i-nexus

i-nexus is the leading provider of strategy execution solutions, helping global organizations to turn their strategy into operational reality. Global leaders turn to i-nexus to translate strategy into action while continuously measuring results and outcomes. This real-time feedback loop enables adjustments to strategy as market conditions shift, opportunities arise or priorities change.

Our customers achieve their strategic goals faster, with greater agility and responsiveness, and with less effort and lower operational cost.
